Self-Study Report for Accreditation

2024-25

Submitted to

National Agricultural Education Accreditation Board

Indian Council of Agricultural Research

New Delhi

College of Horticulture

Junagadh Agricultural University

Junagadh -362001

Gujarat

PREFACE

Food has been a critical issue in India both before and after independence, representing a challenge for millions of its citizens. During this time, the main focus for Indian Agricultural Scientists was on production. The 'Green Revolution' that took place in the late 1960s and early 1970s was executed through a strategic approach to Research and Development by the Government of India. As a result of the 'Green Revolution', India has achieved remarkable success in food grain production and has reached self-sufficiency. Agriculture is a combination of various branches, with Horticulture being a significant sector that can provide nutritional security, economic sustainability, and job opportunities. Therefore, the Government of India has recognized the importance of the Horticulture sector and has placed greater emphasis on its development. Diversification in agriculture is always advantageous. Horticulture has opened up greater avenues for diversification, making agriculture more profitable through efficient land use, optimal utilization of natural resources, and the creation of skilled employment for rural communities. It is a fact that Horticulture has significantly improved the socio-economic status of farmers. Horticulture includes a wide range of crops such as fruits, flowers, vegetables, plantation crops, spices, and medicinal and aromatic plants. It not only involves the production of these crops but also the processing and production of quality seeds and planting materials. The promotion of hi-tech horticulture, contract farming, cooperative farming, and a participatory approach to production and marketing are new concepts that farmers are adopting. However, there is a need to develop various research technologies and new varieties that can withstand climate change and salinity in many horticultural crops. The Government of India has prioritized R&D programs in horticulture, which have been supported since the Eighth Five-Year Plan. As a result, the research infrastructure has expanded significantly with the establishment of numerous new institutes

Saurashtra is a historically and culturally significant region in Gujarat, noted as the birthplace of key figures like Narsinh Mehta and Mahatma Gandhiji. Horticulture is advancing rapidly, benefiting both farmers and consumers, which has led to a daily increase in the area and production of various horticultural crops. The primary horticultural products include mango, sapota, acid lime, coconut, ber, guava, onion, brinjal, cabbage, chilli, okra, tomato, and others.

Junagadh is recognized as the horticultural hub of the Saurashtra region, famous for its Gir Kesar mango (GI 185), sapota, black jamun, custard apple, and more. Improving the

quality and market potential of horticultural crops is essential for job creation, which requires the development of human resources, entrepreneurs, and professionals through horticulture education. In response to the region's needs, Junagadh Agricultural University has proposed the establishment of a College of Horticulture. This proposal was approved as the 'Establishment of Horticulture Wing at Junagadh' on April 19, 2012, and began operations under the College of Agriculture, JAU, Junagadh, from the academic year 2012-13.

The horticulture wing was officially designated as the College of Horticulture by the University on May 1, 2017. The college offers undergraduate, postgraduate, and Ph.D. courses for both UG and PG degrees. Students from this college have demonstrated excellence not only in their academic pursuits but also in extracurricular activities and national competitive examinations. The college is dedicated to continuously improving the quality of education it offers.

The accreditation process for the college involves comprehensive monitoring that plays a crucial role in evaluating the facilities available for providing quality education.

The ICAR Peer Review Team accredited the college in 2019. Since then, the financial support from ICAR and the State Government has significantly contributed to the college's growth and development efforts, resulting in improved educational quality.

With the college due for its next accreditation, this report presents all essential information regarding the activities conducted over the last five years. We would like to acknowledge the University Level Authority and Steering Committee for their invaluable help, guidance, and suggestions in compiling this report. The college-level committee has also performed admirably in assembling the information and preparing this report for submission to the Accreditation Board of ICAR, New Delhi. I extend my heartfelt thanks to all those who contributed to the report's preparation.

(D. K. Varu)
Principal and Dean

6.4
Self Study Report for Under Graduate Degree Programmes

6.4 SELF-STUDY REPORT FOR THE PROGRAM OF B.SC. (HONS.) HORTICULTURE

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAMME

The degree has transformed into an innovative, multidisciplinary program that tackles the urgent issues facing the world—climate change, food security, and health resilience. Following the UN's 2021 International Year of Fruits and Vegetables, horticulture has received remarkable acknowledgment, and by 2025, it has emerged as a crucial component of the global green economy.

Horticulture has risen as a vital element in fulfilling the goal of doubling farmers' income by 2025, thanks to its substantial profitability, reduced space requirements, and increasing global demand. Differing from traditional field crops, horticulture offers a variety of income streams, making it a sustainable option for economic improvement in agriculture. Government programs have significantly boosted the expansion of horticulture to help farmers double their income. Initiatives such as the Mission for Integrated Development of Horticulture (MIDH) offer essential assistance through subsidies, premium planting materials, and educational training. Moreover, the emergence of Farmer Producer Organizations (FPOs) has strengthened smallholder farmers by facilitating collective negotiations, direct access to markets, and even opportunities for exports. These organizational structures are closing the divide between rural producers and urban consumers, guaranteeing that farmers obtain a fair portion of the earnings.

Horticulture has risen to be one of the most significant contributors to India's agricultural Gross Value Added (GVA), exhibiting continuous growth even as conventional crop farming encounters the issue of diminishing returns. By the year 2025, horticulture is expected to make up over 33% of India's agricultural GVA while using merely 15% of the total cropped area, showcasing its enhanced productivity and economic efficiency relative to field crops.

India's horticulture sector has shown a consistent increase in productivity from 2021 to 2025, with average yields rising from 12.3 tonnes per hectare in 2021-22 to a projected 14.1 tonnes per hectare in 2024-25, which corresponds to a compound annual growth rate of 4.7%. The productivity of fruits increased from 11.2 tonnes

per hectare in 2021 to 12.6 tonnes per hectare in 2025, driven by the adoption of high-density planting and precision farming techniques.

Vegetable yields grew from 18.4 to 20.3 tonnes per hectare during this period, benefiting from the use of hybrid seeds and protected cultivation methods. The flowers segment saw the most significant improvement, jumping from 8.7 to 10.2 tonnes per hectare (17.2% growth) due to the expansion of greenhouse cultivation. Spices recorded an 18.2% productivity gain (from 1.1 to 1.3 tonnes per hectare) through better agricultural practices, while aromatic plants surged by 29.2% (from 2.4 to 3.1 tonnes per hectare) due to increasing export demand.

Gujarat has risen to be one of India's foremost horticulture producers, demonstrating consistent growth in both the cultivated area and overall output. During the 2021-22 season, the state cultivated horticultural crops on 1.02 million hectares, generating 18.6 million metric tonne. By the 2024-25 season, this area grew to 1.15 million hectares, yielding 21.3 million metric tonne, signifying a 14.5% increase in production over a span of four years.

In South Saurashtra, where Junagadh Agricultural University is situated, the climate is semi-arid, receiving 700-900mm of rainfall annually and experiencing temperatures from 15°C to 42°C, which is conducive to a diverse range of horticultural practices. The region is renowned for its GI-tagged Junagadh Kesar mango, which has an annual production of 1.2 lakh MT, along with 65,000 MT of coastal coconuts and 40,000 MT of sapota. Vegetable farming is thriving, with 5 lakh MT of onions (the 3rd largest producer in Gujarat) and 1.8 lakh MT of tomatoes cultivated using protected cultivation techniques. GI-tagged products are sourced from this region, including the Junagadh Kesar Mango. Junagadh Agricultural University is a leader in innovation, operating tissue culture labs and conducting research on drip irrigation, which has achieved an 80% adoption rate in onion farms, as well as developing post-harvest technologies that enhance export potential. Although water scarcity affects 60% of rainfed farms and results in 15% post-harvest losses in vegetables, initiatives like solar-powered micro-irrigation and FPO-led cold storage units are being introduced. The future of the region is focused on agri-tourism, combining Kesar mango orchards with attractions from the Gir forest and

advancing the development of sapota and lime varieties, thereby establishing South Saurashtra as a rising Horticulture Innovation Valley.

Area and Production of major fruit crops in Saurashtra region.

Crop	Area (ha.)	Production (MT)	Productivity (MT/ha)
Mango	95,000	9,50,000	10.0
Sapota	9,200	1,38,000	15.0
Citrus	6,800	61,200	9.0
Banana	14,500	3,62,500	25.0
Guava	3,000	36,000	12.0
Papaya	3,500	87,500	25.0
Coconut	32,000	220 million nuts	6,875 nuts/Ha

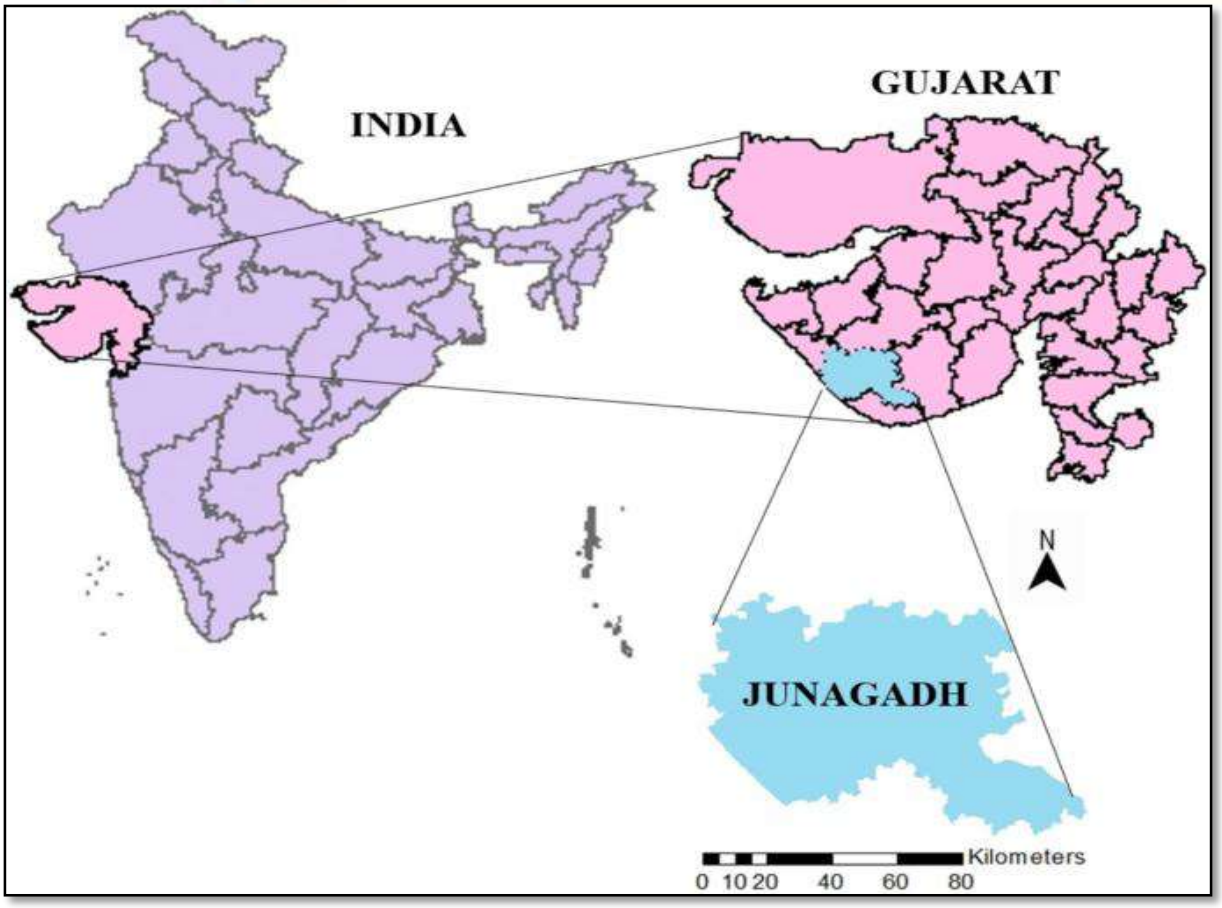
OUR DISTRICT:

Junagadh is a historic area situated in the south-western region of Gujarat, India, with geographical coordinates ranging from 20.59°N to 21.52°N latitude and 70.27°E to 71.20°E longitude. The district covers an area of approximately 8,839 square kilometres, showcasing a variety of landscapes including the Girnar hills, coastal regions along the Arabian Sea, and fertile plains. The climate in this region is classified as tropical savanna, characterized by hot summers, mild winters, and monsoon rainfall occurring from June to September. Junagadh is bordered by the districts of Porbandar, Rajkot, Amreli, and Bhavnagar, with its western boundary adjacent to the Gulf of Kutch. Several rivers, such as the Sonsoj, Kalwo, and Ozat, traverse the area, providing essential support for agriculture. The Gir National Park, located at 21.14°N, 70.79°E, is famous for being the last natural habitat of the Asiatic lion. The sacred Girnar mountain range, which has its highest peak at 1,069 meters, draws Hindu and Jain pilgrims. Notable historical sites in Junagadh include Ashoka's Rock Edicts dating back to 250 BCE and the medieval Uparkot Fort. The region is well-connected through road and rail networks, with the nearest major airport located in Rajkot, approximately 103 kilometers away.



Map showing Junagadh district

COLLEGE OF HORTICULTURE

The College of Horticulture is part of Junagadh Agricultural University (JAU), located at the main campus in the center of Junagadh, Gujarat State. The establishment of the Horticulture Wing at Junagadh was sanctioned by the Department of Agriculture & Co-operation, Government of Gujarat (GoG) through resolution number JKV-122011-3253-K.2, dated April 19, 2012 (Annexure-6.4.1). This was recommended during the 23rd meeting of the Academic Council on June 25, 2012, and subsequently approved in the 25th meeting of the Board of Management of Junagadh Agricultural University.

A new horticulture education program, referred to as "Establishment of Horticulture Wing at Junagadh," was started on August 23, 2012 (Annexure-6.4.2). This program was initiated under the College of Agriculture, JAU, Junagadh, starting in the academic year 2012-13, with the intention of awarding the B.Sc. (Hons.) Horticulture degree to an initial group of 50 students. The Government of Gujarat approved a total of 29 faculty and 11 support staff positions. The initial semester

commenced on July 26, 2012, for the academic year 2012-13, with an enrollment of 50 students. The college was set up in a newly constructed building, along with hostel facilities.

The Horticulture wing was officially designated as the College of Horticulture following the recommendations made during the 40th Academic Council meeting and received approval in the 45th Board of Management meeting on May 1, 2017 (Annexure-6.4.3). Additionally, various departments across different disciplines were sanctioned in the 46th Board of Management meeting held on September 8, 2017 (Annexure-6.4.4). Currently, in accordance with ICAR standards, the College of Horticulture building occupies an area of approximately 1137 sqm.

The College of Horticulture, operating under Junagadh Agricultural University (a State Agricultural University), plays a pivotal role in advancing horticultural education, research, and extension services in Gujarat. It is dedicated to producing skilled professionals, scientists, and entrepreneurs who contribute directly or indirectly to farmer welfare and agricultural development. The college focuses on enhancing the socio-economic conditions of farmers while equipping students with specialized knowledge in horticulture. Beyond academics, it actively influences the horticultural landscape of the state through research and outreach programs in its mandated districts. As an integral part of Junagadh Agricultural University, the college combines education with practical applications, fostering innovation and sustainable farming practices in Gujarat.

The College of Horticulture under Junagadh Agricultural University employs a dedicated faculty comprising Professors, Associate Professors, and Assistant Professors, each specializing in their respective disciplines to oversee teaching, research, and extension (TRE) activities. This three-pronged approach ensures holistic development, benefiting both students and the farming community. Through its TRE model, the college has emerged as a leading force in horticultural advancement across the South Saurashtra Agro-Climatic Zone. By integrating education with practical application, the college plays a pivotal role in transforming horticultural practices, enhancing farmer livelihoods, and driving agricultural progress in the region. Its efforts have solidified its reputation as a key contributor to Gujarat's horticultural growth.

Status of students of College of Horticulture

The admission of students is determined by merit, following the academic standards established by the State Agricultural Universities of Gujarat. This document presents the current status of students who have graduated from all five cohorts.

- The College was initiated with the intake of 50 students. The intake is increasing every year with time-to-time instruction from the Government of Gujarat and reached up to **96 students**. The intake of UG students will also be increased in future. Likewise, ICAR, New Delhi also increased the intake up to 20% in UG and 30% in PG studies. A total of 323 UG students are studying in the college.
- **Undergraduate Placements & Career Paths (2021-24):**
  I. A total of **389 students** graduated over four academic years.
  II. **70 students** secured jobs in private agencies, while **4** started their own businesses.
  III. **85 students** pursued higher studies at State Agricultural Universities (SAUs) in Gujarat, and **11** enrolled in PG Agri-Business Management.
  IV. **Three graduates** went abroad for further education.
  V. **Two graduates became an entrepreneur in Australia**
  VI. The majority (**144 students**) are preparing for competitive exams, including public service commissions and banking.

VII. Some graduates were also became a entrepreneur on horticultural based enterprise.

- From the initiation of the college, a total of nine batches i.e. **533 students** were awarded the degree and became the graduates.
- The students remain fully engaged for the entire day with teaching, examination, sports, cultural, NSS activities *etc*.
- The students of college also participate in various sports activities viz. volleyball, cricket, long jump, table-tennis, running-800 and 1500 m., disc throw, shot-put, hammer throw *etc*. Some of the significant achievements of our students are as follow:-

i. Goplani Satyam participated in Table Tennis at National level during 2024.

ii. Jadav Yashraj J. participated in badminton at National level.

iii. Zapadiya Hitesh participated in Khokho at National level.

iv. Parmar Kuldeep, Satasiya Bhavik and Chocha Krisha participated in athletic at National level.

- **Awards and Medals**

- Ms. Bhadarka Chandniben Rajshibhai received the Vice-Chancellor's Gold Medal for Best Student of the Faculty of Horticulture in the Bachelor's Degree program and three additional medals *i.e.* Gold-Plated Silver Medals from donors during the year 2021-22.

- Ms. Gondaliya Rikshita Rasikbhai received one Gold-Plated Silver Medal during the year 2021-22.

- Ms. Parthi Ba was honored with Vice-Chancellor's Gold Medal and additional four Gold-Plated Silver medals during the year 2022-23.

- Mr. Oza Deep N. received the Vice-Chancellor’s Gold Medal as the Best Student of the college during the year 2023-24.

- Ms. Radadiya Urvishaben R. secured six Gold-Plated Silver Medals as the topper/HIGHETS OGPA in various subjects during the year 2023-24.

- Ku. Parmar Anjali G. was honoured with the prestigious Vice-Chancellor's Gold Medal for being declared the Best Student during the year 2024-25.
- Ku. Dhaduk Dhruvi received five Gold Plated Silver Medal as the topper/highest OGPA in various subjects during the year 2024-25.
- Ku. Vadodariya Daisy R. also received the one Gold Plated Silver Medal during the year 2024-25 for securing the highest GPA in the FLA.

These achievements highlight the academic excellence of students at the Faculty of Horticulture under Junagadh Agricultural University

Besides their regular academic courses that offer credit hours, students also choose to enroll in a non-credit physical education course voluntarily. In this course, they learn the basic principles of physical education and develop skills in major games. They are also educated on the importance of physical fitness and health education. In compliance with ICAR guidelines, the college has created several committees, including the Anti-Ragging Squad and the Gender Committee, to support students' goals and to ensure the effective functioning of the college alongside the academic program.

STEPPING-STONES OF COLLEGE OF HORTICULTURE

- The college was sanctioned in April 2012-13 as the "Establishment of Horticulture Wing at Junagadh." It is the first Government institution focused on Horticulture education in the Saurashtra region of Junagadh Agricultural University, Junagadh.
- The Horticulture Wing was working under the edge of College of Agriculture. But for the easy management and independent work of the college, Horticulture wing was declared as **College of Horticulture** with recommendation of 40th meeting of Academic Council and approval of 45th meeting of Board of Management on 1st May, 2017.
- The horticulture wing was officially recognized as the "College of Horticulture" with multiple departments in the year 2017-18 (Annexure-6.4.3).
- Similarly, various departments of different disciplines were also approved in 46th meeting of Board of Management on 8th September, 2017. Various departments across different disciplines were also established (Annexure-6.4.4).

- Likewise, PG and Ph.D. programmes of Horticulture faculty were also transferred to College of Horticulture from the year 2019.
- College was accredited by ICAR, New Delhi during the year 2019-2020 and 2022-23.
- The College was established with already existing horticultural farms like Sakkarbaug , Lalbaug, Madhadibaug, Jambuvadi, and Khengarvav, which collectively feature 55 hectares of fruit orchards. Fully equipped nurseries are available at various horticultural farms, which are advantageous for the practical classes of UG/PG students and also provide quality planting materials to farmers in the Saurashtra region.
- The required facilities, including a college building with multi-purpose smart classrooms, a library, laboratories, a computer lab, a conference hall, an auditorium, an educational museum, a crop cafeteria, hostels for both boys and girls, a gymnasium, and sports grounds, were established prior to the college's opening.
- The infrastructure development work like laboratories of various branches like Fruit Science, Floriculture, Post-Harvest, Vegetable Science, Basic Science, NRM and Social Science is completed and all laboratories are in working condition.
- Also established the college library with providing full reading literature, materials, internet facilities *etc.*, for the students.
- College Seminar Hall is under working condition with full flagged facilities like furniture, sound system, projector and computer.
- Dry flower laboratory is also established and made under working condition. ELP students are working in dry flower laboratories for the production and selling of products.
- Instructional Farm is developed including fruits, vegetable and flower & ornamental plants for the practical as well as ELP work of U.G. Students.
- The curriculum for the course was revised and put into effect according to the suggestions provided by the 6th Deans' committee of ICAR starting from the academic year 2024-25 and as per BSMA for the PG/Ph.D. programmes from the year 2023.

- Student Activities and Placement Cell (SAPC) including placement cell, SRC and NSS/NCC unit of college are under working condition for the interest of students.
- The college has PG and Ph.D. programmes in various disciplines like Fruit Science, Floriculture & Landscaping and Vegetable Science awarding the degrees with the intake of 25-30 students every year. So total of 57 PG/Ph.D. students are going in various disciplines in the College of Horticulture.
- Total 380 students including UG and PG are studying in the college during the academic calendar year 2024-25.
- From the initiation of the college, a total of nine batches i.e. **533 candidates** were awarded the degree and became the graduates. Similarly, **119 PG** students were awarded the degree.
- Among them, the majority of UG, PG and Ph.D. graduates were placed in the Department of Horticulture, Government of Gujarat, District Panchayat, Government Schools, Private companies, NGOs, banks, *etc*. Many graduates have also joined higher education in various SAUs of the country. College is not working with only class room teaching, but also provides the hands on training, skill development programmes as well as professional training under student READY programmes. Hence, many college graduates became entrepreneurs in the field of horticulture. Some students are also joined higher education as well as employment in abroad also.

MISSION, GOAL AND OBJECTIVES

MISSION:

- The College is committed to provide horticulture education to UG & PG students, horticulture research and transfer of technology to reach the needs of stake holder.

GOAL:

- To develop human resource in horticulture field to serve the society.

OBJECTIVES:

1. To provide under graduate education in horticulture faculty leading to Bachelor degree in Horticulture.

2. To implement recommendations of the Deans' Committee Report of ICAR in terms of course content, credit requirement, examination system and guidelines for under graduate education.

3. To strengthen the faculties and manpower in the college and to ensure proper placement of under graduate students of the college.

4. To introduce relevant vocational and professional courses related to horticulture discipline.

5. To develop advanced production technologies and latest varieties for various horticultural crops with respect to production, protection, post-harvest management and marketing.

6. To disseminate the advanced production technologies to the farming community.

INSTITUTIONAL PROFILE

Sr. No.	State		Gujarat
01	University	Name	Junagadh Agricultural University
		Headquarter	Junagadh -362001
02	College	Name	College of Horticulture

6.4.2. FACULTY STRENGTH

The faculty at the College of Horticulture, Junagadh, are engaged in instructing B.Sc. (Hons.) Horticulture degree programs. The faculty also participates in various curricular activities of the college. Additionally, they are involved in personality development initiatives for students through the placement cell of the College, as well as the IDP project of the University. Beyond their teaching responsibilities, the faculty addresses research challenges encountered by farmers in relation to different Horticultural crops.

Furthermore, the staff is actively engaged in extension activities that involve the transfer of new technology through various means such as training sessions, field days, disease diagnostic teams, Krishi mahotsav, the Janvani radio programme, Doordarshan, as well as telephonic discussions and WhatsApp groups. Additionally, the college staff is conducting a range of activities including seminars, symposia, conferences, training programs, and workshops, among others. The faculty is involved in production of quality planting materials from various nurseries of the college and seeds to meet the local demand.

6.4.4 CLASSROOMS AND LABORATORIES

A) NO. OF CLASSROOMS:

Table: 6.4.4.1 Details of Lecture Hall, Conference room, seminar hall and Auditorium

Sr. No.	Items	No.	Size (Sq. M.)	Remarks
1	Lecture Hall	3	316.62	• For each semester of B.Sc. (Hons.) students, a separate AC classroom facility is available. • Facility of LCD projector for presentation • The room is fully A.C. with sound proof
2	Smart/ Digital/ Virtual Class Room	1	103.02	• For recording the lectures of various faculties of university for ICAR Portal under NAHEP.

				• It is also used for teaching as well as seminar purpose with 50 seating capacity. • Facility of LCD projector for presentation • The classroom is fully A.C. with sound proof.
3	Seminar Hall	1	271.62	• Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc.* • Facility of LCD projector for presentation • The seminar hall is fully A.C. with sound proof.
4	Conference room	1	45.88	• For conducting small group meeting with capacity of 20 seating capacity. • Facility of LCD projector for presentation • The room is fully A.C. with sound proof.
5	Auditorium	1	901.39	• Well-established campus auditorium is available for conducting meeting, cultural program, functions, seminars, *etc.* with 500 seating capacity.

34	Flask shaking machine	1	68	Sterilizer machine	1

D) FARM FACILITY:

A total 55.00 hector land is available with various horticultural farms, nurseries and green house units for the academic research purpose, practical exposure and ELP work for the students which are given as under.

Table: 6.4.4.4 Details of various horticultural farms, nurseries and green house units

Sr. No.	Name of farm	Aria (ha.)	Details of activity
1.	Sakkarbaug	14.7	It is very old and historical farm from Nawab Era. Research experiments and nursery activities are going mostly on mango with availability of nearly 1000 tree of mango with 100 mango varieties/genotypes. UG students' are frequently visiting the farm during *diksharambh* in first semester, practical in rest of the semesters as well as ELP work. The fruit orchards like sapota, guava, blackjamun are also available. In nursery, the production of softwood grafts of mango

			is the major activity with producing nearly 5,000 grafts every year.
2.	Lalbaug	16	It is also very old and historical farm established by Nawab of Junagadh State. The fruit orchards including varieties/genotypes of various fruit crops like mango, sapota, ber, guava, custard apple, red & white jamun, aonla, coconut, *etc*. are available for academic research purpose. It contains the rich fruit biodiversity. The new concept of Japan, model of Miyavaki forest of forest species as well as fruit species are also established in this farm. It also possesses meadow orchard of different varieties of guava. UG students' are frequently visiting the farm during *diksharambh* in first semester, practical in rest of the semesters as well as ELP work. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit and ornamental crops produce at farm. Seed production of papaya is also going on at this farm. It has a biggest nursery of Saurashtra region providing the quality planting materials to the farmers.
3.	Madhadibaug	9.33	The farm was very popular farm of Nawab of Junagadh state. It also contains various fruit orchards including varieties/genotypes of different fruit crops like mango, banana, sapota, custard apple, guava, pomegranate, black jamun, acid lime, phalsa, dragon fruit, coconut, *etc*. First two varieties of fruit crops in Gujarat like GJCA-1 in custard apple and GJP-1 in papaya were developed from this farm. It also possesses multi-storey cropping model contains coconut + papaya + banana + spices + turmeric, *etc*. The farm is also rich in fruit biodiversity. It also contains the model of tatura trails training system on mango as well as HDP concept objected for tree size control in black jamun. UG students' are frequently visiting the farm during *diksharambh* in first semester, practical in rest of the semesters as well as ELP work. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit crops produce at this farm. It has also fruit nursery providing the quality planting materials to the farmers. It produces mostly grafts of mango, custard apple, sapota, *etc*. Seed production of papaya is also notable work and producing nearly 100 kg seed of papaya cv. GJP-1 and providing to the farmers.

4.	Instructional farm (Jambuvadi)	14.06	The fruit orchards including varieties/genotypes of various fruit crops like sapota, guava, custard apple, coconut, aonla, date palm, etc. are available. New orchards including varieties/genotypes of temperate, tropical, sub tropical and arid/dry land fruit crops are also establishing in this farm. UG students' are frequently visiting the farm during *diksharambh* in first semester, practical in rest of the semesters as well as ELP work. Academic research work under many plan schemes are also going on in this farm. The farm is divided in three, as fruit science farm, Vegetable and floriculture farms. The farm is located in main campus which is used mostly for the P.G. research for the students of all disciplines like fruit, floriculture and vegetable science. Nursery activities on various crops are also going on.
5	Khengarvav farm	3.50	The farm is also historical possesses *Khengarvav* established by the King Ra'Khengar of Junagadh state. The farm is located at Vanthali highway away nearly 10 km from the main campus. The fruit orchards including varieties/genotypes of various fruit crops like mango, sapota, guava, custard apple, ber, *etc.* are available. UG students' are frequently visiting the farm during *diksharambh* in first semester, practical works in rest of the semesters. Academic research work under many plan schemes are also going on in this farm.
5.	Green House	5,122 sq. m.	Green house unit-1 to 6 are including 2 NVPH, 3 High-Tech fan pad poly house and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jamuvadi farm. Greenhouse units are utilized for UG students' are frequently visiting during *diksharambh* in first semester, practical in rest of the semesters as well as ELP work. Academic research work under many plan schemes are also going on in the green house units.

e) Theory and practical batches for the degree program (2024-25):

Table: 6.4.4.6 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semesters	In one batch of students in theory class	In two batch of students in practical class
1	U.G.	2nd (2024-25)	102	52
2		4th (2023-24)	71	36
3		6th (2022-23)	77	39
4		8th (2021-22)	72	36

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING

LEARNING MATERIALS

- **Practical manuals** : The faculty members have prepared practical manuals for each subject in the degree program and provided them to the students.

- **Practical on laboratories/farms/ greenhouse units**: Students gain hands-on practical experience both in specialized laboratories and across various horticultural farms dedicated to different disciplines. Additionally, they enhance their learning by visiting the instructional farm and ornamental gardens located within the campus. This hands-on experience not only strengthens their understanding of theoretical concepts but also provides students with vital skills and direct insight into real-world horticultural practices, enabling them to effectively tackle field-level challenges and implement best practices in their future horticultural careers.

- **Social media**: The college actively utilizes social media platforms such as WhatsApp, Instagram, and YouTube to share valuable information, educational content, and updates with students and the wider community. Through these platforms, the college circulates informative videos, photographs of academic and field activities, and important announcements, helping to enhance learning, promote engagement, and ensure timely communication. This digital approach supports knowledge dissemination beyond the classroom and keeps students connected with ongoing academic and agricultural developments.

- **List of practical manual (As per 5th dean)**

Sr. No.	Course No.	Name of practical manual
1st semester		
1	VEG 1.1	Tropical and subtropical vegetables (2+1)

1	FRT 1.1	Fundamentals of horticulture (2+1)
2	FRT 1.2	Plant propagation and nursery management of fruit and plantation crops (2+1)
3	FLS 1.1	Commercial production of flower crops (1+2)
4	MDC - I	Farming based livelihood systems (2+1)

5	NRMH 1.1	Sprinkler and micro irrigation systems (1+1)
6	SEC 1	Apiculture (0+1)
2nd semester		
1	FRT 2.3	Commercial production of spices & plantation (2+1)
2	NRMH 2.2	Introduction to major field crops (2+1)
3	FLS 2.2	Plant propagation & nursery management in vegetables, flowers & medicinal crops (1+2)
4	VAC-I	Environmental studies & disaster management (2+1)
5	AEC-I	Communication skills (1+1)
6	SEC 11	Skill enhancement course (0+4)

PRACTICAL AND HANDS-ON-TRAINING

- Students are frequently exposed to farm visits in various horticultural farms of College of Horticulture, nearby farmers' field to study the incidence of various pest and diseases as well as to collect samples. They also interact with the farmers.
- Student Ready Program/RHWE Program (8thsem.) is divided into various phases like Orientation, Education tour, Village, Research and KVK, Industrial and placement training.
- Students participate in the RAWE program, which provides them with valuable exposure through visits to various agricultural universities, Krishi Vigyan Kendras (KVKs), and research stations. This hands-on experience helps them understand real-world agricultural practices, research activities, and extension services. Exploring processing industries helps students learn about value addition, product development, packaging, marketing, and the economics of agribusiness. Visits to cooperatives and NGOs provide exposure to rural development initiatives, community-based farming, and the role of institutional support in empowering farmers.
- The Experiential Learning Program (ELP) is an integral part of the horticulture curriculum designed to provide students with hands-on, practical experience in real-time agricultural operations. Through this program, students actively participate in the complete cycle of vegetable crop production—from sowing, growing and crop management to harvesting and marketing. This not only helps

them understand the science behind crop cultivation but also gives them exposure to the business aspects of agriculture.

- In addition to production, students are trained in essential horticultural techniques such as grafting, budding and seedling preparation for various fruit, vegetable and ornamental crops. These skills are crucial for nursery management and commercial plant propagation, which are key areas in the horticulture industry.
- The ELP encourages students to take responsibility for their assigned plots or projects, simulating real-world farming and entrepreneurial conditions. They learn to make decisions, manage resources, and solve practical problems, developing both technical skills and managerial capabilities.
- This comprehensive exposure is highly beneficial for students as it builds confidence, enhances employability, and nurtures an entrepreneurial mindset. Whether they pursue careers in farming, agribusiness, extension services, or start their own horticulture enterprises, the knowledge and experience gained through ELP equips them with the competence and practical wisdom required to succeed in the agricultural sector.

ELP MODULES

Table: 6.4.5.1 List of various ELP Module running in 7th Semester (As per 5th dean)

Model No.	Course No.	Title	Credit
1	HWE 7.1	Protected cultivation of high valued horticultural crops	0+10
	HWE 7.1.1	Production of high valued horticultural crops	0+6
	HWE 7.1.2	Post-harvest management of high valued horticultural crops	0+4
2	HWE 7.2	Commercial horticulture	0+10
	HWE 7.2.1	Plant propagation and nursery management	0+6
	HWE 7.2.2	Commercial production of horticultural crops	0+4

6.4.6 SUPERVISION OF STUDENTS IN PG/PH.D. PROGRAMME:

Not Applicable.

6.4.7 FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

Feedback from students, parent, industries, employers, farmers *etc* are collected during the academic year from education system of college, farmers and employers as well as the management system of university. In education system, the feedback is collected from ongoing and passed out students, parents, farmers and horticulture based industrialist are also collected (Annexure 6.4.7.1).

- **The Academic Council:** It is constituted by University authorities, Deans of all faculties, nominated Professors and Research Scientists of different faculties and renowned academicians are members of academic council. Based on the Board of Study recommendation, the Academic Council takes the decision on academic matter for implementation in the faculty/college.
- **Student Advisory Committee:** It is framed in the college in which four to five students are allotted to each faculty. They are frequently discussing the educational problems as well as the hostel related problems and authorities are implementing accordingly **(**Annexure-**6.4.7.18)**.
- **Student Representative Council:** It is working in the college and frequently discussing the teaching and learning process with students, getting their feedback and implementing accordingly.
- **Group of Subjects:** This meeting held under Chairmanship of Vice Chancellor /Director of Research /Principal for deciding the present status of courses/contents, implementation and the student's feedback. The recommendation of meeting goes for approval in Board of Studies in which all faculty members discuss about the agenda comes through group of subject meeting **(**Annexure- **6.4.7.8 to 6.4.7.17)**.
- Suggestions from farmers and parents are valuable for improvement of quality of education and research. Hence farmers' suggestions are also taken by the faculty during interaction with the min *Krishimela*, farm visits *etc*.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAM FOR LAST FIVE YEARS

Table: 6.4.8.1 Intake and Attrition

Name of the Degree Program	Year	Sanctioned strength (Nos.)	Actual intake (Nos.)	Attrition(Nos.)	Attrition (%)
UG	2021-22	75	74	09	12.16
	2022-23	96	82	09	10.97
	2023-24	96	71	06	8.45
	2024-25	96	94+**11***	03	2.85
	2025-26	96	90	05	5.55

*Allow 5th Dean's dropout eleven students in 6th Dean's course

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- Students are taught using PowerPoint Presentations, multimedia content, and various audio-visual aids to enhance conceptual understanding during lectures and practical sessions.
- The digital classroom is well-equipped with smart boards, high-resolution projectors, audio-visual systems, and video conferencing facilities, which support interactive learning and virtual guest lectures from national and international experts.
- A well-established digital library with multiple computer terminals and high-speed internet connectivity is available, enabling students to access e-books, research journals and online access to journals through the Consortium for e-Resources in Agriculture (CeRA), J-Gate, ASPA Publications, Astral, Science Direct, Krishi Kosh, E- Krishi Shiksha and EBSCOHost a project by ICAR, New Delhi.
- All classrooms, laboratories, and hostels are under CCTV surveillance, monitored in real-time by the Principal for security and discipline.
- The Wi-Fi-enabled campus supports mobile learning through smartphones, tablets, and laptops, allowing students to learn anytime, anywhere.
- Faculty and students are encouraged to use Learning Management Systems (LMS) such as Moodle or Google Classroom for sharing study materials, submitting assignments, conducting quizzes, and facilitating discussions.

- Virtual labs and simulation software are used in practical classes to provide students with hands-on learning experiences, especially for complex experiments.
- Online feedback and assessment tools are utilized for improving the quality of teaching and learning.
- Regular ICT training and orientation programs are conducted for students and faculty to keep them updated with emerging technologies and digital tools in education.
- Virtual class room facility is available in College of Horticulture for the availability of numerous lectures delivered by the faculties of University under Agri Dixa project by ICAR, New Delhi.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University

6.4

Self Study Report for Master Degree Programmes

6.4 SELF-STUDY REPORT FOR THE PROGRAM OF M.SC. (HORT.) IN FRUIT SCIENCE

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAM

It is widely recognized that fruit crops serve as the most abundant source of nutrition and medicinal benefits. The growth of commercial fruit crop cultivation has broadened the horizons of horticulture. In addition to ensuring nutritional security, fruit crops also contribute to food and health security. The field of fruit science is poised to significantly enhance farmers' incomes. Farmers now have the freedom to sell their products in the international market thanks to digital advancements. This sector also fosters capacity building, creating substantial employment opportunities through post-harvest processing, consultancy, and other agro-industries. Furthermore, it offers alternative rural employment options, diversifies farming activities, and increases farmers' incomes. The Indian fruit industry plays a crucial role in the country's economy. India has become a global leader in the production of various fruits such as mango, banana, guava, papaya, sapota, pomegranate, lime, and aonla, ranking as the second-largest fruit producer worldwide. Over the past decade, the demand for fruit crops has surged due to heightened health and nutritional awareness, leading to an increase in fruit consumption among the population. However, the challenges posed by climate change have introduced greater uncertainties and risks, further complicating production systems

DEPARTMENT OF FRUIT SCIENCE

Prior to the period of independence, the Nawab of Junagadh state employed their own horticulturist to cultivate and care for gardens. Following independence, the state of Gujarat established the Department of Agriculture to conduct research on agricultural crops, including those in horticulture. With the founding of the Agriculture College in 1960-61, a distinct Department of Horticulture was created. The Professor and Head of this department served as the subject matter expert in horticulture for the state of Gujarat. In 1972, Gujarat Agriculture University was founded, and the Department of Horticulture was tasked with overseeing horticultural activities for Gujarat under the College of Agriculture.

The comprehensive Department of Horticulture commenced its operations in 1972, engaging in various functions such as Teaching, Research, and Extension education, coinciding with the establishment of Gujarat Agricultural University as an independent entity. Since May 2004, following the division of Gujarat Agricultural University, the department has been functioning as part of the College of Agriculture under Junagadh Agriculture University.

The College of Horticulture was founded in the academic year 2012 as part of Junagadh Agriculture University. There was a necessity to create the Department of Fruit Science, which plays a crucial role in developing human resources to meet the demands of the fruit industry. Consequently, the Master of Science in Fruit Science program was launched in 2010 under the Department of Horticulture at the College of Agriculture. However, following the establishment of the college, the program was transferred to the College of Horticulture. The curriculum has been crafted by designing various courses within the discipline, which received approval from the Board of Studies and the Academic Council of the University. Sufficient facilities have been set up in the department to provide quality education. Its mission is to cultivate professionals, scientists, entrepreneurs, and skilled graduates and postgraduates who will serve as a guiding force for the welfare of farmers, both directly and indirectly. The college also aims to enhance the socio-economic status of farmers while delivering fruit science education to students.

The faculty members of the department hold positions as professors, associate professors, and assistant professors, overseeing the teaching, research, and extension activities aimed at benefiting both students and farmers. Consequently, the department is deeply involved in the threefold activities of teaching, research, and extension, referred to as TRE. As a result of TRE, it has emerged as a leading force in all fruit science endeavours within the Saurashtra region.

STATUS OF STUDENTS OF DEPARTMENT OF FRUIT SCIENCE

The students are admitted through merit basis as per the academic rules and regulations of the State Agricultural Universities of Gujarat. The current status of passed out students of all five batches is given here.

1. During academic year 2021-22, total 09 students were admitted among them 07 were passed out in the year 2023-24. Two students were selected in government job, two preferred higher education and remaining settled in private job and started own business.
2. Similarly, for 2022-23 batch, total 06 students were passed out. Among them, 01 students were selected in government job. Three students preferred for higher education and 02 were for private job and own business.
3. For the year 2023-24 and 2024-25, 09 and 7 students were admitted and they are ongoing under study in 2nd and 4th semester, respectively.
4. The students remain fully engaged for the entire day with teaching, research, examination, sports, cultural, NSS activities *etc*.
5. The students of college also participate in various sports activities *viz*. volleyball, cricket, long jump, table-tennis, running-800 and 1500 m., disc throw, shot-put, hammer throw *etc*. Some of the significant achievements of our students are as follow
   i. Ms. Subhrajyoti Mishra received Chancellor Gold Medal for the best P. G. Student during the year 2021-22.
   ii. Ms. Thanki Disha received Chancellor Gold Medal for the best P. G. Student during the year 2023-24.
6. Apart from their regular academic courses with credit hours, students also voluntarily join the some non-credit courses. They also learn the fundamental principles of physical education and various skills of major games. They were also taught about awareness of physical fitness and importance of health education.

STEPPING-STONES OF DEPARTMENT OF FRUIT SCIENCE

- Before independence period, *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops.
- With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state.
- The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region under College of Agriculture.
- The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an autonomous body.
- Since May 2004 after bifurcation of Gujarat Agricultural University, the Department was working as a part of College of Agriculture under Junagadh Agriculture University.
- From the year 2010, the post graduate programmes M.Sc. (Hort.) in Fruit Science was started to award the PG degree.
- The College of Horticulture was establishment from the academic year 2012. The above PG programme of Horticulture was transfer to College of Horticulture since from 2019.
- The course curriculum was also modified and implemented as per the BSMA (Broad Subject Matter Area) BY ICAR.
- The department of fruit science with above PG programmes were accredited by ICAR Peer Review Team during 2019 and 2022.
- Established the fruit science laboratory. The laboratory is working for the UG/PG practical as well as biochemical analysis samples of all PG student research experiments and departmental experiments.
- Strengthen the Department of Fruit Science through establishment of new orchard as well as collection, conservation and evaluation of germplasm/varieties of different fruit crops like mango, banana, guava, custard

apple, phalsa, citrus, other temperate and tropical fruit crops as well as arid & dry land fruit crops.

- Also developed and strengthen various nurseries to increase production and selling of quality planting material including seed production of papaya crop.

MISSION, GOAL AND OBJECTIVES

MISSION:

The department is committed to provide fruit science education to PG students, research in fruit crop and transfer of technology to reach the needs of stake holder.

GOAL:

To develop human resource in fruit science field to serve the society.

OBJECTIVES:

- To provide under and post graduate education in fruit science subject.
- Serves as a centre of excellence in the area of post graduation and human resource
- To provide post graduate degree in fruit science discipline for master degrees.
- To strengthen the research farm for post graduate research and practical teaching works for post graduate students.
- To carry out the research for developing modern agro techniques and new varieties for farming community.
- Dissemination of advanced technologies to the farming community and other stakeholders in the field including developmental agencies, nurserymen, entrepreneur *etc*.

6.4.2 FACULTY STRENGTH

The staff of department of fruit science, Junagadh are involved in teaching of M.Sc. (Hort.) in Fruit Science degree programmes. Staff is engage in other curriculum activities of the department. They are also working for the personality development programmes in the student as well as classes for other competitive examination. Apart from teaching, staff is also involved in research issues faced by the farmers in various fruit crops. In addition to that, the staff is also interesting for extension activities by the transfer of new technology like training, field days,

disease diagnostic team, *Janvani* radio programme, *Doordarshan* as well as telephonic talk and WhatsApp. The staff are also carrying out activities like seminars, symposia, conference, training, workshops *etc*. The faculty is involved in production of quality planting materials from various nurseries and papaya seed production from different farms of the department to meet the local demand.

Table: 6.4.2.1: Faculty Strength As per ICAR

Sr. No.	Sanctioned Faculty	Sanctioned post	Faculty in place	Vacant position	As per ICAR Model Act

6.4.4 CLASSROOMS

A. CLASSROOMS

Table 6.4.4.1 Details of Classrooms, Conference room, Seminar Hall and Auditorium.

Sr. No.	Items	No.	Size (Sqm)	Remarks
1	Lecture Hall	2	152.94	For each semester of M.Sc. (Hort.) students, a separate class-room facility is available. Facility of LCD projector for presentation and fully A.C. with sound proof
2	Smart Class Room	1	76.47	It is also used for PG teaching/Viva examination as well as PG seminar purpose with 50 seating capacity. Facility of LCD projector for presentation The class room is fully A.C. with sound proof
3	Virtual Class Room	1	111.63	It is used *Agri-Diksha* Web Education Channel for university level. Facility of digital display. It is also used for PG teaching/Viva examination as well as PG seminar purpose with 70 seating capacity. The virtual class room is fully A.C. with sound proof

4	Seminar Hall (College of Horticulture)	1	271.62	Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc.* Facility of LCD projector for presentation The seminar hall is fully A.C. with sound proof.
5	Conference room (College of Horticulture)	1	45.88	For conducting small group meeting with capacity of 30 seating capacity. Facility of LCD projector for presentation The room is fully A.C. with sound proof.
6	**Auditorium (University)**	**1**	**901.39**	Well established campus auditorium is available for conducting meeting, cultural program, functions, seminars, *etc.* with 500 seating capacity.

B) FUNCTIONAL LABORATORY ESTABLISHED

Table: 6.4.4.2 Laboratory and Instructional farm of Department of Fruit Science

C) FARM FACILITY:

Total 55 ha. land is available with various horticultural farms, nurseries and green house units for the academic and PG research purpose and practical exposure for the students which are given as under.

Table: 6.4.4.4 Details of land is available with various Fruit Science farms, nurseries and green house units.

Sr. No.	Name of farm	Area (ha.)	Details of activity
1.	Sakkarbaugh	14.7	It is very old and historical farm from Nawab Era. Research experiments and nursery activities are going mostly on mango with availability of nearly 1000 tree of mango with 100 mango varieties/genotypes. PG student's research experiment on mango are organized at this farm. The fruit orchards like sapota, guava, blackjamun are also available. In nursery, the production of softwood grafts of mango is the major activity with producing nearly 5,000 grafts every year.
2.	Lalbaugh	16	It is also very old and historical farm established by Nawab of Junagadh State. The fruit orchards including varieties/genotypes of various fruit crops like mango, sapota, ber, guava, custard apple, red & white jamun, aonla, coconut, *etc.* are available for academic research purpose. It also possesses meadow orchard of different varieties of guava. It contains the rich fruit biodiversity. The new concept of Japan, model of Miyawaki Forest species as well as fruit species are also established in this farm. PG student's research work as well as their practical works for fruit science subjects are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc.* of various fruit and ornamental crops produce at farm. Seed production of papaya is also going on at this farm. It has a biggest nursery of Saurashtra region providing the quality planting materials to the farmers.

3.	Madhadibaugh	9.33	The farm was very popular farm of Nawab of Junagadh state. It also contains various fruit orchards including varieties/genotypes of different fruit crops like mango, banana, sapota, custard apple, guava, pomegranate, black jamun, acid lime, phalsa, dragon fruit, coconut, *etc*. First two varieties of fruit crops in Gujarat like GJCA-1 in custard apple and GJP-1 in papaya were developed from this farm. It also possesses multi-storey cropping model contains coconut + papaya + banana + spices + turmeric, *etc*. The farm is also rich in fruit biodiversity. It also contains the model of tatura trails training system on mango as well as HDP concept objected for tree size control in black jamun. PG student's research work as well as their practical works for fruit science subjects are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit crops produce at this farm. It has also fruit nursery providing the quality planting materials to the farmers. It produces mostly grafts of mango, custard apple, sapota, *etc*. Seed production of papaya is also notable work and producing nearly 100 kg seed of papaya cv. GJP-1 and providing to the farmers.
4.	Instructional farm (Jambuvadi/ Khengarvav)	14.06	The fruit orchards like sapota, sweet orange, guava, custard apple, coconut, aonla, date palm, *etc*. are available. New orchards including varieties/genotypes of temperate, tropical, subtropical and arid/dry land fruit crops are also establishing in this farm. The farm is divided in three, as fruit science farm, Vegetable and floriculture farms. The farm is located in main campus which is used mostly for the P.G. research for the students of all disciplines like fruit, floriculture and vegetable science. Nursery activities on various crops are also going on.
5.	Khengarvav farm	3.50	The farm is also historical possesses *Khengarvav* established by the King Ra'Khengar of Junagadh state. The farm is located at Vanthali highway away nearly 10 km from the main campus. The fruit orchards including varieties/genotypes of various

			fruit crops like mango, sapota, guava, custard apple, ber, *etc*. are available. PG students' are working for their PG research. Academic research work under many plan schemes are also going on in this farm.
6.	Green House	5,122 sq. m^2	Green house unit-1 to 6 are including 2 NVPH, 3 High-Tech fan pad poly house and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jamuvadi farm. Greenhouse units are utilized for PG students' research work as well as their practical. Academic research work under many plan schemes are also going on in the green house units.

GREENHOUSE UNIT

Table: 6.4.4.5 Details of Greenhouse unit

Sr. No.	Green house Unit	Area (sq. m^2)	Remarks
Green house unit at College			
1	Naturally ventilated Poly house unit-1	203	**- Use for UG practical, ELP, PG research as well as departmental research. - Use for the green house trainees - Also use for the visiting farmers. - Visits by the school students**
2	Hi-tech playhouse with fan and pad unit -2	203	
3	Hi-tech (Fan pad) unit-3	203	
4	Hi-tech (Fan pad) unit-4	203	
5	Naturally ventilated Poly house unit -5	1301	
6	Naturally ventilated Poly house unit -6	1404	
7	Net house	445	
	Total	**3962**	
Green house unit at Instructional farm (Jambuvadi)			
11	Net house (White) unit-1	760	
12	Poly cum net house unit-2	400	
	Total Area	**5122**	

D) THEORY AND PRACTICAL BATCHES FOR THE DEGREE PROGRAM (2024-25):

Table: 6.4.4.6 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semester	Batch of students in theory class	Batch of students in practical class
1	Fruit Science	2nd (2024-25)	One Batch (07)	One Batch (07)
2		4th (2023-24)	One Batch (09)	One Batch (09)

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING LEARNING MATERIALS

6.4.5.1

The faculty have prepared lecture note and practical manuals of each courses of the degree program and distributed to students.

6.4.5.2

PG student's sharing of learning material and teaching related information through WhatsApp groups.

6.4.5.3 PRACTICAL MANUAL

Table: 6.4.5.3 List of practical manual

Sr. No.	Course No.	Name of practical manual	Credit
	As per fifth deans recommendation courses		
1	FSC-501	Tropical and Dryland Fruit Production	2+1
2	FSC-502	Sub-tropical & Temperate fruit Production	2+1
3	FSC-503	Biodiversity and Conservation of fruit crops	2+1
4	FSC-505	Propagation and Nursery Management for Fruit crops	2+1
5	FSC-507	Post- Harvest Technology For Fruit Crops	2+1
6	FSC-510	Organic Horticulture	2+1
	As per BSMA recommendation courses		
1	FSC-501	Tropical Fruit Production	2+1
2	FSC-502	Sub-Tropical & Temperate Fruit Production	2+1
3	FSC-503	Propagation & Nursery Management of Fruit Crops	2+1

4	FSC-504	Breeding of Fruit Crops	2+1
5	FSC-506	Canopy Management in Fruit Crops	1+1
6	FSC-510	Organic Fruit Culture	2+1
7	FSC-513	Minor Fruit Production	2+1

PRACTICAL AND HANDS-ON-TRAINING

6.4.5.4

Students gets the practical exposure in separate laboratory as well as various horticultural farms, nurseries, green house units of each discipline. The students also get exposure by visiting instructional farm and ornamental gardens located at campus.

6.4.5.5

Students are frequently exposed to farm visits in various horticultural farms, nearby farmers' field to study the incidence of various pest and diseases as well as to collect samples. They also interact with the farmers.

6.4.5.6

Visits to various nurseries, agro-based industries, APMCs, co-operative societies, high-tech horticultural farms of progressive as well as various NGOs of state are also arranged to give practical knowledge of the subject. The study tour is also organizing for the visit of industrial orchards like Reliance farm (Jamnagar), Gala farm (Bhuj) and Ashapura farm (Bhuj) *etc*.

6.4.5.7 Students are presenting the different seminar relevant to fruit science in front of the faculties and audience, this is a mandatory components of PG programs. These seminars allow students to present research which engage with faculty, peers, and different research and review findings on specialized subjects within Horticulture. They are critical for skill development and advancing knowledge in the field.

6.4.6 Supervision of students in M.Sc. (Hort.) fruit science programme:

The PG program fruit science is offered by Department of Fruit Science, COH, JAU, Junagadh. The faculties of fruit science discipline only are also involved in PG teaching and guiding of students admitted in PG program at the main campus of JAU. The details of qualified/supervised faculties are given below.

6.4.6.1 SUPERVISION OF STUDENTS IN PG (M.SC. FRUIT SCIENCE) PROGRAMME

Department	No. of qualified faculty			No. of students being supervised (guided) by faculty
	M.Sc.	Ph.D.	Others if any	M.Sc.
Fruit Science	00	08	0	40

Sr. No.	Name of Students	Degree	Subject	Major Guide
Year-2021				
1	Anwarulhaq	M.Sc.(Horti)	Fruit Science	Dr. D. K. Varu
2	Bera Kishankumar Lakhubhai	M.Sc (Horti)	Fruit Science	Dr. A. M. Butani
3	Hitarthi Atulbhai Vyas	M.Sc.(Horti)	Fruit Science	Dr. V. R. Malam
4	Jotava Kiranben Saramanbhai	M.Sc.(Horti)	Fruit Science	Dr. D. R. Kanzaria
5	Kariyamma H Kanadal	M.Sc.(Horti)	Fruit Science	Dr. D. R. Kanzaria
6	Makavana Payalben C.	M.Sc.(Horti)	Fruit Science	Dr. K. D. Patel
7	Prajapati Kishan Jayantibhai	M.Sc (Horti)	Fruit Science	Dr. S. K. Bhuva
8	Shankar Lal Kumawat	M.Sc (Horti)	Fruit Science	Dr. K. M. Karetha
9	Vyas Puja Hiteshbhai	M.Sc (Horti)	Fruit Science	Dr. A. M. Butani
10	Zalavadiya Swetaben P.	M.Sc (Horti)	Fruit Science	Dr. N. D. Polara
Year-2022				
1	Deepa K	M.Sc.(Horti.)	Fruit Sci.	Dr. K. M. Karetha
2	Dhorajiya Nirali Prakashbhai	M.Sc.(Horti.)	Fruit Sci.	Dr. A. M. Butani
3	Makwana Payal Shamjibhai	M.Sc.(Horti.)	Fruit Sci.	Dr. S. K. Bhuva
4	Mathukiya Hemangiben M.	M.Sc.(Horti.)	Fruit Sci.	Dr. N. D. Polara
5	Rajatiya Puriben Hamirbhai	M.Sc.(Horti.)	Fruit Sci.	Dr. D. R. Kanzaria
6	Sanghani Janvi Mukeshbhai	M.Sc.(Horti.)	Fruit Sci.	Dr. D. K. Varu

7	Suraj Kumar	M.Sc.(Horti.)	Fruit Sci.	Dr. D. K. Varu
8	Thanki Disha Mineshbhai	M.Sc.(Horti.)	Fruit Sci.	Dr. K. D. Patel
Year-2023				
1	Bhadarka Chandniben R.	M.Sc (Hort.)	Fruit Science	Dr. D. R. Kanzaria
2	Bhatti Drashti Nileshbhai	M.Sc (Hort.)	Fruit Science	Dr. D. K. Varu
3	Gondaliya Rikshita Rasikbhai	M.Sc (Hort.)	Fruit Science	Dr. N. D. Polara
4	Makvana Anjaliben Govindbhai	M.Sc (Hort.)	Fruit Science	Dr. S. K. Bhuva
5	Patel Yuktakumari J.	M.Sc (Hort.)	Fruit Science	Dr. N. D. Polara
6	Prerna Prachi	M.Sc (Hort.)	Fruit Science	Dr. K. D. Patel
7	Sampada R	M.Sc (Hort.)	Fruit Science	Dr. A. M. Butani
Year-2024				
1	Ganvit Divyakumari M.	M.Sc (Hort.)	Fruit Science	Dr. A. M. Butani
2	Lakhanotra Jayshree D.	M.Sc (Hort.)	Fruit Science	Dr. N. D. Polara
3	Patel Ridhdhi Devalkumar	M.Sc (Hort.)	Fruit Science	Dr. K. M. Karetha
4	Pithiya Mayank Bhupatbhai	M.Sc (Hort.)	Fruit Science	Dr. K. M. Karetha
5	Divya Prasath M	M.Sc (Hort.)	Fruit Science	Dr. D. K. Varu
6	Titiksha Bohara	M.Sc (Hort.)	Fruit Science	Dr. D. R. Kanzaria
Year-2025				
1	Gadhesariya Shruti R.	M.Sc (Hort.)	Fruit Science	Dr. D. K. Varu
2	Odedra Harshali Nagajan	M.Sc (Hort.)	Fruit Science	Dr. K. M. Karetha
3	Patel Kejal Kamleshbhai	M.Sc (Hort.)	Fruit Science	Dr. K. M. Karetha
4	Radadiya Urvishaben R.	M.Sc (Hort.)	Fruit Science	Dr. S. K. Bhuva

5	Vora Riddhiben Chimanbhai	M.Sc (Hort.)	Fruit Science	Dr. S. K. Bhuva
6	Monika Sharma	M.Sc (Hort.)	Fruit Science	Dr. N. D. Polara
7	Narmatha N	M.Sc (Hort.)	Fruit Science	Dr. S. K. Bhuva

6.4.7 FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

Feedback from students of PG in fruit science, their parents, fruit crop based industries/nurseries, farmers *etc* are collected during the academic years (Annexure 6.4.7.2).

6.4.7.1 THE ACADEMIC COUNCIL:

It is constituted by University authorities, Deans of all faculties, nominated Professors and Research Scientists of different faculties and renowned academicians are members of academic council. Based on the Board of Study recommendation, the Academic Council takes the decision on academic matter for implementation in the faculty/college.

6.4.7.2 STUDENT ADVISORY COMMITTEE:

It is framed in the college in which four to five mentors are allotted to each student. They are frequently discussing the research problems. The committee also visit student research problem and give important feedback.

Visit of Advisory committee to P.G. research

6.4.7.3 STUDENT REPRESENTATIVE COUNCIL:

It is working in the college and frequently discussing the teaching and learning process with students, getting their feedback and implementing accordingly

6.4.7.4 GROUP OF SUBJECTS:

This meeting held under Chairmanship of Vice Chancellor /Director of Research /Principal for deciding the present status of courses/contents, implementation and the student's feedback. The recommendation of meeting goes for approval in Board of Studies in which all faculty members discuss about the agenda comes through group of subject meeting (Annexure- **6.4.7.8 to 6.4.7.17**).

6.4.7.5

Suggestions from farmers and parents are valuable for improvement of quality of education and research. Hence farmers' suggestions are also taken by the faculty during interaction with the *Krishimela*, farm visits *etc*.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAM FOR LAST FIVE YEARS

Table: 6.4.8.1 Details of Intake and Attrition

Name of the Degree Program	Year	Actual intake	Admission	Left	Attrition (%)
PG	2021-22	09	09	02*	**22.22**
	2022-23	06	06	00	**00**
	2023-24	09	09	00	**00**
	2024-25	07	07	00	**00**

* 02- Govt. Job

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- Students are taught using PowerPoint presentations, multimedia content, and various audio-visual aids to enhance conceptual understanding during lectures and practical sessions.
- The digital classroom is well-equipped with smart boards, high-resolution projectors, audio-visual systems, and video conferencing facilities, which support interactive learning and virtual guest lectures from national and international experts.

- A well-established digital library with multiple computer terminals and high-speed internet connectivity is available, enabling students to access e-books, research journals and online access to journals through the Consortium for e-Resources in Agriculture (CeRA), J-Gate, ASPA Publications, Astral, Science Direct, Krishi Kosh, E- Krishi Shiksha and EBSCOHost a project by ICAR, New Delhi.
- All classrooms, laboratories, and hostels are under CCTV surveillance, monitored in real-time by the Principal for security and discipline.
- The Wi-Fi-enabled campus supports mobile learning through smartphones, tablets, and laptops, allowing students to learn anytime, anywhere.
- Faculty and students are encouraged to use Learning Management Systems (LMS) such as Moodle or Google Classroom for sharing study materials, submitting assignments, conducting quizzes, and facilitating discussions.
- Virtual labs and simulation software are used in practical classes to provide students with hands-on learning experiences, especially for complex experiments.
- Online feedback and assessment tools are utilized for improving the quality of teaching and learning.
- Regular ICT training and orientation programs are conducted for students and faculty to keep them updated with emerging technologies and digital tools in education.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University

6.4 SELF-STUDY REPORT FOR THE PROGRAMME OF M.SC.(HORT.) IN FLORICULTURE & LANDSCAPING

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAMME

Floriculture, a significant sector within horticulture, plays a vital role in India's economy. It encompasses a broad range of activities, including the cultivation of high-value flower crops like roses, chrysanthemums, marigolds, lilies, and tuberose, as well as ornamental plants and aromatic crops for essential oils. The industry also includes dry flower production, which contributes substantially to India's exports. Flower crops are valued for their aesthetic appeal and medicinal properties. With the advent of digital platforms, farmers can now access global markets, enabling them to sell their produce internationally. This has led to capacity building and created employment opportunities in various sectors, such as post-harvest management, processing industries and ornamental garden consulting. The demand for flowers and value-added products has surged over the past decade, driven by increasing appreciation for their beauty and benefits. India's dry flower industry is a notable contributor to the country's economy, and the growth of floriculture has opened up new opportunities for export-oriented production, value-added products and floral arrangement services. Overall, floriculture is a significant contributor to India's economy, providing employment opportunities, generating revenue and promoting the country's rich cultural heritage.

Department of Floriculture & Landscape Architecture

Before independence period, the *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops. With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state. The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region under college of Agriculture. The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an

autonomous body. Since May 2004 after bifurcation of Gujarat Agricultural University, the department is working as a part of College of Agriculture under Junagadh Agriculture University.

College of Horticulture was established from the academic year 2012 under Junagadh Agriculture University. The programme of Master of Science in Floriculture & Landscape Architecture was initiated in the year 2010 under Department of Horticulture, College of Agriculture. But after establishment of the college, the programme was transfer to College of Horticulture in 2019. The curriculum has been developed by designing various courses in the discipline which was approved by the Board of Studies and Academic Council of the University. Adequate facilities have been established in the department for imparting quality education. Its mandate is to produce professionals, scientists, entrepreneurs, and skilled graduates, post graduates who will be the guiding force for the welfare of farmers directly or indirectly. The college also works to improve socio-economic status of the farmers as well as imparting Floriculture & Landscape Architecture education to the students.

The teachers of the department are appointed as Professors, Associate Professors and Assistant Professors to look after the teaching, research and extension activities of the department for the benefit of students and farmers. Hence, the department is actively engaged in triple action activities of Teaching, Research & Extension *i.e.* TRE. Due to TRE, it has become a paramount force in terms of all the floricultural activities in the South Saurashtra Agro Climatic Zone.

Status of students of Department of Floriculture & Landscape Architecture

The students are admitted through merit basis as per the academic rules and regulations of the State Agricultural Universities of Gujarat. The current status of passed out students of all five batches is given here.

1. During academic year 2020-21, six students were admitted one left in between and five students were passed out in the year 2022-23. Among them, two students were selected in government job. Two students were for private job.

2. Similarly, for 2021-22 batch, total six students were admitted and one left in between. Among them, three students were selected in government job.

3. For the batch of 2022-23, total two students were passed out. Among them, two students were selected as SRF at this university.

4. For the year 2023-24, four students were admitted and they are ongoing under study in 5th semester.

5. The students remain fully engaged for the entire day with teaching, examination, sports, culture activities *etc*.

6. The students of college also participate in various sports activities *viz*. volleyball, cricket, long jump, table-tennis, running-800 and 1500 m., disc throw, shot-put *etc*. Some of the significant achievements of our students are as follow

7. A student achieved academic excellence by clearing the NET exam in 2020-21.

8. Apart from their regular academic courses with credit hours, students also voluntarily join the some non-credit courses. They also learn the fundamental principles of physical education and various skills of major games. They are also taught about awareness of physical fitness and importance of health education.

Stepping-stones of Department of Floriculture & Landscape Architecture

- Before independence period, the *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops.

- With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state.

- The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region under College of Agriculture.

- The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an autonomous body.
- Since May 2004 after bifurcation of Gujarat Agricultural University, the Department is working as a part of College of Agriculture under Junagadh Agriculture University.
- From the year 2010, the post graduate programmes M.Sc. (Hort.) in Floriculture & Landscape Architecture was started to award the PG degree. However, programme was renamed as Floriculture and Landscaping
- The College of Horticulture was establishment from the academic year 2012. The above PG programmes were transfer to College of Horticulture from the year 2019.
- The course curriculum was also modified and implemented as per the guidelines of 5th Deans' committee of ICAR and Broad Subject Matter Area (BSMA).
- ICAR Peer Review Team accredited the Department of Floriculture and Landscape Architecture with above PG programmes during the year 2019 and 2022.

MISSION, GOAL AND OBJECTIVES

➢ **Mission:**

The Department is committed to provide Floriculture & Landscape Architecture education to PG students, research in flower crop and transfer of technology to reach the needs of stake holder.

➢ **Goal:**

To develop human resource in Floriculture landscaping field to serve the society.

➢ **Objectives:**

- To provide under and post graduate education in Floriculture landscaping subject.

- Serves as a center of excellence in the area of post-graduation and human resource
- To provide post graduate degree in Floriculture Landscaping discipline for master degrees.
- To strengthen the research farm for post graduate research and practical teaching works for post graduate students.
- To carry out the research for developing modern agro techniques and new varieties for farming community.
- Dissemination of advanced technologies to the farming community other stakeholders in the field including developmental agencies, nurserymen, entrepreneur *etc*.

6.4.2 FACULTY STRENGTH

The faculty members of the Department of Floriculture and Landscape Architecture at Junagadh are actively involved in teaching M.Sc. (Hort.) degree programs with a specialization in Floriculture and Landscaping. In addition to their teaching responsibilities, they participate in various departmental academic and co-curricular activities. The staff also contribute to student development by conducting personality development sessions and preparatory classes for competitive examinations. Beyond academics, faculty members are engaged in research to address challenges faced by farmers in the cultivation of flower crops. They also play a significant role in extension activities by promoting the adoption of new technologies through initiatives such as *Krishimahotsav,* training programs, field days, plant disease diagnostic services, *Janvani* radio broadcasts, *Doordarshan* television segments, telephonic consultations and WhatsApp communication. Moreover, the department organizes and participates in seminars, symposia, conferences, workshops and training programs. The faculty is also involved in the production and supply of high-quality planting materials through various departmental nurseries. The department is committed to value addition in floriculture, with special emphasis on dry flower activities. These include the processing, preservation, and creative use of dried flowers for decorative and commercial purposes—helping to enhance both the utility and market value of floral products.

6.4.4 CLASSROOMS AND LABORATORIES

a) No. of classrooms:

Sr. No.	Items	No.	Size (Sq. m.)	Remarks
1	Lecture Hall	2	152.94	For each semester of M.Sc. (Hort.) students, a separate class-room facility is available. Facility of LCD projector for presentation and fully A.C. with sound proof
2	Smart Class Room	1	76.47	It is also used for PG teaching/Viva examination as well as PG seminar purpose with 50 seating capacity. Facility of LCD projector for presentation The class room is fully A.C. with sound proof
3	Virtual Class Room	1	111.63	It is used *Agri-Diksha* Web Education Channel for university level. Facility of digital display. It is also used for PG teaching/Viva examination as well as PG seminar purpose with 70 seating capacity. The virtual class room is fully A.C. with sound proof

4	Seminar Hall (College of Horticulture)	1	271.62	Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc*. Facility of LCD projector for presentation The seminar hall is fully A.C. with sound proof.
5	Conference room (College of Horticulture)	1	45.88	For conducting small group meeting with capacity of 30 seating capacity. Facility of LCD projector for presentation The room is fully A.C. with sound proof.
6	Auditorium (University)	1	901.39	Well established campus auditorium is available for conducting meeting, cultural program, functions, seminars, *etc*. with 500 seating capacity.

d) Farm Facility:

Total 55.00 ha. land is available with various horticultural farms, nurseries and green house units for the academic and PG research purpose and practical exposure for the students which are given as under.

Sr. No.	Name of farm	Area (ha.)	Details of activity
1.	Sakkarbaug	14.7	It is very old and historical farm from Nawab Era. Research experiments and nursery activities are going mostly on mango with availability of nearly 1000 tree of mango with 100 mango varieties/genotypes. PG students' research experiment on floriculture are also organized at this farm. In nursery, the production of some ornamental plants are also produced every year.
2.	Lalbaug	16	It is also very old and historical farm established by Nawab of Junagadh State. The fruit orchards of various fruit crops as well as rose garden and many ornamental plants are available for academic research purpose. It contains the rich biodiversity. The new concept of Japan, model of Miyavaki forest of forest species as well as fruit species are also established in this farm. PG students' research work as well as their practical works for floriculture and landscaping are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit and ornamental crops produce at farm. It has a biggest nursery of Saurashtra region providing the quality planting materials to the farmers.
3.	Madhadibaug	9.33	The farm was very popular farm of Nawab of Junagadh state. It also contains various fruit orchards as well as ornamental plants. The farm is also rich in crop biodiversity. PG students' research work as well as their practical works for floriculture and landscaping are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various ornamental crops produce at this farm. It has also fruit nursery providing the quality planting materials to the farmers.
4.	Instructional farm	14.06	It is the main farm of Department of Floriculture and Landscaping Architecture. It also contains

	(Jambuvadi/ Khengarvav)		genotypes/varieties of various flower crops like spider lily, tuberose, annual chrysanthemum, perennial chrysanthemum, jasmine, golden rod, marigold, gaillardia, aster, heliconia, *etc*. PG students' research work as well as their practical works for floriculture and landscaping are carried out in this farm. The farm is located in main campus which is more suitable for the students. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various ornamental crops produce at this farm.
5.	**Green House**	**5122 Sq M^2**	Green house unit-1 to 6 are including 2 NVPH, 3 High-Tech fan pad poly house and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jamuvadi farm. Greenhouse units are utilized for PG students' research work as well as their practical. Academic research work under many plan schemes are also going on in the green house units.

Details of Greenhouse unit

Sr. No.	Green house Unit	Area (sq m^2)	Remarks
Green house unit at College			
1	Naturally ventilated Poly house unit-1	203	- **Use for PG practical, ELP, PG research as well as departmental research.** - **Use for the green house trainees** - **Also use for the visiting farmers.** - **Visits by the school students**
2	High-tech playhouse with fan and pad unit -2	203	
3	High-tech (Fan pad) unit-3	203	
4	High-tech (Fan pad) unit-4	203	
5	Naturally ventilated Poly house unit -5	1301	
6	Naturally ventilated Poly house unit -6	1404	
7	Net house	445	
	Total	3962	
Green house unit at Instructional farm (Jambuvadi)			
11	Net house (White) unit-1	760	
12	Poly cum net house unit-2	400	
	Total Area	**5122**	

e) Theory and practical batches for the degree program (2020-21):

Table: 6.4.4.3 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semester	Batch of students in theory class	Batch of students in practical class
1	Floriculture & Landscaping	2nd (2024-25)	One Batch (04)	One Batch (04)
2		4th (2022-23)	One Batch (02)	One Batch (02)

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING

Learning materials

6.4.5.1 The faculty members have prepared practical manuals for each subject in the degree program and provided them to the students.

6.4.5.2 Students gain hands-on practical experience both in specialized laboratories and across various horticultural farms dedicated to different disciplines. Additionally, they enhance their learning by visiting the instructional farm and ornamental gardens located within the campus. This hands-on experience not only strengthens their understanding of theoretical concepts but also provides students with vital skills and direct insight into real-world horticultural practices, enabling them to effectively tackle field-level challenges and implement best practices in their future horticultural careers.

6.4.5.3 The college actively utilizes social media platforms such as WhatsApp, Instagram, and YouTube to share valuable information, educational content, and updates with students and the wider community. Through these platforms, the college circulates informative videos, photographs of academic and field activities and important announcements, helping to enhance learning, promote engagement and ensure timely communication. This digital approach supports knowledge dissemination beyond the classroom and keeps students connected with ongoing academic and agricultural developments.

6.4.5.3 List of practical manual (as per 5th dean)

Sr. No.	Course No.	Name of practical manual	Credits
1	FLA 501	Breeding of Flower Crops and Ornamental Plants	2+1
2	FLA 502	Production Technology of Cut Flowers	2+1
3	FLA 503	Production technology of loose flower	2+1
4	FLA 504	Landscaping and Ornamental Gardening	2+1
5	FLA 506	Value addition in Flowers	2+1
6	FLA 507	Turfing and Turf management	2+1

List of practical manual (as per Broad Subject Matter Area)

Sr. No.	Course No.	Name of practical manual	Credits
1	FLS-501	Systematic of ornamental plants	1+1
2	FLS-502	Breeding of ornamental plants	2+1
3	FLS-503	Commercial production of cut flower	2+1
4	FLS-504	Commercial production of loose flower	2+1
5	FLS-505	Ornamental gardening and landscaping	2+1
6	FLS-509	Value addition in floriculture	2+1
7	FLS-510	Protected cultivation of flowers crop	2+1

Practical and Hands-on-Training

6.4.5.4 Students gets the practical exposure in separate laboratory as well as various horticultural farms, nurseries, green house units of each discipline. The students also get exposure by visiting instructional farm and ornamental gardens located at campus.

6.4.5.5 Students are frequently exposed to farm visits in various horticultural farms, nearby farmers' field to study the incidence of various pest and diseases as well as to collect samples. They also interact with the farmers.

6.4.5.6 Visits to various agro-based industries, APMCs, co-operative societies, high-tech horticultural farms of progressive as well as various NGOs of state are also arranged to give practical knowledge of the subject.

6.4.5.7 Students are presenting the different seminar relevant to florticulture in front of the faculties and audience, this is a mandatory components of Ph.D.

programs. These seminars allow students to present research which engage with faculty, peers, and different research and review findings on specialized subjects within Horticulture. They are critical for skill development and advancing knowledge in the field.

6.4.6SUPERVISION OF STUDENTS IN PGPROGRAMME

PG program, Floriculture and landscaping offered by Department of Floriculture & Landscape Architecture, JAU, Junagadh. The faculties of Floriculture & Landscape Architecture discipline only are also involved in PG teaching and guiding of students admitted in PG program at the main campus of JAU. The details of qualified/supervised faculties are given below.

6.4.6.1 SUPERVISION OF STUDENTS IN M.Sc. (HORTI) FLORICULTURE PROGRAMME

Department	No. of qualified faculty			No. of students being supervised (guided) by faculty
	M.Sc.	Ph.D.	Others if any	M.Sc.
Floriculture and Landscape Architecture	00	07	00	23

Sr. No.	Name of Students	Degree	Subject	Major Guide
Year 2020-21				
1	Hadiya kamlesh sardulbhai	M.Sc.(Horti)	F L A	Dr. V. R. Malam
2	Baravadiya Manashiben S.	M.Sc.(Horti)	F L A	Dr. N. D. Polara
3	Chovatiya Nimeshkumar V.	M.Sc.(Horti)	F L A	Dr. B. V. Thumar
4	Rathava Komalben Narsinhbhai	M.Sc.(Horti)	F L A	Dr. N. S. Joshi
5	Chandana S.	M.Sc.(Horti)	F L A	Dr. V. R. Malam
6	Yogitha	M.Sc.(Horti)	F L A	Dr. D. L. Varmora
7	Mansa K. P.	M.Sc.(Horti)	F L A	Dr. N. S. Joshi
Year 2021-22				
1	Naik Pankti Jayeshkumar	M.Sc (Horti)	F L A	Dr. D. L. Varmora

2	Gojiya Bipin Karshanbhai	M.Sc (Horti)	F L A	Dr. D. K. Varu
3	Chavda Mahesh Vajubhai	M.Sc (Horti)	F L A	Dr. N. D. Polara
4	Malani Bhumiben Jayantibhai	M.Sc (Horti)	F L A	Dr. N. D. Polara
5	Bhil Rakesh Chamanji	M.Sc (Horti)	F L A	Dr. V. R. Malam
Year 2022-23				
1	Nakum Mayuri P.	M.Sc (Hort.)	F L S	Dr. K. M. Karetha
2	Malaviya Swetaben B.	M.Sc (Hort.)	F L S	Dr. B. V. Thumar
3	Vaja Hemrashmni G.	M.Sc (Hort.)	F L S	Dr. V. R. Malam
4	Poornima D. M.	M.Sc (Hort.)	F L S	Dr. N. D. Polara
5	Chudasma Kajalben Ashokbhai	M.Sc (Hort.)	F L S	Dr. D. L. Varmora
6	Dobariya Krutiben Natvarbhai	M.Sc (Hort.)	F L S	Dr. B. V. Thumar
Year 2023-24				
1	Disha Amalseda	M.Sc.(Hort.)	F L S	Dr. D. K. Varu
2	Sneha L. Y.	M.Sc.(Hort.)	F L S	Dr. N. D. Polara
3	Nandaniya Chhaya Jivanbhai	M.Sc.(Hort.)	F L S	Dr. B. V. Thumar
Year 2024-25				
1	Goplani Satyam Nareshbhai	M.Sc.(Hort.)	F L S	Dr. D. K. Varu
2	Varsani Kruti Ragheshkumar	M.Sc.(Hort.)	F L S	Dr. B. V. Thumar

6.4.7FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

Feedback from students of PG in Floriculture and Landscape Architecture, their parents, ornamental nurseries, farmers *etc* are collected during the academic years (Annexure 6.4.7.3).

6.4.7.1 The Academic Council:

The Academic Council is comprised of university officials, Deans from all faculties, appointed professors, research scientists from various fields, and distinguished academics. The council makes decisions regarding academic matters based on recommendations from the Board of Study, which are then implemented across the faculties and colleges.

6.4.7.2 Student Advisory Committee:

It is framed in the college in which four to five mentors are allotted to each student. They are frequently discussing the research problems. The committee also visit student research problem and give important feedback (Annexure-6.4.7.18)

6.4.7.3 Student Representative Council:

The Student Representative Council plays an active role in the college by engaging in discussions with students about the teaching and learning processes. Feedback gathered from students is used to improve the overall academic experience.

6.4.7.4 Group of Subjects:

Led by the Vice Chancellor, Director of Research, or Principal, these meetings focus on reviewing the current status of course content, implementation strategies, and feedback from students. The outcomes of these discussions are presented for approval at the Board of Studies, where faculty members evaluate the recommendations put forth in the subject group meetings (Annexure- 6.4.7.8 to 6.4.7.17).

6.4.6.5 Farmers and parents Feedback

Feedback from farmers and parents is considered essential for enhancing the quality of education and research. As part of this effort, faculty members interact with farmers during events like *Krishimela* and farm visits, where valuable suggestions are collected to inform academic improvements.

(For the feedback a verbal communication session and personal discussion are generally made with the farmers, hence no documental proof has been stored or maintained)

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAM FOR LAST FIVE YEARS

Table: 6.4.8.1 Intake and Attrition

Name of the Degree Program	Year	Actual intake	Admission	Left	Attrition (%)
PG	2021-22	06	05	01	16.66
	2022-23	03	03	00	00
	2023-24	02	02	00	00
	2024-25	04	04	00	00
	2025-26	05	00	00	00

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- The students are taught by power point presentations and audio visual aids during lectures and practical classes.
- Digital classroom is equipped with audio visual aids and video conferencing facility which are utilized by students.
- Digital library with computers and internet facility is available and used by the students. Internet facility is also provided at hostels which is available for all the time.
- All the classrooms, laboratories, hostels are under vigilance of CCTV camera which is under direct monitoring of Principal.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University

6.4 SELF-STUDY REPORT FOR THE PROGRAM OF M.SC. (HORT.) IN VEGETABLE SCIENCE

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAMME

Vegetables are a crucial part of horticulture. Many types of vegetables are grown commercially in our country, but they might be known by different names in various regions. These crops have excellent medicinal properties, especially in Ayurveda. Vegetable science plays a vital role in horticulture, contributing significantly to the Indian economy. Vegetables are rich in nutrients and medicinal value, making them essential for nutritional and food security. Commercial vegetable cultivation has expanded the scope of horticulture, providing farmers with opportunities to sell their produce globally due to digital advancements.

Vegetable science can help double farmers' income and create employment opportunities in post-harvest processing, agro-industries, and consultancy. It also offers alternative rural employment, farm diversification, and increased income for farmers. Many popular vegetables like brinjal, chili, tomato, and potato are widely cultivated in India. The demand for vegetables has increased over the past decade due to growing awareness about their benefits. However, climate change poses challenges to vegetable production, requiring adaptable strategies.

DEPARTMENT OF VEGETABLE SCIENCE

Before India's independence, the *Nawab* of Junagadh state had gardeners to develop and maintain gardens. After independence, the Gujarat government established the Department of Agriculture, which included horticulture. In 1960-61, an Agriculture College was set up, and a separate Horticulture Department emerged.

In 1972, Gujarat Agricultural University was established, and the Horticulture Department started teaching, research, and extension activities. After some changes, the department became part of Junagadh Agriculture University's College of Agriculture. In 2012, a College of Horticulture was established under the same university. In 2016, a Master's program in Vegetable Science was introduced under the Horticulture Department. The program aims to produce professionals, scientists, and entrepreneurs who can help farmers. The department provides quality education and has facilities for teaching, research, and extension activities.

The department's goal is to improve farmers' socio-economic status and educate students in vegetable science. Teachers in the department handle teaching, research, and extension activities for the benefit of students and farmers. The department is actively engaged in teaching, research, and extension activities, making it a key player in vegetable science in the South Saurashtra region.

STATUS OF STUDENTS OF DEPARTMENT OF VEGETABLE SCIENCE

The students are admitted through merit basis as per the academic rules and regulations of the State Agricultural Universities of Gujarat. The current status of passed out students of all five batches is given here.

1. During academic year for 2021, three students were admitted and have completed their master's degree. Among them, two students were selected in government job and one preferred for higher study in Ph. D. degree.
2. Similarly, during the year 2022, six students were admitted and were passed out. Among them, two got government job, two students are doing their job in private company and remaining two go for higher study in Ph. D. degree.
3. During the year 2023, five students were admitted and are going to complete their degree in very short future.
4. For the year 2024, three students were admitted and are studying in respective semester.
5. The students remain fully engaged for the entire day with teaching, practical work exposure, examination, preparation for competitive examinations, practicing in sports, cultural, NSS activities *etc*.
6. The students of college also participate in various sports activities viz. volleyball, cricket, long jump, table-tennis, running-800 and 1500 m., disc throw, shot-put, hammer throw *etc*. Some of the significant achievements of our students are as follow
7. Apart from their regular academic courses with credit hours, students also voluntarily join some non-credit courses. They also learn the fundamental principles of physical education and various skills of major games. They are also taught about awareness of physical fitness and importance of health education. As per ICAR rules, the college has formulated different committees viz., Anti

ragging squad and Gender committee *etc*. to meet the students' objective and to full fill academic program as well as to ensure smooth functioning of college.

STEPPING-STONES OF DEPARTMENT OF VEGETABLE SCIENCE

- Before independence period, the *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops.
- With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state.
- The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region (Five districts) under College of Agriculture.
- The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an autonomous body.
- Since May 2004 after bifurcation of Gujarat Agricultural University, the Department is working as a part of College of Agriculture under Junagadh Agriculture University.
- From the year 2016, the post graduate programmes MSc. (Hort.) in Vegetable Science was started to award the PG degree.
- The College of Horticulture was establishment from the academic year 2012. The above PG programmes of Vegetable Science was transfer to College of Horticulture since from the year 2019.
- The course curriculum was also modified and implemented as per the guidelines of 4th Deans' committee of ICAR.
- The Department of Vegetable science with above PG programmes were accredited by ICAR Peer Review Team during the year 2019 and 2022.

MISSION, GOAL AND OBJECTIVES

MISSION:

The Department is committed to provide Vegetable Science education to PG students, research in vegetable crop and transfer of technology to reach the needs of stake holder.

GOAL:

To develop human resource in vegetable science field to serve the society.

OBJECTIVES:

1. To provide under and post graduate education in vegetable science subject.
2. Serves as a center of excellence in the area of post-graduation and human resource
3. To provide post graduate degree in Vegetable Science discipline for master degrees.
4. To strengthen the research farm for post graduate research and practical teaching works for post graduate students.
5. To carry out the research for developing modern agro techniques and new varieties for farming community.
6. Dissemination of advanced technologies to the farming community and other stakeholders in the field including developmental agencies, nurserymen, entrepreneur *etc*.

6.4.2 FACULTY STRENGTH

Role of Vegetable Science Department Staff

The staff at the Department of Vegetable Science, Junagadh, have several key responsibilities like, teaching, research, extension activities, organizing events and producing quality planting materials.

They teach students in Vegetable Science and handle other academic activities. They share new technologies with farmers through: They work on solving problems faced by farmers in growing vegetable crops. They also conduct/ participate trainings, field days, disease diagnosis, radio and TV programs and also guide farmers through phone and WhatsApp support. Faculties are also engaged with

seminars, symposia, conferences, workshops, and training programs. They work on creating high-quality planting materials in nurseries.

The staff's goal is to support students, farmers, and the agricultural community through education, research, and extension activities.

Table: 6.4.2.1 Faculty Strength (As per ICAR)

Sr. No.	Sanctioned Faculty	Sanctioned post	Faculty in place	Vacant position	As per ICAR Model Act

6.4.4 CLASSROOMS AND LABORATORIES

A) CLASSROOMS

Table 6.4.4.1 Details of classrooms, Seminar Hall, Conference room

Sr. No.	Items	No.	Size (Sqm)	Remarks
1	Lecture Hall	2	152.94	For each semester of M.Sc. (Hort.) students, a separate class-room facility is available. Facility of LCD projector for presentation and fully A.C. with sound proof
2	Smart Class Room	1	76.47	It is also used for PG teaching/Viva examination as well as PG seminar purpose with 50 seating capacity. Facility of LCD projector for presentation The class room is fully A.C. with sound proof
3	Virtual Class Room	1	111.63	It is used Agri-Diksha Web Education Channel for university level. It is also used for PG teaching/Viva examination as well as PG seminar purpose with 70 seating capacity. The

				virtual class room is fully A.C. with sound proof
4	Seminar Hall (College of Horticulture)	1	271.62	Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc.* Facility of LCD projector for presentation The seminar hall is fully A.C. with sound proof.
5	Conference room (College of Horticulture)	1	45.88	For conducting small group meeting with capacity of 30 seating capacity. Facility of LCD projector for presentation The room is fully A.C. with sound proof.
6	**Auditorium (University)**	**1**	**901.39**	Well established campus auditorium is available for conducting meeting, cultural program, functions, seminars, *etc.* with 500 seating capacity.

B) FUNCTIONAL LABORATORY ESTABLISHED

Table: 6.4.4.2 Details of Laboratories and instructional farm of department of vegetable science

Sr. No.	Department	Name of Laboratories	Nos.	Space (Sqm)
1	Vegetable Science*	PG Lab. for vegetable science	1	**73.48**
		Total	2	**179.38**
2	Computer Lab*	PG Lab for computer	1	**49.88**
		Total	3	**229.26**
3	Instructional farm/ Other farms	Various farms like Sakkarbaug, Lalbaug, Madhadibaug, Instructional farm Jambuvadi, greenhouse units and nurseries in each farms.	1	**55 ha.**

Students working in laboratory of Vegetable Science

students performing various chemical analysis in Vegetable Science Laboratories

C) LIST OF MOST IMPORTANT EQUIPMENT AVAILABLE IN DEPARTMENT OF VEGETABLE SCIENCE

Table: 6.4.4.3 Details of equipment's available in department of Vegetable Science

Sr. No.	Items	Quantity	Sr. No.	Items	Quantity
1	Top pan balance	1	12	Tray drier	20
2	Flame photo meter	1	13	Tray drier oven (Humidity)	1
3	Spector-photometer	1	14	Vacuum pump oven	1
4	Rectangular hall plate	1	15	Digital pH meter	1
5	Semi revolution centrifuge	1	16	Digital calorimeter	1
6	Soil Moisture meter	1	17	Systronic densitometer	1
7	Deep freezer	1	18	Crown croaking machine	1
8	Refrigerator	1	19	Double skimmer crown machine	1
9	Hand refractometer	1	20	Digital Vernier callipers	2
10	Computer with accessories	1	21	R. O. System for greenhouse	1
11	Hot air oven	5	22	Laboratory glassware	-

FARM FACILITY:

Total 55 ha. land is available with various horticultural farms, nurseries and green house units for the academic and PG research purpose and practical exposure for the students which are given as under.

Table: 6.4.4.4 Details of land is available with various horticultural farms, nurseries

Sr. No.	Name of farm	Aria (ha.)	Details of activity
1.	Sakkarbaugh	14.7	Post Graduate research experiments and nursery activities for vegetable crops.
2.	Lalbaugh	16	Post Graduate research experiments and nursery activities. Lalbaugh nursery is the selling center of planting materials produce from all baughs of College of Horticulture.

3.	Madhadibaugh	9.33	Post Graduate research experiments and nursery activities for vegetable crops.
4.	Jambuvadi/ Khengarvav	14.06	The vegetable farm of the College of Horticulture was also established at Jambuvadi farm. Post Graduate research experiments and nursery activities are going on.
5.	Green House	6,238 sqm	Green house unit-1 &7 are including 2 NVPH, 2 high-tech fan pad poly house, 2 NVPH and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jamuvadi farm. Greenhouse units are utilized for academic research, practical work and PG research by the students.

Details of Greenhouse unit

Sr. No.	Green house Unit	Area (sq. m.)	Remarks
Green house unit at College			
1	Naturally ventilated Poly house unit-1	203	**Use for UG practical, ELP, PG research as well as departmental research**
2	Hi-tech (Fan pad) unit -2	203	
3	Hi-tech (Fan pad) unit-3	203	
4	Hi-tech (Fan pad) unit-4	203	
5	Naturally ventilated Poly house unit -5	1301	
6	Naturally ventilated Poly house unit -6	1404	
7	Net house	445	
Green house unit at Instructional farm (Jambuvadi)			
8	Net house (White) unit-4	760	**Use for UG practical, ELP, PG research as well as departmental research**
9	Poly cum net house unit-5	400	
	Total Area	5122	

e) Theory and practical batches for the degree program (2024-25):

Table: 6.4.4.5 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semesters	Batch of students in theory class	Batch of students in practical class
1	Vegetable science	2nd (2024-25)	One Batch (03)	One Batch (03)
2		**4th (2022-23)**	**One Batch (05)**	One Batch (05)

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING

Learning materials

6.4.5.1 The faculty have prepared lecture note and practical manuals of each courses of the degree program and distributed to students.

6.4.5.2 The faculty are providing guidance to the students by facilitating information, videos, links through various social media apps like Zoom, WhatsApp, Instagram and other similar apps.

6.4.5.3 List of practical manual

Sr. No.	Course No.	Name of practical manual	Credit
	As per fifth deans committee recommendation		
1	VSC 501	Production Technology of cool season Vegetable Crops	2+1
2	VSC 502	Production Tech. of Warm season Vegetable Crops	2+1
3	VSC 503	Breeding of Vegetable Crops	2+1
4	VSC 504	Growth and Development of vegetable crops	2+1
5	VSC 505	Seed production Technology of Vegetable Crops	2+1
6	VSC 508	Organic vegetable production technology	1+1
	As per BSMA		
1	VSC 501	Production of cool season Vegetable Crops	2+1
2	VSC 502	Production of Warm season Vegetable Crops	2+1
3	VSC 503	Growth and Development of vegetable crops	2+1
4	VSC 504	Principles of vegetable breeding	2+1
5	VSC 507	Protected cultivation of vegetable crops	2+1
6	VSC 508	Production of underutilized vegetable crops	2+1
7	VSC 511	Organic vegetable production	1+1

Practical and Hands-on-Training

6.4.5.4

Students gets the practical exposure in separate laboratory as well as various horticultural farms, nurseries, green house units of each discipline. The students also get exposure by visiting instructional farm and ornamental gardens located at campus.

6.4.5.5

Students are frequently exposed to farm visits in various horticultural farms, nearby farmers' field to study the incidence of various pest and diseases as well as to collect samples. They also interact with the farmers.

6.4.5.6

Visits to various nurseries, agro-based industries, APMCs, co-operative societies, high-tech horticultural farms of progressive as well as various NGOs of state are also arranged to give practical knowledge of the subject. The study tour is also organizing for the visit of industrial orchards like reliance farm- Jamnagar, gala farm-bhuj and ashapura farm-bhuj *etc*.

6.4.5.7 Students are presenting the different seminar relevant to vegetable science in front of the faculties and audience, This is a mandatory components of PG programs. These seminars allow students to present research which engage with faculty, peers, and different research and review findings on specialized subjects within Horticulture. They are critical for skill development and advancing knowledge in the field.

6.4.6 SUPERVISION OF STUDENTS IN P.G. PROGRAMME:

PG program of Vegetable Science are offered by Department of Vegetable Science, JAU, Junagadh. The faculties of vegetable science discipline only are also involved in PG teaching and guiding of students admitted in PG program at the main campus of JAU. The details of qualified/supervised faculties are given below.

6.4.6.1 SUPERVISION OF STUDENTS IN M.Sc.(HORT.) VEGETABLE SCIENCE PROGRAM

Department	No. of qualified faculty			No. of students being supervised (guided) by faculty
	M.Sc.	Ph.D.	Others if any*	M.Sc.
Vegetable Science	06	06	00	**19**

Sr. No.	Name of Students	Degree	Subject	Major Guide
Year-2021				
1	Joshiyara Narendrakumar S.	M.Sc.	Vegetable Science	Dr. K. D. Patel
2	Senta Pradip Balabhai	M.Sc.	Vegetable Science	Dr. V. L. Purohit
3	Patel Ruchitkumar P.	M.Sc.	Vegetable Science	Dr. V. L. Purohit
Year-2022				
1	Domadiya Harshil B.	M.Sc.	Vegetable Science	Dr. L. L. Jivani
2	Patel Bhavini Bharatbhai	M.Sc.	Vegetable Science	Dr. K. D. Patel
3	Ramanuj Bhumikaben G.	M.Sc.	Vegetable Science	Dr. V. L. Purohit
Year-2023				
1	Padhiyar Dixita Haribhai	M.Sc.	Vegetable Science	Dr. V. L. Purohit

6	Bambhaniya Urmila B.	M.Sc.	Vegetable Science	Dr. S.M.Makwana
Year-2025				
1	Jakhotra Kiranben Kalabhai	M.Sc.	Vegetable Science	Dr.S.M. Makwana
2	Madhani Dharvi Pareshbhai	M.Sc.	Vegetable Science	Dr.K.D. Patel
3	Patel Mukeshkumar Nagjibhai	M.Sc.	Vegetable Science	Dr. S. M. Makwana
4	Chaudhari Hiralbahen N.	M.Sc.	Vegetable Science	Dr. D. R. Kanzaria
5	Rutu Sadare	M.Sc.	Vegetable Science	Dr.A.M.Butani

6.4.7 FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

Feedback from students of PG in Vegetable Science, their parents, vegetable nurseries, farmers *etc*. are collected during the academic years (Annexure 6.4.7.4).

6.4.7.1 THE ACADEMIC COUNCIL:

It is constituted by University authorities, Deans of all faculties, nominated Professors and Research Scientists of different faculties and renowned academicians are members of academic council. Based on the Board of Study recommendation, the Academic Council takes the decision on academic matter for implementation in the faculty/college.

6.4.7.2 STUDENT ADVISORY COMMITTEE:

It is framed in the college in which four to five mentors are allotted to each student. They are frequently discussing the research problems. The committee also visit student research problem and give important feedback

Visit of Advisory committee to P.G

6.4.7.3 STUDENT REPRESENTATIVE COUNCIL:

It is working in the college and frequently discussing the teaching and learning process with students, getting their feedback and implementing accordingly

6.4.7.4 GROUP OF SUBJECTS:

This meeting held under Chairmanship of Vice Chancellor /Director of Research /Principal for deciding the present status of courses/contents,

implementation and the student's feedback. The recommendation of meeting goes for approval in Board of Studies in which all faculty members discuss about the agenda comes through group of subject meeting (Annexure- **6.4.7.8 to 6.4.7.17**).

6.4.7.5

Suggestions from farmers and parents are valuable for improvement of quality of education and research. Hence farmers' suggestions are also taken by the faculty during interaction with the min *Krishimela*, farm visits *etc*.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAM FOR LAST FIVE YEARS

Table: 6.4.8.1 Intake and Attrition

Name of the Degree Program	Year	Actual intake	Admission	Left	Attrition (%)
PG	2021-22	03	03	01	33
	2022-23	06	06	00	00
	2023-24	05	05	00	00
	2024-25	03	03	00	00
	2025-26	--	--	00	00

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- Students are taught using PowerPoint presentations, multimedia content, and various audio-visual aids to enhance conceptual understanding during lectures and practical sessions.
- The digital classroom is well-equipped with smart boards, high-resolution projectors, audio-visual systems, and video conferencing facilities, which support interactive learning and virtual guest lectures from national and international experts.
- A well-established digital library with multiple computer terminals and high-speed internet connectivity is available, enabling students to access e-books, research journals and online access to journals through the Consortium for e-Resources in Agriculture (CeRA), J-Gate, ASPA Publications, Astral, Science

Direct, Krishi Kosh, E- Krishi Shiksha and EBSCOHost a project by ICAR, New Delhi.

- All classrooms, laboratories, and hostels are under CCTV surveillance, monitored in real-time by the Principal for security and discipline.
- The Wi-Fi-enabled campus supports mobile learning through smartphones, tablets, and laptops, allowing students to learn anytime, anywhere.
- Faculty and students are encouraged to use Learning Management Systems (LMS) such as Moodle or Google Classroom for sharing study materials, submitting assignments, conducting quizzes, and facilitating discussions.
- Virtual labs and simulation software are used in practical classes to provide students with hands-on learning experiences, especially for complex experiments.
- Online feedback and assessment tools are utilized for improving the quality of teaching and learning.
- Regular ICT training and orientation programs are conducted for students and faculty to keep them updated with emerging technologies and digital tools in education.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University

6.4

Self Study Report for Doctoral Degree Programmes

6.4 SELF-STUDY REPORT FOR THE PROGRAM OF PH.D. DEGREE IN FRUIT SCIENCE

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAMME

It is widely recognized that fruit crops serve as the most abundant source of nutritional and medicinal benefits. The growth of commercial fruit crop cultivation has broadened the horizons of horticulture. In addition to ensuring nutritional security, fruit crops also contribute to food and health security. The field of fruit science is poised to play a crucial role in doubling farmers' incomes. Farmers now have the freedom to sell their produce in the international market thanks to digital advancements. This sector also fosters capacity building, creating significant employment opportunities through post-harvest processing, consultancy, and other agro-industries. Furthermore, it offers alternative rural employment options, diversifies farming activities, and increases farmers' incomes. The Indian fruit industry makes a substantial contribution to the national economy. India has become a global leader in the production of various fruits such as mangoes, bananas, guavas, papayas, sapota, pomegranates, limes, and aonla, ranking as the second-largest fruit producer worldwide. Over the past decade, the demand for fruit crops has surged due to heightened health and nutritional awareness, leading to an increase in fruit consumption among the population. However, the challenges posed by climate change have introduced greater uncertainties and risks, further complicating production systems.

Department of Fruit Science

Before the independence era, the Nawab of Junagadh state had their own horticulturist responsible for the development and upkeep of gardens. After independence, the state of Gujarat set up the Department of Agriculture to perform research on agricultural crops, which also encompassed horticultural crops. The establishment of the Agriculture College in 1960-61 led to the formation of a separate Department of Horticulture. The Professor and Head of this department was recognized as the horticulture specialist for the state of Gujarat. The Gujarat Agriculture University was established in 1972, and the Department of Horticulture was given the responsibility for horticultural work in Gujarat under the College of Agriculture. The comprehensive Department of Horticulture began its diverse

activities, including Teaching, Research, and Extension education, in 1972 with the launch of Gujarat Agricultural University as an autonomous institution. Since May 2004, after the bifurcation of Gujarat Agricultural University, the department has been operating as a segment of the College of Agriculture at Junagadh Agriculture University.

Established in the academic year 2012, the College of Horticulture operates under Junagadh Agriculture University. The Ph.D. degree program in Fruit Science was launched in 2010 within the Department of Horticulture at the College of Agriculture. After the college's establishment, this program was relocated to the College of Horticulture. The curriculum has been developed by designing a variety of courses in the discipline, which were approved by the University's Board of Studies and Academic Council. The department has set up adequate facilities to ensure quality education. Its goal is to train professionals, scientists, entrepreneurs, and skilled Ph.D. holders who will contribute to the welfare of farmers, both directly and indirectly. Furthermore, the college is dedicated to improving the socio-economic conditions of farmers while providing fruit science education to students.

Members of the department are designated as professors, associate professors, and assistant professors, responsible for managing the teaching, research, and extension activities that serve the interests of students and farmers. Thus, the department is actively participating in the triad of teaching, research, and extension, known as TRE. This engagement has positioned it as a significant influence in all fruit science endeavors in the Saurashtra Agro Climatic Zone.

Status of students of Department of Fruit Science

The students are admitted through merit basis as per the academic rules and regulations of the State Agricultural Universities of Gujarat. The current status of passed out students of all five batches is given here.

1. Majority of the students who obtained the Ph.D. degree were absorbed by the private companies like pesticides, seeds, ornamental gardening *etc*. Some were also selected for government job as assistant professor, agril. officer/ horticulture officer. Remaining were joined their own business or developed as entrepreneur.

2. The students remain fully engaged for the entire day with teaching, examination, sports, cultural, NSS activities *etc*.

3. The students of college also participate in various sports activities *viz*. volleyball, cricket, long jump, table-tennis, running-800 and 1500 m., disc throw, shot-put, hammer throw *etc*. Some of the significant achievements of our students are as follow

4. Apart from their regular academic courses with credit hours, students also voluntarily join the some non-credit courses. They also learn the fundamental principles of physical education and various skills of major games. They are also taught about awareness of physical fitness and importance of health education. As per ICAR rules, the college has formulated different committees *viz.*, Anti ragging Squad and Gender committee *etc*. to meet the students' objective sand to full fill academic program as well as to ensure smooth functioning of college.

Stepping-stones of Department of Fruit Science

- Before independence period, the *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops.

- With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state.

- The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region (Five districts) under College of Agriculture.

- The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an autonomous body.

- Since May 2004 after bifurcation of Gujarat Agricultural University, the Department is working as a part of College of Agriculture under Junagadh Agriculture University.
- From the year 2010, the Ph.D. degree programmes in Fruit Science was started to award the degree.
- The College of Horticulture was establishment from the academic year 2012. The above PG programmes of Horticulture were transfer to College of Horticulture.
- The course curriculum was also modified and implemented as per the BSMA (Broad Subject Matter Area) BY ICAR.
- The department of fruit science with above PG programmes were accredited by ICAR Peer Review Team during 2019 and 2022.
- Established the fruit science laboratory. The laboratory is working for the PG practical as well as biochemical analysis samples of all PG student research experiments and departmental experiments.
- Strengthen the various farm/orchard and department of fruit science through establishment of new orchard as well as collection, conservation and evaluation of germplasm/varieties of different fruit crops.
- Also strengthen various nurseries to increase production and selling of quality planting material including seed production of fruit crops.

Mission, Goal and Objectives

➢ Mission:

The department is committed to provide fruit science education to Ph.D. students, research in fruit crop and transfer of technology to reach the needs of stakeholder.

➢ Goal:

To develop human resource in fruit science field to serve the society.

➢ **Objectives:**

- To provide under and Ph.D. education in fruit science subject.
- Serves as a centre of excellence in the area of Ph.D. and human resource
- To provide post graduate degree in fruit science discipline for Ph.D. degree.
- To strengthen the research farm for Ph.D. research and practical teaching works for Ph.D. students.
- To carry out the research for developing modern agro techniques and new varieties for farming community.
- Dissemination of advanced technologies to the farming community and other stakeholders in the field including developmental agencies, nurserymen, entrepreneur *etc*.

6.4.2 FACULTY STRENGTH

The staff of Department of Fruit Science, Junagadh are involved in teaching of Ph.D. degreein Fruit Science degree programmes. Staff is engage in other curriculum activities of the department. They are also working for the personality development programmes in the student as well as classes for other competitive examination. Apart from teaching, staff is also involved in research issues faced by the farmers in various fruit crops. In addition to that, the staff is also interesting for extension activities by the transfer of new technology like training, field days, disease diagnostic team, *Janvani* radio programme, *Doordarshan* as well as telephonic talk and WhatsApp. The staff are also carrying out activities like seminars, symposia, conference, training, workshops *etc*. The faculty is involved in production of quality planting materials from various nurseries and papaya seed production from different farms of the department to meet the local demand.

Table: 6.4.2.1: Faculty Strength (As per ICAR)

Sr. No.	Sanctioned Faculty	Sanctioned post	Faculty in place	Vacant position	As per ICAR Model Act
1	Professor	1	1	0	0
2	Associate Professor	1	1	0	1
3	Assistant Professor	4	3	1	3
	Total	6	5	1	4

Table: 6.4.2.2: Faculty Strength (As per GOG)

6.4.4 CLASSROOMS AND LABORATORIES

a) No. of classrooms:

Table 6.4.4.1 Details of Classrooms, Conference room, Seminar Hall and Auditorium.

Sr. No.	Items	No.	Size (Sq. m.)	Remarks
1	Lecture Hall	2	152.94	For each semester of M.Sc. (Hort.) students, a separate class-room facility is available. Facility of LCD projector for presentation and fully A.C. with sound proof
2	Smart Class Room	1	76.47	It is also used for PG teaching/Viva examination as well as PG seminar purpose with 50 seating capacity. Facility of LCD projector for presentation The class room is fully A.C. with sound proof
3	Virtual Class Room	1	111.63	It is used Agri-Diksha Web Education Channel for university level. It is also used for PG teaching/Viva examination as well as PG seminar purpose with 70 seating capacity. The virtual class room is fully A.C. with sound proof
4	Seminar Hall (College of Horticulture)	1	271.62	Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc.* Facility of LCD projector for presentation The seminar hall is fully A.C. with sound proof.
5	Conference room (College of Horticulture)	1	45.88	For conducting small group meeting with capacity of 30 seating capacity. Facility of LCD projector for presentation The room is fully A.C. with sound proof.
6	Auditorium (University)	1	901.39	Well established campus auditorium is available for conducting meeting, cultural program, functions, seminars, *etc.* with 500 seating capacity.

b) Functional laboratory established

Table: 6.4.4.1 **Laboratory and instructional farm of department of fruit science**

Sr. No.	Department	Name of Laboratories	Nos.	Space (Sq. m.)
1	Fruit Science*	Ph. D. Lab. for fruit science	1	**73.48**
2	Computer Lab*	Ph. D. Lab for computer	1	**49.88**
		Total	2	**123.36**
3	Instructional farm/ Other farms	Various orchards/farms like Sakkarbaug, Lalbaug, Madhadibaug, Instructional farm Jambuvadi, green house units and nurseries in each farms.	1	**55ha.**

Ph.D. researchers performing in lab to field (Land)

c) List of most important equipment available in department of Fruit Science

Table: 6.4.4.2 List of equipment

Sr. No.	Items	Quantity	Sr. No.	Items	Quantity
1	Toppan balance	1	14	Tray drier	1
2	Pulper machine	1	15	Tray drier oven (Humidity)	1
3	Flame photo meter	1	16	Vacuum pump oven	1
4	Spector-photometer	1	17	Digital pH meter	1
5	Rectangular hall plate	1	18	Digital calorimeter	1
6	Semi revolution centrifuge	1	19	Systronic densitometer	1
7	Soil Moisture meter	1	20	Crown croaking machine	1
8	Fruit freezer	1	21	Fruit slicer	1
9	Deep freezer	1	22	Double skimmer crown machine	1
10	Refrigerator	1	23	Digital Vernier callipers	2
11	Hand refractometer	5	24	R. O. System for greenhouse	1
12	Computer with accessories	20	25	Laboratory glassware	-
13	Hot air oven	1			

d) Farm Facility:

Total 55 ha. land is available with various horticultural farms, nurseries and green house units for the academic and PG research purpose and practical exposure for the students which are given as under.

Sr. No.	Name of farm	Area (ha.)	Details of activity
1.	Sakkarbaug	14.7	It is very old and historical farm from Nawab Era. Research experiments and nursery activities are going mostly on mango with availability of nearly 1000 tree of mango with 100 mango varieties/genotypes. PG students' research experiment on mango are organized at this farm. The fruit orchards like sapota, guava, black jamun are also available. In nursery, the production of softwood grafts of mango is the major activity with producing nearly 5,000 grafts every year.

2.	Lalbaug	16	It is also very old and historical farm established by Nawab of Junagadh State. The fruit orchards including varieties/genotypes of various fruit crops like mango, sapota, ber, guava, custard apple, red & white jamun, aonla, coconut, *etc*. are available for academic research purpose. It also possesses meadow orchard of different varieties of guava. It contains the rich fruit biodiversity. The new concept of Japan, model of Miyawaki forest of forest species as well as fruit species are also established in this farm. PG students' research work as well as their practical works for fruit science subjects are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit and ornamental crops produce at farm. Seed production of papaya is also going on at this farm. It has a biggest nursery of Saurashtra region providing the quality planting materials to the farmers.
3.	Madhadibaug	9.33	The farm was very popular farm of Nawab of Junagadh state. It also contains various fruit orchards including varieties/genotypes of different fruit crops like mango, banana, sapota, custard apple, guava, pomegranate, black jamun, acid lime, phalsa, dragon fruit, coconut, etc. First two varieties of fruit crops in Gujarat like GJCA-1 in custard apple and GJP-1 in papaya were developed from this farm. It also possesses multi-storey cropping model contains coconut + papaya + banana + spices + turmeric, *etc*. The farm is also rich in fruit biodiversity. It also contains the model of tatura trails training system on mango as well as HDP concept objected for tree size control in black jamun. PG students' research work as well as their practical works for fruit science subjects are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit crops produce at this farm. It has also fruit nursery providing the quality planting materials to the farmers. It produces mostly grafts of mango, custard apple, sapota, *etc*. Seed production of papaya is also notable work and producing nearly 100 kg seed of papaya cv. GJP-1 and providing to the farmers.
4.	Instructional farm (Jambuvadi/ Khengarvav)	14.06	The fruit orchards like sapota, sweet orange, guava, custard apple, coconut, aonla, date palm, *etc*. are available. New orchards including varieties/genotypes of temperate, tropical,

			subtropical and arid/dry land fruit crops are also establishing in this farm. The farm is divided in three, as fruit science farm, Vegetable and floriculture farms. The farm is located in main campus which is used mostly for the P.G. research for the students of all disciplines like fruit, floriculture and vegetable science. Nursery activities on various crops are also going on.
5.	Khengarvav farm	3.50	The farm is also historical possesses *Khengar vav* established by the King Ra'Khengar of Junagadh state. The farm is located at Vanthali highway away nearly 10 km from the main campus. The fruit orchards including varieties/genotypes of various fruit crops like mango, sapota, guava, custard apple, ber, *etc.* are available. PG students' are working for their PG research. Academic research work under many plan schemes are also going on in this farm.
6.	Green House	5122 sq. m^2	Green house unit-1 to 6 are including 2 NVPH, 3 High-Tech fan pad poly house and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jambuvadi farm. Greenhouse units are utilized for PG students' research work as well as their practical. Academic research work under many plan schemes are also going on in the green house units.

Details of Greenhouse unit

Sr. No.	Green house Unit	Area (sq. m.)	Remarks
Green house unit at College			
1	Naturally ventilated Poly house unit-1	203	- Use for UG practical, ELP, PG research as well as departmental research. - Use for the green house trainees - Also use for the visiting farmers. - Visits by the school students
2	Hi-tech playhouse with fan and pad unit -2	203	
3	Hi-tech (Fan pad) unit-3	203	
4	Hi-tech (Fan pad) unit-4	203	
5	Naturally ventilated Poly house unit -5	1301	
6	Naturally ventilated Poly house unit -6	1404	
7	Net house	445	
	Total	3962	
Green house unit at Instructional farm (Jambuvadi)			
11	Net house (White) unit-1	760	
12	Poly cum net house unit-2	400	
	Total Area (sq. M.)	**5122**	

e) Theory and practical batches for the degree program (2021-25):

Table: 6.4.4.3 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semester	Batch of students in theory class	Batch of students in practical class
1	Ph. D. Fruit Science	(2022-23) 6th	01 batch	01 batch
2		(2023-24) 4th	02 batch	02 batch
3		(2024-25) 2nd	02 batch	02 batch

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING

Learning materials

6.4.5.1 The faculty have prepared lecture note and practical manuals of each courses of the degree program and distributed to students.

6.4.5.2 PG student's sharing of learning material and teaching related information through WhatApp groups.

6.4.5.3 List of practical manual

Sr. No.	Course No.	Name of practical manual	Credit
	As per fifth deans recommendation courses		
1	FSC 602	Advances in production in fruit crops	2+1
2	FSC 603	Advances in Growth Regulation of Fruit Crops	2+1
3	FSC 605	Biotic and abiotic stress management in horticultural crops	2+1
	As per BSMA recommendation courses		
1	FSC-601	Innovative Approaches in Fruit Breeding	3+0
2	FSC-602	Modem Trends in Fruit Production	3+0
3	FSC-603	Recent Developments in Growth Regulation	3+0
4	FSC-606	Abiotic Stress Management in Fruit Crops	2+1

Practical and Hands-on-Training

6.4.5.4 Students gets the practical exposure in separate laboratory as well as various horticultural farms, nurseries, green house units of each discipline. The students also get exposure by visiting instructional farm and ornamental gardens located at campus.

6.4.5.5 Students are frequently exposed to farm visits in various horticultural farms, nearby farmers' field to study the incidence of various pest and diseases as well as to collect samples. They also interact with the farmers.

6.4.5.6 Visits to various nurseries, agro-based industries, APMCs, co-operative societies, high-tech horticultural farms of progressive as well as various NGOs of state are also arranged to give practical knowledge of the subject. The study tour is also organizing for the visit of industrial orchards like Reliance farm (Jamnagar), Gala farm (Bhuj) and Ashapura farm (Bhuj) *etc.*

6.4.5.7 Students are presenting the different seminar relevant to fruit science in front of the faculties and audience, this is a mandatory components of Ph.D. programs. These seminars allow students to present research which engage with faculty, peers, and different research and review findings on specialized subjects within Horticulture. They are critical for skill development and advancing knowledge in the field.

6.4.6 Supervision of students in Ph.D. PROGRAMME:

Ph. D. program, Fruit Science are offered by Department of Fruit Science, JAU, Junagadh. The faculties of fruit science discipline only are also involved in PG teaching and guiding of students admitted in Ph. D. program at the main campus of JAU. The details of qualified/supervised faculties are given below.

6.4.6.1 SUPERVISION OF STUDENTS IN Ph.D. (HORT.) FRUIT SCIENCE PROGRAMME

Department	No. of qualified faculty			No. of students being supervised (guided) by faculty
	M.Sc.	Ph.D.	Others if any	Ph.D.
Fruit Science	00	04	0	**11**

Sr. No.	Name of Students	Degree	Subject	Major Guide
Year-2021				
1	Solanki Meera B.	Ph.D.(Horti)	Fruit Sci.	Dr. D K Varu
2	Subhrajyoti Mishra	Ph.D.(Horti)	Fruit Sci.	Dr. K. M. Karetha
Year-2022				
1	Mishra Pooja Vijaybhai	Ph.D.(Horti)	Fruit Sci.	Dr. D K Varu
2	Aal Jigarkumar Mavajibhai	Ph.D.(Horti)	Fruit Sci.	Dr. K. M. Karetha
Year-2024				
1	Mithapara Kinnari D.	Ph.D.(Horti)	Fruit Sci.	Dr. A. M. Butani
2	Parmar Virat Mahendra	Ph.D.(Horti)	Fruit Sci.	Dr. D. R. Kanzariya
3	Manjunath Sharanappa T.	Ph.D.(Horti)	Fruit Sci.	Dr. D K Varu
Year-2025				
1	Parmar Arvindkumar Ratilal	Ph.D.(Horti)	Fruit Sci.	Dr. A. M. Butani
2	Lunagariya Radhika J.	Ph.D.(Horti)	Fruit Sci.	Dr. D K Varu
3	Chaudhari Tejalben M.	Ph.D.(Horti)	Fruit Sci.	Dr. D. R. Kanzariya
4.	Kargatiya Foram P.	Ph.D.(Horti)	Fruit Sci.	Dr. D. R. Kanzariya

6.4.7 FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

Feedback from students of Ph.D. in fruit science, their parents, fruit crop based industries/nurseries, farmers *etc.* are collected during the academic years (Annexure 6.4.7.5).

6.4.7.1 The Academic Council: It is constituted by University authorities, Deans of all faculties, nominated Professors and Research Scientists of different faculties and renowned academicians are members of academic council. Based on the Board of Study recommendation, the Academic Council takes the decision on academic matter for implementation in the faculty/college.

6.4.7.2 Student Advisory Committee: It is framed in the college in which four to five mentors are allotted to each student. They are frequently discussing the research problems. The committee also visit student research problem and give important feedback.

Visit of Advisory committee to Ph.D. research

6.4.7.3 Student Representative Council: It is working in the college and frequently discussing the teaching and learning process with students, getting their feedback and implementing accordingly

6.4.7.4 Group of Subjects: This meeting held under Chairmanship of Vice Chancellor /Director of Research /Principal for deciding the present status of courses/contents, implementation and the students' feedback. The recommendation of meeting goes for approval in Board of Studies in which all faculty members discuss about the agenda comes through group of subject meeting **(Annexure- 6.4.7.8 to 6.4.7.17)**.

6.4.7.5 Suggestions from farmers and parents are valuable for improvement of quality of education and research. Hence farmers' suggestions are also taken by the faculty during interaction with farmers during the *Krishimela*, farm visits *etc*.

6.4.8 Student intake and attrition in the program for last five years

Table: 6.4.8.1 Intake and Attrition

Name of the Degree Program	Year	Actual intake	Admission	Left	Attrition (%)
Ph.D.	2021-22	04	04	00	**00**
	2022-23	01	01	00	**00**
	2023-24	02	02	00	**00**
	2024-25	02	02	00	**00**

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- Students are taught using PowerPoint presentations, multimedia content, and various audio-visual aids to enhance conceptual understanding during lectures and practical sessions.
- The digital classroom is well-equipped with smart boards, high-resolution projectors, audio-visual systems, and video conferencing facilities, which support interactive learning and virtual guest lectures from national and international experts.
- A well-established digital library with multiple computer terminals and high-speed internet connectivity is available, enabling students to access e-books, research journals and online access to journals through the Consortium for e-Resources in Agriculture (CeRA), a project by ICAR, New Delhi.
- All classrooms, laboratories, and hostels are under CCTV surveillance, monitored in real-time by the Principal for security and discipline.
- The Wi-Fi-enabled campus supports mobile learning through smartphones, tablets, and laptops, allowing students to learn anytime, anywhere.
- Faculty and students are encouraged to use Learning Management Systems (LMS) such as Moodle or Google Classroom for sharing study materials, submitting assignments, conducting quizzes, and facilitating discussions.
- Virtual labs and simulation software are used in practical classes to provide students with hands-on learning experiences, especially for complex experiments.
- Online feedback and assessment tools are utilized for improving the quality of teaching and learning.
- Regular ICT training and orientation programs are conducted for students and faculty to keep them updated with emerging technologies and digital tools in education.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University

6.4 SELF-STUDY REPORT FOR THE PROGRAM OF Ph.D. FLORICULTURE & LANDSCAPING

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAMME

Floriculture is a wide-ranging sector of Horticulture that plays an important role in the Indian economy. It includes not only the cultivation of high-value flowering crops but also the cultivation of various ornamental plant species that encompass high-value foliage and potted plants. It also encompasses the numerous aromatic plants that are vital for producing essential oil, becoming a precious raw material for the fragrance industry. Dried flowers represent a crucial segment of floriculture, playing a significant role in the export of diverse dried flower products from the nation. Flower crops are widely recognized as the most abundant source of both aesthetic and medicinal benefits. Now farmers have the freedom to sell their products in the international market because of digital assessment. It also has the ability to create significant job opportunities through post-harvest and processing industries, ornamental garden consulting, *etc*. The Indian dry flower sector makes a considerable contribution to the Indian economy. Numerous flower crops such as rose, chrysanthemum, aster, marigold, gaillardia, various lily types, tuberose, golden rod and others are grown commercially in India. The demand for flower crop production has risen in the past decade due to growing appreciation and affection people have for flowers.

Department of Floriculture & Landscape Architecture

Prior to the independence era, the *Nawab* of Junagadh state employed their own horticulturist to cultivate and care for gardens. Following independence, the state of Gujarat established the Department of Agriculture to conduct research on agricultural crops, including those in horticulture. The establishment of Agriculture College (1960-61) led to the emergence of a distinct Department of Horticulture. The Head of the department and Professor was the expert in horticulture for the state of Gujarat. The Gujarat Agriculture University was founded in 1972 and the Department of Horticulture was tasked with overseeing horticultural activities for Gujarat within the College of Agriculture. The comprehensive Department of Horticulture was established in 1972 with various functions, including Teaching, Research and Extension education, coinciding with the formation of Gujarat

Agricultural University as an independent entity. Since May 2004, following the split of Gujarat Agricultural University, the department has been operating as a division of the College of Agriculture within Junagadh Agriculture University.

The College of Horticulture was founded as a horticulture division starting in the academic year 2012 under Junagadh Agriculture University. The Ph.D. programme in Floriculture & Landscape Architecture commenced in 2010 within the Department of Horticulture at the College of Agriculture. However, following the establishment of the college, the program was moved to the College of Horticulture starting in 2019. The curriculum has been created by establishing different courses in the field, which received approval from the Board of Studies and the Academic Council of the University. Sufficient resources have been set up in the department to provide quality education. Its mission is to create professionals, researchers, entrepreneurs, and talented graduates and postgraduates who will serve as a guiding force for the benefit of farmers, whether directly or indirectly. The college aims to enhance the socio-economic conditions of farmers while providing students with education in Floriculture and Landscape Architecture

The department's faculty are designated as Professors, Associate Professors and Assistant Professors to oversee the teaching, research and extension efforts of the department for the advantage of students and farmers. Consequently, the department is involved in a triad of activities: Teaching, Research, and Extension, known as TRE. Thanks to TRE, it has emerged as a leading influence in all floriculture activities within the South Saurashtra Agro Climatic Zone.

Status of students of Department of Floriculture & Landscape Architecture

The students are admitted through merit basis as per the academic rules and regulations of the State Agricultural Universities of Gujarat. The current status of passed out students of all five batches is given here.

1. Most of the students who earned their Ph.D. degrees were hired by private companies in areas such as pesticides, seeds, and ornamental gardening. A few were also chosen for government positions in Agriculture Officer/Horticultural officer. The others either started their own business or evolved as entrepreneurs.

2. The students stay completely involved throughout the day with academics, assessments, sports, cultural events, NSS activities, and more.

3. The college students also engage in a variety of sports activities such as volleyball, cricket, long jump, table-tennis, 800m and 1500m running, discus throw, shot put, hammer throw, *etc*. Some noteworthy accomplishments of our students are as follows.

4. In addition to their standard academic classes with credit hours, students also choose to participate in some non-credit courses voluntarily. They also grasp the essential concepts of physical education and different skills related to major sports. They are also educated on the significance of being aware of physical fitness and the value of health education. According to ICAR regulations, the college has established various committees such as the Anti-Ragging Squad and the Gender Committee, among others, to achieve students' goals, fulfill academic programs, and ensure the college operates smoothly.

Stepping-stones of Department of Floriculture & Landscape Architecture

- Before independence period, *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops.

- With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state.

- The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region (Five districts) under College of Agriculture.

- The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an autonomous body.

- Since May 2004 after bifurcation of Gujarat Agricultural University, the Department is working as a part of College of Agriculture under Junagadh Agriculture University.
- From the year 2010, the post graduate programmes Ph.D. in Floriculture & Landscape Architecture was started to award the PG degree.
- The College of Horticulture was establishment from the academic year 2012. The above Ph.D. programme were transfer to College of Horticulture.
- The course curriculum was also modified and implemented as per the recommendations made by 5th Deans' and BSMA committee of ICAR.
- ICAR Peer Review Team accredited the Department of Floriculture and Landscape Architecture with above programme during the year 2019 and 2022.

Mission, Goal and Objectives

➢ Mission:

The Department is committed to provide Floriculture & Landscape Architecture education to PG students, research in flower crop and transfer of technology to reach the needs of stakeholder.

➢ Goal:

To develop human resource in Floriculture & Landscape Architecture field to serve the society

➢ Objectives:

- To provide education in Floriculture & Landscape Architecture subject.
- Serves as a center of excellence in the area of higher education and human resource
- To provide postgraduate degree in Floriculture & Landscape Architecture discipline.

- To strengthen the research farm for Ph.D. research and practical teaching works.
- To carry out the research for developing modern agro techniques and new varieties for farming community.
- Dissemination of advanced technologies to the farming community and other stakeholders in the field including developmental agencies, nurserymen, entrepreneur *etc*.

6.4.2 FACULTY STRENGTH

The faculty at the Department of Floriculture & Landscape Architecture, Junagadh, participate in the education of Ph.D. degree programs in Floriculture & Landscape Architecture. Staff is involved in other curricular activities of the department. They are also focused on personality development programs for students and classes for various competitive exams. In addition to teaching, faculty also engages in research related to challenges encountered by farmers in different flower crops. Moreover, the personnel are engaged in extension activities through the implementation of new technology such as training, field days, disease diagnostic teams, the *Janvani* radio program, *Doordarshan*, as well as phone conversations and WhatsApp. The personnel are additionally engaging in activities such as seminars, symposiums, conferences, training sessions, workshops, *etc*. The faculty participates in producing high-quality planting materials from different nurseries.

Table: 6.4.2.2: Faculty Strength As per ICAR

6.4.4 CLASSROOMS AND LABORATORIES

a) No. of classrooms:

Sr. No.	Items	No.	Size (Sq. m.)	Remarks
1	Lecture Hall	2	152.94	For each semester of M.Sc. (Hort.) students, a separate class-room facility is available. Facility of LCD projector for presentation and fully A.C. with sound proof
2	Smart Class Room	1	76.47	It is also used for PG teaching/Viva examination as well as PG seminar purpose with 50 seating capacity. Facility of LCD projector for presentation The class room is fully A.C. with sound proof
3	Virtual Class Room	1	111.63	It is used Agri-Diksha Web Education Channel for university level. It is also used for PG teaching/Viva examination as well as PG seminar purpose with 70 seating capacity. The virtual class room is fully A.C. with sound proof
4	Seminar Hall	1	271.62	Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc.* Facility of LCD projector for presentation The seminar hall is fully A.C. with sound proof.
5	Conference Room	1	45.88	For conducting small group meeting with capacity of 30 seating capacity. Facility of LCD projector for presentation The room is fully A.C. with sound proof.
6	Auditorium (University)	1	901.39	Well established campus auditorium is available for conducting meeting, cultural program, functions, seminars, *etc.* with 500 seating capacity.

b) Functional laboratory established

Table: 6.4.4.1 Laboratories and instructional farm of department of floriculture

Sr. No.	Department	Name of Laboratories	Nos.	Space (Sq. m.)
1	FLA*	Ph. D. Lab. for Floriculture	1	**73.48**
2	Computer Lab*	Ph. D. Lab for computer	1	**49.88**
		Total	2	**123.36**
3	Instructional farm/ Other farms	Various orchards/farms like Sakkarbaug, Lalbaug, Madhadibaug, Instructional farm Jambuvadi, green house units and nurseries in each farms.	1	**55ha.**

c) List of most important equipment available in department of Floriculture & Landscape Architecture

Table: 6.4.4.2 List of equipment's

Sr. No.	Items	Quantity	Sr. No.	Items	Quantity
1	Toppan balance	1	14	Vacuum pump oven	1
2	Flame photo meter	1	15	Digital pH meter	1
3	Spector-photometer	1	16	Digital calorimeter	1
4	Rectangular hall plate	1	17	Systronic densitometer	1
5	Semi revolution centrifuge	1	18	Crown croaking machine	1
6	Soil Moisture meter	1	19	Double skimmer crown machine	1
7	Deep freezer	1	20	Digital Vernier callipers	2
8	Refrigerator	1	21	R. O. System for greenhouse	1
9	Hand refractometer	1	22	Laboratory glassware	-
10	Computer with accessories	1			
11	Hot air oven	5			
12	Tray drier	20			
13	Tray drier oven (Humidity)	1			

d) Farm Facility:

Total 55.00 ha. land is available with various horticultural farms, nurseries and green house units for the academic and PG research purpose and practical exposure for the students which are given as under.

Sr. No.	Name of farm	Area (ha.)	Details of activity
1.	Sakkarbaug	14.7	It is very old and historical farm from Nawab Era. Research experiments and nursery activities are going mostly on mango with availability of nearly 1000 tree of mango with 100 mango varieties/genotypes. PG students' research experiment on floriculture are also organized at this farm. In nursery, the production of some ornamental plants are also produced every year.
2.	Lalbaug	16	It is also very old and historical farm established by Nawab of Junagadh State. The fruit orchards of various fruit crops as well as rose garden and many ornamental plants are available for academic research purpose. It contains the rich biodiversity. The new concept of Japan, model of Miyawaki forest of forest species as well as fruit species are also established in this farm. PG students' research work as well as their practical works for floriculture and landscaping are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various fruit and ornamental crops produce at farm. It has a biggest nursery of Saurashtra region providing the quality planting materials to the farmers.
3.	Madhadibaug	9.33	The farm was very popular farm of Nawab of Junagadh state. It also contains various fruit orchards as well as ornamental plants. The farm is also rich in crop biodiversity. PG students' research work as well as their practical works for floriculture and landscaping are carried out in this farm. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various ornamental crops produce at this farm. It has also fruit nursery providing the quality planting materials to the farmers.

4.	Instructional farm (Jambuvadi/ Khengarvav)	14.06	It is the main farm of Department of Floriculture and Landscaping Architecture. It also contains genotypes/varieties of various flower crops like spider lily, tuberose, annual chrysanthemum, perennial
			Chrysanthemum, jasmine, golden rod, marigold, gaillardia, aster, heliconia, *etc*. PG students' research work as well as their practical works for floriculture and landscaping are carried out in this farm. The farm is located in main campus which is more suitable for the students. Academic research work under many plan schemes are also going on in this farm. Quality planting materials like plant propagules, sapling, grafts, seedling, *etc*. of various ornamental crops produce at this farm.
5.	Green House	5,122 sq. m.	Green house unit-1 to 6 are including 2 NVPH, 3 High-Tech fan pad poly house and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jambuvadi farm. Greenhouse units are utilized for PG students' research work as well as their practical. Academic research work under many plan schemes are also going on in the green house units.

Details of Greenhouse unit

Sr. No.	Green house Unit	Area (sq m^2)	Remarks
Green house unit at College			
1	Naturally ventilated Poly house unit-1	203	- Use for UG practical, ELP, PG research as well as departmental research. - Use for the green house trainees - Also use for the visiting farmers. - Visits by the school students
2	High-tech playhouse with fan and pad unit -2	203	
3	High-tech (Fan pad) unit-3	203	
4	High-tech (Fan pad) unit-4	203	
5	Naturally ventilated Poly house unit -5	1301	
6	Naturally ventilated Poly house unit -6	1404	
7	Net house	445	
	Total	**3962**	
Green house unit at Instructional farm (Jambuvadi)			
11	Net house (White) unit-1	760	
12	Poly cum net house unit-2	400	
	Total Area	**5122**	

Garrick House

Poly House and Hi-tech (Fan Pad)

e) Theory and practical batches for the degree program (2024-25):

Table: 6.4.4.3 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semesters	Batch of students in theory class	Batch of students in practical class
1	Floriculture & Landscape Architecture	2nd (2024-25)	One Batch (06)	One Batch (06)
2		-	-	-

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING

Learning materials

6.4.5.1 The faculty have prepared lecture note and practical manuals of each courses of the degree program and distributed to students.

6.4.5.2 Online teaching going on by faculties through online lecture in Google meet/ zoom platform, uploading of notes, videos, Power Point Presentation (ppt) and materials delivered through WhatsApp group.

6.4.5.3 List of practical manual

Sr. No.	Course No.	Name of practical manual	Credit
2021-22			
1	FLA 508	CAD for outdoor and indoor scaping	2+1
2	FLA 604	Advances in Landscape architecture	1+2
3	FLA 602	Advances in flower production technology	1+2
4	FLA 601	Advances in breeding of flower crop	2+1
5	FLA 605	Advances in biochemistry & biotechnology flower	2+1
2022-23			
1	FLA 603	Advices in protected & precision floriculture	1+1
2	FLS 601	Crop regulation in ornamental crops (BSMA)	2+1
3	FLS 602	Post-harvest biology of floricultural crops (BSMA)	2+1
4	FLS 607	Advances in production technology of flower crops (BSMA)	2+1
2023-24			
1	FLS 605	Vertical gardening (BSMA)	1+2
2	FLS 607	Advances in production technology of flower crops (BSMA)	2+1

3	FLS 601	Crop regulation in ornamental crops (BSMA)	2+1
4	FLS 602	Post-harvest biology of floricultural crops (BSMA)	2+1
2024-25			
1	FLS 605	Vertical gardening (BSMA)	1+2
2	FLS 607	Advances in production technology of flower crops (BSMA)	2+1
3	FLS 601	Crop regulation in ornamental crops (BSMA)	2+1
4	FLS 602	Post-harvest biology of floricultural crops (BSMA)	2+1

Practical and Hands-on-Training

6.4.5.4 Students gets the practical exposure in separate laboratory as well as various farms, nurseries, and green house units. The students also get exposure by visiting instructional farm and ornamental gardens located at campus.

6.4.5.5 Students often visit different horticultural farms and local farmers' fields to examine the occurrence of various pests and diseases and to gather samples. They also interact with the farmers.

6.4.5.6 Arrangements are made for visits to different agro-based industries, APMCs, cooperative societies, advanced horticultural farms of progressive growers, and various state NGOs to provide practical insights into the subject

6.4.5.7 Students are presenting the different seminar relevant to floriculture in front of the faculties and audience, this is a mandatory components of Ph.D. programs. These seminars allow students to present research which engage with faculty, peers, and different research and review findings on specialized subjects within Horticulture. They are critical for skill development and advancing knowledge in the field.

6.4.6 SUPERVISION OF STUDENTS IN PH.D. PROGRAMME

Ph.D. program of Floriculture & Landscape Architecture is offered by Department of Floriculture & Landscape Architecture, College of Horticulture, JAU, Junagadh. The faculties of Floriculture & Landscape Architecture discipline only are also involved in PG teaching and guiding of students admitted in Ph.D. program at the main campus of JAU. The details of qualified/supervised faculties are given below.

6.4.6.1 SUPERVISION OF STUDENTS IN Ph.D. (HORT) FLORICULTURE AND LANDSCAPE ARCHITECTURE PROGRAMME

Department	No. of qualified faculty			No. of students being supervised (guided) by faculty
	M.Sc.	Ph.D.	Others if any	Ph.D.
Floriculture and Landscape Architecture	00	05	0	**05**

Sr. No.	Name of Students	Degree	Subject	Major Guide
Year-2021-22				
1	-	-	-	-
Year-2022-23				
1	-	-	-	-
Year-2023-24 (Pass out July to June)				
1	Patel Vinodkumar Sureshbhai	Ph.D.	FLS	Dr. D.K.Varu
2	Shuruti umachangi	Ph.D.	FLS	Dr. D.K.Varu
3	Zala Kuvarsingh Ravisingh	Ph.D.	FLS	Dr. K.M.Karetha
Year-2024-25				
1	Dodiya Truptiben pareshbhai	Ph.D.	FLS	Dr. B. V. Thumar
2	Savaliya Vishalkumar M.	Ph.D.	FLS	Dr. N.D.Polara
3	Pithiya Ila Lakhmanbhai	Ph.D.	FLS	Dr. D.K.Varu
4	Solanki Kaushikkumar S.	Ph.D.	FLS	Dr. K.M.Karetha
Year-2025-26				
1	Maheta Poojaben Vinodray	Ph.D.	FLS	Dr. N. S. Joshi
2	Nandaniya Mayuri H.	Ph.D.	FLS	Dr. N. S. Joshi

6.4.7 FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

Feedback from students of Ph.D. in Floriculture and Landscape Architecture, their parents, ornamental nurseries, farmers *etc* are collected during the academic years (Annexure 6.4.7.6).

6.4.7.1 The Academic Council: It is constituted by University authorities, Deans of all faculties, nominated Professors and Research Scientists of different faculties and renowned academicians are members of academic council. Based on the Board of Study recommendation, the Academic Council takes the decision on academic matter for implementation in the faculty/college.

6.4.7.2 Student Advisory Committee: It is framed in the college in which four to five mentors are allotted to each student. They are frequently discussing the research problems. The committee also visit student research problem and give important feedback.

Visit of Advisory committee to Ph.D. research

6.4.7.3 Student Representative Council: It is working in the college and frequently discussing the teaching and learning process with students, getting their feedback and implementing accordingly

6.4.7.4 Group of Subjects: This meeting held under chairmanship of Vice Chancellor /Director of Research /Principal for deciding the present status of courses/contents, implementation and the students' feedback. The recommendation of meeting goes for approval in Board of Studies in which

all faculty members discuss about the agenda comes through group of subject meeting **(Annexure-6.4.7.8 to 6.4.7.17)**.

6.4.7.5 Suggestions from farmers and parents are valuable for improvement of quality of education and research. Hence farmers' suggestions are also taken by the faculty during interaction with farmers during *Krishimela*, farm visits *etc*.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAM FOR LAST FIVE YEARS

Table: 6.4.8.1 Intake and Attrition

Name of the Degree Program	Year	Actual intake	Admission	Left	Attrition (%)
Ph.D.	2021-22	02	02	01	**50.00**
	2022-23	01	01	00	**00**
	2023-24	01	01	00	**00**
	2024-25	02	01	00	**00**
	2025-26	01	-	-	**-**

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- Students are taught using PowerPoint presentations, multimedia content, and various audio-visual aids to enhance conceptual understanding during lectures and practical sessions.
- The digital classroom is well-equipped with smart boards, high-resolution projectors, audio-visual systems, and video conferencing facilities, which support interactive learning and virtual guest lectures from national and international experts.
- A well-established digital library with multiple computer terminals and high-speed internet connectivity is available, enabling students to access e-books, research journals and online access to journals through the Consortium for e-Resources in Agriculture (CeRA), J-Gate, ASPA Publications, Astral, Science Direct, Krishi Kosh, E- Krishi Shiksha, EBSCOHost a project by ICAR, New Delhi.

- All classrooms, laboratories, and hostels are under CCTV surveillance, monitored in real-time by the Principal for security and discipline.
- The Wi-Fi-enabled campus supports mobile learning through smartphones, tablets, and laptops, allowing students to learn anytime, anywhere.
- Faculty and students are encouraged to use Learning Management Systems (LMS) such as Moodle or Google Classroom for sharing study materials, submitting assignments, conducting quizzes, and facilitating discussions.
- Virtual labs and simulation software are used in practical classes to provide students with hands-on learning experiences, especially for complex experiments.
- Online feedback and assessment tools are utilized for improving the quality of teaching and learning.
- Regular ICT training and orientation programs are conducted for students and faculty to keep them updated with emerging technologies and digital tools in education.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University

6.4 SELF-STUDY REPORT FOR THE PROGRAM OF PH.D. (HORT.) IN VEGETABLE SCIENCE

6.4.1. BRIEF HISTORY OF THE DEGREE PROGRAMME

Vegetables are a crucial part of horticulture. Many types of vegetables are grown commercially in our country, but they might be known by different names in various regions. These crops have excellent medicinal properties, especially in Ayurveda. Vegetable science plays a vital role in horticulture, contributing significantly to the Indian economy.

Vegetables are rich in nutrients and medicinal value, making them essential for nutritional and food security. Commercial vegetable cultivation has expanded the scope of horticulture, providing farmers with opportunities to sell their produce globally due to digital advancements.

Vegetable science can help double farmers' income and create employment opportunities in post-harvest processing, agro-industries, and consultancy. It also offers alternative rural employment, farm diversification, and increased income for farmers.

Many popular vegetables like brinjal, chili, tomato, and potato are widely cultivated in India. The demand for vegetables has increased over the past decade due to growing awareness about their benefits. However, climate change poses challenges to vegetable production, requiring adaptable strategies.

Department of Vegetable Science

Before India's independence, the Nawab of Junagadh state had gardeners to develop and maintain gardens. After independence, the Gujarat government established the Department of Agriculture, which included horticulture. In 1960-61, an Agriculture College was set up, and a separate Horticulture Department emerged.

In 1972, Gujarat Agricultural University was established, and the Horticulture Department started teaching, research, and extension activities. After some changes, the department became part of Junagadh Agriculture University's College of Agriculture. In 2012, a College of Horticulture was established under the same university.

In 2016, a Doctoral program in Vegetable Science was introduced under the Horticulture Department. The program aims to produce professionals, scientists, and entrepreneurs who can help farmers. The department provides quality education and has facilities for teaching, research, and extension activities.

The department's goal is to improve farmers' socio-economic status and educate students in vegetable science. Teachers in the department handle teaching, research, and extension activities for the benefit of students and farmers. The department is actively engaged in teaching, research, and extension activities, making it a key player in vegetable science in the South Saurashtra region.

Status of students of Department of Vegetable Science

The students are admitted through merit basis as per the academic rules and regulations of the State Agricultural Universities of Gujarat. The current status of passed out students of all five batches is given here.

1. Majority of the students who obtained the Ph.D. degree were absorbed by the private companies like pesticides, seeds, ornamental gardening *etc*. Some were also selected for government job as Agril. Officer/Horticulture officer. Remaining were joined their own business or developed as entrepreneur.

2. The students remain fully engaged for the entire day with teaching, examination, sports, cultural, NSS activities *etc*.

3. The students of college also participate in various sports activities *viz*. volleyball, cricket, long jump, table-tennis, running 800 m and 1500 m., disc throw, shot-put, hammer throw *etc*. Some of the significant achievements of our students are as follow

4. Apart from their regular academic courses with credit hours, students also voluntarily join some non-credit courses. They also learn the fundamental principles of physical education and various skills of major games. They are also taught about awareness of physical fitness and importance of health education. As per ICAR rules, the college has formulated different committees *viz*., Anti ragging Squad and Gender committee *etc*. to meet the students' objective sand to full fill academic program as well as to ensure smooth functioning of college.

Stepping-stones of Department of Vegetable Science

- Before independence period, the *Nawab* of Junagadh state has their own horticulturist to develop and maintain gardens. After independence, Gujarat state have established the Department of Agriculture to carryout research in agricultural crops including horticultural crops.
- With establishment of Agriculture College (1960-61), a separate Department of Horticulture was emerged. The Professor & Head of the department was the subject matter specialist of horticulture for Gujarat state.
- The Gujarat Agriculture University was established during 1972 and the Department of Horticulture had assigned the duty of horticultural work for Saurashtra region (Five districts) under College of Agriculture.
- The full-fledged Department of Horticulture was started with multi-functional activities like Teaching, Research and Extension education during 1972 with the inception of Gujarat Agricultural University as an autonomous body.
- Since May 2004 after bifurcation of Gujarat Agricultural University, the Department is working as a part of College of Agriculture under Junagadh Agriculture University.
- From the year 2016, the post graduate programmes Ph.D. (Hort.) in Vegetable Science was started to award the PG degree.
- The College of Horticulture was establishment from the academic year 2012. The above PG programmes of Vegetable Science was transfer to College of Horticulture.
- The course curriculum was also modified and implemented as per the guidelines of 4th Deans' committee of ICAR.
- The Department of Vegetable Science with above PG programmes were accredited by ICAR Peer Review Team during the year 2019 and 2022.

Mission, Goal and Objectives

- Mission:

The Department is committed to provide Vegetable Science education to Ph.D. students, research in vegetable crop and transfer of technology to reach the needs of stake holder.

- Goal:

To develop human resource in vegetable science field to serve the society.

- Objectives:

1. To provide education to Ph.D. students in vegetable science.
2. Serves as a centre of excellence in the education and human resource
3. To provide Ph.D. degree in Vegetable Science discipline.
4. To strengthen the research farm for Ph.D. research and practical teaching works.
5. To carry out the research for developing modern agro techniques and new varieties for farming community.
6. Dissemination of advanced technologies to the farming community and other stakeholders in the field including developmental agencies, nurserymen, entrepreneur *etc*.

6.4.2 FACULTY STRENGTH

The staff at the Department of Vegetable Science, Junagadh, have several key responsibilities like, teaching, research, extension activities, organizing events and producing quality planting materials.

They teach students in Vegetable Science and handle other academic activities. They share new technologies with farmers through: They work on solving problems faced by farmers in growing vegetable crops. They also conduct/ participate trainings, field days, disease diagnosis, radio and TV programs and also guide farmers through phone and WhatsApp support. Faculties are also engaged with

seminars, symposia, conferences, workshops, and training programs. They work on creating high-quality planting materials in nurseries.

In broader sense the staff's goal is to support students, farmers, and the agricultural community through education, research, and extension activities.

6.4.4 CLASSROOMS AND LABORATORIES

a) No. of classrooms:

Sr. No.	Items	No.	Size (Sq. m.)	Remarks
1	Lecture Hall	2	152.94	For each semester of M.Sc. (Hort.) students, a separate class-room facility is available. Facility of LCD projector for presentation and fully A.C. with sound proof
2	Smart Class Room	1	76.47	It is also used for PG teaching/Viva examination as well as PG seminar purpose with 50 seating capacity. Facility of LCD projector for presentation The class room is fully A.C. with sound proof

3	Virtual Class Room	1	111.63	It is used Agri-Diksha Web Education Channel for university level. It is also used for PG teaching/Viva examination as well as PG seminar purpose with 70 seating capacity. The virtual class room is fully A.C. with sound proof
4	Seminar Hall (College of Horticulture)	1	271.62	Well-furnished seminar hall with 200 seating capacity for conducting meeting, functions, seminars, conference, *etc.* Facility of LCD projector for presentation The seminar hall is fully A.C. with sound proof.
5	Conference room (College of Horticulture)	1	45.88	For conducting small group meeting with capacity of 30 seating capacity. Facility of LCD projector for presentation The room is fully A.C. with sound proof.
6	Auditorium (University)	1	901.39	Well established campus auditorium is available for conducting meeting, cultural program, functions, seminars, etc. with 500 seating capacity.

b) Functional laboratory established

Table: 6.4.4.1 Laboratories and instructional farm of department of vegetable science

Sr. No.	Department	Name of Laboratories	Nos.	Space (Sqm)
1	Vegetable Science*	UG/PG Lab. for vegetable science	1	**73.48**
		Total	2	**179.38**
2	Computer Lab*	UG Lab for computer	1	**49.88**
		Total	3	**229.26**
3	Instructional farm/ Other farms	Various farms like Sakkarbaug, Lalbaug, Madhadibaug, Instructional farm Jambuvadi, greenhouse units and nurseries in each farms.	1	**55 ha.**

Ph.D. researchers performing in lab to field (Land)

c) List of most important equipment available in department of Vegetable Science

Table: 6.4.4.2 List of equipment

Sr. No.	Items	Quantity	Sr. No.	Items	Quantity
1	Top pan balance	1	12	Tray drier	20
2	Flame photo meter	1	13	Tray drier oven(Humidity)	1
3	Spector-photometer	1	14	Vacuum pump oven	1
4	Rectangular hall plate	1	15	Digital pH meter	1
5	Semi revolution centrifuge	1	16	Digital calorimeter	1
6	Soil Moisture meter	1	17	Systronic densitometer	1

7	Deep freezer	1	**18**	Crown croaking machine	1
8	Refrigerator	1	**19**	Double skimmer crown machine	1
9	Hand refractometer	1	**20**	Digital Vernier callipers	2

11	Hot air oven	5	**22**	Laboratory glassware	-

d) Farm Facility:

Total 55.00 ha. land is available with various horticultural farms, nurseries and green house units for the academic and PG research purpose and practical exposure for the students which are given as under.

Sr. No.	Name of farm	Aria (ha.)	Details of activity
1.	Sakkarbaug	14.7	Ph.D. research experiments and nursery activities for vegetable crops.
2.	Lalbaug	16	Ph.D. research experiments and nursery activities. Lalbaug nursery is the selling center of planting materials produce from all baugs of College of Horticulture.
3.	Madhadibaug	9.33	Ph.D. research experiments and nursery activities for vegetable crops.
4.	Jambuvadi/ Khengarvav	14.06	The vegetable farm of the College of Horticulture was also established at Jambuvadi farm. Post Graduate research experiments and nursery activities are going on.
5.	Greenhouse	5122	Green house unit-1 & 7 are including 2 NVPH, 2 high-tech fan pad poly house, 2 NVPH and 1 net house are located at College of Horticulture. Whereas, 2 green house units including 1 net house and 1 poly cum net house are located at Jambuvadi farm. Greenhouse units are utilized for academic research, practical work and PG research by the students.

Details of Greenhouse unit

Sr. No.	Green house Unit	Area (sq. m^2)	Remarks
Green house unit at College			
1	Naturally ventilated Poly house unit-1	203	**Use for UG practical, ELP, PG research as well as departmental research**
2	High-tech (Fan pad) unit -2	203	
3	High-tech (Fan pad) unit-3	203	
4	High-tech (Fan pad) unit-4	203	
5	Naturally ventilated Poly house unit -5	1301	
6	Naturally ventilated Poly house unit -6	1404	
7	Net house	445	
Green house unit at Instructional farm (Jambuvadi)			
8	Net house (White) unit-4	760	**Use for UG practical, ELP, PG research as well as departmental research**
9	Poly cum net house unit-5	400	
	Total Area	5122	

e) Theory and practical batches for the degree program (2024-25):

Table: 6.4.4.3 Theory and practical batches

Sr. No.	Name of the Degree Programme	Semesters	Batch of students in theory class	Batch of students in practical class
1	Vegetable science	2nd (2024-25)	One batch	One batch (Two)
2		4th (2023-24)	One batch	One batch (Two)

6.4.5 CONDUCT OF PRACTICAL CLASSES AND HANDS-ON-TRAINING

Learning materials

6.4.5.1 The faculty have prepared lecture note and practical manuals of each courses of the degree program and distributed to students.

6.4.5.2 The faculty are providing guidance to the students by facilitating information, videos, links through various social media apps like Zoom, WhatsApp, Instagram and other similar apps.

6.4.5.3 List of practical manual

Sr. No.	Course No.	Name of practical manual	Credit
	As per fifth deans committee recommendations		
1	VSC 605	Seed certification, processing and storage of vegetable	2+1
2	VSC 606	Abiotic stress management in vegetable crops	2+1
	As per BSMA		
1	VSC 601	Recent trends in vegetable production	3+0
2	VSC 602	Advances in breeding of vegetable crops	3+0
3	VSC 603	Abiotic stress management in vegetable crops	2+1
4	VSC 607	Biotechnological approaches in vegetable crops	2+1

Practical and Hands-on-Training

6.4.5.4

Students gets the practical exposure in separate laboratory as well as various horticultural farms, nurseries, green house units of each discipline. The students also get exposure by visiting instructional farm and ornamental gardens located at campus.

6.4.5.5

Students are frequently exposed to farm visits in various horticultural farms, nearby farmers' field to study the incidence of various pest and diseases as well as to collect samples. They also interact with the farmers.

6.4.5.6

Visits to various nurseries, agro-based industries, APMCs, co-operative societies, high-tech horticultural farms of progressive as well as various NGOs of state are also arranged to give practical knowledge of the subject. The study tour is also organizing for the visit of industrial orchards like reliance farm- Jamnagar, gala farm-bhuj and ashapura farm-bhuj *etc*.

6.4.5.7 Students are presenting the different seminar relevant to floriculture in front of the faculties and audience, this is a mandatory components of Ph.D. programs. These seminars allow students to present research which engage with faculty, peers, and different research and review findings on specialized subjects within Horticulture. They are critical for skill development and advancing knowledge in the field.

6.4.6 SUPERVISION OF STUDENTS IN PH.D. PROGRAMME:

Ph.D. program, Vegetable Science is offered by Department of Vegetable Science, JAU, Junagadh. The faculties of vegetable science discipline only are also involved in Ph.D. teaching and guiding of students admitted in Ph.D. program at the main campus of JAU. The details of qualified/supervised faculties are given below.

6.4.6.1 SUPERVISION OF STUDENTS IN Ph.D. VEGETABLE SCIENCE PROGRAMME

Department	No. of qualified faculty		No. of students being supervised (guided) by faculty
	Ph.D.	Others if any*	Ph.D.
Vegetable Science	06	00	**05**

Sr. No.	Name of Students	Degree	Subject	Major Guide
Year-2021				
--	--	--	--	--
Year-2022				
--	--	--	--	--
Year-2023				
--	--	--	--	--
Year-2024				
1	H. J. Senjaliya	Ph.D.	Vegetable Science	Dr. K. D. Patel
2	Bhavik Gondaliya	Ph.D.	Vegetable Science	Dr. K. D. Patel
Year-2025				
1	H. V. Vasava	Ph.D.	Vegetable Science	Dr. A. M. Butani
2	Shruti Zankat	Ph.D.	Vegetable Science	Dr. K. D. Patel
3	Dipt Patel	Ph.D.	Vegetable Science	Dr. K. D. Patel

6.4.7 FEEDBACK OF STAKE HOLDERS (STUDENTS, PARENTS, INDUSTRIES, EMPLOYERS, FARMERS *ETC.*):

6.4.7.1 THE ACADEMIC COUNCIL:

It is constituted by University authorities, Deans of all faculties, nominated Professors and Research Scientists of different faculties and renowned academicians are members of academic council. Based on the Board of Study recommendation, the Academic Council takes the decision on academic matter for implementation in the faculty/college.

6.4.7.2 STUDENT ADVISORY COMMITTEE:

It is framed in the college in which four to five mentors are allotted to each student. They are frequently discussing the research problems. The committee also visit student research problem and give important feedback

Visit of Advisory committee to Ph.D. research

6.4.7.3 STUDENT REPRESENTATIVE COUNCIL:

It is working in the college and frequently discussing the teaching and learning process with students, getting their feedback and implementing accordingly

6.4.7.4 GROUP OF SUBJECTS:

This meeting held under Chairmanship of Vice Chancellor /Director of Research /Principal for deciding the present status of courses/contents, implementation and the student's feedback. The recommendation of meeting goes for approval in Board of Studies in which all faculty members discuss about the agenda comes through group of subject meeting (Annexure- **6.4.7.8 to 6.4.7.17**).

6.4.7.5

Suggestions from farmers and parents are valuable for improvement of quality of education and research. Hence farmers' suggestions are also taken by the faculty during interaction with the min *Krishimela*, farm visits *etc*.

6.4.8 STUDENT INTAKE AND ATTRITION IN THE PROGRAM FOR LAST FIVE YEARS

Table: 6.4.8.1 Intake and Attrition

Name of the Degree Program	Year	Actual intake	Admission	Left	Attrition (%)
Ph.D.	2021-22	03	03	--	00
	2022-23	01	01	--	00
	2023-24	02	02	--	00
	2024-25	00	00	--	00
	2025-26	--	--	--	--

6.4.9 ICT APPLICATION IN CURRICULA DELIVERY:

- Students are taught using PowerPoint presentations, multimedia content, and various audio-visual aids to enhance conceptual understanding during lectures and practical sessions.
- The digital classroom is well-equipped with smart boards, high-resolution projectors, audio-visual systems, and video conferencing facilities, which support interactive learning and virtual guest lectures from national and international experts.

- A well-established digital library with multiple computer terminals and high-speed internet connectivity is available, enabling students to access e-books, research journals and online access to journals through the Consortium for e-Resources in Agriculture (CeRA), J-Gate, ASPA Publications, Astral, Science Direct, Krishi Kosh, E- Krishi Shiksha, EBSCOHost a project by ICAR, New Delhi.
- All classrooms, laboratories, and hostels are under CCTV surveillance, monitored in real-time by the Principal for security and discipline.
- The Wi-Fi-enabled campus supports mobile learning through smartphones, tablets, and laptops, allowing students to learn anytime, anywhere.
- Faculty and students are encouraged to use Learning Management Systems (LMS) such as Moodle or Google Classroom for sharing study materials, submitting assignments, conducting quizzes, and facilitating discussions.
- Virtual labs and simulation software are used in practical classes to provide students with hands-on learning experiences, especially for complex experiments.
- Online feedback and assessment tools are utilized for improving the quality of teaching and learning.
- Regular ICT training and orientation programs are conducted for students and faculty to keep them updated with emerging technologies and digital tools in education.

6.4.12 CERTIFICATE

I, Dr. D. K. Varu, Dean, Faculty of Horticulture, JAU, Junagadh is hereby certify that the information contained in the Section 6.4.1 to 6.4.9 are furnished as per the records available in the college and degree awarding university.

(D. K. Varu)
Dean, Faculty of Horticulture
Junagadh Agricultural University
Junagadh

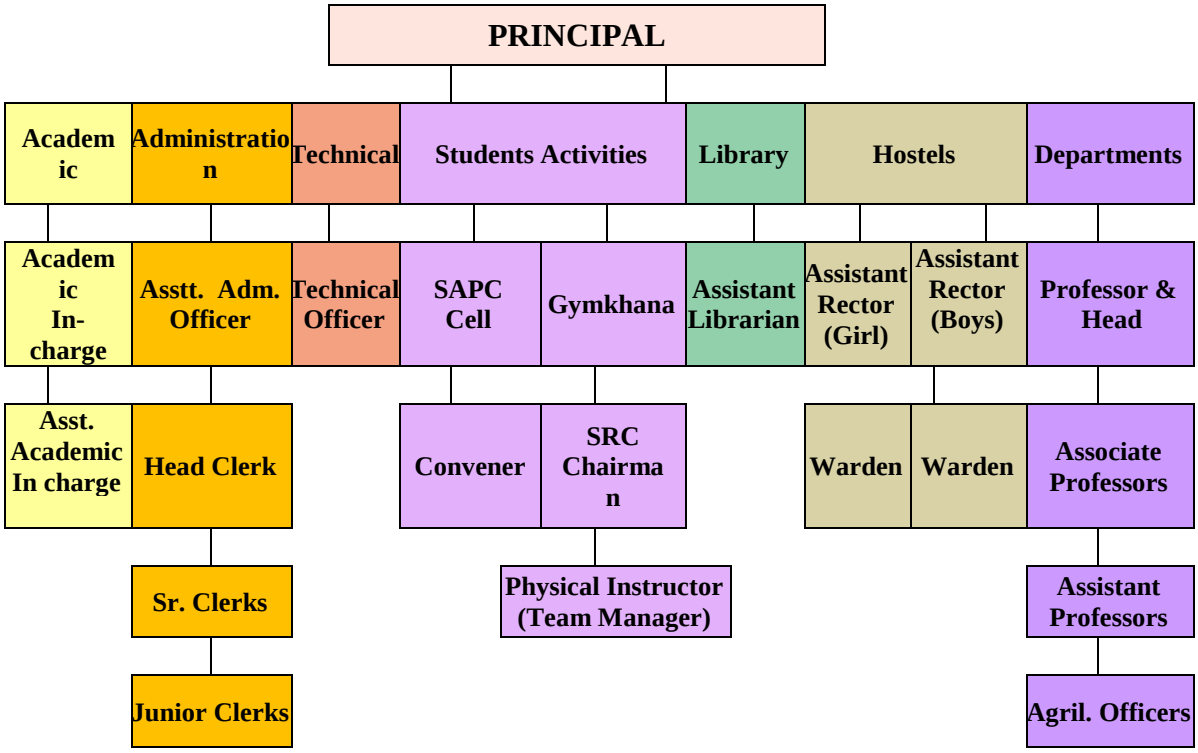
6.5.
Self-Study Report for the College

6.5. SELF-STUDY REPORT FOR THE COLLEGE

6.5.1 COLLEGE ADMINISTRATION

The Dean is the Head of the institution, appointed by the University for a tenure of three years, and he/she will be eligible for second term. The Dean looks after the administration and provides leadership for the overall functioning of the College. He monitors teaching, research and extension programmes of the college in coordination with Director of Research & Dean PG studies in the best interest of the University.

Administrative Structure of College



6.5.1.1 COLLEGE DEAN'S OFFICE ESTABLISHMENT

Principal/Dean post has been sanctioned by	:	Government of Gujarat
Date of selection of the Present Dean	:	01.04.2022
Mode of selection of Dean / Principal	:	Direct Selection (Dean is nominated by Vice-Chancellor on rotation basis for 3 years)
Tenure of Head of the College	:	Four years

Dean's Secretariat

Sr. No.	Name of Staff	Designation	Space (Sq. M.)	Remarks
1.	Prof. Tejal M. chaudhary	TA to Principal	169.33	Computer with internet facility, printer, Telephone with fax machine, A.C., chairs and tables
2	Mr. V. P. Chudasama	P.A.	83.12	Room with all required monitoring system like computer with internet facility, telephone with fax machine, CCTV Camera, LCD T.V., A.C., chairs and tables, waiting room, attached meeting hall are available

Tenure of Principals of Horticulture Wing (College of Agriculture)

Sr. No.	Name of Principal	Designation	Mode of Selection	Tenure
1	Dr. A. V. Barad	Principal	Regular	
2	Dr. M. V.Vaddodariya	Principal	In charge	26.07.2012 to 30.06.2017
3	Dr. B. K. Sagarka	Principal	In charge	01.07.2017 to 31.01.2020
4	Dr. K. A. Khunt	Principal	In charge	01.08.2020 to 31.07.2021
5	Dr. S. G. Savalia	Principal	In charge	01.08.2021 to 12.10.2021

Tenure of Principals of College of Horticulture

Sr. No.	Name of Principal	Designation	Mode of Selection	Tenure
1	Dr. D. K. Varu	Principal	In charge	13.10.2021 to Continue

Email	:	principalcoh@jau.in

6.5.1.2 MONITORING MECHANISM FOR QUALITY EDUCATION

- **Monitoring committee:** Principal of College of Horticulture has formed a monitoring committee for visiting the practical and theory classrooms during the lectures and practical. Committee arrange frequent surprise visit theory and practical classes and report to the Deans' office.

- **Student activities and placement cell (SAPC):** Student activities and placement cell (SAPC) working on different academic activities like, competitive examination, Counselling and planning for mock-interviews, academic club as well as language club.

- **Examination monitoring committee:** Examination monitoring committee (Examination squad committee) also formed to maintain the integrity, security, and transparency during the external examination system in the college.

- **Principal and Dean's visit:** Principal and Dean of the college frequently visiting the classes and interact with the students.

- **CCTV cameras:** All classrooms are equipped with CCTV cameras for efficient supervision of teaching and examinations, and internet access is available round the clock.

- **Virtual class:** College building also possess Virtual class room for online lectures.

- **Various committees:** Various committees like student representative council, student advisory committee, faculty group of subject, anti-ragging committee, gender committee, sexual harassment committee, student discipline committee, SAPC Committee, monitoring committee *etc*. are formulated at college level as a part of monitoring mechanism for quality education and peaceful environment of the college **(Annexure-6.5.1.4 to 6.5.1.14).**

Enhancing the talents through the Clubs: -

- **Academic Club**

The Academic Club at the College of Horticulture, JAU, wants to emphasizes creativity, engagement, and student involvement and aim to ignite curiosity, foster creativity, build leadership skills, and create a vibrant student community beyond the classroom.

- **Language club**

A university language club is a student organization dedicated to enhancing language skills and cultural awareness among the students, usually through interactive and engaging activities. These clubs create a casual atmosphere for practice and learning, distinct from traditional classroom environments, and may concentrate on one specific language.

Main Objectives of this club is Develop student confidence in applying a second language in real-life contexts. Strengthen core language skills: listening, speaking, reading. Encourage respect for various cultures through language. Improve job prospects and communicative effectiveness

- **Competitive Club**

A competitive club provides skill or art based opportunities for students to engage in competitive activities, such as debate, elocution, extempore, speech, essay writing, quiz, drawing, etc. where individuals or teams strive to achieve the same goal, involving skills like communication, problem-solving strategy and rules.

- **JEMs software:** College is also attached with JEMs software of university, which are used for internal as well as external practical and theory mark entry of various subject, preparation of mark sheets/grade sheet *etc*.
- College is participated in various online programme for quality education as well as academic performance, eg., Academic Bank of Credit. Additionally, faculty and students participate in frequently organized webinar at university level under the program TEERTH KCG.

6.5.1.3 CC/BOARD OF STUDIES

College Level Committee:

Various college level committees formed by Principal and Dean for monitoring the education system and solving the issues arise at college level. The list of different committees is given here (**Annexure-6.5.1.4 to 6.5.1.14).**

Sr. No.	Name of Committee	Remark
1.	Student Council/Advisory Committee	Documents are attached in report with various annexure
2.	Anti-Ragging Committee	
3.	Anti-Ragging Squad	
4.	Gender Committee	
5.	Student Discipline Committee	
6.	Class Monitoring Committee	
7.	NSS Advisory Committee	
8.	SAPC Committee	
9.	Sports Advisory Committee	
10.	College Ranking Committee	

Boards of study:

The Board of studies consider and make recommendation to the Academic council on all the matters related to academics for undergraduates as well as post graduates., *viz.*, course of study for the various programmes offered in respective faculty of the University, advise to all questions and queries related to the syllabi for under graduate/post graduate courses and all other functions, referred to it by the faculty. Board of studies also recommend regarding establishment of the new department/abolition/ subdivision or otherwise re-constitution of the existing departments.

Minutes of board of studies meetings (**Annexure-6.5.7.1 to 6.5.7.10**):

Sr. No.	Meeting No & Date	Major Recommendation
1	1st Board of Studies dated 17th May, 2014	• The members of Board of Studies of Horticulture faculty approved the NSS unit in College of Horticulture and recommended for the appointment of Chairman, Student Representative Council of College of Horticulture.
2	2nd Board of Studies dated 4th Dec., 2015	• The members of Board of Studies of Horticulture faculty noted regarding the initiation of ELP course in seven semester and meeting of faculty group of subject in Horticulture.
3	3rd Board of Studies of Horticulture dated 18th April, 2017.	• The members of Board of Studies of Horticulture faculty recommend to the Academic Council to approve the syllabus of 5th Deans' Committee of ICAR with some changes/ modification in Syllabus, Semester-wise course distribution and Credit load for B. Sc. (Hons.) Horticulture course as per Appendix-A, Appendix-B and Appendix-C appended in agenda for its implementation in Junagadh Agricultural University, Junagadh from the academic year 2017-18. • The member of Board of Studies of Horticulture faculty recommend to Academic Council to approve new examination pattern for under graduate programme B.Sc. (Hons.) Horticulture as recommended by 5th Deans' Committee report of ICAR (Appendix-A) for its implementation in Horticulture faculty of Junagadh Agricultural University, Junagadh from the academic year 2017-18.

		• The members of Board of Studies of Horticulture faculty recommend to Academic Council to approve *post-facto* permission to implement student READY programme keeping RHWEP and ELP components with old evaluation system for under graduate programme B. Sc. (Hons.) Horticulture in Horticulture faculty of Junagadh Agricultural University, Junagadh from the academic year 2016-17 and implement Student READY programme as per Appendix-A appended in agenda with new evaluation system from the year2017-18. • The members of Board of Studies of Horticulture faculty recommend Academic Council to declare "Establishment of Horticulture Wing at Junagadh" as College of Horticulture, JAU, Junagadh to work independently.
4	4th Board of Studies of Horticulture dated 4thJuly, 2017.	• The members of Board of Studies of Horticulture faculty recommend to approve formation of different departments in College of Horticulture, JAU, Junagadh from the academic year 2017-18. • Fruit Science • Vegetable Science • Floriculture and Landscape Architecture • Post-Harvest Technology • Plant protection • Basic Science • Natural Resource Management • Social Science • The members of Board of Studies of Horticulture faculty recommend to approve the "Vice-Chancellor Gold Medal" in Horticulture faculty for U.G. programme.
5	5th Board of Studies of Horticulture dated 23rd October, 2019	• The members of Board of Studies of the Horticulture faculty approved the list of external subject experts for the PG thesis evaluation and viva voce examination as well as Ph. D. preliminary viva voce examination for faculty of Horticulture.
6	6th Board of Studies of Horticulture dated 30th March, 2021	• The members of the Board of Studies of the Horticulture faculty are recommended to the Academic Council of university to modify the title of ELP courses of 8th semester as per the 5th Deans committee of ICAR. • The member of Board of Studies of Horticulture faculty recommended to the Academic Council to re-designate the post of principal along with budget details for the College of Horticulture • The member of Board of Studies of Horticulture faculty recommended to the Academic Council to arrange the training/visit for 8th semester UG students to other

		institutions/laboratories/nurseries during their industrial phase of RAWE program • The members of Board of Studies recommend Academic Council to collect the electricity bill/ fees of Hostel of U.G./Diploma and P.G. students by including it in the fee-structure of the university
7	7th Board of Studies of Horticulture dated 25th May, 2022	• The members of Board of Studies recommended the Academic Council to co-opt the five member for faculty of Horticulture College according to new statute for the next two year (01.06.2022 to 31.05.2024) • The members of Board of Studies recommended the Academic Council to approve proceedings of faculty group of subjects • The member of Board of Studies of Horticulture faculty recommended to add NSS unit based on the current undergraduate student enrolment capacity • The members of Board of Studies recommended to the Academic Council to hand over the course work of different subjects for undergraduates as well as Diploma students of the Horticulture to Agriculture officers, Research Associates and Senior Research Fellows working under different budget heads in the College of Horticulture to assist horticulture faculty
8	8th Board of Studies of Horticulture dated 19th May, 2023	• The members of Board of Studies recommended to take a note on the accreditation of the University as well as various colleges of the university. Additionally, recommendation made on take a note on proceedings of the faculty group of subjects of the College of Horticulture for the year 2022-23 • The members of Board of Studies Recommended to consider the foreign visit of ELP students of the eight semesters organized by the ICAR-IDP program • The members of Board of Studies recommended to facilitate online feedback system on University website for students, parents as well as stalk holders • The members of Board of Studies recommended to the Academic Council to approve /update list of subject specialist/ Panel list for prelim/ thesis viva voce as well as thesis evaluation for the P.G. students of College of Horticulture
9	9th Board of Studies of Horticulture dated 20th May, 2024	• The members of Board of Studies recommended to consider minutes for meetings of faculty group of subjects of horticulture faculty held during the academic year 2023-24 • The members of Board of Studies recommended to the Academic Council to consider the foreign training program of NAHEP-IDP as a part of the college curriculum for the students of 7th semester of B.Sc. (Hons.) Horticulture

		• The members of Board of Studies recommended to spread knowledge to about new research, recommendations, and experimental findings from the university among the students enrolled in various subjects during regular teaching • The members of Board of Studies recommended to the Academic Council to assign a research /new experiment to the P.G. student focused on various issues faced by farmers on field level • The members of Board of Studies recommended to observe various committees related to academic as well as extra-curricular activities • Additionally, the members of Board of Studies recommended to add N.S.S. unit (0.5) according to present intake capacity of the students of the College
10	10th Board of Studies of Horticulture dated 11th December, 2024	• The members of Board of Studies of College of Horticulture recommended the Academic Council to co-opt the five member as a Board of studies of Horticulture faculty according to new statute for the period (11.12.2024 to 10.12.2027) of the next three year • The members of Board of Studies recommended the Academic Council for the implementation of 6th Deans' committee in the faculty of Horticulture from the academic year 2024-25 • The members of Board of approved the teaching of 6th Dean committee courses to the first/second sem. (Suppl.) students instead of 5th dean committee courses • The members of Board of Studies recommended the Academic Council to implement UG Articulation Agreement and PG Dual Degree Programme between JAU, Junagadh and WSU, Australia for the students of Horticulture faculty

6.5.1.4 ANTI-RAGGING CELL

As per UGC regulation on curbing the menace of ragging in higher educational institutions, 2009, The College has established the Anti-Ragging cell. Since, commencement to till date not a single event has been reported in the college (**Annexure-** 6.5.1.4).

6.5.1.5 BIOLOGICAL WASTE DISPOSAL FACILITY:

Compost pit Unit

Coconut shredder

A facility for the disposal of non-hazardous biological waste or crop residue is present at the College of Horticulture and on all farms/orchards associated with the College. Biological waste is managed through a decomposition process using the NADEP pit method. A coconut shredder is available to shred dried coconut, banana leaves, papaya leaves, dried grasses, and other crop residue/waste. The shredded materials decompose in a NADEP pit and produce manure from it.

6.5.1.6 INSTITUTIONAL ETHICS COMMITTEE FOR EXPERIMENT ON ANIMALS:

- Not Applicable-

6.5.1.7 COMMITTEE FOR PREVENTION OF SEXUAL HARASSMENT OF WOMEN AT WORK PLACES:

As per the Prevention, Prohibition and Redressal act, 2013, the Gender committee for the prevention of Sexual Harassment of Women at work place has been formed at the college level. Since commencement to till date not a single event has been happened in the college **(Annexure-6.5.1.6).**

6.5.2 FACULTY

College of Horticulture have technical as well as supporting staff. For technical staff total 36 faculties of various discipline are working. Among them, majority of the faculties which are from the sanctioned post. However, the some faculties which are used from the research sector of university as a supporting faculty. Some of the discipline which are also from contractual bases. The details of faculties and supporting staff which are given as below.

6.5.2.1 FACULTY STRENGTH:

Category-wise staff strengths as on 31-03-2025

A: Faculty

Sr. No.	Sanctioned Faculty	Sanctioned posts	Faculty in place	Vacant position	Faculty recommended by ICAR	Faculty recommended by ICAR model act 23

6.5.3 LEARNING RESOURCES:

6.5.3.1 UNIVERSITYLIBRARY (DIGITAL):

The College library is available at College of Horticulture and students are using for various books, journals, thesis, *etc*. However, the campus library is also available as central library with computer and net facility. The details of campus library facilities available in the university are given below which is used by students.

Facilities	
Location of library	Campus library, JAU, Junagadh
Present staff position (in Place)	01
Availability of Wi-Fi	Yes
Books	59509 books
Other reading materials	Newspapers, textbooks, general books, novels, encyclopaedia, competitive exam books, e-journals, e-books, CAB, CeRA, KRISHIKOSH, Agricola, J-Gate *etc*.
Periodicals and research journals	47
Internet with sufficient computers	40
Seating capacity	100
Stocking arrangements	Subject-wise
Volumes of different subjects	Volume 14,600
Publications	-

Automation and user service through computer	KOHA, LIBSYS
Opening hours	8.00 AM to 6.00 PM & 8.00 AM to 6.00 PM for computer cell and 8.00 AM to11.00 PM for reading room
Subscription of journals	Foreign: 67, Indian: 118
Magazines	Various Magazines related to agriculture and allied field has been subscribed by the library

6.5.3.1 COLLEGE LIBRARY:

Facilities	
Location of library	College of Horticulture, JAU, Junagadh
Present staff position (in Place)	01
Books	361
Other reading materials	Thesis (M.Sc.- 400; Ph.D.- 68)
	Newspapers, Journals.
Seating capacity	40
Stocking arrangements	Subject wise
Opening hours	8.00 AM to 6.00 PM

6.5.3.2 LABORATORIES, INSTRUCTIONAL FARM, WORKSHOPS, DAIRY PLANT, VETERINARY CLINIC, HATCHERY, PONDS ETC.:

College of Horticulture possess various laboratories of each department. All laboratories are with full-flagged facilities like seating arrangement, practical tables, white board, LCD projector, instruments required glassware and chemicals *etc*. The computer lab is also established with internet facilities. We have also instructional farm, Nurseries, Greenhouse Units, *etc*. of nearly in 55 hectares land.

Sr. No.	Department	Name of Laboratories	No.	Space (Sq. m.)
1	Fruit Science	UG Lab. for fruit science	1	**73.48**
2	Vegetable Science	UG Lab. for Vegetable Science	1	**73.48**
3	Floriculture and Landscape Architecture	UG Lab. for floriculture (Dry flower)	1	**73.48**
4	Post-Harvest Technology	UG Lab. for post-harvest management	1	**73.48**
5	Plant protection	UG Lab. for Entomology and Pl. pathology	1	**73.48**
6	Basic Science	UG Lab. for Genetics, Physiology, Biochemistry & Biotechnology	1	**73.48**
7	Natural Resource Management	Agro-Met. Observatory (Dept. of Agro.), UG Lab. Soil Science	1	**105.54**
8	Social Science	Audio-Visual lab	1	**619.96**
		Total	8	**587.90**
9	Computer Lab	UG Lab for computer	1	**49.88**
		Total	9	**669.84**
10	Instructional farm	Various orchards/farms like Sakkarbaug, Lalbaug, Madhadibaug, Jambuvadi, *etc.*	1	**50 ha.**

Greenhouse Units

Sr. No.	Green house Unit	Area (sq. m.)	Remarks
Green house unit at College

11	Net house (White) unit-1	760	
12	Poly cum net house unit-2	400	
	Total Area (sq. M.)	**5122**	

6.5.3.3 STUDENT READY/IN-PLANT TRAINING/INTERNSHIP/ EXPERIENTIAL LEARNING PROGRAMS:

a) Experiential Learning Programs (ELP)

- The Experiential Learning Program (ELP) is an integral part of the horticulture curriculum designed to provide students with hands-on, practical experience in real-time agricultural operations. Through this program, students actively participate in the complete cycle of crop production—from sowing, growing and crop management to harvesting and marketing. This not only helps them understand the science behind crop cultivation but also gives them exposure to the business aspects of agriculture.
- In addition to production, students are trained in essential horticultural techniques such as grafting, budding and seedling preparation for various fruit, vegetable and ornamental crops. These skills are crucial for nursery management and commercial plant propagation, which are key areas in the horticulture industry.
- The ELP encourages students to take responsibility for their assigned plots or projects, simulating real-world farming and entrepreneurial conditions. They learn to make decisions, manage resources, and solve practical problems, developing both technical skills and managerial capabilities.
- This comprehensive exposure is highly beneficial for students as it builds confidence, enhances employability, and nurtures an entrepreneurial mindset. Whether they pursue careers in farming, agribusiness, extension services, or start their own horticulture enterprises, the knowledge and experience gained through ELP equips them with the competence and practical wisdom required to succeed in the agricultural sector.

ELP MODULES

Table: 6.5.3.3.1 List of various ELP Module running in 7th Semester (As per 5th dean)

Model No.	Course No.	Title	Credit
1	HWE 7.1	Protected cultivation of high valued horticultural crops	0+10
	HWE 7.1.1	Production of high valued horticultural crops	0+6
	HWE 7.1.2	Post-harvest management of high valued horticultural crops	0+4
2	HWE 7.2	Commercial horticulture	0+10
	HWE 7.2.1	Plant propagation and nursery management	0+6
	HWE 7.2.2	Commercial production of horticultural crops	0+4

Establishment of Dry Flower Technology Unit under ELP

The Dry Flower Technology Unit, an integral part of the Floriculture Laboratory at the College of Horticulture, focuses on the value addition of ornamental crops through the development of dry flower products. Dry flowers have emerged as a sustainable and eco-friendly alternative to fresh flowers, with a longer shelf life, low maintenance and growing demand in domestic and international markets are widely used in interior decoration, floral crafts, souvenirs, festive décor, and aroma-therapy products. Recognizing this market potential, the laboratory emphasizes dry flower technology as a key area of teaching, research, and entrepreneurship development

Establishment and Operational Timeline

The Dry Flower Technology Unit, Department of floriculture & Landscaping, College of Horticulture was formally established with untired efforts of Principal & Dean, College of Horticulture during the academic year 2022-23 with the objective of promoting value addition in ornamental horticulture through scientific processing of floral

Preparation of dry flower products

materials. Initial infrastructure and basic facilities were set up during the establishment phase. Subsequently, significant enhancements in equipment, training modules and product development practices were undertaken.

Products Prepared from Dry Flowers

The Dry Flower Technology Unit has developed a variously aesthetically appealing and commercially viable products using dried flowers, foliage, seed pods, grasses and other ornamental plant parts. These products are designed to cater to both decorative and functional purpose.

Category	Dry Flower Products
Decorative Products	Wall hangings, Wreaths and garlands, Floral frames, Table centrepieces, Door decoration
Floral Art and Crafts	Handmade greeting cards, Bookmarks with embedded dry flowers, Keychains
Home and Interior Décor	Potpourri , Dried flower bouquets, Candle decorations, Lampshades with floral designs
Personal Accessories	Floral jewellery (earrings, pendants,) , phone cover
Seasonal & Festival Items	Eco-friendly Rakhi, Diwali lamp, and puja thali

Student-led Marketing Initiatives

Students actively engage in marketing of dry flower products through multiple channels to develop entrepreneurial skills and practical experience. They promote their products via door-to-door as well as office-to-office visits, creating direct customer contact and building local networks. Additionally, students utilize online marketing platforms such as Instagram (Phulmagic) to reach wider audiences and showcase their product range. Their products are also displayed and sold in local retail shops, enabling market penetration at the community level. Furthermore, students participate in exhibitions and trade fair.

Participated in "consume mela" rotary club, Junagadh with the support of Honra'ble Vice Chancellor and Principal & Dean, College of Horticulture, JAU, Junagadh

Methodology of Dry Flower Product Preparation

The preparation of dry flower products involves the following key steps:

1. **Selection of Material**: Fresh, colorful, pest-free flowers and plant parts are selected based on shape and durability.
2. **Drying Methods**: Flowers are dried using techniques such as air drying, press drying, silica gel drying, hot air oven drying, and microwave drying depending on the type of material. **Pre and Post Treatments**: Materials may undergo bleaching, dyeing, enhance color and flexibility.

Collection of flower materials and drying in silica gel

3. **Design and Assembly**: Dried materials are creatively arranged to prepare products like wall hangings, cards, potpourri, and floral frames using eco-friendly bases.
4. **Finishing and Packaging**: Products are cleaned, trimmed and packed attractively for sale with proper labeling.

Exhibition

A Dry Flower Exhibition was successfully organized at Sardar Patel Auditorium Junagadh Agricultural University, Junagadh on 21st December 2024. During the event, students from the Dry Flower Technology Unit showcased a diverse range of innovative and handcrafted dry flower products. The exhibition attracted considerable attention from visitors, including faculty members, students, local entrepreneurs, and the general public. The quality and creativity of the products received widespread appreciation, resulting in a significant positive response and encouraging potential market opportunities for the students' entrepreneurial ventures.

Exhibition was inaugurated by honara'ble Vice Chancellor, Dr. V. P. Chovatia, JAU, Junagadh

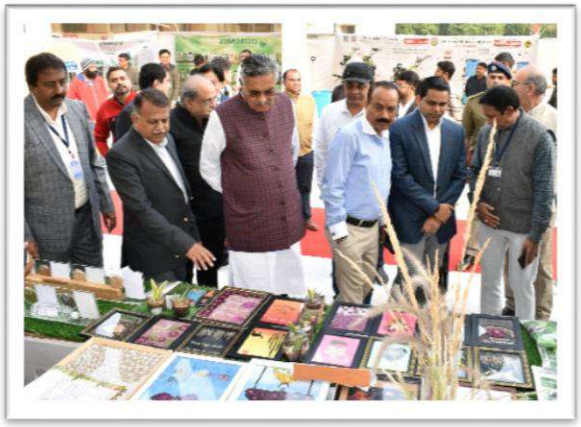
Students express lot of enthusiasm during exhibition

Participation of the College of Horticulture in "*Kisan Kumbh Mela*: 2025"

The College of Horticulture actively participated in the **"Kisan Kumbh Mela: 2025"**, where it was provided a valuable platform to exhibit its innovative range of dry flower products. The stall attracted significant attention from visitors, including farmers, entrepreneurs, who showed great interest in the value-added horticultural items.

Notably, the **Hon'ble Minister of Agriculture** Shree Raghavjibhai Patel also showed keen interest in the dry flower products and appreciated the innovation and aesthetic appeal of products. He also encourage to College of Horticulture to further extend this technology to women farmers through training and capacity-building programs.



***Honra'ble Agriculture minister, shri Raghavjibhai Patel, expressed interest in promoting dry flower products and entrepreneursip in "Kisan Kumbh Mela*: 2025"**

Success Stories due to ELP

1. Success Story of a Student Entrepreneur: Kavisha Vakharia

Miss Kavisha a final-year student of B.Sc. (Hons.) Horticulture, is a shining example of how skill-based learning can translate into real-world success. Inspired by the activities and hands-on training received at the **Dry Flower Technology Unit**, she developed a keen interest in dry flower product design and marketing. During practical sessions, she learned various techniques such as silica gel drying, press drying, and product assembly. Motivated by the overwhelming public response at the **Dry Flower Exhibition held at Sardar Patel Auditorium 21st December 2024**, she decided to start her own small venture from home.

Ms. Kavisha began creating customized dry flower products such as greeting cards, wall frames, and potpourri. She promoted her creations through **Instagram and WhatsApp** and also sold her products through **local gift shops and exhibitions**. Her work was appreciated for its creativity, eco-friendliness and aesthetic appeal.

With the guidance from Honra'ble Vice Chancellor Sir and Principal and Dean, College of Horticulture she stepped into entepreneurship through dry flower products.

2. The Success Story of Mr. Krunal Dudhagara: From Campus to Global Markets:

Mr. Krunal Dudhagara, a proud graduate of the **2022 batch of B.Sc. (Hons.) Horticulture, College of Horticulture, Junagadh Agricultural University**, has emerged as one of the shining examples of how education in agriculture can translate into global entrepreneurship. During his academic journey, Krunal actively engaged in practical training, particularly in **crop production, post-harvest management, and sustainable practices**. These experiences did not just shape his skills—they sparked his vision to connect local farmers with international markets.

Fuelled by this aspiration, Krunal established **Ansuya Impex**, an export-oriented company dealing in fresh fruits, vegetables, and value-added agro-products. With determination and strategic planning, he built strong farmer networks, ensured adherence to international quality standards, and steadily expanded into **global markets across the Middle East and Europe**. What began as a small venture soon transformed into a flourishing enterprise. Today, **Ansuya Impex achieves an annual income of ₹35-40 lakhs**, while also generating employment for rural youth and uplifting farming communities in Gujarat. Krunal credits his success to the **guidance of his faculty mentors** and the supportive entrepreneurial ecosystem at JAU. His journey is a clear reminder that with the right blend of academic knowledge, innovation, and persistence, young horticulture graduates can become **pioneers of agribusiness on the world stage**.

By turning opportunity into achievement, Krunal Dudhagara continues to inspire many, showing that education is not just about learning—it is about **transforming ideas into impactful ventures**.

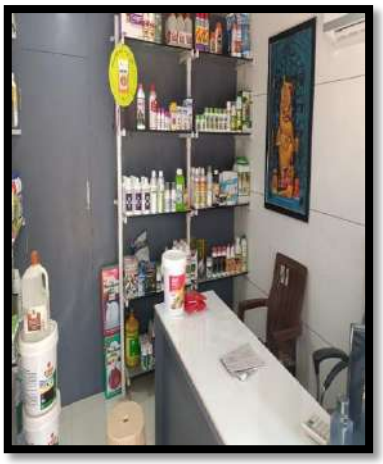
3. Success Story of a Young Agripreneur: Harshil B. Domadiya

Mr. Harshil B. Domadiya, an alumnus of the **College of Horticulture, Batch 2022**, has carved a niche for himself in the agribusiness sector. With a strong academic foundation and the entrepreneurial spirit nurtured during his student days, Harshil ventured into agri-input marketing by establishing his own enterprise, **Vaibhav Agro Seeds**, at Jetpur, Gujarat.

What started as a modest initiative soon flourished into a trusted center for quality seeds and agri-inputs. Farmers appreciated his **reliable products, timely service, and farmer-friendly approach**, which helped him build long-term relationships within the farming community. His ability to blend scientific knowledge with practical solutions has been the key to his growing success.

Today, Vaibhav Agro Seeds records an impressive **annual turnover of ₹40-50 lakhs**, reflecting the dedication, vision, and hard work Harshil has put into his venture. His journey is a testament to how young graduates can become **job creators rather than job seekers**, contributing to both rural prosperity and agricultural development.

By combining professional training, innovative thinking, and strong market understanding, Harshil has emerged as a role model for aspiring agripreneurs, proving that determination and the right guidance can turn opportunities into achievements.



4. Success Story of a Young Agripreneur: Mendapara Chetan Kanjibhai

Mr. Mendapara Chetan Kanjibhai, CEO and Founder of The Mango Mart Pvt. Ltd., has made remarkable strides in the mango processing and marketing industry. With a Bachelor's degree Batch 2020 in Horticulture from Junagadh Agricultural University and currently pursuing his Master's in Post-Harvest Technology at Navsari Agricultural University, Chetan combines academic expertise with a deep passion for agricultural innovation.

Hailing from a farmer's family in Gir-Somnath, Gujarat, Chetan started his entrepreneurial journey by establishing The Mango Mart in 2020 at Evergreen Farm, Jashapur Gir. The enterprise focuses on wholesale and retail production and sale of fresh mangoes, alongside an impressive range of processed mango products, including mango pulp, ripe mango powder, mango nectar, juice, syrup, freeze-dried mango cubes, mango seed kernel powder, and aam churan.

India is the world's largest producer of mangoes, and Gujarat's famous 'Gir Kesar' mango holds a prestigious GI tag. Despite the high production, post-harvest losses in mangoes can reach up to 30%. Recognizing this challenge, Chetan's venture adds value through innovative processing techniques, turning mango pulp preservation into a sustainable solution, thereby reducing wastage and boosting farmers' incomes.

Starting with a startup investment of ₹4,52,000, Chetan's business has shown impressive growth with first-year income of ₹2,50,000 and projected profits reaching ₹1 Cr peryear after two years. The Mango Mart operates both online and offline, delivering fresh A-grade Kesar mangoes and processed products across Gujarat, with

plans underway to expand into export markets. Export now vegetables and flower also in foreign countries.

Chetan attributes his success to the entrepreneurship and business management training provided by Junagadh Agricultural University under the ICAR-NAHEP-IDP program. These programs equipped him with vital skills in market analysis, communication, and business development, enabling him to transform his agricultural background into a flourishing agribusiness.

Today, Mendapara Chetan Kanjibhai stands as a shining example of how scientific knowledge, innovation, and dedication can empower young agripreneurs to create sustainable livelihoods, reduce post-harvest losses, and contribute to the growth of India's mango industry.

તાલાલા પંથકના જશાપુરના યુવાને આ વર્ષે 5 દેશમાં 100 ટન કેરી એક્સપોર્ટ કરી

3 કિલોમાં 12 નંગ કેરી આવે તે મુજબના બોક્સમાં કેરીનું પેકિંગ કરી મુંબઇ અને અમદાવાદ થી એર કાર્ગો મારફત મોકલવાનું શરૂ કર્યું

તાલાલા પંથકના યુવાને વિદેશમાં કેરી મોકલી સારા ભાવ મેળવ્યા હતા અને ગીર-ગુજરાતની કેરીનો સ્વાદ વિદેશીઓને ચખાડયો હતો.તાલાલા તાલુકો કેસર કેરી નો ગઢ ગણાય છે તાલાલા ના જશાપુર ગામ ના ખેડૂત પુત્ર ચેતન ભાઈ મેંદપરા એ અભ્યાસ માં બી.એચ.સી એગ્રી માં માસ્ટર કરી કોર્ઈ એગ્રી ઈન્ડ્રીઝ માં કામ કરવા ના બદલે ગીર ની ઓળખ કેસર કેરી ને વિશ્વ સ્તરે લોકો સુધી પહોંચાડવા નો ધ્યેય બનાવી ' ધ મેંગો માર્ટ ' કંપની બનાવી કેરી એક્સપોર્ટ કરવા માં ઝંપલાવ્યું ત્રણ વર્ષ પહેલા નાના પાયે થી ગીર ની કેસર કેરી ગલ્ફ ના દેશો માં એક્સપોર્ટ કરી પરંતુ યુરોપ ના દેશો માં કેરી મોકલવા નું પ્લાનિંગ કર્યું ત્યાં કેરી ની ક્વોલિટી ના માપદંડ ઊંચા હોય કેરી ને રેડિયેશન પ્રોસેસ કરાવવી પડે જે માટે નવી મુંબઈ કેરી પ્રોસેસ માટે જઈ જઈ પેકિંગ ના પ્લાન બનાવ્યા 3 કિલો માં 12 નંગ કેરી આવે તે મુજબ ના બોક્સ માં કેરી નું પેકિંગ કરી મુંબઈ અને અમદાવાદ થી એર કાર્ગો મારફત કેરી મોકલવા નું શરૂ કર્યું ગીર ની કેસર અમેરિકા, યુ.કે. ઓસ્ટ્રેલિયા,કેનેડા,જ ર્મની,આફ્રિકા માં મોકલી ત્યાં કેરી ના સ્વાદ થી ક્રિયાન્ડ વધવા લાગતા રત્નાગિરિ હાફૂસ અને વલસાડી હાફૂસ પણ પ્રોસેસ કરી મોકલી હતી આ બધા દેશો માં કેરી નો સ્વાદ છેક સુધી ઉપલબ્ધ કરાવવા કેરી ની સિઝન માં છેલ્લે આવતી કચ્છ ની કેસર પણ એક્સપોર્ટ કરી હાલ કેરીનો છેલ્લો લોટ મોકલવા માં આવ્યો છે ચાલુ વર્ષે 5 થી વધુ દેશો માં 100 ટન કેરી એક્સપોર્ટ કરી વિદેશ માં કેરી નો સ્વાદ ચખાડયો છે.

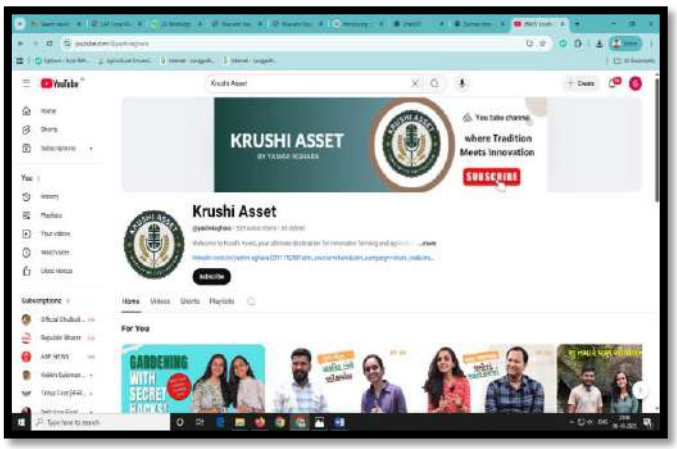
5. Success Story of a Young Agri-Influencer: Yashvi Aghara

Ms. Yashvi Aghara, a 2025 graduate of the College of Horticulture, Junagadh Agricultural University, represents a new generation of agri-entrepreneurs who are blending technology, creativity, and agricultural science to inspire youth towards innovative farming.

Hailing from Morbi, Gujarat, Yashvi is a passionate horticulturist, content creator, and startup leader dedicated to promoting modern agricultural practices and agribusiness innovations. With strong skills in communication, leadership, and problem-solving, she has successfully built a digital platform that bridges the gap between farmers, students, and agripreneurs. In August 2024, Yashvi launched her

YouTube channel "Krushi Asset," where she creates and edits educational videos showcasing innovative agricultural practices, agri-startups, and emerging trends in the horticulture sector. Through engaging content and live podcasts, she connects with agri-entrepreneurs, researchers, and progressive farmers, making agriculture more accessible and aspirational for young minds. Her channel not only spreads awareness but also generates income through digital media — a remarkable example of combining knowledge and entrepreneurship.

During her academic journey, Yashvi also demonstrated exceptional leadership. As a Team Leader for the *"Phool Magic"* project under the Experiential Learning Programme (ELP) in 2024, she guided her team in creating and marketing innovative dry flower products. This experience enriched her understanding of product development, business management, and teamwork. Later, she joined AgriPath Global as a Human Resource Intern (Sep–Nov 2024), where she gained hands-on experience in talent acquisition and organizational development, further sharpening her managerial skills. Today, Yashvi Aghara stands as a symbol of digital innovation in agriculture. By integrating science, storytelling, and entrepreneurship, she is inspiring a new generation of youth to view agriculture not just as a traditional occupation but as a vibrant and profitable career path. Her journey from a horticulture student to a successful agri-content creator and live podcaster exemplifies how creativity and technology can transform the future of Indian agriculture.



Glimpses of Experiential Learning Program

Experimental learning program (ELP)-2021-22

Experimental learning program (ELP)-2024-25

b) Rural Horticulture Work Experience Programme (RHWEP)

Indian Council of Agricultural Research (ICAR), under the Fifth Deans' Committee recommendations, introduced the Rural Horticultural Work Experience (RHWE) as a component of the Student READY (Rural Entrepreneurship Awareness Development Yojana) programme."

The Rural Horticultural Work Experience (RHWE) is undertaken by students of B.Sc. (Hons.) Horticulture during the **VIII semester**. It spans **24 weeks** with a credit weightage of **0+20** and is divided into two main parts: **RHWE** and **Industrial Placement.**

The RHWE component includes six key phases:

1. **RHWE 8.1: Orientation Programme Phase:** Introductory sessions to prepare students for fieldwork.
2. **RHWE 8.2: Educational Tour:** Exposure to successful horticultural practices and institutions.
3. **RHWE 8.3: Village Phase:** Hands-on experience in rural settings to understand grassroots horticulture.
4. **RHWE 8.4: Research/KVK Phase:** Training at research stations or Krishi Vigyan Kendras to link science with practice.
5. **RHWE 8.5: Horticultural Industrial Phase:** Visits to processing units, nurseries and progressive farms for practical insights.
6. **RHWE 8.6: On -Campus Training Phase:** Skill development through structured training sessions at the college/university.

Key objectives of RHWE:

- Understand rural horticultural systems and related activities.
- Study farmers' socioeconomic conditions and horticultural challenges.
- Gain hands-on diagnostic and problem-solving experience in the field.
- Build confidence and competence in addressing horticultural issues.
- Practice crop production through experiential learning.
- Explore integrated agriculture systems (crop, livestock, agro-industries, *etc.*).
- Get exposure to research methods, data collection and analysis techniques.
- Learn about ongoing rural and extension programmes.

Expected Outcomes of RHWE

- Through the Rural Horticultural Work Experience Programme, students gain more than field knowledge.
- They build skills in relationship management, negotiation and conflict resolution."
- They observe problems and understand rural life.
- They engage with local leaders, gain confidence and develop personality."

- Above all, RHWE shapes students to perceive, understand and respond to rural realities with purpose.

During the final year of B.Sc. (Hons.) Horticulture programme, Rural Horticultural Work Experience (RHWE) is in the 8th semester, which is comprised of various phase for technological exposures along with educational tour of 14 days in one states. Students have also practical exposure to various phase like Orientation, Village, Research and KVK, Horticultural Industrial Phase and On Campus Training Phase. The students are placed in each phase during RHWE. During RHWEP, the students are also visited to progressive farmer's field & NGOs of the state, different research activities of SAUs as well as various horticulture based industries of the state and project preparation, data compilation, report submission, examination and other related works.

Through this phase, students have developed enterprise management capacity and developed their skill and knowledge apart from developing confidence for handling of the project. The details of RHWE programme is given as under subject to change in days every year based on all necessary factors for planning and implementation.

Title of course and allotment of credits

Sr. No.	Course No.	Title	Credit
1	RHWE 8.1	Orientation programme phase	0+2
2	RHWE 8.2	Educational tour	0+2
3	RHWE 8.3	Village phase	0+3
4	RHWE 8.4	Research/ KVK phase	0+5
5	RHWE 8.5	Horticultural Industrial phase (Processing unit, nurseries, progressive farms, *etc.*)	0+3
6	RHWE 8.6	On campus training phase	0+5
			0+20

Phase wise distribution of working days

No.	Course No.	Credit	Working days	Saturday & Extra work	Holidays	Project preparation and presentation	Total days
1	RHWE 8.1	0+2	10	1	3	5	19
2	RHWE 8.2	0+2	14	0	1	5	20
3	RHWE 8.3	0+3	14	2	3	5	24
4	RHWE 8.4	0+5	24	2	7	5	38
5	RHWE 8.5	0+3	14	2	3	5	24
6	RHWE 8.6	0+5	24	2	7	5	38
		0+20	**100**	**09**	**24**	**30**	**163**
Note: The schedule is a tentative/proposed distribution of working days for the RHWE programme. The schedule may slightly vary each year based on academic calendar adjustments, availability of facilities and administrative considerations.							

RHWE 8.1: Orientation programme phase

The Orientation Programme phase of the Rural Horticultural Work Experience Programme (RHWEP) aims to prepare students for effective participation in the field phase. Students are introduced to the objectives, coordination and components of RHWEP, including project report preparation, evaluation methods and maintenance of daily diaries. They receive guidance from RHWE teachers and visit various research stations, training centres, nurseries, seed production units and laboratories such as tissue culture, biotech, bio-control laboratory and other relevant labs. These visits help students understand experimental methodologies, research achievements, extension activities and the commercial production of horticultural crops, cereals, oilseeds *etc*. Students also gain exposure to the status of horticultural crops in terms of area, production, productivity, cost and export-import aspects.

Students were briefed and taken on exposure visits across various departments including

- Agricultural Extension, Agricultural Engineering, Agricultural Economics, Plant Pathology, Agricultural Entomology, Agricultural Chemistry, Genetics and Plant Breeding, Department of Biotechnology, Agricultural Statistics, Seed Science and Technology and Agronomy, IDP Laboratory and Department of Processing.

- They also visited specialized research stations such as the Oilseeds Research Station, Cotton Research Station, Pulse Research Station, Wheat Research Station as well as Central Museum.

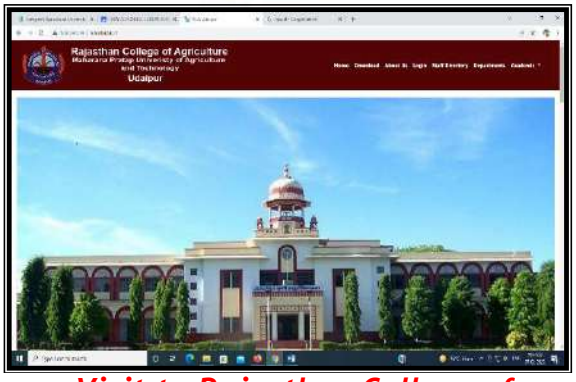
RHWE 8.2: Educational Tour (Gujarat state and other states of India)

The Educational Tour under RHWE Programme is designed to expose students to regional and national-level horticultural as well as agricultural research stations, training institutions, non-governmental organizations and progressive farmers' fields within Gujarat and neighbouring states. The primary aim of this tour is to help students understand new areas of work, develop a broader outlook and build the confidence needed to pursue independent ventures in the future. This exposure helps students in analysing both local and external horticultural/agricultural situations and practices, enhancing their ability to make informed decisions.

During the tour, students follow the principle of "seeing is believing," allowing them to gain practical knowledge through direct observation and interaction. The daily diary should include details of the places visited, key discussions held and personal experiences or learning outcomes. This tour plays a vital role in shaping the students' entrepreneurial mindset, visioning abilities and practical understanding of the horticultural/ agricultural sector, ultimately preparing them to take initiatives in their professional careers.

Sr. No.	Year	Places visited
1	2021-22	Because of COVID-19, the educational tour from Junagadh to northern states of India planned during January 2021 for VIII Semester B.Sc. (Hons.) Horticulture students was conducted online and reported.
2	2022-23	Owing to the COVID-19 pandemic, the planned educational tour from Junagadh to Rajasthan, Delhi, Punjab and H.P. was conducted online, covering Universities, industries and progressive farms.
3	2023-24	1. Visit to Anand Agricultural University, Anand, Gujarat. 2. Visit to Navsari Agricultural University, Gujarat. 3. Visit to Waghai Botanical Garden, Dand, Gujarat. 4. Visit to Waghai Agriculture College and Farm. 5. Visit to GMPB, Govt. Medicinal Plants Garden, Saputara. 6. Visit to Progressive Farmer, Vani, Nashik, Maharashtra. 7. Visit to Sula Vineyards, Nashik, Maharashtra. 8. Visit to ICAR- Directorate of Onion and Garlic Research, Nashik, Maharashtra. 9. Visit to ICAR-National Research Centre for Grapes, Pune, Maharashtra. 10. Visit to College of Agriculture, Pune, and ICAR-Directorate of Floricultural Research, Pune, Maharashtra. 11. Visit to Saras Baug, Pune, Maharashtra (Landscaping Garden).

		12. Visit to Mapro Garden and Strawberry Orchard, Mahabaleshwar, Maharashtra. 13. Visit to College of Agriculture, Dapoli, Maharashtra. 14. Visit to Vengurla Regional Fruit Research Centre, Vengurla, Maharashtra. 15. Visit to ICAR - Central Coastal Agricultural Research Institute, Goa. 16. Visit to Rajarshee Chhatrapati Shahu Maharaj College of Agriculture, Kolhapur, Maharashtra. 17. Visit to College of Horticulture, Parbhani. 18. Visit to Jain Irrigation, Jalgaon, Maharashtra.
4	2024-25	1. Anand Agricultural University, Anand, Gujarat. 2. Maharana Pratap University of Agriculture and Technology, Udaipur, Rajasthan 3. Rajasthan Agricultural Research Institute, Durgapura, Jaipur, Rajasthan 4. Indian Agricultural Research Institute, Pusa, New Delhi 5. Dr. Y. S. Parmar University of Horticulture and Forestry, Nauni, Himachal Pradesh 6. Directorate of Mushroom Research, Solan, Himachal Pradesh 7. Krishi Vighyan Kendra, Solan, Himachal Pradesh 8. Punjab Agricultural University, Ludhiana, Punjab 9. Central Institute of Postharvest Engineering and Technology, Ludhiana, Punjab 10. Swami Keshvanand Rajasthan Agricultural University, Bikaner, Rajasthan 11. Central Institute for Arid Horticulture, Bikaner. 12. Agriculture Technology Information Centre, Jodhpur.
5	2025-26	1. Anand Agricultural University 2. Maharana Pratap University of agriculture & technology, Udaipur 3. ICAR- NRC on Seed Spices research Institute- Ajmer 4. Rajasthan Agricultural Research Institute, Durgapura, Jaipur 5. IARI, Delhi (Indian Agricultural Research Institute) 6. Centre of Excellence for Vegetables, Karnal 7. ICAR-Central Potato Research Institute, Kufri – Fagu unit 8. Directorate of Mushroom Research, Chambaghat- solan 9. Dr. Yashwant Singh Parmar University of Horticulture & Forestry, Nauni 10. Punjab Agricultural University (PAU), Ludhiana 11. Central Institute of Post-Harvest Engineering, Ludhiana 12. Krushi Vigyan Kendra (KVK), Amritsar 13. Krushi Vigyan Kendra (KVK), Hanumangarh 14. Swami Keshwanand Rajasthan Agricultural University, Bikaner 15. CAZRI- Jodhpur 16. College of horticulture- Jagudan



Visit to Rajasthan College of Agriculture, Udaipur, Rajasthan

Visit to HAU, Hissar

Visit to Krishi vigyan Kendra, Sirohi

Visit to RARI, Durgapura, Jaipur

Visit to Centre for Protected Cultivation Technology, IARI, New Delhi

Visit to Agricultural Research Institute (ARI), Jaipur

Low tunnel techniques

Agril. museum at MPUAT, Udaipur

Visit of institute of rapeseed mustard research station, Bharatpur (Rajsthan)

Visit to Division of Entomology, IARI, New Delhi

Visit of Centre of Excelense for vegetale at Gharunda (Karnal)

Visit of ICAR-Central Potato Research Institute Kufri-Fagu unit

Visit at Dr. Y.S. Parmar University of Horticulture and Forestry, Solan (HP)

Visit of CIPHET, Punjab

Visit of Directorate of Mushroom Research, Solan (HP)

Visit at Krushi Vigyan Kendra, Sangariya

RHWE 8.3: Village Phase

The Village Phase of the RHWE Programme is designed to provide students with hands-on rural experience across various horticultural/ agricultural disciplines. During this phase, students engage in general orientation, crop surveys and interaction with farmers to understand the cultivation practices of horticultural and agronomical crops. Emphasis is placed on identifying crop production and protection issues, soil and water-related problems, use of fertilizers and organic manures, irrigation methods and awareness of testing practices. Students also explore interventions in plant protection, food processing, storage and animal husbandry. They participate in group meetings with farmers to discuss field-level challenges and gather information on farm income, socio-economic conditions and local infrastructure such as schools, cooperative societies and other facilities. This immersive experience builds awareness of indigenous practices and the constraints faced by farmers in adopting modern technologies.

The village phase helps students apply theoretical knowledge in real-life farming situations and develop a deeper understanding of rural life. Through direct interaction, they learn to assess cost of cultivation, analyse farmers' knowledge and adoption of recommended practices and evaluate the use of improved implements, varieties and mechanization. Students also gain insight into dairy farming operations, feeding practices, breeding and milk economics. The phase encourages students to carry out extension activities, offer appropriate recommendations and document their experiences and learnings in a daily diary. Overall, the village phase strengthens the students' practical skills in crop and animal production, plant protection and rural extension, while shaping their ability to analyse farming systems and propose relevant solutions to farming communities.

Sr. No.	Year	Villages visited			
1	2021-22	Mandorana, Tal: Talala, Dist: Junagadh			
2	2022-23	Group No.	Village Name	Taluka	District
		1	Madhavpur	Porbandar	Porbandar
		2	Loej	Mangrol	Junagadh
		3	Samdhiyala	Mendarda	Junagadh

		2	Vadal	Junagadh	Junagadh
		3	Kathrota	Junagadh	Junagadh
		4	Bodka	Vanthali	Junagadh
		5	Juna Devaliya	Halvad	Morbi
		6	Bagdana	Mahuwa	Bhavnagar
		7	Ambaliya Ghed	Manavadar	Junagadh

Ratri Krushi Shibir organized by UG students of College of Horticulture, JAU, Junagadh under RHWEP during the village phase at Mandorana village, Taluka Talala

Visit to Organic Rose Farm at Kathrota Village, Ta. Junagadh

Students at sesame farm, Vadal Village, Taluka & District Junagadh

Visiting pomegranate orchard at Vadal village, Junagadh

Visiting farmer field at Junadevaliya, Halvad

Visiting vegetable growing farmer at patapur village, ta.Junagadh

Field visit and farmer meet to progresive farmer at Ratang, Taluka Visavadar

Village stay at Prasli,Taluka Keshod, District Junagadh

Students at Jamka village, Taluka and District Junagadh

Students at Shapur village of taluka and district Junagadh

Students at Savarkundla Village of taluka and district Amreli

RHWE 8.4: Research/ KVK phase

During the Research/KVK Phase of the 8th semester RHWE Programme, students are placed at various research stations and Krishi Vigyan Kendras (KVKs) of university to gain practical experience in research and extension activities. At the research stations, students learn about ongoing experiments, observation recording and data analysis. They are introduced to the station's objectives, methodologies, administrative setup and research outputs. Exposure to different crops, package of practices and recent advancements in horticultural research enhances their practical understanding. Participation in demonstrations and field trials enables students to develop confidence and capacity for scientific investigation while also learning about the station's role in farmer development.

At KVKs, students observe and participate in various extension and training activities aimed at technology transfer. They gain insights into the working pattern of KVKs, their main objectives and their efforts to bridge the gap between research and farming communities. By attending demonstrations, training programs and field

visits, students understand practical approaches to disseminating agricultural innovations. This phase also provides experience in addressing farmers' issues, planning outreach activities and implementing location-specific solutions. Overall, this exposure strengthens the students' skills in both research and extension, building their ability to contribute effectively to horticultural development and rural transformation.

Krushi Vigyan Kendra & Research Station Phase

Visit at Agro Based I.T.I., ARS (Fal Pako), JAU, Mahuva

Visit at K.V.K, J.A.U., Pipaliya

Visit to COE for Mango at Talala

Visit of Krushi Vigyan Kendra, Khapat

Attanding lecture at Krushi Vigyan Kendra, Khapat

Attanding practical at KVK, Khapat-Porbandar

Visit to new varam baug nursery at Mangrol

Visit to Aspee CoA,Khapat

Lecture session at KVK, Kodinar

Visit to KVK, Khapat

Visit to Fruit Research Station at JAU Mangrol

RHWE 8.5: Horticultural Industrial phase

During the Horticultural Industrial Phase of the RHWE Programme in the 8th semester of B.Sc. (Hons.) Horticulture, students are placed in various agro-industries, processing units, nurseries, landscape companies, tissue culture production units, flower decoration, NGOs, progressive farms, *etc*. This phase provides practical exposure to fruit and vegetable processing units, oilseed and cereal industries, dehydration plants, spice and medicinal crop processing, fertilizer

companies and cold storage units. Students also visit seed production companies, marketing yards, co-operative societies and agro-service centres. Through interactions with personnel and hands-on experiences, students gain insights into organizational structures, product lines, market dynamics and the role of these industries in agricultural development and rural upliftment.

In addition to technical exposure, students learn about project planning, organizational management, agricultural finance, marketing systems and database management. They also understand aspects such as coordination, staffing, budgeting and teamwork in real-world settings. Daily diaries are maintained to document visits, personnel interactions, observations, and key takeaways from different agro-industrial setups. This phase enhances students' skills in problem-solving, conflict management and working with local leaders and institutions. It fosters confidence and equips them with knowledge essential for entrepreneurship, agribusiness development, and contributing to the growth of the rural economy.

RHWE Programme, Industrial Phase

Hi-techNursery,Majevdi, Junagadh

BAIF Campus, Lachhakadi, Dang

Training at Uma Biotech Tissue culture Lab, Mahesana

Training on event management in Shyam Flowers, Junagadh

Training at Relince Industries Ltd., Jamnagar

Training at mango processing unit

Training in Guava processing Unit

Training at seed production Unit

Mushroom at BAIF, Lachhakadi

Training on pickle unit at BAIF, Lachakdi

Training at Ambuja Nursery, Kodinar

Training at cocopeat preparation unit, Ambuja, Kodinar

Traning at Agro centre, Junagadh

Training in Mango Nursery Anil farm, Talala

Students are working at J. K. frozen food, Mendarda, Junagadh

Training in event management Shyam flower Pvt. Ltd., Junagadh

Training for landscape gardening at Green tech garden, Ahmedabad

Training on vertical gardening

Training on Hi-tech horticulture nursery at Talala

Students are working at Shreenathji seed Pvt. Ltd., Makhiyala, Junagadh

Garden Giver nursery, Junagadh

Students are working at Garden centre nursery, GIDC, Bardoli

Students are working at Madhuvanti Farm, Junagadh

Training in Hi-tech Nursery, Bhavnagar

RHWE 8.6: On campus training phase

During the On-Campus Training Phase of the RHWE Programme, students of B.Sc. (Hons.) Horticulture receive hands-on training at various university units such as bio-agent production units (*Beauveria bassiana* and *Trichoderma*), tissue culture labs, nurseries, seed production centers and soil analysis laboratories. They are also trained in fruit and vegetable processing, farm machinery handling and bio-fertilizer production.These experiences provide in-depth knowledge of laboratory procedures, production techniques and the operation of specialized units within the university. The training enhances students' understanding of the technical aspects of horticulture, while also improving their confidence and practical skills.

During this phase, on-campus training sessions were organized on various topics, covering both technical knowledge and skill development with a special focus on enhancing students' personalities and overall competence. Following is the list showing the various topics of training during on campus training phase.

Speaker	Designation	Topic
Shri Praveen Joshi	MD, Yogi Foods Pvt. Ltd.	Inspiration from history and success of Yogi Foods Pvt. Ltd.
Dr. D. M. Jethva	Associate Professor, Agril. Entomology	Biological control of insect and pest in horticultural crops
Dr. Rajiv Kumar	Assistant Professor, Dept. of GPB	Advancement of tissue culture in horticulture crops
Dr. V. M. Bhatt	Retd. Associate Professor, JAU	Go Ahead: Motivational Lecture
Dr. C. M. Bhaliya	Assistant Professor, Dept. of Plant Pathology	Biopesticide and Biofertilizer Production Technology
Dr. K. D. Shah	Assistant Professor, Agril. Entomology	Scientific beekeeping, its importance and role in horticultural crops
Dr. S. J. Sindhi	Assistant Professor, Dept. of Agronomy	Natural farming – A new direction for Indian agriculture
Miss. P. I. Jetpara	Assistant Professor, Soil Science	Irrigation water analysis techniques and water quality assessment
Prof. G. D. Gohil	Assistant Professor, CAET, JAU	Fundamentals and Application of AI in horticultural crops
Dr. S. B. Chaudhary	Assistant Professor, Dept. of GPB	Biodiversity of botanical garden of JAU

Dr. C. A. Babariya	Assistant Professor, Seed Sci. & Tech.	Seed production technology of horticultural crops
Dr. M. K. Ghelani	Assistant Professor, Agril. Entomology	IPM in horticultural crops
Dr. G. V. Prajapati	Associate Professor, REE, CAET	Role of plastic in horticulture
Dr. J. D. Talaviya	Assistant Professor, Dept. of Plant Pathology	Mushroom production technology
Dr. L. C. Vekariya	Assistant Professor, Soil Science	Hazards of soil salinity and its management in horticultural crops
Dr. Pinki Sharma	Assistant Professor, CRS, Agrisnet Studio	Role of Community Radio Station in Agriculture
Shri Jaydip Chauhan	Agriculture Officer, FTL, Dept. of State Agriculture	Entrepreneurship through agricultural input retail business
Dr. Manish Sapovadiya	Assistant Professor, Dept. of GPB	Backcross breeding for the improvement of vegetable crops
Prof. P. R. Davara	Assistant Professor, PFE, CAET	Processing in fruits and vegetables
Dr. Chandrakant Singh	Assistant Research Scientist, Wheat Research Station	Post-harvest physiology in horticultural crops
Dr. S. R. Jadeja	Agricultural Research Scientist, VRS	Vegetable seed production
Dr. Bansee Devani & Prof. V. P. Sangani	PFE, CAET	Value addition in fruits and vegetables
Dr. S. V. Lathiya	Assistant Professor, Dept. of Plant Pathology	Important diseases and their integrated management in horticultural crops
Shri R. K. Rathod	KVK, Kodinar	New approaches in IPM & IDM in horticultural crops
Dr. Bhagirath Gohil	Assistant Professor, Dept. of Agronomy	Weed management in horticultural crops
Dr. B. Swaminathan	Assistant Professor, Agril. Economics	Market intelligence and price forecasting of horticultural crops
Dr. Ashish Vala	Assistant Professor, Bio Technology	Commercial plant tissue culture
Shri Jaydip U. Chauhan	Inspector, GOPCA, Junagadh	Agril. Input retail entrepreneurship
Shri Nayan K. Godhaviya	CEO, Nanobee Innovations, Rajkot	NanoBee Innovations
Dr. C. M. Bhaliya	Assistant Professor, Dept. of Plant Pathology, COA, JAU, Junagadh	Bio pesticide and Bio fertilizer production technology

Dr. Pinki S. Sharma	Assistant Professor, CRS-Agrisnet Studio, JAU, Junagadh	Role of Community Radio Station in Agriculture
Dr. S. J. Sindhi	Assistant Professor, Dept. of Agronomy, COA, JAU, Junagadh	Natural farming - A new direction for Indian Agriculture
Dr. Viral P. Joshi	Assistant Professor, Renewable Energy Engineering, CAET, JAU, Junagadh	Mitigating climate change through Greenhouse Farming
Dr. M. K. Ghelani	Assistant Professor, Dept. of Agril. Entomology, COA, JAU, Junagadh	IPM in Horticultural Crops
Dr. Sanjay Cholera	Associate Professor, Renewable Energy Engineering, CAET, JAU, Junagadh	Role of plastic in horticulture
Shri Vipul B. Suriya	CEO, Kheti Dekho, Junagadh	Kheti Dekho
Dr. J. D. Talaviya	Assistant Professor, Dept. of Plant Pathology, COA, JAU, Junagadh	Mushroom production technology
Shri Pradip D. Kalariya	Soil Testing Laboratory, APMC, Gondal	Plant Agri Clinic
Shri Darshak D. Donga	Decora Fortune, Rajkot	Agril. entrepreneurship
Dr. S. B. Chaudhary	Assistant Professor, Dept. of Genetics & Plant Breeding, COA, JAU, Junagadh	Biodiversity of botanical gardens of JAU
Dr. P. R. Davara	Associate Professor, Process & Food Engineering, CAET, JAU, Junagadh	Processing in fruits and vegetables
Dr. B. Swaminathan	Assistant Professor, Dept. of Agril. Economics, COA, JAU, Junagadh	Market intelligence and price forecasting of horticultural crops
Dr. S. V. Lathiya	Assistant Professor, Dept. of Plant Pathology, COA, JAU, Junagadh	IDM in Horticultural crops
Shaktisinh V. Jadeja	Progressive Farmer, Laksh Gau Farm, Gondal	Laksh Farms
Dr. H. P. Dholariya	Associate Professor, Agril. Chemistry & Soil Science, COA, JAU, Junagadh	Soil salinity
Dr. Sagar V. Kelaiya	Assistant Professor, Renewable Energy Engineering, CAET, JAU, Junagadh	Hydroponics System

Dr. Viral P. Joshi	Assistant Professor, Renewable Energy Engineering, CAET, JAU, Junagadh	Agro voltaic System
Shri Ajay M. Lunagariya	Owner & Director, Ozat Agrotech Pvt. Ltd, Gondal	Ozat Spices
Niraj Marathe	CEO, Coolcrop Technologies Pvt. Ltd., Vadodara	Cool Crops Pvt. Ltd.
Brijesh B. Kalariya	Founder & CEO, Innovative Future Farms, Gondal	Innovative Feature Farming
Nirav V. Kikani	Director, Herbaldreams Seeds & Biotech, Kardej, Sihor, Bhavnagar	Herbal Dreams Seeds & Biotech
Chetan K. Mendapara	Founder, The Mango Mart & Director, Hortica Farms, Jasapar, Talala	Export of Agril. Commodity
Dr. Rajiv Kumar	Assistant Professor, Dept. of Genetics & Plant Breeding, COA, JAU, Junagadh	Advancement of tissue culture in horticulture crops

Lecture Deliver by Shri Praveen Joshi, Yogi foods Pvt. Ltd.

Lecture Deliver by Prof. G. D. Gohil on Fundaments of A I

Brainstorming session by Prof V. M. Bhatt on "Go Ahead"

Lecture by Prof. G. D. Gohil on AI.

Lecture by Shri R. T. Rathod, Scientist, KVK Kodinar

Shree Jaydip Chauhan, Agri. Office, State Department

Shree Nayan Godhaviya, Nanobee Innovation, Rajkot

Shree Nayan Godhaviya, Nanobee Innovation, Rajkot

Shree Vipul Suriya, Kheti Dekho app

Dr. J. D. Talaviya, Dept. of Pl. Patho., JAU- Mushroom production technology

Shree Shaktisinh Jadeja, Laksh Farms- Natural Farming

A token Appreaciation to Shree Shaktisinh Jadeja, Laksh Farms

Ajay Lunagariya- Ozat Spices

6.5.3.4 CURRICULA DELIVERY THROUGH IT (SMART CLASSROOMS / INTERACTIVE BOARD, etc.)

The college ensures effective curricula delivery through the integration of Information Technology (IT) in teaching and learning processes. Lectures and practicals are conducted using Power Point presentations and various audio-visual aids to enhance student understanding. A dedicated digital classroom is equipped with modern teaching tools, including audio-visual aids and video conferencing facilities, which are actively utilized by both faculty and students.

A digital library with internet-enabled computers is available for students to access e-resources, journals and other academic materials. Additionally, round-the-clock internet access is provided at the students' hostels to facilitate continuous

learning. As and when required, the teaching process seamlessly shifted to online platforms such as Google Meet and Zoom. Faculty members conducted virtual lectures and shared learning materials including notes, videos and power point presentations (PPT).

The college also has a Virtual Classroom facility, which is used for recording online video lectures. These recorded lectures are regularly uploaded to the ICAR portal, making them accessible not only to students of the college but also to those enrolled in other State Agricultural Universities (SAUs) and ICAR institutions across the country.

6.5.4 STUDENT DEVELOPMENT:

6.5.4.1 Student Intake and Attrition:

Degree	Actual student admitted in last five years				Attrition (%)			
U.G./P.G.	2021-22	2022-23	2023-24	2024-25	2021-22	2022-23	2023-24	2024-25

Note:

1. Admitted B. Sc. (Hons.) Horticulture: 11* dropout students are admitted in special case during year of 2024-25 under sixth dean committee

6.5.4.2 Average Number of Students in Theory and Practical Classes:

Sr. No.	Name of the Degree Programme	Batch year	Even semesters 2024-25		
			Semesters	Batch of students in theory class	Batch of students in practical class
1	U.G.	2024-25	2nd	103	52
2		2023-24	4th	71	36
3		2022-23	6th	77	39
4		2021-22	7th	72	36

6.5.4.3 Admission Process

- ✓ Common online admission for all four Agricultural Universities of Gujarat, Advertisement as well as counselling schedules are published in the Newspapers and on websites *i.e.*, www.gsauca.inand www.jau.in.
- ✓ Admission and degree program details are provided on common admission web site as well as on www.jau.in

a) Are student admissions policies clearly defined and conform to the ICAR norms? **Yes** ☐ ~~No~~

b) Basis for admission to B.Sc. (Hons.) Horticulture Programmes

Particular of examination	UG [B.Sc. (Hons.) Horticulture]
Qualifying Examination	10+2 pass in Physics, Chemistry and Biology (PCB) from a recognized board
Entrance Examination	▪ Admission is conducted through a state-level entrance examination called GUJCET (Gujarat Common Entrance Test), organized by the Gujarat Secondary and Higher Secondary Education Board (GSEB). ▪ The merit list is prepared based on the following weightage: ✓ 60% of theory marks obtained in Physics, Chemistry and Biology from the Gujarat Higher Secondary Board. ✓ 40 % of marks obtained in the GUJCET examination.
General Eligibility Criteria	▪ Candidates must have studied English as a compulsory subject. ▪ Students from vocational streams in Agriculture with subjects including Physics, Chemistry and Biology are also eligible. ▪ CBSE students from schools located in Gujarat are considered on a pro-rata basis.

Student reservation (percentage)

Category	UG Programme (%)	
	2024-25	
	Seat Number	%
General	36	51 %
SC	4	7 %
ST	9	15 %
SEBC	17	27 %
EWS	9	10%
Physically Handicapped		5 %
Defence Personnel/ Ex-servicemen *		1 %
Parsi Community of Gujarat State (Extra)		1 seat
Kashmiri Migrant (Extra)		2 seats
CBSE	4	Pro-rata base
ICAR	17	20 %
Grand Total	96	

*Indicate the seats to be adjusted in respective category, # indicate extra seats

Academic schedule publication:

The Academic Branch of the College of Horticulture preparing the time-table for both theory and practical classes and conducting internal examinations as per the academic calendar, under the guidance of the Academic In-charge. At the

professorial level, schedules are formulated for key student programmes such as the READY programme, ELP, RHWE programme and Exposure-cum-Educational Tour. In accordance with the guidelines of Junagadh Agricultural University (JAU), the Gymkhana Chairman and Physical Instructor prepare sports calendar. Various circulars are also issued from time to time to ensure well organized academic and extracurricular coordination. The college is also publishing the brochure of the college every year.

The academic calendar and schedule for centralized semester-end examination are is common for all the four State Agricultural Universities (SAUs) of Gujarat.

The College of Horticulture at JAU, Junagadh, compiles an annual report and planning for extra-curricular activities, including the celebration of Annual Day, sports events and athletic competitions every year. Students actively participate in these events each year, complementing their excellent academic performance.

6.5.4.4 Conduct of Practical and Hands-on-Training

- The College of Horticulture guarantees that students are regularly exposed to practical experiences to enhance their theoretical knowledge. Students frequently participate in farm visits to various horticultural farms under the college, nearby farmers' fields and nurseries to study different agro-techniques, pest and disease incidences and also allow them to collect samples for further analysis. They also interact with the farmers.
- Practical sessions are carefully organized, with students divided into two batches for each course. Each practical session is scheduled for two hours per week, conducted primarily on various horticultural farms. These sessions are facilitated by faculty members and skilled personnel, allowing students to perform practical tasks in-field and build strong foundational skills.
- The Experiential Learning Program (ELP) is an integral part of the horticulture curriculum aimed at providing hands-on, practical experience in real-time agricultural operations. Students utilize the available facilities at college of Horticulture. These facilities include various fruit orchards, nurseries, greenhouse units, Hi-techpoly houses, naturally ventilated poly houses and net

houses. Students actively participate in the complete cycle of crop production in green house and open field—from sowing, planting, trans-planting and crop management to harvesting and marketing offering intuition into both the scientific and business aspects of horticulture. Students also actively participated in nursery activities starting from raising of seedlings, propagation of propagules of different horticulture crops, their management as well as marketing. Similarly, they are working in well-established dry flower laboratory to not only produce the many dry flower products like frames, pot pourri, flower pot, crafts *etc*. but also marketing of dry flower products. Hence, students are getting real hands-on training in our ELP programme.

- The ELP encourages students to take full responsibility for their assigned plots or projects, simulating real-world farming and entrepreneurship. They develop essential decision-making, resource management and problem-solving skills, thereby enhancing both technical competence and managerial capabilities.
- In the 8th semester, students undertake the Student READY/RAWE (Rural Agricultural Work Experience) Programme, which is organized into various phases *i.e.*, Orientation, Educational Tour, Villages, Research and KVK, Industrial phase and on campus training phase. During this period, students visit progressive farmers, NGOs and research institutions of SAUs (State Agricultural Universities). They have also explore with 30 days placement at horticulture-based industries to acquire knowledge regarding technological developments, value addition, packaging, marketing and agribusiness economics. The educational tours often span across 14 days in three different states, offering students diverse exposure to regional agricultural practices. College also organizes many lectures of different entrepreneur who have developed the Horticulture based industries.
- Overall, this all-inclusive exposure to fieldwork, industry practices and entrepreneurial training builds confidence, enhances employability and nurtures an entrepreneurial mindset. Whether students pursue careers in farming, agribusiness, extension services, or launch their own horticultural ventures, the knowledge and experience gained through these programs prepare them for success in the agricultural sector.

6.5.4.5 Examination and Evaluation Process: Student evaluation

Student evaluation of college of Horticulture which is implemented as per 5th and 6th deans committee and the examination system of university. The internal examination is arranged as per the academic calendar of all SAUs of the state. The question paper setting and assessment of internal examination is done by class teacher at local level. In case of external examination, the question paper setting as well as assessment is practiced combined with all four colleges of Horticulture of agricultural university of the state in which four teachers of each university are working for the paper setting and evaluation.

6.5.4.6 NCC/NSS/RVC Units:

The NSS activities of the students are given here

In college of Horticulture, Junagadh Agricultural University, Junagadh NSS has been started since 2012. At that time, we had one NSS unit, now we have one and half NSS unit and each unit has 50 students. Till date total 590 volunteers participated in NSS. Under NSS, college of Horticulture volunteers performed more than 20 events of various social and personal development for society service and personal development of students per year.

The NSS activities of the students are given here

Sr. No.	Date	Activity	No. of participants	Remarks
1	05/06/2021	World Environment Day	40	Tree plantation programme by staff members at Jambuvadi farm
2	21/06/2021	International Day of Yoga	60	Students participated in this programme and different yoga carried out at their home due to covid-19 situation.
3	06/08/2021	Employment day (*Rojagar divas*)	15	Students were participated in the programme organized by rojagar vibhag Gandhinagar at samaldash Gandhi town hall Junagadh.
4	06/09/2021	Teachers day (Azadika Amrut Mahotsav) Celebration	210	Organized teaching competition. Students were appreciated by certificate and prize.
5	23/09/2021-28/09/2021	Bhartiya chhatra sansad training	05	Students participated in Bhartiya chhatra sansad online training.
6	3/12/2021	Agriculture Education day	100	Organized competitions like, rangoli, debate, essay, quiz and drawing. In these Competitions, total 100 students were participated.
7	3/12/2021	Blood donation camp	40	Blood donation camp was organised by DSW office. 40 students donated blood in the camp

8	5/12/2021	*Nadi ko jano*	72	*Nadi ko jano* is organized by Bhartiya Shikshan Mandal & Research for Resurgence Foundation in association with AICT, NBA, UGC.
9	12 /1/ 2022	"Swami vivekanand jayanti" celebration	45	The programme was arranged to wreath the Swami Vivekanand statue and tree planting at Jambuvadi farm, JAU, Junagadh.
10	15/2/2022	Youth convection	75	Celebration of "Youth convection". There was organized inspiaring lecturs by Dr. Pradyuman Khachar, Dr. K. K. karkar and Shee Rajendra Tanna (IAS).
11	10-16/03/22	Special NSS camp	140	Various activities were done like hygiene awareness, gram cleaning, programs in the school, bakery products training, fruits and vegetables training, mahendi contest, krushi shibir *etc*. at. Mota Bhalgam Ta. Vishavadar Dist Junagadh
12	05.06.2022	World Environment Day	40	Vruksha ropan program was organized at Jambuvadi farm
13	21.06.2022	International Day of Yoga	60	Students participated in this programme and different yoga carried out at their home due to covid-19 situation.
14	06/08/2022	Employment day (*Rojagar divas*)	15	Students were participated the programme organized by Rojagar Vibhag Gandhinagar at Samaldash Gandhi townhall Junagadh.
15	06/09/2022	Teachers day (Azadika Amrut Mahotsav) celebration	210	Organized teaching competition. Students were appreciated by certificate and prize.
16	15-17/09/22	Indian SStudents Parliaments by Bhartiya chatra sansad, Pune	5	Seminar was organized for students.

17	22-24/09/22	NSS DAY -2022 Celebration at Hemchandracharya University, Patan	13	Celebrated at Hemchandracharya University, Patan. College of Horticulture was selected for the University representative. Students of CoH participated in competitions like garba, drawing, elocution, and fancy-dress.
18	29-30/9/22	College competition Under Climate Change Youth Outreach Fortnight Programme	60	Competitions like slogan, group discussion, essay, innovative idea for combatting climate change *etc*. were organized and students appreciated by certificates and prize.
19	1/10/2022	Fit India freedom run under fit India movement	100	The program was organized in the presence of Dr. prof. N. K. Gotia, Honourable VC, teachers and volunteer of the university.
20	7/10/2022	G3Q Online District level competition	50	Organized G3Q Online District level quiz competition
21	26-28/11/22	Heart fullness education workshop	156	Heart fullness education workshop was at auditorium for meditation, yoga and heart exercise *etc*.
22	03/12/2022	Agriculture Education Day	100	Organized competitions like, rangoli, debate, essay, quiz and drawing. In these Competitions, total 100 students were participated.
23	25/01/2023	National Voter's Day	100	Celebrated National Voter's day by volunteers and teachers.
24	12 /01/ 23	"Swami Vivekanand Jayanti" Celebration & Tree Plantation	45	The programme was arranged to wreath the Swami Vivekanand statue.
25	23/02/2023	*Sahid Diwash*	55	Sahid songs and Painting competition was organized by COH, Junagadh

26	05-18/02/23	Aapada mitra training by State Disaster Response Force	16	Organized training programme on disaster management by State Government.
27	09/02/2023	Thalassemia camp	82	Thalassemia camp was organized and 1st semester students were taken part to test thalassemia.
28	09-15/02/23	Special NSS camp	140	Various activities were done like hygiene awareness, gram cleaning, programs in the school, bakery products training, fruits and vegetables training, mahendi contest, krushi shibir *etc*. at. Naredi Ta. Vanthali Dist Junagadh
29	13/03/2023	Arvind Ghosh Janma Jayanti	13	Organized different competitions like vakrutva, essay, drawing *etc*.
30	14-15/03/23	Training on "campus to corporate"	100	Motivational training was organized and entrepreneur, progressive farmers and businessman gave inspiring lecture to the volunteer
31	24/03/2023	Blood donation camp	40	Blood donation camp was organised by DSW office. 35 students donated blood in the camp
32	19/04/2023	Third article writing competition 2023	57	Organized by Vidhi Parivartan, student got certificate of competition.
33	21/06/2023	International Day of Yoga	60	Students participated in this programme.
34	06/08/2023	Employment day (*Rojagar divas*)	70	Students were participated the programme organized by Rojagar Vibhag Gandhinagar at Samaldash Gandhi town hall Junagadh.
35	09/08/2023	*Meri Mati Mera Desh*	100	There were three key stages to the programme in the Naredi, Vanthali - Panchayat village level programme, Block level, and the Finale at

				the National. Students participated in Programme.
36	10/08/2023	World Lion Day	100	The lecture on "World lion day" delivered by Dr. V. M. Bhut, Retd., Scientist, JAU, Junagadh.
37	31/08/2023	"Azadi ka Amrut Mohotsav " Elocution, Essay and Painting Competition	50	Various competitions were organized. At the end of this day, winner students got certificate and prize.
38	05/09/2023	Teachers day (Azadika Amrut Mahotsav) Celebration	200	Organized teaching competition. Students were appreciated by certificate and prize.
39	10-13/10/23	Zonal student elocution competition	10	Students of CoH were selected in the competition organized by National Academic of Agricultural Sciences.
40	30/10/2023	Celebration of National Unity Day	62	The Government of India has decided to celebrate 30th October every year as National Unity Day, to encourage more young voters to take part in the process. National Unity Day pledge ceremony was conducted at College of Hoticulture, JAU, Junagadh. Total 63 students along with teaching and non-teaching staff participated and took the oath.
41	04/11/2023	"*Run for Junagadh*"	102	Organized at main branch of police station, Junagadh. Students and Staff participated in this celebration
42	03/12/2023	Agriculture Education day	150	Organized competitions like, rangoli, debate, essay, quiz and drawing. In these Competitions, total 150 students were participated.
43	09/12/2023	Blood donation camp/	83	Blood donation camp was organised by DSW office. 33

		thalassemia camp		students donated blood in the camp
44	28/12/2023	Sexual harassment prevention workshop	84	Organized at College of Horticulture, JAU, Junagadh
45	12/01/2024	"Swami Vivekanand Jayanti"	83	The programme was arranged to wreath the Swami Vivekanand statue.
46	23/02/2024	*Sahid Diwash*	55	Sahid Songs and Painting competition organize at COH, Junagadh.
47	25/01/2024	National Voter's Day	115	Quiz Competition organized at COH, Junagadh.
48	04-16/03/24	Special NSS camp	85	Various activities were done like hygiene awareness, gram cleaning, programs in the school, bakery products training, fruits and vegetables training, mahendi contest, krushi shibir *etc*. at. Vadhavi Ta. Junagadh Dist Junagadh
49	23/04/2024	"*Pustak Diwas*"	101	Lecture on "Pustak Diwas" delivered by Dr. V. M. Bhatt, Retd., Scientist, JAU, Junagadh at College of Horticulture, JAU, Juanagdh. This program organized in the gracious presence of Dr. D. K. Varu, Principal & Dean CoH, J.A.U. Junagadh and Volunteer.
50	21/06/2024	International Day of Yoga	80	Students participated in this programme and different yoga carried out at Indoor Sport Stadium, J.A.U. Junagadh
51	29/06/2024	"Yoga for Mental and Physical Wellness" By TEERTH Prakalp	70	Online webinar on "Yoga for Mental and Physical Wellness" attended by staff and students at Seminar room, CoH, JAU, Junagadh.

52	19/07/2024	*"Ek Ped Ma Ke Nam"*	155	Tree planted by the Volunteers at Back yard of hostel in presents of Dr. D. K. Varu, Principal & Dean, COH, Prof. H. J. Senjaliya, Hostel Rector, and H. V. Vasava, Programme officer
53	07/08/2024	Disaster refreshment training	16	Disaster refreshment training organized by DSW Office, J.A.U, Junagadh.
54	07/08/2024	"Time Management in Life" Inspiration lectuure	150	Lecture delivered by Dr. V. P. Ramani, Retired principal, CoA, AAU, Vaso.
55	09-15/08/24	Celebration Har Ghar Tiranga	200	Selfie With Tiranga by Volunteers and Staff was organized.
56	14/08/2024	Tiranga rally	80	Tiranga rally organized from Bahaudin College to Junagadh Agriculture University. Volunteer were participated in the rally.
57	05/09/2024	Teachers day Celebration	225	Organized teaching competition. Students were appreciated by certificate and prize.
58	23/09/2024	NSS Day Celebration	110	Organized competitions like, rangoli, debate, essay, quiz and drawing. In these Competitions, total 100 students were participated.
59	19/10/2024	Online webinar	120	Attended the Online webinar on "Positive attitude for professional Excellence" at seminar room College of Horticulture, J.A.U., Junagadh
60	07/10/2024	G3Q 2.0 Online District level competition	50	G3Q 2.0 online district level quiz competition was organized
61	24/10/2024	Online lecture	150	Online lecture on trading and smart investment was delivered by Dr. Deepti at seminar room, CoH, J.A.U., Junagadh

62	19/10/2024	*Swachata Abhiyan*	150	Cleaning of back yard of hostel was organized in presents of Dr. D. K. Varu, Principal, COH, Prof. H. J. Senjaliya, Hostel Rector, and H. V. Vasava, Program officer
63	25/01/2024	National Voter's Day	100	Quiz Competition organized at COH, Junagadh.

6.5.7.4. Employability:

1. It is essential for students to not only be academically sound but also possess the right combination of personal attributes, practical skills, and understanding, which can enable them to become competent employees in reputed organizations and valuable contributors to their own ventures. In this context, it becomes the responsibility of the institution to nurture and develop such qualities among students.
2. The College of Horticulture recognizes the importance of this aspect and actively promotes personality development and entrepreneurial skill-building among students, in collaboration with the Directorate of Student Welfare.

3. Faculty members of the college are also engaged in coaching students for competitive examinations such as JRF, SRF, NET and GPSC. Additionally, they provide guidance and motivational lectures related to emerging business opportunities in horticulture and assist in the preparation of business project reports.
4. Under the banner of the National Service Scheme (NSS), the college organizes village camps where students interact directly with farmers to understand and address grassroots agricultural challenges. These experiences help students develop real-time communication skills and foster awareness about rural development and agriculture as a holistic unit.
5. The Institutional Development Plan (IDP), sanctioned by ICAR to the university, is a long-term initiative that includes training on the use of robotics and drone technology in horticulture. Expert trainers from various technical institutions have delivered lectures under this program. These activities aim to equip students with specialized skills and keep them abreast of the latest technological advancements in agriculture. Furthermore, students are offered opportunities to visit foreign countries to observe and learn about the application of advanced agricultural technologies. These exposures broaden their perspective, inspire innovation, and significantly enhance their employability.
6. In today's scenario, the core issue is not merely employment but the employability of candidates appearing for interviews. Aware of this challenge, the college has organized a series of seminars and lectures focused on personality development and soft skills enhancement, as detailed below.

Sr. No.	Details of programme	Date	Duration (days)	Number of students participated
1.	Two days training programme on Leadership and Entrepreneurship Development.	05/06/2021	02	150
2.	"Training programme on C2C (Campus to Corporate)" for how to face interview and to become a successful in interview	23/06/2021	03	100
3.	Lecture on information regarding Master/Ph.D. degree at abroad	27/09/2021	01	55

	awareness lecture on passport and student visa, scholarship/financial facilitation for higher studies in abroad			
4.	Lecture delivered for JRF/SRF/NET Exam Preparation	26/11/2021	01	63
5.	Lecture delivered for JRF/SRF/NET Exam Preparation	04/12/2021	01	63
6.	Lecture delivered for JRF/SRF/NET Exam Preparation	10/12/2021	01	63
7.	Lecture delivered for JRF/SRF/NET Exam Preparation	17/12/2021	01	63
8.	Lecture delivered for JRF/SRF/NET Exam Preparation	29/12/2021	01	63
9.	Lecture delivered for JRF/SRF/NET Exam Preparation	31/12/2021	01	63
10.	Lecture on "Basic Concepts of JRF Exam preparation"	09/09/2022	01	74

૧. ૩ (ત્રણ) ટ્રેકટરની ખરીદી અંગે રાજ્ય સરકારની પ્રવર્તમાન નીતિ નિયમોની જોગવાઈ અનુસાર ખરીદવાના રહેશે.
૨. નાણાંકીય ઔચિત્યના નિયમો ધ્યાને રાખીને તેમના હસ્તક મુકવામાં આવેલી ગ્રાન્ટ જે હેતુ માટે તેની જોગવાઈ કરવામાં આવી હોય તે હેતુ માટે જ અને થયેલ જોગવાઈની મર્યાદામાં ખર્ચ કરવાનો રહેશે.
૩. આ અંગેનું ખર્ચ સરકારશ્રી દ્વારા વખતોવખત નક્કી કરવામાં આવેલ જોગવાઈઓ અને લાગુ પડતા ધારા-ધોરણોને આધીન નિયત પદ્ધતિથી કરવાનું રહેશે.
૪. મહેકમના પગાર ભથ્થાં ખર્ચની બાબતે કૃષિ યુનિવર્સિટીએ નાણાં વિભાગના તા.૩.૮.૧૯૮૪ ના પરિપત્ર ક્રમાંક:- ખરચ-૧૦૮૪-યુઓ-૬૧-ઈ પરની સૂચનાઓ મુજબ હંગામી જગ્યાઓની મુદત વધારાની / ચાલુ રાખવાની મંજૂરી મેળવી લેવાની તકેદારી રાખવાની રહેશે.
૫. પ્રસ્તુત કામે ટેન્ડર પ્રોસેસીંગ બાબતમાં ઉદ્યોગ અને ખાણ વિભાગના ઠરાવ ક્રમાંક:- એસપીઓ- ૧૦૨૦૦૫ - ૧૪૦૭-છ, તા.૨૨.૧૦.૨૦૦૬ અન્વયે 'ઈ' ટેન્ડરીંગ બાબતમાં કરવામાં આવેલ જોગવાઈ / સૂચનાઓનું ચૂસ્તપણે પાલન કરવાનું રહેશે.
૬. આ મંજૂરી અન્વયે જે કોઈપણ વસ્તુની ખરીદી કરવાની હોય તો તે સરકારશ્રીના પ્રવર્તમાન ધારા-ધોરણો અને નિયમોનુસાર કરવાની રહેશે.
૭. યોજના હેઠળ રહેતી બચત વર્ષના અંતે સરકારશ્રીમાં સુપ્રત કરવાની રહેશે.
૮. કોમ્પ્યુટર અને I.T. સંબંધિત સાધન-સામગ્રી ખરીદી અંગે સાયન્સ ટેકનોલોજી વિભાગની સૂચનાઓનું પાલન કરવાનું રહેશે.

પત્રક-(૧) માં દર્શાવેલ જગ્યાઓ નીચે જણાવેલ શરતોને આધિન ઊભી કરવાની રહેશે.

૧) વર્ગ-૧ અને વર્ગ-૨ ની જગ્યાઓ ભરતી નિયમોમાં ઠરાવેલ રેશીયોની જોગવાઈ મુજબ ભરવા કાર્યવાહી કરવાની રહેશે.
૨) વર્ગ-૩ ની જગ્યાઓ ભરતી નિયમોની જોગવાઈ મુજબ અને પ્રવર્તમાન નિયમોનુસાર બદલી / બઢતી / પ્રતિનિયુક્તિથી ભરવાની રહેશે. જો આ જગ્યાઓ સીધી ભરતીના ક્વોટેઆવતીહોય તો તાજેતરમાં નામ.ગુજરાત હાઈકોર્ટે આપેલ ચૂકાદા અન્વયે આ જગ્યાઓ ભરતાં પહેલાં નાણાં વિભાગની પૂર્વ મંજૂરી મેળવ્યા બાદ જ ભરવાની રહેશે.
) વર્ગ-૪ ની જગ્યાઓ અલગથી મંજૂર / ઊભી ન કરતાં આ જગ્યાઓ સામાન્ય વહીવટ વિભાગના તા.૧.૪.૨૦૧૦ ના ઠરાવની જોગવાઈ અનુસાર આઉટ સોર્સથી ભરવાની રહેશે.

(૫)

(૪) સીધી ભરતીથી નિમણૂંક પામનાર ઉમેદવારોને નિયમિત નિમણૂંક મળ્યા બાદ નાણાં વિભાગના તા.૧૮.૩.૨૦૦૧ ના ઠરાવ ક્રમાંકઃ- નપન-૨૦૦૩-જીઓઆઈ-૧૦-પી તથા તા.૨૭.૯.૨૦૦૬ ના પરિપત્ર ક્રમાંકઃ-નપન-૨૦૦૩-જીઓઆઈ-૧૦-(પા.ક્ષા.)-પી ની જોગવાઈ પ્રમાણે રાજ્ય સરકાર દ્વારા તા.૧.૪.૨૦૦૫ થી દાખલ કરવામાં આવેલ નવી વર્ધિત પેન્શન યોજના હેઠળ આવરી લેવાના રહેશે તથા આ અંગેનો વખતોવખત બહાર પાડેલ અને ભવિષ્યમાં બહાર પડનાર હુકમો સીધી ભરતીથી નિમણુંક પામેલ ઉમેદવારોને લાગુ પડશે.

(૫) જે તે જગ્યાઓના પગાર ધોરણો આર.ઓ.પી.૨૦૦૯ પ્રમાણે છે કે કેમ? તે ચકાસી લેવાની જવાબદારી કૃષિ યુનિવર્સિટીની રહેશે.

(૬) આ જગ્યાઓ ભરતી વખતે બેકલોગની ખાલી જગ્યાઓ ભરવાને અગ્રીમતા આપવાની રહેશે તથા અનામતનું ધોરણ નિયમોનુસાર જળવાય તે કૃષિ યુનિવર્સિટીએ જોવાનું રહેશે.

(૭) આ જગ્યાઓ ઉપરની ભરતી સરકારશ્રીના જે તે જગ્યાના પ્રવર્તમાન ભરતી નિયમો, નીતિ નિયમોની જોગવાઈ અને નિયત પદ્ધતિને અનુસરીને કરવાની રહેશે.

(૮) કોમ્પ્યુટરની જાણકારી માટે પ્રવર્તમાન ભરતી નિયમોનુસાર ઉમેદવાર નિયત થયેલ કોમ્પ્યુટર કોર્સની પરીક્ષા પાસ કરેલ / લાયકાત ધરાવતા હોવા જોઈએ.

(૯) રાજ્ય સરકાર દ્વારા વખતોવખત નિયત કાર્યભારણનો ચૂસ્તપણે અમલ કરવાનો રહેશે.

(૧૦) આ અંગેનો ખર્ચ નાણા વિભાગ દ્વારા વખતોવખત ફાળવવામાં આવતી ગ્રાન્ટની સમય-મર્યાદામાં રહીને તા.૧.૪.૨૦૧૨ પછી જગ્યાઓ ભરાય ત્યારથી કરવાનો રહેશે.

(૧૧) આ જગ્યાઓ તા.૨૮.૨.૨૦૧૩ સુધી ચાલુ રાખવાની મંજૂરી આપીએ ત્યારબાદ જગ્યાઓ વખતોવખત ચાલુ રાખવાની થાય તો કૃષિ યુનિવર્સિટીએ જગ્યાઓ લંબાવવાની દરખાસ્ત નાણાંકીય સલાહકારશ્રીને રજૂ કરી મંજૂરી મેળવવાની રહેશે.

(૧૨) જુ.કલાર્કની સુપરન્યુમરી જગ્યા ઉપર ફરજ બજાવનારને નિયમિત જગ્યા સામે સરભર કરવાના રહેશે.

આ હુકમો આ વિભાગની સરખા ક્રમાંકની ફાઈલ ઉપર નાણાં વિભાગની તા.૯.૪.૨૦૧૨ ની નોંધથી મળેલ અનુમતિ અન્વયે બહાર પાડવામાં આવે છે.

ગુજરાત રાજ્યના રાજ્યપાલશ્રીના હુકમથી અને તેમના નામે,

(એ.આર.પટેલ)

જૂનાગઢ કૃષિ યુનિવર્સિટી
જૂનાગઢ

CONFIDENTIAL

બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિની તા.૨૩.૧૦.૨૦૧૯ ના રોજ ૧૭:૦૦ કલાકે મીટીંગ રૂમ, કુલપતિશ્રીની કચેરી, યુનિવર્સિટી ભવન, જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢ ખાતે મળેલ **પાંચમી બેઠકની** કાર્યનોંધ.

તા. તા.૨૩.૧૦.૨૦૧૯ ના રોજ મળેલ બેઠકમાં નીચેના સભ્યશ્રીઓએ હાજરી આપી.

૧.	**ડૉ. વી.પી.ચોવટીયા**	ડીનશ્રી, બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ, અને સંશોધન નિયામકશ્રી, જૂ.કૃ.યુ, જૂનાગઢ.
૨.	**ડૉ. બી.કે.સગારકા**	આચાર્યશ્રી, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૩.	**ડૉ. વી.વી.રાજાણી**	વિસ્તરણ શિક્ષણ નિયામકશ્રી, જૂ.કૃ.યુ, જૂનાગઢ.
૪.	**ડો. ડી.કે. વરૂ**	પ્રાધ્યાપક અને વડા, ફ્રૂટ સાયન્સ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૫.	**ડો. એન.ડી.પોલરા**	સહ પ્રાધ્યાપક અને વડા, વેજીટેબલ સાયન્સવિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૬.	**ડો. વી.આર. માલમ**	સહ પ્રાધ્યાપક અને વડા, ફ્લોરીકલ્ચર એન્ડ લેન્ડસ્કેપ આર્કીટેક્ચર વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૭.	**ડો. કે. એમ. કારેથા**	સહ પ્રાધ્યાપક અને વડા, પોસ્ટ હાર્વેસ્ટ ટેકનોલોજી વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૮.	**ડો. એમ.એફ આચાર્ય,**	સહ પ્રાધ્યાપક અને વડા, પ્લાન્ટ પ્રોટેકશન વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૯.	**ડો. એસ.એમ. મકવાણા**	સહ પ્રાધ્યાપક અને વડા, બેઝીક સાયન્સ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૧૦.	**ડો. આર.કે. માથુકીયા**	સહ પ્રાધ્યાપક અને વડા, નેચરલ રીર્સોસ મેનેજમેન્ટ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૧૧.	**ડો. વી.ડી. તારપરા**	સહ પ્રાધ્યાપક અને વડા, સોઈલ સાયન્સ વિભાગ,બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ, જૂનાગઢ.
૧૨.	**ડો. ડી.ટી. ફેફર**	મદદનીશ કુલસચિવ(એકેડેમીક), જૂકૃયુ, જૂનાગઢ

નીચે જણાવેલ સભ્યશ્રીઓ આમંત્રિત સભ્ય તરીકે હાજરી આપેલ હતી.

૧.	**ડો. કે.ડી.પટેલ**	આચાર્યશ્રી, પોલીટેકનિક ઈન હોર્ટીકલ્ચર, જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢ.

બેઠકની શરૂઆત કરતાં પહેલાં સચિવશ્રી, ડો.ડી.ટી.ફેફરે બેઠકમાં હાજર રહેલ સર્વે સભ્યશ્રીઓને આવકાર્યા, ત્યારબાદ એજન્ડા ઉપરની કાર્યવાહી શરૂ કરવામાં આવી.

મુદ્દાનં. ૫.૧ બાગાયત વિદ્યાશાખા અભ્યાસ સમિતીની ચોથી બેઠકની કાર્યનોંધ મંજુર કરવા બાબત.

કાર્યનોંધ મંજુર કરવામાં આવી.

(અમલ : મદદનીશ કુલસચિવ [એકેડેમિક])

મુદ્દાનં. ૫.૨ તા.૦૪.૦૭.૨૦૧૭ નાં રોજ જૂનાગઢ ખાતે મળેલ બાગાયત વિદ્યાશાખા અભ્યાસ સમિતીની ચોથી બેઠકની કાર્યનોંધનાં નિર્ણય ઉપર લેવાયેલ પગલાની નોંધ બાબત.

કાર્યનોંધના નિર્ણય ઉપર લેવાયેલ પગલાની નોંધ લીધી.

(અમલ : મદદનીશ કુલસચિવ [એકેડેમિક])

મુદ્દાનં. ૫.૩ બાગાયત વિદ્યાશાખા અભ્યાસ સમિતીમાં સભ્યો કો–ઓપ્ટ કરવા બાબત.

" સર્વાનુમતે નવા સ્ટેચ્યુટસ પ્રમાણે બાગાયત વિદ્યાશાખા અભ્યાસ સમિતીની રચનામાં થયેલ જોગવાઈ મુજબ નીચે જણાવેલ કુલ–૫(પાંચ) સભ્યોને તા.૦૧.૧૧.૨૦૧૯ થી ૩૧.૧૦.૨૦૨૧ સુધી બે વર્ષ માટ બાગાયત વિદ્યાશાખા અભ્યાસ સમિતીમાં સભ્યો તરીકે કો–ઓપ્ટ કરવાનું ઠરાવવામાં આવ્યુ."

ક્રમ	નામ	સરનામું
૧	ડો. કે.ડી. પટેલ (હોદા ની રૂએ)	આચાર્યશ્રી, પોલીટેકનિક ઈન હોર્ટીકલ્ચર, જૂ.કૃ.યુ, જૂનાગઢ.

૨	ડો.એમ.કે. ધમસાણીયા (હોદા ની રૂએ)	આચાર્યશ્રી, પોલીટેકનિક ઈન એગ્રો–પ્રોસેસીંગ, જૂ.કૃ.યુ, જૂનાગઢ.
૩	ડો. આર.એસ. ચોવટીયા	નિવૃત્ત સંશોધન વૈજ્ઞાનિકશ્રી, બ્લોકનં ૪૩, શ્રીધરનગર, લાલબાગ પાછળ, જૂનાગઢ
૪	ડો. વી.આર. માલમ (હોદા ની રૂએ)	નિયામકશ્રી, વિદ્યાર્થી કલ્યાણ પ્રવૃતિઓ, જૂ.કૃ.યુ., જૂનાગઢ.
૫	મીશ્રા પુજા.વી.	પી.જી. વિદ્યાર્થી, ૯/૦. આચાર્ય અને ડીનશ્રી, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ

વધુમાં, કો–ઓપ્ટ કરેલ પી.જી. વિદ્યાર્થી અભ્યાસ છોડી / પુર્ણ કરીને જતા રહે તેવા સંજોગોમાં તેની જગ્યાએ ડીનશ્રીની ભલામણ મુજબના અભ્યાસ ચાલુ હોય તેવા અન્ય કોઈ પી.જી. વિદ્યાર્થીને બોલાવવાનુ નકકી કરવામાં આવ્યુ.

(અમલ : કુલસચિવ / ડીનશ્રી, બાગાયત મહાવિદ્યાલય)

મુદ્દાનં. ૫.૪ **Confirmation of the minutes of 4th meeting of the Faculty of Group of Subject, Horticulture, Faculty of Agriculture, Junagadh Agricultural university held on 05-12-2018 at College of Horticulture, Junagadh.**

" Confirmed"

(અમલ : ડીનશ્રી, બાગાયત વિદ્યાશાખા)

મુદ્દાનં. ૫.૫ **Approval of List of External Subject Experts for the P. G. Thesis Evaluation and Viva-Voce Examination as well as Ph.D. Preliminary Viva-Voce Examination of the Faculty of Horticulture.**

"The list of external subject experts for P.G. thesis evaluation and conducting P.G. *viva-voce* examination as well as Ph.D. preliminary *Viva-Voce* examination in the three disciplines, *viz*, Fruit Science, Floriculture and Land-Scape Architechture, Vegetable Science of the Faculty of Horticulture in the Junagadh Agricultural University are hereby recommended as per **Appendix-I** appended in agenda and to submitted to the P.G. Board of Studies for its approval."

(અમલ : ડીનશ્રી, બાગાયત વિદ્યાશાખા)

અંતમાં ડો. ડી.ટી.ફેફર, મદદનીશ કુલસચિવ(એકેડેમિક)એ અધ્યક્ષશ્રી તેમજ ઉપસ્થિત રહેલ સર્વે સભ્યશ્રીઓનો આભાર માની, બેઠકની કાર્યવાહી પૂર્ણ થયેલી જાહેર કરી.

RESOLUTION OF 9TH BOARD OF STUDIES

જૂનાગઢ કૃષિ યુનિવર્સિટી
જૂનાગઢ

બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિની તા.૨૦.૦૫.૨૦૨૪ ના રોજ ૧૧:૦૦ કલાકે કોન્ફરન્સ રૂમ, નિયામકશ્રી, વિદ્યાર્થી કલ્યાણ પ્રવૃત્તિઓની કચેરી, જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢ ખાતે મળેલ **નવમી** બેઠકની કાર્યનોંધ.

તા.૨૦.૦૫.૨૦૨૪ના રોજ મળેલ બેઠકમાં નીચેના સભ્યશ્રીઓએ હાજરી આપેલ.

૧.	ડૉ. ડી. કે. વડ	આચાર્ય અને ડીનશ્રી, બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ, જૂ.કૃ.યુ., જૂનાગઢ	અધ્યક્ષશ્રી
૨.	ડૉ. આર. બી. માદરીયા	સંશોધન નિયામક અને અનુસ્નાતક વિદ્યાશાખાધ્યક્ષશ્રી, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૩.	ડૉ. એન. બી. જાદવ	વિસ્તરણ શિક્ષણ નિયામકશ્રી, જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢ	સભ્યશ્રી
૪.	ડૉ. ડી. આર. કણઝારીયા	સહ પ્રાધ્યાપક અને વડા, વેજીટેબલ સાયન્સ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૫.	ડૉ. એ. એમ. બુટાણી	મદદ. પ્રાધ્યાપક અને વડા, ફ્લોરીકલ્ચર એન્ડ લેન્ડસ્કેપ આર્કીટેક્ચર વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૬.	ડૉ. કે. એમ. કાસેથા	સહ પ્રાધ્યાપક અને વડા, પોસ્ટ હાર્વેસ્ટ ટેકનોલોજી વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૭.	ડૉ. ડી. એસ. કેલૈયા	સહ પ્રાધ્યાપક અને વડા, પ્લાન્ટ પ્રોટેક્શન વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૮.	ડૉ. એસ. એમ. મકવાણા	સહ પ્રાધ્યાપક અને વડા, બેઝીક સાયન્સ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૯.	ડૉ. આર. એમ. સોલંકી	સહ પ્રાધ્યાપક અને વડા, નેચરલ રીસોર્સ મેનેજમેન્ટ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૧૦.	ડૉ. વી. ડી. તારપરા	સહ પ્રાધ્યાપક અને વડા, સોશિયલ સાયન્સ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૧૧.	ડૉ. આર. એસ. ચોવટીયા	નિવૃત્ત સંશોધન વૈજ્ઞાનિકશ્રી, બ્લોકનં ૪૩, શ્રીધરનગર, લાલબાગ પાછળ, જૂનાગઢ	કો-ઓપ્ટ સભ્યશ્રી
૧૨.	ડૉ. એન. કે. ધમસાણીયા	આચાર્યશ્રી, પોલીટેકનિક ઈન એગ્રો-પ્રોસેસીંગ, જૂ.કૃ.યુ, જૂનાગઢ.	કો-ઓપ્ટ સભ્યશ્રી
૧૩.	ડૉ. આર. એમ. સોલંકી	નિયામકશ્રી,વિદ્યાર્થી કલ્યાણ પ્રવૃત્તિઓ,જૂનાગઢ કૃષિ યુનિવર્સિટી,જૂનાગઢ	કો-ઓપ્ટ સભ્યશ્રી
૧૪.	ડૉ. બી. વી. પટોળીયા	મદદનીશ કુલસચિવ (એકેડેમિક), જૂકૃયુ, જૂનાગઢ	સચિવશ્રી

બેઠકમાં નીચે જણાવેલ સભ્યશ્રીઓએ આમંત્રીત સભ્ય તરીકે હાજરી આપેલ હતી.

૧.	ડૉ. કે. સી. પટેલ	નિયામકશ્રી, આઈ. ટી. સેલ, જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢ	આમંત્રિત

બેઠકમાં નીચે જણાવેલ સભ્યશ્રીઓએ હાજર રહેવા અશક્તિ દર્શાવેલ અથવા અનિવાર્ય સંજોગોને લીધે ગેરહાજર રહ્યા હતા તેમની ગેરહાજર રહેવાની રજાને માન્ય કરવામાં આવી.

૧.	ડૉ. કે. ડી. પટેલ	સહ પ્રાધ્યાપક અને વડા, ફ્રૂટ સાયન્સ વિભાગ, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	સભ્યશ્રી
૨.	ડૉ. કે. ડી. પટેલ	આચાર્યશ્રી, પોલીટેકનિક ઈન હોર્ટીકલ્ચર, જૂ.કૃ.યુ, જૂનાગઢ.	કો-ઓપ્ટ સભ્યશ્રી
૩.	પરમાર વિરાટ	પી.એ .વિદ્યાર્થી, C/o. આચાર્ય અને ડીનશ્રી, બાગાયત મહાવિદ્યાલય, જૂ.કૃ.યુ., જૂનાગઢ	કો-ઓપ્ટ સભ્યશ્રી

બેઠકની શરૂઆત કરતા પહેલાં સચિવશ્રી, ડૉ. બી. વી. પટોળીયા, મદદનીશ કુલસચિવ (એકેડેમિક)એ આ બેઠકમાં હાજર રહેલ સર્વે સભ્યશ્રીઓને આવકાર્યા, ત્યારબાદ એજન્ડા ઉપરની કાર્યવાહી શરૂ કરવામાં આવી.

મુદ્દા.નં. ૯.૧ બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિની આઠમી બેઠકની કાર્યનોંધ મંજુર કરવા બાબત.

"કાર્યનોંધ મંજુર કરવામાં આવી."

(અમલ:- મદદનીશ કુલસચિવશ્રી [એકેડેમીક])

મુદ્દા.નં. ૯.૨ તા.૧૯.૦૫.૨૦૨૩નાં રોજ જૂનાગઢ ખાતે મળેલ બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિની આઠમી બેઠકની કાર્યનોંધનાં નિર્ણય ઉપર લેવાયેલ પગલાની નોંધ લેવા બાબત...

"કાર્યનોંધના નિર્ણય ઉપર લેવાયેલ પગલાંની નોંધ લીધી."

(અમલ:- મદદનીશ કુલસચિવશ્રી [એકેડેમીક])

મુદ્દા.નં. ૯.૩ બાગાયત મહાવિદ્યાલયની ફેકલ્ટી ગ્રૂપ ઓફ સબ્જેક્ટની મળેલ બેઠકની મીનીટ્સની નોંધ લેવા બાબત...

"જૂનાગઢ કૃષિ યુનિવર્સિટીની બાગાયત વિદ્યાશાખાની બેઠક વર્ષ: ૨૦૨૩-૨૪ દરમ્યાન મળેલ ફેકલ્ટી ગ્રૂપ ઓફ સબ્જેક્ટની બેઠકની મિનીટ્સની બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ નોંધ લે છે."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા)

મુદ્દા.નં. ૯.૪ બાગાયત મહાવિદ્યાલયમાં અભ્યાસ કરતાં વિદ્યાર્થીઓનાં વિદેશ તાલીમ કાર્યક્રમને અભ્યાસક્રમના ભાગરૂપ ગણી નોંધ લેવા બાબત...

"જૂનાગઢ કૃષિ યુનિવર્સિટીનાં બાગાયત મહાવિદ્યાલય, જૂનાગઢનાં શૈક્ષણિક વર્ષ: ૨૦૨૩-૨૪માં બી.એસ્સી. (ઓનર્સ) હોર્ટીના સાતમાં સેમેસ્ટર "ઇએલપી" નાં એજન્ડામાં સામેલ વિદ્યાર્થીઓ NAHEP-IDP અંતર્ગત વિદેશ ખાતે તાલીમમાં ગયેલ અને જે-તે ફેકના અભ્યાસક્રમને તે તાલીમને સમકક્ષ ગણી, શૈક્ષણિક જરૂરીયાત પૂર્ણ ગણવા કરેલ કાર્યવાહીની બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ નોંધ લે છે."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા)

મુદ્દા.નં. ૯.૫ બાગાયત મહાવિદ્યાલયમાં ભણાવવામાં આવતા કોર્ષમાં નવા સંશોધનોની માહિતી ઉમેરવા બાબત...

"જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢનાં બાગાયત મહાવિદ્યાલયમાં શૈક્ષણિક કાર્ય સાથે સંકળાયેલ તમામ શિક્ષકશ્રીઓ, રાજ્ય કૃષિ યુનિવર્સિટીઓ દ્વારા થતા નવા સંશોધનો/ભલામણ થતી નવી ટેકનોલોજી પોતાના કોર્ષમાં સમાવેશ કરવા બાબતે વિદ્યાશાખા અભ્યાસ સમિતિ ઠરાવે છે."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા)

મુદ્દા.નં. ૯.૬ બાગાયત મહાવિદ્યાલયમાં અનુસ્નાતક વિદ્યાર્થીઓ દ્વારા લેવાતા અખતરાઓ ખેડૂતોને લગતી સમસ્યાઓના વિષય પર લેવા બાબત...

"જૂનાગઢ કૃષિ યુનિવર્સિટી, જૂનાગઢનાં બાગાયત મહાવિદ્યાલયમાં અનુસ્નાતક કક્ષાના વિદ્યાર્થીઓ દ્વારા લેવાતા અખતરાઓ પ્રવર્તમાન સમયની ખેડૂતને લગતી સમસ્યાનાં વિષયો પર લેવાનું બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ દ્વારા ઠરાવવામાં આવે છે."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા)

મુદ્દા.નં. ૯.૭ બાગાયત વિદ્યાશાખામાં કાર્યરત વિવિધ કમિટીઓની નોંધ લેવા બાબત.

"જૂનાગઢ કૃષિ યુનિવર્સિટીનાં બાગાયત મહાવિદ્યાલયમાં અભ્યાસ કરતા સ્નાતક/અનુસ્નાતક કક્ષાનાં વિદ્યાર્થીઓની શૈક્ષણિક તેમજ વિવિધ બિનશૈક્ષણિક પ્રવૃતિઓ ગુણવત્તા સભર બને તે માટે એજન્ડામાં સામેલ જુદી - જુદી કમીટીઓની રચના કરવામાં આવેલ છે, જેની બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ નોંધ લે છે."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા)

મુદ્દા.નં. ૯.૮ **બાગાયત મહાવિદ્યાલયના એન.એસ.એસ. યુનિટમાં વધારો કરવા બાબત.**

"બાગાયત મહાવિદ્યાલયમાં ચાલતા એન.એન.એસ. માટે હાલ ૧.૫ યુનિટ કાર્યરત છે પરંતુ બાગાયત મહાવિદ્યાલયની પ્રવર્તમાન ઇન્ટેક કેપેસીટીને ધ્યાને લેતા મોટાભાગના વિદ્યાર્થીઓને આ પ્રવૃતિઓનો લાભ મળે તે માટે હયાત ઉપલબ્ધ યુનિટ ૧.૫ ઉપરાંત ૦.૫ યુનિટ વધારવા બાગાયત વિદ્યાશાખા અભ્યાસ સમિતિ વિદ્યાપરિષદને ભલામણ કરે છે."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા/ નિયામકશ્રી, વિદ્યાર્થી કલ્યાણ પ્રવૃતિઓ)

અધ્યક્ષસ્થાનેથી રજુ થતા અન્ય મુદ્દાઓ:-

મુદ્દા.નં. ૯.૯ **Regarding implementation of Dual Degree Programme between JAU, Junagadh and WSU, Australia for the students of Horticulture Faculty.**

"It is hereby resolved to implement UG Dual Degree Program, PG Dual Degree Program and Higher Degree Research with Western Sydney University, Australia for the students of Horticulture faculty with effect from July 2024. It is also hereby suggested to modify the Annexure I to V and the same is recommended to the Academic Council for its approval."

(અમલ:- ડીનશ્રી, બાગાયત વિદ્યાશાખા)

એજન્ડા પરની ચર્ચા પૂર્ણ થયા બાદ હાલમાં બાગાયત મહાવિદ્યાલય દ્વારા થતી વિવિધ શૈક્ષણિક તેમજ બિન શૈક્ષણિક પ્રવૃત્તિઓની ચર્ચા કરવામાં આવી. ઉપરાંત બાગાયત વિદ્યાશાખામાં એકેડેમિક પ્રવૃત્તિઓ વધુ સઘન બને તે બાબતે જરૂરી ચર્ચા વિચારણા કરવામાં આવી. તેમજ બાગાયત કોલેજ/પોલીટેકનીકનું વિવિધ એકેડેમિક, શૈક્ષણિક અને બિન શૈક્ષણિક બાબતો, પ્લેસમેન્ટ, ફી વગેરે બાબતોનું એક અદ્યતન માહિતિ સાથેનું બ્રોશર બનાવી યુનિવર્સિટીની વેબસાઇટ ઉપર મૂકવાનું તેમજ સોશીયલ મીડીયામાં વધુમાં વધુ પ્રસાર-પ્રચાર થાય તેવા પ્રયત્નો કરવાનું સર્વાનુમત્તે નક્કી કરવામાં આવ્યું જેથી એડમિશન સમયે વિદ્યાર્થીઓને જે તે કોલેજ/પોલિટેકનિકોની યોગ્ય અદ્યતન માહીતી મળી શકે.

અંતમાં ડૉ. બી.વી. પટોળીયા, મદદનીશ કુલસચિવશ્રી(એકેડેમિક)એ અધ્યક્ષશ્રી તેમજ ઉપસ્થિત રહેલ સર્વે સભ્યશ્રીઓનો આભાર માની, બેઠકની કાર્યવાહી પૂર્ણ થયેલી જાહેર કરી.

મદદનીશ કુલસચિવ
(એકેડેમિક)

1ST FACULTY GROUP OF SUBJECTS

Proceeding of first meeting on faculty group of Horticulture (1st FGH) held on 8th September, 2015 at conference hall, horticulture wing, JAU, Junagadh

The first meeting of faculty group of horticulture was held at the conference hall, Horticulture Wing, Junagadh Agricultural University, Junagadh on 8th September,2015 under the Chairmanship of Dr. A. R. Pathak, Hon. Vice Chancellor, Junagadh Agricultural University', Junagadh and co-chairmen of Dr. A. V. Barad, Principal and Dean, College of Agriculture, JAU. Junagadh.

Dr. R. S. Chovatia, Convener of committee and Prof. and Head, Department Horticulture commenced the programme with welcome speech. He heartily welcomed Dr. A. R. Pathak, Chairman & Hon. Vice Chancellor; Dr. A.V. Barad, Principal & Dean, College of Agriculture as well as all the members of FGH.

The introductory remark was delivered by Dr. A. V. Barad, Principal & Dean, College of Agriculture. He explained and highlighted the importance and impact of such meeting on our teaching system. He narrated that this is a platform for micro evaluation as well as documentation of education activities. He also gave some valuable suggestions for strengthening the teaching system to members of this committee.

Dr. A. R. Pathak, Chairman & Hon. Vice Chancellor, Junagadh Agricultural University, Junagadh gave importance of this meeting. It is time to evaluate the education activities of university. There is no any established platform to evaluate the education activities of university. So, this type of meeting of faculties are started to evaluate the teaching activities both at under graduate and post graduate programme. As a result of this effort, quality of agricultural education will be certainly improved. He remarked the scenario of agricultural education of the country. He also highlighted the RAWEP & ELP, new reforms of 4th Deans committee. There is great role of open competition examinations like UPSC/GPSC/SRF/JRF as well as NET for the carrier of students. He informed that the Kerala Agril. University is the first in JRF examination. He also offered valuable suggestions to improve the education system during presentation of the report as follows.

1. P. G. research should be with advanced technology like leaf tissue analysis, HDP in fruit crops, fertigation, modern agro techniques for green house crops, flowering in mango, etc.
2. Improve the quality in thesis writing
3. P.G. research programme must be completed in time
4. Synopsis of P.G. student must be submitted during 2nd semester.
5. More weightage should be given to research paper of P.G. students.
6. Avoid duplication of works in P.G. seminar.
7. Need based training should be imparted to faculties.
8. Regular meeting of faculties to discuss current issues.
9. Current staff position and financial position of the department.
10. Work load of faculties should be justified.
11. Emphasis should be laid on publications by faculties.
12. Planning of JRF/SRF/NET examination should be made.
13. Preparation/guiding of JRF/SRF/NET examination.
14. Preparation of list of expertise for thesis evaluation, Viva-voce examination as well as interview purpose.
15. Other needs and problems of the department.

The inaugural session was ended with vote of thanks presented by Dr. D. K. Varu, Associate Professor, Dept. of Horticulture, COA, JAU, Junagadh.

Presentation Session

Chairman : Dr. A. R. Pathak, Hon. vice chancell0r, JAU, Junagadh
Co-chairman : : Dr. A. V. Barad, Principla &Dean, coA, JAU, Junagadh
Rapporteurs : 1. Dr. A. N. Makwana, Professor, Deptt. of Horticulture, JAU, Junagadh
2. Dr. D. K. Varu, Asso. Professor, Deptt. of Horticulture, JAU, Junagadh

Dr. R. S. Chovatia, Convener and Professor & Head, Deptt. of Horticulture presented the teaching activities of Department. The house appreciated the presentation and gave the following suggestions.

1. P. G. students should know the physiology and production technology of the crop in which he is working for P.G. research.
2. Climatic parameters should be included in green house experiments.
3. Faculties should take the need based training
4. Use the root stock in nursery and more emphasis should be on research on rootstock.
5. Work on advanced technology in training & pruning in fruit crops is required.
6. Need to work research on leaf tissue analysis.
7. PG research as well as documentation should be completed within stipulated time.
8. A committee for the monitoring of PG research should be formed to monitor the research works of PG students.
9. Even distribution of work load specifically for UG and PG courses.
10. The senior professor should be involved in UG teaching.
11. Departmental or P.G. research on bases of farmer's feedback and current issues.
12. P.G. students must have deep knowledge regarding research topic along with crop and its pets on which he/she is working based on past references. (Action : Professor & Head, Deptt. of Horticulture, JAU, Junagadh)

Ph.D. students of the department also presented the status of their P.G. research in the house.

Vote of Thanks

At the end of session, Dr. D. K. Varu, Asso. Professor, Department of Horticulture, COA, JAU, Junagadh extended the vote of thanks to Dr. A. R. Pathak, Hon- Vice Chancellor & Chairman of the meeting, Dr. A. V. Barad, Dean, College of Agriculture & Co-Chairman, Convener of the group and all the members of group of faculty of Horticulture.

2ND FACULTY GROUP OF SUBJECTS

Proceeding of second meeting on faculty group of Horticulture (2nd FGH) held on 24th January, 2017 at conference hall, horticulture wing, JAU, Junagadh

The second meeting of faculty group of horticulture was held at the conference hall, Horticulture Wing, Junagadh Agricultural University, Junagadh on 24th January, 2017 under the Chairmanship of Dr. A. R. Pathak, Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh. Dr. V. P. Chovatia, Director of Research & PG Dean, Dr. A. V. Barad, Principal and Dean, College of Agriculture, JAU. Junagadh and Dr. R. S. Chovatia, Professor & Head, Deptt. of Horticulture and faculty members of Horticulture discipline remained present.

Dr. R. S. Chovatia, Convener of committee and Prof. and Head, Department Horticulture commenced the programme with welcome speech. He heartily welcomed Dr. A. R. Pathak, Chairman & Hon. Vice Chancellor; Dr. V. P. Chovatia, Director of Research & PG Dean; Dr. A.V. Barad, Principal & Dean, College of Agriculture and all the members of FGH. He also welcomed the new faculty members appointed as Assistant Professor in College of Horticulture.

The report of 2nd Faculty Group subject of Horticulture was presented by Dr. D. K. Varu, Associate Professor, Deptt. of Horticulture and interacted with members of house.

Dr. A. R. Pathak, Chairman & Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh gave the significance of this meeting which is evolutionary system of education. This efforts will be help full for quality education. He remarked the scenario of agricultural education of the country. He also highlighted the RAWEP & ELP and 5th deans committee. There is great role of open competition examinations like UPSC/GPSC/SRF/JRF as well as NET for the carrier of students. He congratulated for initiating the PG degree in vegetable science. He also congratulated to concerned scientists for releasing the variety in papaya. However, he highlighted the lacuna in post-harvest research work in important fruit crops like mango, pomegranate, black jamune, etc. by the faculties of Horticulture. He offered valuable suggestions to improve the education system during presentation of the report as follows.

1. Suggested to start the PG degree in PHT as well as Medicinal & Aromatic crops.
2. P. G. research should be with advanced technology like plug nursery, grafting in vegetable crops, fertigation, and modern agro techniques for green house crops, flowering in mango, etc.
3. Suggested to strengthen the ELP & RAWE programme.
4. Also need to work more in various important crops of floriculture and suggested for collection of germplasm/varieties in various crops in floriculture.
5. Pruning and pinching techniques in mango is the new area.
6. PG students should visit to Fruit Research Station, JAU, Mahuva.
7. More emphasis should be given to greenhouse work for PG student.
8. He also suggested to need based training for faculty members.
9. Improve the quality in thesis writing.
10. More weightage should be given to research paper of P.G. students.

(PTO)

11. Avoid duplication of works in P.G. seminar and PG research.
12. Department seminar should be deliver by faculty member on new area or concept.
13. Regular meeting of faculties to discuss current issues.
14. Work load of faculties should be justified.
15. He given more emphases on reading and suggested to read one article in a day by faculties and students.
16. Faculties and students should see the website of known research institutes of the country for upgrading the technical knowledge.

At the end of session, Dr. D. V. Delvadia, Professor, Department of Horticulture, COA, JAU, Junagadh extended the vote of thanks to Dr. A. R. Pathak, Hon'ble Vice Chancellor & Chairman of the meeting, Dr. V. P. Chovatia, Director of Research & PG Dean, Dr. A. V. Barad, Principal and Dean, College of Agriculture, JAU, Junagadh and Dr. R. S. Chovatia, Professor & Head, Deptt. of Horticulture and faculty members.

3RD FACULTY GROUP OF SUBJECTS

Proceeding of third meeting on faculty group of Horticulture (3rd FGH) held on 10th November, 2017 at conference hall, horticulture wing, JAU, Junagadh

---

The third meeting of faculty group of horticulture was held at the conference hall, College of Horticulture, Junagadh Agricultural University, Junagadh on 10th November, 2017 under the Chairmanship of Dr. V. P. Chovatia, Director of Research & PG Dean, Junagadh Agricultural University, Junagadh. Dr. A. M. Parakhia, Registrar and Director of Extension, Dr. B. K. Sagaraka, Principal, College of Agriculture, JAU. Junagadh and Dr. R. S. Chovatia, Professor & Head, Deptt. of Horticulture and faculty members of Horticulture discipline remained present.

Dr. R. S. Chovatia, Convener of committee and Prof. and Head, Department Horticulture commenced the programme with welcome speech. He heartily welcomed Dr. V. P. Chovatia, Director of Research & PG Dean; Dr. A. M. Parakhia, Registrar and Director of Extension, Dr. B. K. Sagaraka, Principal, College of Agriculture and all the members of FGH.

The report of 3rd Faculty Group subject of Horticulture was presented by Dr. D. K. Varu, Associate Professor, Deptt. of Horticulture and interacted with dignitaries and members of house.

Dr. A. M. Parakhia, Registrar and Director of Extension highlighted the importance of this this meeting for our education system. He also given more emphases on practical teaching to the students because practical teaching is reducing. For effective practical teaching, the faculty must be skilled for any of the concept. For example, the faculty must to teach the grafting method to the students instead of skilled *mali*. He also expressed his feelings and worried about the attaining the library by students as well as faculties. The concept of reading is also reducing form the students and faculties. This efforts will be help full for quality education. He highlighted the role of open competition examinations like UPSC/GPSC/SRF/JRF as well as NET for the carrier of students.

Dr. V. P. Chovatia, Director of Research & PG Dean remarked the scenario of agricultural education. He offered valuable suggestions to improve the education system during presentation of the report as follows.

1. Organize the faculty seminar and group discussion on research paper during a month.
2. Collect the data of burning issues from the farmer in major fruit crops.
3. Collect the feedback from the Department of Horticulture, Govt. of Gujarat for PG research.
4. The title of PG research problems should be vary with each other.
5. PG research should also be planned in such a way that the objectives of any concept should be solved by more than one PG students.
6. They also suggested to give the PG research problems in flower crops in such a way that may be use full for further work and farmers recommendations.

7. Prepare and displays the charts in all gallery of College of Horticulture.
8. Prepare a practical manual as per 5th Deans in printed form of all course.
9. Suggestion for the preparation report
   i. Incorporate the individual work load of each faculty.
   ii. Finalized the training needs of discipline and mention in report.
   iii. Mention the summery of research papers.
   iv. Give the details activities of technological cell i.e. class schedule of JRF/SRF.
   v. Give the estimation of cost for one year in Item No. 9 for strengthening of department as well as college of Horticulture.
   vi. Mention the cost of production of various grafts (e.g. mango) in nursery activity.

At the end of session, Dr. D. K. Varu, Associate Professor, College of Horticulture, JAU, Junagadh extended the vote of thanks to Dr. A. R. Pathak, Hon'ble Vice Chancellor & Chairman of the meeting even though he was not remained in this meeting due to his busy schedule but he is founder of this FGS meeting. He also extended the vote of thanks to Dr. V. P. Chovatia, Director of Research & PG Dean, Dr. A. M. Parakhia, Registrar and Director of Extension, Dr. B. K. Sagaraka, Principal, College of Agriculture, JAU, Junagadh and Dr. R. S. Chovatia, Professor & Head, Deptt. of Horticulture and all the faculty members.

4TH FACULTY GROUP OF SUBJECTS

Proceeding of third meeting on faculty group of Horticulture (4th FGH) held on 5th December, 2018 at conference hall, horticulture wing, JAU, Junagadh

The fourth meeting of faculty group of horticulture was hold at the conference hall, College of Horticulture, Junagadh Agricultural University, Junagadh on 5th December, 2018 under the Chairmanship of Dr. V. P. Chovatia, Director of Research & PG Dean, Junagadh Agricultural University, Junagadh. Dr. B. K. Sagaraka, Principal, College of Agriculture, JAU. Junagadh, Dr. M. A. Vaddoria, Principal & Dean, College of Amreli and Dr. R. S. Chovatia, Professor & Head, Deptt. of Horticulture and faculty members of Horticulture discipline remained present.

Dr. R. S. Chovatia, Convener of committee and Prof. and Head, Department Horticulture commenced the programme with worm welcome to guests. He heartily welcomed Dr. V. P. Chovatia, Director of Research & PG Dean; Dr. B. K. Sagaraka, Principal, College of Agriculture, Dr. M. A. Vaddoria, Principal & Dean, College of Amreli and all the members of FGH.

The report of 4th Faculty Group subject of Horticulture was presented by Dr. D. K. Varu, Professor, Deptt. of Horticulture and interacted with dignitaries and members of house.

Dr. V. P. Chovatia, Director of Research & PG Dean remarked the scenario of horticultural crops and role of horticulture education. He given valuable suggestions to improve the education system during presentation of the report as follows.

1. Include the action taken of previous year suggestions in report
2. The attendance of trainings by faculties should be as per the training needs submitted by the faculties.
3. After completion of training, the faculty should deliver a seminar on topic with discussion and should be implemented in teaching and research activities.
4. Practical manual should be review by other institute like SAU of Gujarat and other than Gujarat.
5. Organize the faculty seminar and group discussion on research paper during a month.
6. JRF/SRF examination should be attempted maximum by students.
7. Pollen viability in mango, flowering variability in jamun, physibility of new crops, etc types of research works should be allotted to PG research.
8. PG research should also be planned in such a way that the objectives of any concept should be solved by more than one PG students.
9. Suggestion for the preparation report
   - i. Incorporate the individual work load of each faculty.
   - ii. Finalized the training needs of discipline and mention in report.
   - iii. Mention the summery of research papers.

At the end of session, Dr. D. K. Varu, Professor, College of Horticulture, JAU, Junagadh extended the vote of thanks to Dr. A. R. Pathak, Hon'ble Vice Chancellor & Chairman of the meeting even though he was not remained in this meeting due to his busy schedule but he is founder of this FGS meeting. He also extended the vote of thanks to Dr. V. P. Chovatia, Director of Research & PG Dean, Dr. B. K. Sagaraka, Principal, College of Agriculture, JAU. Junagadh, Dr. M. A. Vaddoria, Principal & Dean, College of Amreli and Dr. R. S. Chovatia, Professor & Head, Deptt. of Horticulture and all the faculty members.

5TH AND 6TH FACULTY GROUP OF SUBJECTS

Proceeding of third meeting on faculty group of Horticulture (5th& 6th FGS) held on 5th December, 2020 at seminar hall, College of Horticulture, JAU, Junagadh

Venue : Seminar Hall, College of Horticulture
Date : 05/12/2020

INAUGURAL SESSION

The fifth and sixth meeting of faculty group of horticulture was hold at the seminar hall, College of Horticulture, Junagadh Agricultural University, Junagadh on 5th December,2020 under the Chairmanship of Dr. V. P. Chovatia, Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh. Dr. P.M. Chauhan, Registrar, Dr. H.M. Gajipara, Director of Extension Education, Dr. K. A. Khunt, Principal, College of Agriculture, Dr. V. R. Malam, Director of Student Welfare, Dr. D. K. Varu Convener and Professor & Head, Deptt. of Horticulture and faculty members of Horticulture discipline remained present. Dr. D. K. Varu, Convener of committee commenced the programme with worm welcome to guests. He heartily welcomed Dr. V. P. Chovatia, Hon'ble Vice Chancellor and dignitaries and all the faculty members of FGS, Horticulture.

TECHNICAL SESSION

The technical session was chaired by Hon'ble Vice Chancellor Dr. V. P. Chovatia and Co-Chaired by Dr. K. A. Khunt, Principal, College of Agriculture, JAU, Junagadh.

Chairman	:	Dr. V. P. Chovatia Hon. Vice Chancellor, JAU
Co-chairman	:	Dr. K. A. Khunt, Principal, College of Agriculture,JAU, Junagadh
Convener	:	Dr. D. K. Varu, Professor & Head
Rapporteurs	:	1. Dr. D. R. Kanzaria, Associate Professor 2. Prof. Tejal Chaudhry, Assistant Professor

Dr. D. K. Varu, convener read the action taken report point wise and discussed in house. He also presented the report of 5th& 6th Faculty Group subject of Horticulture and interacted with dignitaries and members of house. Dr. P.M. Chauhan, Registrar, Dr. H.M. Gajipara, DEE, Dr. K. A. Khunt, Principal, College of Agriculture and Dr. V. R. Malam, Director of Student Welfare were also discussed with faculty members and given suggestions accordingly.

Dr. V. P. Chovatia, Hon'ble Vice Chancellor, remarked the scenario of horticultural crops and role of horticulture education. He also critically evaluates the teaching and research activities of college and given valuable suggestions to improve the education system during presentation of the report as follows.

During presentation following suggestions were made by the house.

1. Implement for the discussion on research paper by faculties after publication (***Action:*** *C-I branch*)
2. Add information regarding awards, placement cell, etc.in report (***Action***: C-I branch)
3. Prepare some records/document showing database of horticultural crops of the district, state, country and world level (***Action:*** C-I branch).
4. In UG programme, the practical must be in field and or laboratory instead of class room for insisting real practical work/field work and plant identification (***Action***: UGT branch).
5. RHWE programme of College of Horticulture is not as per the 5th Deans committee. Hence, it is needed to restructure the RHWE programme with concerning the Deans of Horticulture of other SAUs of Gujarat (***Action***: UGT branch).
6. For taking the benefits of expert faculties from state or national levels, organize the UG/PG lectures under faculty exchange programme (***Action***: UGT/PGT branch).
7. To maintain the work load, do equal work distribution of teaching where ever required (***Action:*** UGT/PGT branch).
8. Generate, record and update continuously the data and information on entrepreneurship and placement of passed out students of UG and PG studies (***Action:*** Placement Cell, College of Horticulture).
9. College of Horticulture is accredited; hence conduct more training programmes under IDP and competitions on technical skills like layout preparation, flower arrangements, preservation and other possible dimensions. Also prepare a review note or feedback from the students who have attended the training/competitions through presentation (***Action:*** Technological Cell, CoH).
10. For ELP of Agriculture and Horticulture, assign the task of seed production in papaya to the 8th semester students of Agriculture which should be relay to the 7th semester students of Horticulture and production share should be distributed within both faculty students (***Action:*** ELP In charge, Agriculture/Horticulture).
11. Research on pollen viability studies carried out by PG student was appreciable and advised to continue with further dimensions (***Action:*** Major guides, Fruit Science).
12. The major guide of the PG student must be visit the research experiment at least four times during the period of research in the field/laboratory (***Action:*** All major guides).
13. Also insist Ph.D. students to prepare and deliver power point presentation on floral morphology and biology of various horticultural crops on the inception of their first semester (***Action:*** All major guides).
14. Insist students to deliver PG seminars on topics related to climate change effects in horticultural crops (***Action:*** All major guides).
15. Send printed practical manuals to the SAUs of Gujarat and other states and follow up for their reviews (***Action:*** All Teachers).

16. In PG thesis and research papers, make it compulsory to include all possible references from the research work carried out by the Department, PG students or other departments of JAU to improve H and *i* index ***(Action:*** All teachers).
17. Insist teachers to incorporate the research recommendations in their theory/practical course materials of UG/PG courses (Action: All UG/PG teachers).
18. Faculties should be publishing a research papers with 7 or >7 NAAS rating ***(Action:*** All teachers).
19. Insist teachers and PG students to nominate in the various awards at state and country level ***(Action:*** All teachers).
20. Submit a research projects on personal biodata ***(Action:*** All teachers).

PLENARY SESSION

Dr. V. P. Chovatia, Hon'ble Vice Chancellor and Director of Research & Dean PG Studies, JAU, Junagadh appreciated the teaching activities in addition to research work of Department of Horticulture as well as the College of horticulture done by limited faculties. However, they have given many fruitful suggestions to all the faculties of this group to improve the teaching, research and transfer of technology. Dr. P. M. Chauhan, Registrar, JAU, Junagadh and Dr. K. A. Khunt, Principal, COA, JAU, Junagadh also gave suggestions to upgrade teaching and ranking of the university.

At the end of session, Dr. N. D. Polara, Associate Professor, College of Horticulture, JAU, Junagadh extended the vote of thanks to Dr. V. P. Chovatia, Hon'ble Vice Chancellor & Chairman of the meeting. He also extended the vote of thanks to all dignitaries and faculty members of committee.

7TH FACULTY GROUP OF SUBJECTS

Proceeding of meeting on 7th Faculty Group of Horticulture held on 4th December, 2021 at seminar hall, College of Horticulture, JAU, Junagadh

Venue : Seminar Hall, College of Horticulture
Date : 04/12/2021

INAUGURAL SESSION

The seventh meeting of faculty group of horticulture was hold at the seminar hall, College of Horticulture, Junagadh Agricultural University, Junagadh on 4th December,2021 under the Chairmanship of Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh. Dr. R. K. Mathukia, Registrar; Dr. V. R. Malam, Director of Student Welfare; Dr. K. B. Parmar, Associate Director of Research, JAU, Junaagdh; Dr. S. G. Savalia, Principal & Dean, faculty of Agriculture and Horticulture; Dr. D. K. Varu, Convener and Principal, College of Horticulture and faculty members of Horticulture discipline remained present. Dr. D. K. Varu, Convener of committee commenced the programme with worm welcome to guests. He heartily welcomed Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh and dignitaries and all the faculty members of FGS. Horticulture.

TECHNICAL SESSION

The technical session was chaired by Hon'ble Vice Chancellor Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor, JAU, Junagadh.

Chairman	:	Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor, JAU, Junagadh
Co-chairman	:	Dr. R. K. Mathukia, Registrar, JAU, Junagadh
Co-chairman	:	Dr. S. G. Savalia, Principal & Dean, faculty of Agriculture and Horticulture

Dr. D. K. Varu, convener read the action taken report point wise and discussed in house. He also presented the report of 7th Faculty Group subject of Horticulture and interacted with dignitaries and members of house. Dr. R. K. Mathukia, Registrar; Dr. V. R. Malam, Director of Student Welfare; Dr. K. B. Parmar, Associate Director of Research, JAU, Junaagdh and Dr. S. G. Savalia, Principal & Dean, faculty of Agriculture and Horticulture were also discussed with faculty members and given suggestions accordingly.

Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor, JAU, Junagadh, remarked the scenario of horticultural crops and role of horticulture education. He also critically evaluates the teaching and research activities of college and given valuable suggestions to improve the education system during presentation of the report as follows.

During presentation following suggestions were made by the house.

1. There is need to strengthen the various departments in College of Horticulture. Hence, faculties from the other discipline like processing, NRMH, Basic Science, Plant Protection and Social Science should be placed in College of Horticulture. (***Action*: Principal, COH**).
2. Minor subject in the PG programme should be across faculties like Soil Science, Physiology, GPB, Agronomy, Plant protection, etc. (***Action:* Principal, COH**).
3. Nominate PG student for library work (***Action*: Principal, COH**)
4. Prepare a note for the use of Research Associate and Senior Research Fellow in UG teaching for the next coming meeting of Boar of Study (***Action*: Principal, COH**).
5. Also prepare a review note or feedback from the students who have attended the training/competitions through presentation (***Action:* Placement Cell, COH**).
6. The data of the students who have accepted their own farming after their UG programme, should be added in placement cell. (***Action:* Placement cell, COH**).
7. Take the feed back from the UG/PG students after completion of their semesters (***Action:* Placement Cell, COH**).
8. Correct the format of report in table number 4.5 as Synopsis instead of synopsis presented, field work instead of field work is started, problem status instead of problem status or thesis submitted (***Action*: C-I branch**).
9. Contact the farmers who are progressive or have adopted the natural farming or awarded by Govt. agencies like NITI ayog (***Action* : C-I branch**).
10. Use the academic world instead of in charge (***Action:* C-I branch**).
11. Implementation of agro industries/ processing industries for the implant training during RHWE programme (***Action:* UGT branch, RHWEP Coordinator**).
12. All faculties should be focus on advance research and their publication in PG programme (***Action*: All major guides and teachers**).
13. The efforts should be made to prepare the PG/Ph.D. students against the application for the student award in ICAR or other institutes (***Action:* All Major Guides**)
14. Junior faculty members must be involved in research (***Action:* All members**).
15. Also insist Ph.D. students to prepare and deliver power point presentation on floral morphology and biology of various horticultural crops on the inception of their first semester (***Action:* All major guides**).
16. The PG research should be concentrated on natural farming (***Action:* All Major Guide**).
17. Send printed practical manuals to the SAUs of Gujarat and other states and follow up for their reviews (***Action:* All teachers**).
18. In PG thesis and research papers, make it compulsory to include all possible references from the research work carried out by the Department, PG students or other departments of JAU to improve H and *i* index (***Action:* All teachers**).
19. Insist teachers to incorporate the research recommendations in their theory/practical course materials of UG/PG courses (***Action*: All UG/PG teachers**). **(PTO)**

20. Faculties should be publishing a research papers with 7 or >7 NAAS rating ***(Action:* All teachers).**
21. Publish the book from the printed practical manual ***(Action*: All teachers).**

PLENARY SESSION

Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor, JAU, Junagadh appreciated the teaching activities in addition to research work of College of horticulture done by limited faculties. However, they have given many fruitful suggestions to all the faculties of this group to improve the teaching, research and transfer of technology. ; Dr. R. K. Mathukia, Registrar and Dr. S. G. Savalia, Dean and Dr. K. B. Parmar also gave suggestions to upgrade teaching and ranking of the university.

At the end of session, Dr. K. D. Patel, Principal, Polytechnic College of Horticulture, JAU, Junagadh extended the vote of thanks to Prof. (Dr.) N. K. Gontia, Hon'ble Vice Chancellor & Chairman of the meeting. He also extended the vote of thanks to all dignitaries and faculty members of committee.

Date : 10/10/2025

INAUGURAL SESSION

The eleventh meeting of the horticulture faculty group took place in the seminar hall at the College of Horticulture, Junagadh Agricultural University, Junagadh on October 10, 2025, chaired by Dr. V. P. Chovatia, the Hon'ble Vice Chancellor of Junagadh Agricultural University, Junagadh. Present at the meeting were Dr. A. G. Pansuriya, Director of Research and Dean of PG Studies, Dr. Y. H. Ghelani, Registrar, Dr. N. B. Jadav, Director of Extension Education and Dr. D. K. Varu, the Convener, Principal, and Dean of the College of Horticulture, along with other faculty members from the Horticulture discipline. Dr. D. K. Varu, the Convener of the committee, initiated the program by warmly welcoming the guests. He particularly extended his greetings to Dr. V. P. Chovatia, the Hon'ble Vice Chancellor of Junagadh Agricultural University, Junagadh, along with the dignitaries and all faculty members from the Faculty Group of Studies in Horticulture.

TECHNICAL SESSION

The technical session was chaired by Hon'ble Vice Chancellor Dr. V. P. Chovatia, Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh

Chairman	:	Dr. V. P. Chovatia, Hon'ble Vice Chancellor, JAU, Junagadh
Co-chairman	:	Dr. A. G. Pansuriya, Director of Research and Dean PG studies, JAU, Junagadh
Co-chairman	:	Dr. Y. H. Ghelani, Registrar,, JAU, Junagadh

Dr. D. K. Varu, serving as the convener, examined the action taken report systematically and led an in-house discussion. He also shared the report of the 11th Faculty Group Subject of Horticulture and interacted with both dignitaries and members of the house. Dr. A. G. Pansuriya, the Director of Research and Dean of PG Studies, along with Dr. Y. H. Ghelani, the Registrar, and Dr. N. B. Jadav, the Director of Extension Education, engaged in discussions with faculty members and provided suggestions accordingly.

Dr. V. P. Chovatia, the Hon'ble Vice Chancellor at JAU, Junagadh, addressed the current state and issues concerning horticultural crops. He also conducted a critical evaluation of the college's teaching and research activities, offering significant recommendations to enhance the education system during the report presentation, as follows.

During presentation following suggestions were made by the house.

1. Arrange the meeting of all the teachers to implement the addition of recent recommendations/technologies in the respective course materials. In Addition to that also prepare a committee to check the course materials (***Action*: T-1 branch, COH).**
2. Send the journals to SAUs of Gujarat for the review printed journals of UG courses from the experts or teachers from the university (***Action*: UG/PG Teachers of COH).**

3. Mention the date of training/seminar for the students/ faculties have to give the training/knowledge/practices on scientific written for the research paper, which will be useful for the publication of research paper >6 NAAS rating. (***Action*: T-1 branch, COH).**
4. Confirm the original fund amount of revolving B. H. 9510-J-63 at the time the time allotment budget head. **(Action : B-2 Branch, CoH)**
5. Submit the proposal and evaluation for the establishment of a dome in the college building's premises. **(Action : K-2-D branch)**
6. Specified the date of meeting of major advisers of PG/Ph.D. students for the allotment of their research problems. **(Action: C-2 Branch)**
7. Add all the credentials of faculties of horticulture and summaries the research paper based on NAAS rating **(Action: T-1 Branch)**
8. Deliver the SSR report for the Accreditation of the college within the teaching staff for information and their knowledge **(Action: T-1 Branch)**
9. Collection, conservation and evaluation of arid fruit crops, Kair, Beal, and Opuntia *etc.* **(Action: Professor and Head, Dept. of Fruit Science)**

PLENARY SESSION

Y. H. Ghelani, Registrar, acknowledged the teaching and research contributions of the College of Horticulture. He have offered several beneficial suggestions to all faculty members in this group to enhance teaching, research, and the transfer of technology. They also provided recommendations to improve the university's teaching and its overall ranking

Dr. V. P. Chovatia, Hon'ble Vice Chancellor at JAU, Junagadh, expressed appreciation for the teaching and research initiatives of the College of Horticulture. He shared many constructive suggestions with all faculties in this group to advance teaching, research, and technology transfer. Furthermore, he proposed ideas to elevate the university's teaching standards and ranking.

At the conclusion of the session, Dr. H. L. Kacha, Principal of the Polytechnic in Horticulture at JAU, Junagadh, expressed gratitude to Dr. V. P. Chovatia, the Hon'ble Vice Chancellor of JAU, Junagadh, who chaired the meeting. He also thanked all the dignitaries and faculty members of the committee.

CLASS ROOM MONITORING COMMITTEE

-: કાર્યાલય આદેશ :-

અત્રેની બાગાયત કોલેજમાં ક્લાસ બરાબર ચાલતા તમામ અધિકારી/શિક્ષકશ્રીઓને જણાવવાનું કે કોલેજના સ્નાતક તેમજ અનુસ્નાતક કક્ષાએ શૈક્ષણિક કાર્ય સારી રીતે તેમજ દરેક વર્ગો નિયમિત ટાઇમ ટેબલ મુજબ લેવાય તે ખુબ જરૂરી છે. એકેડીટેશનના મોનીટરીંગ મીકેનીઝમ નિયમ અંતર્ગત આપણી કોલેજમાં ચાલતા થીયરી તેમજ પ્રેક્ટીકલ વર્ગોનું મોનીટરીંગ કરવાનું થાય છે. જે માટે એક કમિટી બનાવવામાં આવે છે. જેમાં નીચે મુજબના સભ્યોની નિમણુક કરવામાં આવે છે.

અ.નં.	અધિકારીશ્રીનું નામ અને હોદ્દો	હોદ્દો
૧.	ડૉ. કે. એમ. કરેથા, સહ પ્રાધ્યાપક, બા.મ.વિ., જુ.કૃ.યું., જુનાગઢ.	કન્વીનર
૨.	ડૉ. ડી. આર. કણઝારીયા, સહ પ્રાધ્યાપક, બા.મ.વિ., જુ.કૃ.યું., જુનાગઢ.	સભ્ય
૩.	ડૉ. જે. એચ. પરસાણા, મદદ. પ્રાધ્યાપક, બા.મ.વિ., જુ.કૃ.યું., જુનાગઢ.	સભ્ય
૪.	પ્રો. ટી. એમ. ચૌધરી, મદદ. પ્રાધ્યાપક, બા.મ.વિ., જુ.કૃ.યું., જુનાગઢ.	સભ્ય

આ કમિટીએ બાગાયત મહાવિદ્યાલયના સ્નાતક/અનુસ્નાતક કક્ષાના થીયરી/પ્રેક્ટીકલના વર્ગો બરાબર ટાઇમ ટેબલ મુજબ લેવાય તે અંગે દર મહીને મોનીટરીંગ કરી રીપોર્ટ કરવાનો રહેશે. આ કામગીરી વિદ્યાર્થીઓના હિતમાં હોઇ સારી રીતે નિભાવાય તે જરૂરી છે.

It's an anour bar me to study in College of Horticulture at JAU. I Spent my 4 years of life there and its made valueable by our college and staff members. Everything was there ; Education, Development, learning, Experiencing and much more. The main thing is that the learning from our faculty, our departmental head, our college staff, team, professions ; they did not treat as their students, but they treat as their family. All the labs, infrastructure & management is best at all. Teaching at college staff is excellent. Every thing is perfect there.

3. Feedback: કોલેજ ઓફ હોર્ટિકલચર જુ. કૃ. યુ. ગુજરાતની શ્રેષ્ઠ કોલેજોમાંની એક છે. તે શિક્ષણ માટે એક આદર્શ સ્થળ છે કે જ્યાંનું ઇન્ફ્રાસ્ટ્રક્ચર અભ્યાસ માટે અદભુત વાતાવરણ આપે છે. તેમાં કેટલીક અદભુત સુવિધાઓ છે જેમ કે લાઇબ્રેરી, સેમિનાર હોલ અને લેબોરેટરી. બધી સુવિધાઓ શિક્ષણ મેળવવા માટે શ્રેષ્ઠ અને પરિપૂર્ણ છે. ફેકલ્ટી ખૂબ જ જ્ઞાની અને અનુભવી છે. હું માનું છું કે મારી પુત્રીએ કોલેજ ઓફ હોર્ટિકલચર જુ. કૃ. યુ. માં ગુણવત્તાયુક્ત શિક્ષણ મેળવ્યું છે

Department of Fruit Science,
College of Horticulture,
Junagadh Agricultural University
Junagadh

We are very fortunate that we have been asked to give feedback for B.Sc./M.Sc. in Horticulture graduate qualities and about college of Horticulture, JAU, Junagadh. We have a long-lasting collaboration with the college. In case of need of technical and scientific expertise your scientist/teachers are always there for help. Under the guidance of your personnel, we have learnt a lot and developed our fruit plant nursery business. Today we have availability of all major fruit plant seedlings/grafts. The college of Horticulture is working very well for educating the students of UG/PG programme. The teaching staffs are highly qualified and hard worker with good responsive. Their roles in uplifting of our nursery are really appreciated.

However, we submitted the following suggestion for the still improvements of the qualities of the outcomes of the college. The students should be thought more on practical aspects. They should be sent to fields of progressive/awardee farmers to enrich the practical knowledge on implementation of SAU's/ICAR Institute/farmers innovative technologies. The students should be exposed the orchards of new introduced crops which help them to gain knowledge and experience on different fruit crops cultivation and evaluate and overcome the difficulties faced by the farmers.

To,
The Principal,
College of Horticulture,
Junagadh Agricultural University,
Junagadh.

It gives me immense pleasure to state the close relationship between our company and college of Horticulture, Junagadh Agricultural University, Junagadh since long. The technical knowledge centered by your faculties/seminar is highly appreciable. As per my personal view, the teaching activity of your college is good and a quick adoption of newer technologies by horticulture graduates in the field of post-harvest technology is only due to their technical expertise obtained by your institute. Your faculties are giving very well technical support to us as & when require. I would like to say that the faculties of your college are with very good manner and also having great flexibility towards nature of work. I wish your college a grand success.

Thanking You,

Subject: Feedback from Farmer Training Centre, Junagadh

Respected sir, with reference to subject cited above, in the Year of 2023-24, 2024-25 & 2025-26 respectively on Date-06/06/2023, 19/07/2024 & 04/07/2025 we visited at Department of Post-Harvest Technology/Greenhouse Park and Lalbaug nursery. Our Trainee Farmers (beneficiaries) were benefitted with preparation of different product from fruits and vegetables, greenhouse technology and nursery activities. The demonstration of fruit product value addition was both informative and engaging. It showcased various innovative methods of transforming fresh fruits into value-added products like jams, juices, and dried snacks, emphasizing the importance of diversification for farmers. This practical session highlighted the potential for increasing profitability and market reach through processing and product development. So, we are very thankful to staff of College of Horticulture for giving valuable guidance to our Trainee farmers.

To,
Professor and Head,
Department of Fruit Science,
College of Horticulture,
Junagadh Agricultural University
Junagadh

We are very fortunate that we have been asked to give feedback for B.Sc./M.Sc. in Horticulture graduate qualities and about college of Horticulture, JAU, Junagadh. We have a long-lasting collaboration with the college. In case of need of technical and scientific expertise your scientist/teachers are always there for help. Under the guidance of your personnel, we have learnt a lot and developed our fruit plant nursery business. Today we have availability of all major fruit plant seedlings/grafts. The college of Horticulture is working very well for educating the students of UG/PG programme. The teaching staffs are highly qualified and hard worker with good responsive. Their roles in uplifting of our nursery are really appreciated.

However, we submitted the following suggestion for the still improvements of the qualities of the outcomes of the college. The students should be thought more on practical aspects. They should be sent to fields of progressive/awardee farmers to enrich the practical knowledge on implementation of SAU's/ICAR Institute/farmers innovative technologies. The students should be exposed the orchards of new introduced crops which help them to gain knowledge and experience on different fruit crops cultivation and evaluate and overcome the difficulties faced by the farmers.

To,
The Principal,
College of Horticulture
Junagadh Agricultural University
Junagadh

It gives me immense pleasure to state the close relationship between our company and college of Horticulture, Junagadh Agricultural University, Junagadh since long. The technical knowledge catered by your faculties/scientist is highly appreciable. As per my personal view, the teaching activity of your college is good and a quick adoption of newer technologies by horticulture graduates in the field of post-harvest technology is only due to their technical expertise obtained by your institute. Your faculties are giving very well technical support to us as a when require. I would like to say that the faculties of your college are with very good manner and also having grate flexibility towards nature of work. I wish your college a grand success.

Thanking You.

We are very fortunate that we have been asked to give feedback for B.Sc./M.Sc. in Horticulture graduate qualities and about college of Horticulture, JAU, Junagadh. We have a long lasting collaboration with the college. Our personnel are also invited to deliver expert lectures during the students training programme at college. During training programme/farmers fair, we get the having corporate nature, hardworking, enthusiastic and intelligent.

The college of Horticulture is working very well for educating the students of UG/PG programmes. The teaching staffs are highly qualified and hard worker with good responsive. Their roles in uplifting of our company is really appreciated.

However, we submitted the following suggestion for the still improvements of the qualities of the outcomes of the college.

(1) The students should be thought more on practical aspects. They should be sent to fields of progressive/awardee farmers to enrich the practical knowledge on implementation of SAU's/ICAR Institute/farmers innovative technologies.
(2) The concentrated training/visit to processing industries of various fruit and vegetables. They should be sent for exposure visit to different industries to become entrepreneurs during after the completion our degree programme.

It gives me immense pleasure to state the close relationship between our company and college of Horticulture, Junagadh Agricultural University, Junagadh since long. The technical knowledge catered by your faculties/scientist is highly appreciable. As per my personal view, the teaching activity of your college is good and a quick adoption of newer technologies by horticulture graduates in the field of post-harvest technology is only due to their technical expertise obtained by your institute. Your faculties are giving very well technical support to us as a when require. I would like to say that the faculties of your college are with very good manner and also having grate flexibility towards nature of work. I wish your college a grand success.

Thanking You.
