Mr. Devendrabhai Shivabhai Moliya, a progressive farmer in Targhadi village, engaged in traditional farming with his family for his livelihood support. He faced low income due to unpredictable weather, disease and insect attacks. To overcome these issues he and 15 rural youths received practical training in scientific groundnut oil extraction and marketing through the ARYA project. The group of these 15 rural youths has started the mini oil mill unit enterprise in the year 2017 at Targhadi village under ARYA project support. This enterprise is run 8 months during the year and employed 10 youths. This enterprise generating an annual income of Rs. 15,63,000 per unit by selling their products in the local market during the year 2023.

After successful this enterprise, Mr. Devendrabhai Moliya with group of 10 youths started their own entrepreneurial unit of Mini Oil Mill enterprise at Kuvadava village during the year 2023. This enterprise was run 6 months during the year and employed 8 youths. This enterprise earned net profit of Rs. 7,20,000 in the year 2023.

This enterprise is a good example to attract and retain of youth in agriculture at village level. This enterprise also motivates rural youths to processing and value addition of farm produce.
