## ABOUT THE COLLEGE

Agricultural Engineering plays a very important role in increasing production and productivity of agricultural crops, thereby, increasing the income of farmers. Also, timeliness of farm operation through efficient agricultural implements and machinery as well as appropriate land and water management activities along with efficient post-harvest technology and processing as well as efficient energy utilization are the important areas in which Agricultural Engineering profession has been playing major role.

The Government of Gujarat approved to establish the College of Agricultural Engineering and Technology considering the importance of Agricultural Engineering under the Gujarat Agricultural University at Junagadh Campus and accordingly, the College of Agricultural Engineering and Technology started in March, 1984 with the broad mandate of teaching, research and extension education in agricultural engineering.

With the bifurcation of Gujarat Agricultural University into four universities with effect from May 1, 2004, now the college is one of the constituent colleges of Junagadh Agricultural University, Junagadh. The Junagadh Agricultural University Campus is located in the heart of Junagadh city at about 4 km from Railway Station and 3 km from Bus Station. The College of Agricultural Engineering and Technology (CAET) is located at this campus. The college has 6 ha land including the land occupied by the building. The total building area is 13579 sq.m. In addition to this, the Instructional farm of about 35 ha is maintained by the college.

The Agricultural Engineering plays a very important role in increasing production and productivity of agricultural crops, thereby, increasing the income of farmers. The important areas in which Agricultural Engineering profession has to play major role are timeliness of farm operation through efficient agricultural implements and machinery including testing and evaluation of farm implements / machineries as per BIS system, appropriate land and water management activities, value addition and efficient post-harvest technology and processing of farm produces, efficient management of renewable energy resources, protective cultivation green house technology and use of plastic mulch for crop cultivation.

The College offers facilities for study of Agricultural Engineering, leading to degree of Bachelor of Technology (Agricultural Engineering). The M. Tech. Programme in different disciplines started from June, 1994. The disciplines included Master of Technology (Agril. Engg.) in Farm Machinery & Power Engineering, Soil & Water Engineering, Processing & Food Engineering and Renewable Energy Engineering. From the year 2001, Ph.D. programme has also been started. Since year 2005-06 Ph.D. programme started in other disciplines like Farm Machinery & Power Engineering and Processing & Food Engineering. College is admitting foreign students under Indo-African, Indo-Afghanistan fellowships awarded by ICAR, New Delhi.

The college has five full-fledged departments namely Farm Machinery and Power, Soil and Water Engineering, Processing and Food Engineering, Renewable Energy and Rural Engineering as well as Agricultural Engineering Extension Education. The courses related to basic engineering, basic science and humanities are also being offered by these departments. The college has essential basic facilities like Departmental Library, Seminar Hall, Computer Lab, Mechanical Workshop, Instructional Farm,

Hostel, Play Ground (Gymkhana) and Faculty Residence. The facilities like Health Center, Sports, Auditorium, Central Library and Canteen are available at university level.

The Vision and Mission of the College of Agricultural Engineering and Technology are:

### **(A) OUR VISION**

The college of Agricultural Engineering and Technology will be one of the nation's finest colleges and lead others in coordinating the teaching, research and extension education in the field of Agricultural Engineering. The academic quality, continuous efforts for excellence and our responsiveness to the need of farmers and industry would be our distinction. Our reputation will attract good students, government and corporate research support.

### **(B) OUR MISSION**

- To produce good quality agricultural engineers.
- To provide the required manpower in the field of agricultural engineering suitable for research and education, extension, government agency, private industries, agro-industries, NGO etc.
- To assist farmers in reduction in cost of cultivation through better utilization of efficient machinery, soil and water conservation, irrigation management, value addition through farm level processing, post-harvest technology; protective cultivation and use of renewable energy ultimately help the farmers to increase their earnings
- Human resource development for the faculty.

### **(C) ROLE OF AGRICULTURE ENGINEERS**

- To reduce the hazards of farming.
- To reduce production costs by better methods of farming, more efficient machines , better use of labor, better planning and design of structures.
- To improve and retain the quality of farm products.
- To utilize profitably farm byproducts and surplus.
- To remove drudgery from farming operations and limeliness of farm operations.
- To conserve and use more efficiently our natural

### **(D) OBJECTIVES OF PLACEMENT CELL**

- To place the out coming engineers properly by arranging campus interviews after discussion with corporate people.
- To explore the future possibilities for placing Agricultural Engineers within and outside the state.
- To organize lecture on developing professional and entrepreneur skills for the young professional technocrats.

### (E) POTENTIAL EMPLOYERS AT NATIONAL AND STATE LEVEL

- ICAR, CIAE and other Central Govt. Institutions. Directorate of Agriculture, State. Govt.
- Directorate of Agril. Engg. (Especially in the States likes M.P., Tamil Nadu, Orissa, etc.)
- Agricultural Universities.
- Command Area Development, DPAP schemes etc.
- Irrigation Department.
- State Land Development Corporations.
- State Agro Industries Corporations.
- Water and Land Management Industries.
- Forest Department.
- Agricultural Finance Corporation, NABARD, etc.
- Ground Water Boards/Corporations.
- Rural Development Corporations.
- Nationalized Banks.
- Food Processing Industries.
- Tractor Industries.
- Public and Private Sector Industries.
- Irrigation Equipment Industries.
- Farm Implements Manufacturers.

### (F) Course Curriculum of B.Tech (Agril. Engg.) –

**Duration: 8 semester (4 years)**

#### Semester - I

SN	Course Name	Course No.	Credit (L + P / T)
1	Engineering Mathematics-I	Maths (E)-101	3 (2 + 1*)
2	Engineering Physics	Phy (E)-101	3 (2 + 1)
3	Engineering Chemistry	Chem (E)-101	3 (2 + 1)
4	Workshop Practice	FMP - 101	1 (0 + 1)
5	Surveying and Leveling	RE - 101	3 (1 + 2)
6	Engineering Drawing	FMP - 103	2 (0 + 2)
7	Environmental Science	ES - 101	3 (3 + 0)

## Semester - VII

SN	Course Name	Course No.	Credit (L + P / T)
1	Project	AE - 401	6
2	Seminar	AE - 403	1
3	Renewable Energy Technology	RE - 401	3 (2 + 1)
4	Student will have to take minimum of 12 credits courses from the following Cafeteria Courses :		12
	1) Food Packaging Technology	APE - 401	3 (2 + 1)
	2) Design and Maintenance of Greenhouse	RE - 403	3 (2 + 1)
	3) Waste and Byproduct Utilization	APE - 403	2 (1 + 1)

4)	Development of Processed Products and Equipment's	APE - 405	3 (2 + 1)
5)	Food Processing Plant Design and Layout	APE - 407	2 (1 + 1)
6)	Micro Irrigation System Design	SWE - 401	3 (2 + 1)
7)	Watershed Planning and Management	SWE - 403	3 (2 + 1)
8)	Minor Irrigation and Command area Development	SWE - 405	3 (2 + 1)
9)	Gully and Ravine Control Structures	SWE - 407	3 (2 + 1)
10)	Remote Sensing & GIS Applications	SWE - 409	3 (2 + 1)
11)	System Engineering	SWE - 413	3 (3 + 0)
12)	Reservoir and Farm Pond Design	SWE - 411	3 (2 + 1)
13)	Tractor Design and Testing	FMP - 401	3 (2 + 1)
14)	Hydraulic Drive and Controls	FMP - 403	3 (2 + 1)
15)	Farm Power and Machinery Management	FMP - 405	3 (2 + 1)
16)	Human Engineering and Safety	FMP - 407	2 (1 + 1)
17)	Production Technology for Agril. Machinery	FMP - 409	3 (2 + 1)
18)	Mechanics of Tillage and Traction	FMP - 411	3 (2 + 1)
19)	Environmental Engineering	RE - 405	3 (2 + 1)
20)	Biomass Management for Fodder and Energy	RE - 407	2 (1 + 1)
<b>Total</b>			<b>22</b>

### Semester -VIII

Student will undertake in-plant training of 25 credits hours which will include practical training at the Institution, training in one (4 months) / two (2 months each) Industrial Units and Educational tour.	AE (SWE) - 402	10
	AE (FMP /APE / RE) - 404	15
<b>Total</b>		<b>25</b>
<b>Grand Total</b>		<b>188</b>

Legend: Cr = Credit, L = Number of lectures per working week.

P = Number of practical's per working week, T = Number of tutorials per working week.

Credit : One credit means one lecture of 1 hour or 2 hours of tutorial or 2 to 3 hours of practical per working week.

Any one : Physical education or NCC or NSS First and Second Semester
