

## History & Background

In 1972, GAU was established and started with some limited and initial functions. The department of Agril. Statistics was established in 1977. In 1979, the PG centre was commenced in Junagadh Campus of GAU. The plan scheme "Creating Computer and Communication Facilities was sanctioned" and under this project, the computer cell was established in 1987. With the division of GAU, JAU came in to existence in 2004.

Major activities of the department are focused in the UG teaching, PG teaching, research and advisory services in the discipline of agricultural statistics.

### **Goals of the department**

To provide human resources, skills and technology required for sustainable development in the discipline of agricultural statistics by integrating education, research and extension activities.
