The Seventeenth Scientific Advisory Committee meeting of Krishi Vigyan Kendra, JAU, Jamnagar was held at Training Hall, Krishi Vigyan Kendra, JAU, Jamnagar on 8th February, 2021.

Suggestions made by committee members during presentation:

Sl. No.	Name and Designation of Participants	Salient Recommendations	Action taken
1	Dr. V. P. Chovatiya, Hon'ble Vice Chancellor, JAU, Junagadh	➤ Arrange FLD on latest released variety of pearl millet.	Suggestion accepted and implemented with FLD taken on GHB-1231 variety of pearl millet.
		➤ Take data of critical observations hectare base in OFT	Suggestion accepted and incorporated. As per OFT purpose data recorded on pest, diseases, height etc critical observation in different OFT.

		➤ Data should record lactation basis (milk yield) instead of 5 months in FLD on bypass fat in animal	Suggestion accepted and incorporated, as per lactation basis milk yield.
		➤ Arrange training on weed management during third quarter	Suggestion accepted and incorporated in training schedule.
		➤ Record maximum farmers from every taluka and village level for benefit of DAMU project	Suggestion accepted and all 10 taluka farmers have been incorporated for DAMU advisory
		➤ Accountability of FLD's	Suggestion accepted and incorporated for FLD accountability, take visit of farmers many time and do field day, field visit, note on all operation and yield etc for FLD's.
		➤ Check the usefulness and review of advisory to farmers under DAMU project	Suggestion accepted and incorporated. Special project was taken on this review.
2	Dr. H. M. Gajipara, Director of Extension Education, JAU, Junagadh	➤ Analyze maximum soil and water sample at KVK Soil Testing Laboratory	Suggestion accepted and incorporated.
		➤ Record impact assessment of training programs	Every three completion of KVK selected village and Ex trainees, this type of study undertaken by KVK scientist and reported
		➤ Maintain register for FLD farmers with observation data	Suggestion accepted and incorporated
		➤ Arrange demonstration on implements	Suggestion accepted and incorporated on different implements
		➤ Upload all extension programs on ICAR portal	Suggestion accepted and incorporated regularly on ICAR portal.
		➤ Write down the feedback of farmers under FLD	Suggestion accepted and every FLD feedback were written and presented in every SAC meeting.
3	Vitthalbhai Sakhiya, Member of Extension Education Council, JAU, Junagadh	➤ suggested to work cooperatively with all departments for farmers.	Suggestion accepted and incorporated.
4	Shri Dhanpal Sir, ACF	➤ linkage with forestry department with MOU for different extension programs and work together.	Suggestion accepted and incorporated. Many programs were jointly organized with the Forest department.

18th SAC proceeding along with list of participants in Annexure -1.

2. DETAILS OF DISTRICT

The district of Jamnagar is lies in North Saurashtra AgroClimatic Zone(VI) with an area of 35.02 lakh hectare land. The total geographical area of entire district (21.8 – 22 ON, 69.0 – 70.7 E) occupies 14125 km² i.e. 14.125 lakh ha area in the west of Gujarat state. The climate is arid (80%) and semi arid (20%) with a meanmoistureindex of 67.5. About 95 to 98% of annual rainfall comes during the monsoon month of June to October, July and August being the rainiest months. The co-efficient of variation ranges between 50 and 82%. The annual potentialevapo-transpiration ranges between 1500 and 1650mm, three times the precipitation, resulting in no flow in the ephemeral channels for the most of the year. The district is water scarcity area droughts are common in this region draughts of moderate to severeintensity occur once in 2 to 3 years. Although the integrateddrainagesystemfrom the story/rocky/gravelly surfaces and torrential nature of precipitation generate 40 to 60% of rainfall as runoff, steeper slopes and absence of checks allow the water to quickly flow to the sea. Being is hard rock terrain, the groundwater potential is very low, is already over exploited and mined, resulting in either the saline water ingress in the costal aquifers, or drying up of the ground water up to a depth of 100m. Consequently, a need for holistic approach to water resourcedevelopmentin the district. Wind velocity prevailing in the district is higher order (14.1 km) ha on an annual averagebasisdue to sea coast area.

According to physiographically, majorportion of the area in the district have an altitude ranging between 25 to 150 meters, which consists ten talukas having gentle slope to moderate slope. The district is marked by radicalrainage pattern. Deccantrap basalt occupies a major part of the district. The Quaternary formations includemilliolite, limestone, alluvium and Geolian sediments. The dominantland forms are colluvial plains and rocky uplands. Low hills occur in the southern part of district and are dissected by numerous large and small seasonal streams, most of which drain towards north and form potential drainage basins. The district is characterized by shallow, black soil and coastal alluvial soils with large variations in depth, texture, structure salinity, and water erosion. Nearly two third area of the district is under cultivation. The major factors of land degradationareaccelerated water erosion and Salinization.

Basic information of operational district, Jamnagar and Devbhumi Dwarka:

Sr. No.	Details	JAMNAGAR		DEVBHUMI DWARKA	
1	Total geographical area	6.075 lakh ha.		4.07509 lakh ha.	
2	Totalcultivablearea	4.32 lakh ha.		2.52 lakh ha.	
3	Netcultivatedarea	3.53 lakh ha.		2.38 lakh ha

2.1 Major farming systems/enterprises (based on the analysis made by the KVK)

S. No	Farming system/enterprise		
1	Crops	Cereals	: Pearl millet, Sorghum, Wheat, Maize
		Pulses	: Greengram, Blackgram, Chickpea, pigeonpea
		Oilseeds	: Groundnut, Sesamum, Castor, Mustard,
		Cash crops	: Cotton,
		Spices and condiments	: Cumin, Fennel, Coriander, ajwan, Ishabgul
		Vegetables	: Onion, garlic, potato, chilli, binjal, tomato, cauliflower, Cowpea, cabbage, okra, peach, cucurbits etc
		Horticulture	: Chiku, pomegranate, lemon (Citrus), Jamun, Aonla, guava, custard apple, papaya, coconut, ber, Almond, Banana, Dragon fruit, Drum stick
		Floriculture	: Rose, merry gold, vevanti, etc
		Other Crops	: Chikori, Fenugreek, Mulberi neem
2	Live stock	Bullocks and cows	
		Buffaloes	
		Sheep	
		Goats	
		Horse and camel	
		Poultry	
		Others animals	
3.	Fishery	340 km coastal belt	4832 tonnes fish production

2.2 Description of Agro-climatic Zone&majoragroecological situations (based on soil and topography)**a) Soil type**

S. No	Agro-climatic Zone	Characteristics
Zone–VI	North Saurashtra	The influence area of North Saurashtra Agroclimatic Zone is spread among five districts viz., Amreli (7 talukas out of 10), Bhavnagar (7 talukas out of 14), Jamnagar (all the 10 talukas), Rajkot (9 talukas of 13) and Surendranagar (6 talukas out of 9) covering 39 talukas in all. The influence area of the zone lies between 21°-02' to 23°-16' North Latitude and 68°-56' to 72°-12' East Longitude. It is founded in the north by the Gulf of Kutch and parts of Rajkot as well as Surendranagar districts, in the East by the Ahmedabad district and ncoastal part of Bhavnagar district, on the South by the Junagadh district and parts of Amreli as well as Rajkot district, to the west by Arabian sea. The North Saurashtra region which comprises the peninsular part of Gujarat has low to medium rainfall and shallow to medium black soils and also coastal saline alluvial soils. In this Agro-climatic zone, cotton (Bt), groundnut, pearlmillet, wheat are the major crops which contribute considerably to the economy of the state. In Saurashtra, among this zone taking in to consideration the rainfall pattern, the topography, soil characteristics, the climate and the cropping pattern have been identified in Gujarat. The North Saurashtra zone have five main / sub station cum testing centre of University like Dry Farming Research Station with KVK, Targhadia (Rajkot District), Main Millet Research Station with KVK, Jamnagar, Oilseeds Research Station (Sesamum, Mustard, Sunflower) with KVK, Amreli, Dry Farming Research Station, Nanakandhasar, (Surendranagar District) and Dry Farming Research Station, Jamkhambhalia (Jamnagar District).

b) Topography**Agro – Ecological situation in the District**

The advent of southwest monsoon greatly influences seasonal patterns of rainfall distribution in the district. Thus, mean annual rainfall provides useful comparison of agricultural potential of a given situation in the district. The mean rainfall in the district 539.17mm

The physiography of entire region of district is more or less flat. However, the region is undulating with slopes having little hilly areas from 25 to 150 meters. Physical features of the area vary from flat land to 150 meters above mean sea level. Most of the area falls in the range of 25m to 150m above mean sea level.

Based on the soil survey information of the zone, the soils of the district hence been broadly classified in to fine categories. Available information about the properties of these soils and their textures has been considered. The types of soils categories are as under: -

Shallow black soils

Medium black soils

Saline alkali soils

Costal alluvial soils

Hilly soils

While delineating the zone into district agro ecological situations, there major factors including various soil types, altitude and the rainfall patterns have primarily been considered. The district can be delineated into five agro ecological situations.

Although, each of the situations has rainfed and irrigated condition, but irrigation has not been considered in identification of the agro ecological situations. While deciding the major crops, cropping patterns and constraints in production, mention has been made of both these conditions one or the other agro ecological situation occurs in the influence area of the district. The fact that this does not preclude the existence of more than one agro ecological situations within the same area.

Sl. No.	Agro Ecological Situation	Soil texture	Altitude	Principal crops	Special features	Approximate area (000ha)	Taluka included	Characteristics
AES-1	Shallow Black soils with 500-600 mm Rainfall	Sandy clay loam to clayey	75 – 150	Groundnut, wheat, sorghum, pearl millet	Well drained soils with rapid permeability	124	Kalawad, Jamjodhpur, Bhanvad, Okha	Moisture stress, temperature stress
AES-2	Shallow Black soils with 600-700 mm Rainfall	Clayey	75 – 150	Groundnut, wheat, sorghum, pearl millet	Slightly well drained soils with rapid permeability	180	Part of Kalyanpur, Jamnagar, Jamkhambhali, Lalpur, Dhrol, Jodia	Moisture stress, temperature stress
AES-3	Coastal Alluvial soils with 300-400 mm Rainfall	Clayey loam to clayey	50	Groundnut, pearl millet, sorghum, chickpea	Low nitrogen and phosphorus	181	Jodia, part of Okha, Jamkhambhali, Kalyanpur & Jamnagar	Salt affected salinity
AES-4	Coastal	Silt	25-50	Groundnut,	Low nitrogen	299	Kalyanpur,	Salt affected

	Alluvial soils with 500-700 mm Rainfall	clay		pearlmillet, sorghum, chickpea	and phosphorus		Jodia& Jamnagar, Khambhadia, Lalpur, Dwarka	salinity
AES-5	Coastal Alluvialshallow black soils with 300-400 mm Rainfall	Sandy loam to clay loam	0-25	Sorghum, Pearlmillet, Groundnut, Sesamum	Aridclimate	31	Okha	Known salinityfor genus ephedra seacoast very rich in Alghl flor and fanner of economic importance.

2.3 Soil type

As the geographical formation of Saurashtra is to volcanic origin, the soils are generally derived from basaltic rock known as Deccan trap. This is the commonest rock in India and due to its extensive occurrence in south is called “Deccan Traps”. In many parts, they have flat top features and hence, are also known as plateau basalt. The trap rocks, which occupy a large part of western coast of India, is also covering North Saurashtra zone. The most common colour of the trap rock in the region is dark grey. On weathering, trap rock form a ferruginous gravelly material known as murum, which under lie-soil formed in situ. Soils, thus derived are either brown red in colour or regular, the black soil. In district black or brown colour is predominant. The soils are shallow to moderately deep. The detailed soil survey information for the soils of Jamnagar district are as under.

S. No	Soil type	Characteristics	Area in ha
1	Shallow black soils	These soils have developed from basaltic trap especially from granite and gneiss parent materials. They light grey in colour. Taxonomically, they are classified as <i>Ustorthents</i> and <i>Ustochrepts</i>. Soils depth varies from 0 to 45 cm. They are gravelly but mainly they are sandy clay loam to clayey in texture. The clay on top in surface soil varies from 20% to 77.49% and calcium carbonate content varies from 3.76 to 26.71 per cent. The soil structure is weak, mainly sub angular blocky and occasionally crumb. Since these soils lack distinct profile layering and are shallow, capacity to retain moisture is not sufficient. The soils are neutral to alkaline in reaction p^H ranges from 7.3 – 8.4) and from fertility point of view, these are medium in available nitrogen, low to medium in available phosphorus and adequate in availability of potash.	124000 ha (Kalawad, Jamjodhpur, Bhanvad, Okha)
2.	Medium black soils	The major portion of Jamnagar (Some part of Kalyanpur, Khambhaliya & Jamnagar, major part of Lalpur, Dhrol, Jodiataluka is covered under medium black soils. These residual soils have basaltic trap parent materials. These soils vary in depth from 30 to 60 cm or more at few places. They are calcareous in nature. A layer of murum (Unconsolidated material of decomposed trap and limestone) is generally found in sub soil layer. The drainage does not pose any problem, because of porous sub soil layer. Morphologically, the profile of these soils has A-C horizon characteristics, having moderate sub angular blocky structure. They are plastic and sticky and hard in consistency on drying. The colour of these soils varies from very dark brown to light grey. Taxonomically, these soils are classified as <i>Ustochrepts</i> in	180000 ha (Part of Kalyanpur, Jamnagar, Jamkhambhalia, Lalpur, Dhrol, Jodia)

		<i>Inceptisol</i> order. The soils are dominated by smectite group of clay minerals which give to mild cracking in dry season, due to which these are further classified as <i>Vertic – Ustochrepts</i> at sub group level. The soils are clay loam to clayey in texture. The soils are highly retentive of moisture because higher percentage of clay content. The percentage of clay content in the surface varies from 31.79 to 73.27 per cent, while no definite trend of clay content in different horizon of the profile is observed. The chemical composition of these soils is neutral to alkaline reaction (p^H 7.4 to 8.9). Calcium is the dominant exchangeable cation followed by magnesium. The soils are generally low to medium in available nitrogen, phosphorus and adequately supplied with potassium. The calcium carbonate contents varies from 5.26 to 20.36 per cent in these soils.	
3.	Saline alkali soils	Saline alkali soils are extensively distributed on the coastal area as well as inlands. These soils are located in the districts of Jamnagar (Jodia, part of Okhamandal, Kalyanpur, Jamkhambhaliya and Jamnagar talukas). These soils are originated as a result of higher water table, low rainfall and high evaporation losses during summer months resulting into upward movement of salts, poor drainage, use of saline ground water and ingress of sea water (in coastal areas). The soils are classified as <i>Fluvaquents</i>, <i>Halaquents</i>, and <i>Haplaquents</i> (Entisol): <i>Haplaquents</i> and <i>Haplaquepts</i> in order – <i>Inceptisol</i>. Texturally these soils vary from sandy loam to clay. The degree of salinity and alkalinity is also highly variable. In Jamnagar district, the saline and alkali soils are widely distributed mainly termed as coastal soil. The soils are sandy loam to clay loam in texture. The EC varies from 1.54 to 38.6 m.mhos/cm and ESP ranges from 9.2 to 74.64% in surface soil. The p^H varies from 7.6 to 9.00 in surface soils and normally calcareous in nature. Most of these soils are low to medium in available nitrogen and phosphorus and high in available potash.	181000 ha (Jodia, part of Okha, Jamkhambhaliya, Kalyanpur & Jamnagar)
4.	Costal alluvial soils	these soils are located in the district of Jamnagar consisting Kalyanpur, Jodia and Jamnagar, Jamkhambhadiya, Lalpur, Dwarka (OkhaMandal) and Dhrol, talukas. These soils are sandy clay loam to clay in texture. These soils are also affected with salts and are saline sodic in nature. The surface soil varies from 1.54 to 38.6 m.mhos/cm in Electrical conductivity, and from 9.2 to 74.64 in Exchangeable sodium percentage. The soil reaction varies with situation ranging from moderately alkaline or highly alkaline (p^H 7.6 to 9.0). The soils are normally medium in fertility. Taxonomically, these soils are classified as <i>Halaquents</i> and <i>Haplaquents</i> – Entisol and <i>Helaquepts</i> and <i>Hapdaquents</i> in Inceptisol order.	299000 ha (Kalyanpur, Jodia & Jamnagar, Khambhadiya, Lalpur, Dwarka)
5.	Hilly soils	These soils occur in some parts Bhanvad and Jamjodhpur talukas of Jamnagar district. Because of the steep slope and erosion, the profile is not developed. These soils are developed because of weathering of parent materials existing basaltic trap limestone and sand stone. These soils are shallow to moderately deep and are coarse to fine in their texture. The texture varies from loamy sand to clay loam to clay. They have under composed rock fragments and are low in fertility status. These soils are placed in to <i>Ustorthents</i> and those near foothills and valley are comparatively deeper can be placed under	31000 ha (Some part of Bhanvad and Jamjodhpur)

		<i>Ustochreptsand</i> can be classified under <i>estisol</i> and <i>Inceptisol</i> orders respectively.

2.7 Details of Operational area/ Villages (2021 to 2023)

Sl No	Taluka	Name of the village	Major crops & enterprises	Major problem identified	Identified thrust area
1	Dhrol	Katada, Jayva, Mansar (Jaliya), Kharva, Khengarka	Cotton, groundnut, sesame, castor, greengram, wheat, Gram, cumin, mustard, Vegetable, Soyabean, flowers, live-stock, fisheries	Heavy infestation of sucking pest in cotton, stem rot disease & white grub in Groundnut, Root rot in castor, Less area under horticulture crops, Blight in cumin, salinity, pink bollworm in cotton	- ICM in major crops of the district - Organic crop production - Introduction of new crop - Recycling of farm waste - Popularization of MIS - Motivation of fisheries cultivation - Soil Reclamation - Farm women empowerment - Farm mechanization
2	Jam Jodhpur	Sonvadiya, Satapar, Bhupat Ambardi, Dal Devaliya Luvarsar			
3	Jam Khambhalia	Keshod, Shedha Bhadthar, Samor, Jakasiya, Juvangadh			

2.8 Priority thrust areas

Sl. No	Crop/ Enterprise	Thrust area
1.	Cotton, groundnut, castor, cumin, coriander, wheat, vegetables, fruits, etc.	➤ Integrated Crop Management in major crops ➤ IPM & IDM in major field crops ➤ White grub management in Groundnut ➤ Wireworm management in garlic & Onion ➤ Micronutrient management in wheat
2.	Organic farming	Enhancement of organic farming through improved technologies
3.	Farm waste/ organic matter	Recycling of farm waste through composting, vermicompost, green manuring, etc.
4.	Micro irrigation	Efficient use of water by micro irrigation system, water harvesting structure, and water conservation techniques
5.	Soil	Reclamation of saline & alkaline soils
6.	Farm Women	Farm women empowerment by training in value addition, handi crafts, and small scale enterprises
7.	Fisheries	Fish Farming
8.	Improved Implements	Popularization of the mechanized technological know how
9.	Plant protection	Pink boll worm in cotton and white grub in groundnut,

10	Horticultural area	Enhancement of pomegranate, datepalm, draganfruit,
11.	Storage facility	Requirement of storage techniques and value addition in farm produce
12.	Water conservation & use of Micro irrigation	Efficient use of water by micro irrigation system, water harvesting structure, and water conservation techniques

3. TECHNICAL ACHIEVEMENTS

3.A. Details of target and achievements of mandatory activities by KVK during 2021

OFT				FLD			
1				2			
Number of OFTs		Total no. of Trials		Area in ha		Number of Farmers	
Targets	Achievement	Targets	Achievement	Targets	Achievement	Targets	Achievement
5	5	17	17	102	92	308	283

Training				Extension Programme			
3				4

3		6	
Target	Achievement	Target	Achievement
150	197.01	500	658

Livestock, poultry strains and fingerlings (No.)		Bio-products (Kg)	
7		8	
Target	Achievement	Target	Achievement
0	1	5000	4616

3.1. B. Operational areas details during 2021

S.No.	Major crops & enterprises being practiced in cluster villages	Prioritized problems in these crops/ enterprise	Extent of area (Ha/No.) affected by the problem in the district	Names of Cluster Villages identified for intervention	Proposed Intervention (OFT, FLD, Training, extension activity etc.)*
1	Groundnut	Lower yield, replacement of old variety, Sclerotium rot (stem rot), white grub	380000 ha.	Katada, Jayva, Mansar (Jaliya), Kharva, Khengarka, Sonvadiya, Satapar, BhupatAmbardi, Dal Devaliya, Luvarsar, Keshod, ShedhaBhadthar, Samor, Jakasiya, Juvangadh	OFT, FLD and Training
2	Chilli	Thrips, Curling of leaves, nutritional deficiency	1300 ha	- " -	Training
3	Garlic	Purple blotch, wireworm, yellowing, tip burning	700 ha	- " -	Training

4	Onion	Purple blotch, bulb rotting	400 ha		Training
5	Sesame	Leaf webber, mite, blight, stem rot, root rot, yellowing, replacement of old variety	125000 ha.	- " -	OFT, FLD and Training
6	Wheat	Fall army worm, Stem borer, Termite, nutritional deficiency,	60000 ha	- " -	FLD and Training
7	Vegetable mittens (Okra, Brinjal)	Drudgery reduction, cut & wounds, skin hardness, blisters and abrasions,	1700 ha	- " -	FLD and Training
8	Animal Husbandry	Due to inadequate nutrients in the daily ration, the % fat in milk and productivity of the animal decreased hence, financial loss.	Majority farmers (325000)	- " -	FLD and Training
9	Cotton	Pink bollworm, redding & yellowing of leaves, sucking pests, weevil,	65000		FLD and Training
10	Chicory	ICM	45		FLD and Training
11	Cumin	Aphid, IPM, IDM, INM, variety	26300		FLD and Training
12	Ajwain	IDM, Variety	5045		FLD and Training
13	Coriander	IDM, IPM, Variety	2100		FLD and Training
14	Pearl millet	Fall army worm, Stem borer, Variety, IPM, IDM	1200		FLD and Training
15	Chick pea	IPM, Variety, Stunt virus, IDM	32500		FLD and Training
16	Kitchen gardening	Nutritional security	Majority farmers		FLD and Training

* Support with problem-cause and interventions diagram

3.2. Technology Assessment and Refinement (Kharif 2021, Rabi 2020-21, Summer 2021)

A1. Abstract on the number of technologies assessed in respect of crops

Thematic areas	Cereals	Oilseeds	Pulses	Commercial Crops	Vegetables	Fruits	Flower	Plantation crops	Tuber Crops	TOTAL
Varietal Evaluation		2								2
Integrated Pest Management		1								1
Storage Technique		1								1
Total		4								4

A2. Abstract on the number of technologies refined in respect of crops

Thematic areas	Cereals	Oilseeds	Pulses	Commercial Crops	Vegetables	Fruits	Flower	Plantation crops	Tuber Crops	TOTAL
Integrated Pest Management				1						1
Total				1						1

B. Achievements on technologies Assessed and Refined

B.1. Technologies Assessed under various Crops

Thematic areas	Crop	Name of the technology assessed	No. of trials	No. of farmers	Area in ha (Per trail covering all the Technological Options)
Integrated Nutrient Management					
Varietal Evaluation	Sesame	Assessment of the performance of high yielding Sesame varieties in summer irrigated condition for	3	3	1.8

		Jamnagar District			
	Groundnut	Assessment of suitable high yielding groundnut variety in kharif season for Jamnagar district	3	3	1.8
Integrated Pest Management	Sesame	Management of sesame leaf webber	3	3	1.8
Storage Technique	Groundnut	Assessment of PICS bag for Groundnut storage	5	5	-
Others (Pl. specify)					
TOTAL			14	14	

B.2. Technologies Refined under various Crops

Thematic areas	Crop	Name of the technology refined	No. of trials	No. of farmers	Area in ha (Per trail covering all the Technological Options)
Integrated Pest Management	Cumin	Management of aphid in cumin	3	3	1.8
Others (Pl. specify)					
Total			3	3	

C. Details of each On Farm Trial for assessment to be furnished in the following format separately as per the following details

OFT – 1:- Cumin (Plant Protection) [Rabi-2020-21]

1) Title: Management of aphid in cumin.

2) Problem definition:

1. Heavy infestation of aphid was found
2. Lack of seed treatment and improper cultivation practices
3. Lack of knowledge about pest outbreaks and its management
4. Injudicious use of nitrogenous fertilizer
5. Extra irrigation rather than recommendation during cloudy weather.
6. Overlapping of the crops seasons

Problem diagram :-

Resurgence of aphid	Management of aphid in cumin	Multi season cropping system
Overlapping of the crops seasons		Lack of knowledge about pest outbreaks and its management
Lack of seed treatment		Lack of improper cultivation practices
In judicious use of pesticide		In judicious use of nitrogenous fertilizer
Extra irrigation		Improper use of FYM (without decomposition)

3) Details of technologies for assessment/ refinement

Category	Source of technology	Technology details		
Technology option 1	Farmer	T ₁	Farmer practices	Injudicious use of insecticides. [use of deltamethrin, flubendiamide, imidacloprid, acetameprid, Thiamethoxam, cypermethrin, lamdacyhalothrin, carbosulfan, dimethoate after infestation of aphid repeatedly at weekly interval without follow ETL]

Technology option 2	SAU	T ₂	Reco. practices	First spray of Carbosulfan 25 EC 0.04% was made at initiation of pest and second spray was given after 15 days.
Technology option 3		T ₃	Refinement	First spray of Spray of <i>Bearuveriabassiana</i> @ 5 g/lit of water was made at initiation of pest and subsequent spray at 15 days interval.

4) Source of Technology:- State Agricultural University

5) **Production system** :Irrigated, *rabi* crop and all agronomical practices adopted commonly.

6) **Thematic area** : IPM, Management of aphid in cumin

7) **Raw data about the Performance of the Technology assessed / refined with performance indicators**

Sr. No	Name of the farmer	Name of the Village	Data on the performance indicators of the technology assessed (aphid population (aphid index) from five randomly selected plants from each plot at 7 days after spray and Yield q/ha)					
			T ₁		T ₂		T ₃	
			No. of Aphid	Yield	No. of Aphid	Yield	No. of Aphid	Yield
1	GoganbhaiRaydebhaiVadher	Viramdad	32	6.63	20	7.75	22	7.13
2	RanabhaiRamabhaiKarmur	Tupani	30	7.25	15	9.38	19	8.38
3	RanmalbhaiSidabhaiChavada	Datrana	34	7.38	16	8.88	19	8.13
			32	7.08	17	8.67	20	7.88

8) Final recommendation for micro level situation:

Application of Carbosulfan 25 EC 0.04% was made at initiation of pest and second spray was given after 15 days have been minimum aphid population and also obtained highest yield. The farmers who doing organic farming they are also advise to application Spray of *Bearuveriabassiana* @ 5 g/lit of water was made at initiation of pest and subsequent spray at 15 days interval having minimize the pest (aphid) and good yield with decrease in input cost without hazardous effect.

9) Constraints identified and feedback for research :

- Time of application cannot be identified for spraying for aphid population
- High population of sucking pests, twisting of twigs
- Yield increase as compare to farmers' practices.
- Reduce the aphid as well as leaf curl incidence.

10) Process of farmers participation and their reaction:

Farmers have good response and they have support for OFT. Recommended practices having found incidence of aphid where it is repeated use. However, refined treatment is very effective treatment for the management of aphid for organic grower and hazardless effect along with maximum yield.

11) Results of On Farm Trials :

Crop/enterprise	Farming situation	Problem Diagnosed	Title of OFT	No. of trials*	Technology Assessed	Parameters of assessment	Data on the parameter Q/ha

OFT-2 : Home Science: (2021)**1) Title : Assessment of PICS bag for Groundnut storage****2) Problem Definition :-**

- Residual effect of insecticides used for stored godown
- Insecticidal effect on germination
- High moisture retention during summer days
- Heavy attack of storage pests
- High cost of storage
- Heavy loss of food grains and seeds
- Lack of regular inspection in stored products.

3) Details of technologies for assessment/ refinement

Category	Source of technology	Technology details		
Technology option 1	Farmer	T ₁	Farmer practices 1	Open heaps in storage godown
Technology option 2	Farmer	T ₂	Farmers practices 2	Local practices for storage in plastic bag /closely woven bag
Technology option 3	SAU (MKV-Parbhani)	T ₃	Reco. practices	Storage in Triple layer hermetic "Purdue Improved Crop Storage" (PICS) bags

4) Source of Technology:- JAU, Junagadh Formerly it was from ICRISAT, Hyderabad**5) Production system :**

The Purdue Improved Crop Storage (PICS) technology, triple layer bag consists of two high density inner polyethylene plastic bags (inner liners) and a third outer sack (a woven polypropylene bag). Drying the grain adequately before storage. Fill the inner bag with groundnut pod. Gently twist the lip of the most inner liner fold it and tie, then tuck the second liner as same and finally tie the woven bag. be sure to fold and tie each bag separately. Kept it for six months and observe weight loss and insect damage.

6) Thematic area :Post-harvest management**7) Raw data about the Performance of the Technology assessed / refined with performance indicators**

Sr. No	Name of the farmer	Name of the Village	Data on the performance indicators of the technology assessed (weight loss, Insect (Bruchid) damage in %)					
			T ₁		T ₂		T ₃

Average			17.6	28.2	5.44	10.42	1.56	3.08

8) Final recommendation for micro level situation:

Use of Purdue Improved Crop Storage (PICS) technology, triple layer bag consists of two high density inner polyethylene plastic bags (inner liners) and a third outer sack (a woven polypropylene bag) for storage of groundnut pod up to six months were highest protection against insect damage (3.08%) and lowest weight loss (1.56%) and reduce input cost as well as hazardous effect.

9) Constraints identified and feedback for research:

- Residual and germination effect of insecticides used for stored godown have been reduced
- Reduction of storage pests attack
- Reduce cost of storage

- Heavy loss of food grains and seeds

10) Process of farmers participation and their reaction:

Farmers have good response and they have support for OFT. PICS bags have very less insect damage as well as weight loss. This treatment is chemical less and hazardless.

11) Results of On Farm Trials:

Crop/ enterprise	Farming situation	Problem Diagnosed	Title of OFT	No. of trials	Technology Assessed	Parameters of assessment	Data on the parameter

OFT 3 :-Sesame (Summer 2021-22)

1) Title:-Assessment of the performance of high yielding Sesame varieties in *summer* irrigated condition for Jamnagar District

2) Problem definition:

Sesame is cultivated predominantly during *summer* season in Jamnagar district. The productivity of Sesame, in Jamnagar is low due to low yield in existing variety, Heavy incidence of pest and disease attack..

Hence, an OFT was carried out with the objectives to find out suitable high yielding sesame variety for *summer* season for Jamnagar district to enhance the sesame productivity.

3) Details of technologies selected for assessment/ refinement

Category	Source of technology	Technology detail	
Technology option 1	Farmer	T ₁	G. Til. 2 (Farmer's practice)
Technology option 2	JAU	T ₂	G. Til. 3
Technology option 2	JAU	T ₃	G. Til. 5

4) Source of Technology: - Junagadh Agricultural University

5) Production system:

- Crop grown as Integrated Crop Management system and all other agronomical practices adopted commonly.

- 6) Thematic area: To enhance the sesame productivity.

7) Performance of the Technology assessed with performance indicators:

Sr. No	Name of the farmer	Name of the Village	Data on the performance indicators of the technology assessed (from each plot)					
			Plant Height (cm)			Capsule per plant

OFT-4 Sesame (Assessment) (Plant Protection) [kharif-2021-22]

Title: Management of sesame leaf webber

1) Objective: To manage the leaf webber infestation in sesame

2) Problem definition: attack of leaf webber is increase

- Heavy infestation of leaf webber was found
- Improper cultivation practices
- Lack of knowledge about pest outbreaks and its management

Problem diagram :-

Improper cultivation practices	Management of sesame leaf webber	Irregular irrigation
Mono-cropping system		Lack irrigation facilities
No adoption of recommended practices		Lack of knowledge about pest outbreaks and its management
Crop failure due to water logging condition in rainy season		In judicious use of chemical pesticide
Farmer follows instruction given by the local pesticides retailer		Heavy incidence of pest and disease attack

3) Details of technologies selected for assessment/refinement

Category	Source of technology	Technology detail	
Technology option 1	Farmer	T ₁ Farmer practices	Injudicious use of insecticides. [use of chlorpyrifos, quinalphos, flubendiamide, imidacloprid, cypermethrin, lamdacyhalothrin after infestation of leaf webber at weekly interval without follow ETL]
Technology option 2	SAU	T ₂ Reco. Practices 1	Application of the insecticide will be start at pest infestation occurred. Cartap hydrochloride 50% S.P. @10g/10 Litre of water at the time of infestation.
Technology option 2	SAU	T ₃ Reco. Practices 2	Spray of <i>Beauveria bassiana</i> @ 5 g/lit of water at 15 days interval at pest initiation.

4) Source of Technology: - Junagadh Agricultural University

5) Production System and thematic area: Crop grown as Integrated Crop Management system and all agronomical practices adopted commonly.

6) Thematic area: Integrated Pest Management

7) Performance of the Technology assessed / refined with performance indicators:

Sr. No	Name of the farmer	Name of the Village	Data on the performance indicators of the technology assessed / refined [Yield (q/ha), No. of leaf webber per 1 meter row length from each plot]					
			T ₁		T ₂		T ₃	
			No. of leaf webber	Yield	No. of leaf webber	Yield	No. of leaf webber	Yield

OFT 8 Management of aphid in cumin (Rabi 2021-22)

Objective: To minimize the aphid incidence in cumin. To reduce injudicious use of chemical pesticide. To minimize residual effect of chemical.

Problem definition:

1. Heavy infestation of aphid was found
2. Lack of seed treatment and improper cultivation practices
3. Lack of knowledge about pest outbreaks and its management
4. Injudicious use of nitrogenous fertilizer
5. Extra irrigation rather than recommendation during cloudy weather.
6. Overlapping of the crops seasons

Problem diagram :-

Resurgence of aphid	Management of aphid in cumin	Multi season cropping system
Overlapping of the crops seasons		Lack of knowledge about pest outbreaks and its management
Lack of seed treatment		Lack of improper cultivation practices
In judicious use of pesticide		In judicious use of nitrogenous fertilizer
Extra irrigation		Improper use of FYM (without decomposition)

3) Details of technologies for assessment/refinement:

Category	Source of technology	Technology details		
Technology option 1	Farmer	T ₁	Farmer practices	Injudicious use of insecticides. [use of deltamethrin, flubendiamide, imidacloprid, acetameprid, Thiamethoxam, cypermethrin, lamdacyhalothrin, carbosulfan, dimethoate after infestation of aphid repeatedly at weekly interval without follow ETL]
Technology option 2	State Agricultural University	T ₂	Reco. practices	First spray of Afidopyropen 50 G/L DC [(Inscalis) Sefina] 0.04% was made at initiation of pest and second spray was given after 15 days.
Technology option 3		T ₃	Refined practices 1	First spray of Spray of <i>Bearuveriabassiana</i> @ 5 g/lit of water was made at initiation of pest and subsequent spray at 15 days interval.

4) Source of Technology: Junagadh Agricultural University

5) Production system :Irrigated, *rabi* crop and all agronomical practices adopted commonly.

6) Thematic area : IPM, Management of aphid in cumin**7) Raw data about the Performance of the Technology assessed / refined with performance indicators**

Sr. No	Name of the farmer	Name of the Village	Data on the performance indicators of the technology assessed (aphid population (aphid index) from five randomly selected plants from each plot at 7 days after spray and Yield q/ha)					
			T ₁		T ₂		T ₃	
			No. of Aphid	Yield	No. of Aphid	Yield	No. of Aphid	Yield
1	Viral RanchhodbhaiRamoliya	Daldevadiya

Farmers' reactions on specific technologies

Sl. No.	Crop	Technology Demo.	feedback
	Oilseeds		
1	Sesame-Summer (NFSM)	ICM	➤ Higher yielding white seeded variety. ➤ Effective control of diseases ➤ Bio-fertilizer reduce cost of cultivation ➤ Improve soil health
2	Groundnut Kharif NFSM	ICM	➤ GJG-22 is high yielding variety ➤ Less incidence of <i>Sclerotium</i> ➤ Effective control White grub with <i>Metarhizium</i>

			➤ Effective control of <i>Sclerotium</i> with <i>Trichoderma</i> ➤ Also reduce the damage of pod borer ➤ Easy to apply
3	Castor	Variety GCH-9	➤ GCH-9 is high yielding under irrigation condition ➤ Medium duration ➤ Profuse branching habit with medium plant stature ➤ Resistant to <i>Fusarium</i> wilt and <i>Macrophomina</i> root rot ➤ Thrips, leaf hopper and whitefly infestation is low
	Pluses		
4	Chickpea	ICM	➤ GJG-6is suitable for rainfed area ➤ GJG-6 is resistance to stunt and wilt ➤ Bio pesticide and bio fertilizer are very effective and Easy to use ➤ Easily available and eco friendly ➤ It also reduce use of chemical pesticide/fertilizer in the era of organic farming
	Cereals		
5	Wheat	Variety – GJW-463	➤ More number of tillers having require less seed rate ➤ Higher yielding variety ➤ Good for chapatti making ➤ Attractive grain colour with lustrous.
6	Pearl Millet	Variety- GHB 1231	➤ Higher yield of grain and fodder ➤ Quality of fodder is good ➤ Good against drought spell ➤ Sweet taste of rotla ➤ Rich in Fe and Zn content
	Spices crop		
7	Cumin	<i>Beauveria</i> , <i>Trichoderma</i> , <i>Azotobacter</i> , PSB	➤ Use of <i>Azotobacter</i> and PSB had reduced the quantity of chemical fertilizers ➤ <i>Beauveria</i> helped in control of thrips, aphid and other pests ➤ Due to <i>Trichoderma</i> the incidence of wilt were minimized ➤ Cost of cultivation was reduced ➤ The products were easy to use
8	Ajwain	<i>Beauveria</i> , <i>Trichoderma</i> , <i>Azotobacter</i> , PSB	➤ Use of <i>Azotobacter</i> and PSB had reduced the quantity of chemical fertilizers ➤ <i>Beauveria</i> helped in control of thrips, aphid and other pests ➤ Due to <i>Trichoderma</i> the incidence of wilt were minimized ➤ Cost of cultivation was reduced ➤ The products were easy to use
9	Coriander	<i>Beauveria</i> , <i>Trichoderma</i> , <i>Azotobacter</i> , PSB	➤ Use of <i>Azotobacter</i> and PSB had reduced the quantity of chemical fertilizers ➤ <i>Beauveria</i> helped in control of thrips, aphid and other pests ➤ Due to <i>Trichoderma</i> the incidence of wilt were minimized ➤ Cost of cultivation was reduced ➤ The products were easy to use
	Others		
10	Cotton	Bt.Cotton IPM/INM MDP	➤ Advance management for pest control is benefitted for less damage in plants for higher yield ➤ MDP Technology is very effectively but sum what laboring also. ➤ <i>Beauveria</i> is very effective against sucking and chewing pest ➤ Low cost chemical control for longer time

11	Kitchen gardening	Vegetables seeds	➤ Fresh vegetable available at doorstep and at a time with minimum cost ➤ Regulatory daily nutritious diet. ➤ They produce organic vegetables because farm women are not applying any pesticides or agrochemicals in their backyard. ➤ Utilized maximum backyard space and waste water. ➤ Income generated by selling extra vegetables grown in kitchen garden.
12	Chicory *	<i>Beauveria</i> , <i>Azotobactor</i> , PSB,	➤ Less fertilizer cost and reclamation of soil condition ➤ Reduce pest attack like aphid ➤ The products were easy to use
13	Drudgery reduction	Cotton Picking Apron	➤ Useful for manual cotton picking and also vegetable harvesting ➤ Use of apron makes the women comfortable while picking cotton ➤ Prevents scratching of the skin
14	Animal (Cow)	Bypass Fat	This product is quite good and may help to increase % fat of milk and productivity of animals.
15	Solar cooker		➤ Light weight & Easy to mobile ➤ Use less fuel and Reduce fuel collection time ➤ Reduce cooking time ➤ Completely smoke less ➤ Conserve trees ➤ Allow more dung to be used as fertilizer instead of fuel

E. Success Story/CASE STUDIES

5.1 Case study/ Success story

1. Case study/ Success story

	PROFILE OF FARM INNOVATORS Thematic Area: Horticulture with Micro irrigation “Entrepreneurship Development through Organic Farming & Value addition” <i>Dr. K. P. Baraiya, Smt. A. K. Baraiya</i>
1. Personal Profile	2. Problem/ challenge Faced

Name of farmer	:	KhirsariyaRajnikantbhai (Bhupatbhai) Karshanbhai	KhirsariyaRajnikantbhai (Bhupatbhai) Karshanbhai only 10 class educated, having 10 Gir cow, having 7.2 ha land with different ordinary cropping pattern. He lived in very interior village Morzar, Ta. Bhanvad of District Devbhumi Dwarka (Earlier Jamnagar District). He faces following challenges in his life ➤ Low education (10 Std.) ➤ Labour chryies& high cost ➤ Poor understanding ➤ Lack of marketing ➤ High production cost ➤ High chemical fertilizer, pesticides etc. usages. ➤ Resurgence of pest & Disease ➤ Poor soil fertility ➤ Lack of scientific technology know how From starting, he used more pesticide and Chemical fertilizer due to that increase cost of cultivation and reduce net profit.
Contact No.	:	9825208551 Khirsariyaraj @gmail.com	
Address Res.	:	“Shree Apartment, Ground floor, AmbajiKadva Main Road, Rajkot-360 004 (Gujarat)	
Address Farming	:	At. Morzar, Ta. Bhanvad, Dist. Devbhum Dwarka	
Age	:	54 Years	
Education	:	10 Standard	
Land holding	:	7.2 ha	
Crops grown	:	Groundnut, Medicinal Plants, Vegetables, Cereals, Grains Moringa, Lemon, Tomato, okra, cucumber, ridge gourd, etc.	
Livestock	:	Cow-20 Gir breed	
Business	:	Organic Farming, Animal keeping & marketing with Value addition	
Special recognition	:	Innovative and Progressive farmer	
3	Description of innovative practice/technology ➤ Started Gir cow unit ➤ Adopt micro irrigation system ➤ Innovative in farming with lemon cultivation ➤ Multi story farming ➤ Vegetable grow organically ➤ One step ahead in chemical less farming ➤ Cow based medicines preparation ➤ Cow based FYM &Gau mutra usages for cultivation. ➤ Prepare health and nutritional product from moringa ➤ Value addition in fruit & vegetable, moringa powder ➤ Lemon cultivation with organically ➤ Grading and packing of lemon ➤ Market at New Delhi, Mumbai, Ahmedabad, Surat, etc. ➤ For more profit “do not gave farming on rental basis, but kept daily labour” ➤ Using Drip Irrigation for application of Jivamrut and even for cow urine. ➤ Processing Unit for Post Harvest treatment for products. ➤ Well equipped Cow Shed. Value Addition, Ayurvedic medicines, Gir Cow-based Organic farming, health & Nutritional based products preparation & Marketing Awareness to farmers for value addition in agricultural products. He is farming with cow-based organic farming, since last 10 years. He is using multistory farming with moringa (Drum stick) + vegetables, Micro irrigation usages. His moto for “Do not gave farm to partnership to labour, but kept labour every day basis, then you can profit more”. He spread technologies from every government program and advise to farmers about his success and follow him for success. Prepare ayurvedic medicines, nutritional based product and value		

	added and pack it and directly marketing through “Organic Agro Mall”, he initiated the mall concept and joined to different organic growers in his marketing system and support them. He produces and pack themselves Gir Cow Ghee, health and nutrient product, rock salt, Produce groundnut organically and extract oil with attractive packing, babul fali powder, etc. many products.		
4	Silent features ➤ Agri organic mall ➤ One step chemical less produce ➤ Health and hygienic produce ➤ Best farmers award ➤ Acting as ambassador for organic produce ➤ Support to other farmers for marketing ➤ Farmers to farmers dissemination of technology Krushirushi in Krishi Mahotshavprogramm		
5	Practical utility ➤ Labour saving, ➤ High marketing price ➤ Consult him for value addition ➤ Fresh vegetable available from “Organic Agri Mall” Drumstick powder having high medicinal value		
6	Source of information Continuous contact with KVK and ATMA also visit exposure training at JAU, Junagadh she motivate for vegetable cultivation. Then, she started vegetable cultivation viz., okra, cucumber, tomato, ridge gourd, etc. Rajnikant K. Khirsariya has already 30 days (200 Hours) skill training course also done from Krishi Vigyan Kendra, JAU, Jamnagar		
7	Economics/Profitability of innovative practice/ technology (costs and return) (per intervention or area or household) The price of tomato earned Rs. 7 to 10 per kg (average Rs. 8/kg). gross earning is Rs. 5 lakhs per hectare and the cost of production of tomato was 1.25 lakhs per hectare. Thus, net benefit Rs. 3.75 lakhs per hectare CBR=(1:3)		
8	Details of result obtained due to the adoption of technologies		
	Particulars	Before NF	After NF
	Crop Production (q/ha)	24	36
	Cost of Production per hectare (Rs)	25000	Nil
	Net profit per hectare (Rs)	200000	700000
	Number of Sprays	5	8 Spray Jivamrut, Dasparni Ark etc
	Cost of Spray (Rs)	11200	500
	Natural Resource saved/ conserved like Soil, water etc.	Irrigation-8	Irrigation-5 Soil Conservation, Decreased Soil Erosion, Increased Soil Carbon
	Product Quality Improvement	POOR	BEST QUALITY
	Marketing Strategy	APMC	Developed Processing Unit, Self-Selling by proper marketing, grading, packaging
9	Potential : Acceptance level, horizontal spread of innovation and number of farmer adopting During the era of organic farming, she has appreciated for the cultivation of organic		

vegetable cultivation and started one steps in an innovative work. Many farmers of the district were visited her farm. She got many awards for the animal keeping and vegetable cultivation. Door Darsha has special recorded her success story and broadcast from DD Girnar Channel during Mahila Jagat Programme. Thus, horizontal of the technology in district as well as whole state through telecasting.

	PROFILE OF FARM INNOVATORS Thematic Area: Organic Cultivation “Dairy Management and Value Addition” <i>Dr. K. P. Baraiya, Smt. A. K. Baraiya</i>	
Personal Profile		Dairy Management and Value Addition
Name of farmer	: Changani Rinaben Jigneshbhai	Changani Rinaben Jigneshbhai is a young & enthusiastic farm woman of village Dared near Jamnagar district. This village is 5km from Jamnagar, under North Saurashtra Agro-Climatic Zone having hardly 350 to 400 mm erratic rainfalls. Dared is declared as Industrial Zone, but family of Rinaben is completely depend on farming. At present only three farmers available in Dared, remaining all the land converted in the GIDC. Rinaben studied up to 10 standard, but her interest was in cow since his childhood. Due to small land holding and unirrigated land, it is difficult to earn sufficient amount for family. Therefore, she got ideas from her Father-in-law as well as mother-in-law for more earning. At the time her marriage one 2 cow was there on her house. Then she started gaushala on business purpose from 2010. Her family grow some common farming practices viz., Groundnut, sorghum, pearl millet and other fodder crops. From starting he used more pesticide and Chemical fertilizer due to that increase cost of cultivation and reduce net profit.
Contact No.	: 7984027677	
Address	: At.-Dared, Ta.& Dist.- Jamnagar	
Age	: 37	
Education	: 10 Std pass	
Land holding	: 4.16 ha	
Crops grown	: groundnut, wheat, lemon, turmeric, chickpea, coriander, Vegetable,	
Livestock	: Cow – 60, Heifers – 62, Bull – 4	
Business	: Farming, animal keeping	
Special recognition	: Innovative and Progressive farmer	
She thought that animal keeping with agriculture will be beneficiary and helpful in increase in income. Its by products will also useful in farming. The thought first about buffalo keeping, but small land holding, they decided to keeping cow. Initially they started with 5-6 cow and now a days it increases upto 60 cows (35 cow are milking today), 62 heifers and 4 bull and give nomenclature as "UpasnaGirGaushala".Cow farming is holistic approach, it can start with low investment as compare to other business. With the motto of clean milk production and help full to the society in the way of good produce supply to end users, started cow herds. Increase income in comparison to traditional farming. FYM in sufficient quantity from cow herd helpful to growing organic farming. Different vegetables growing and direct marketing in Jamnagar and Dared GIDC having good profitability. Gau Mutra (cow urine) is very helpful for farming. Thus, with the organic farming, ideas come in her mind after visit of different gaushala for value addition in cow by products. The, she started value addition like collect urine and sales. She started cow urine ark, cow dung cake, Jivamrut, etc. cow dung has very good value addition by making posters and different monuments. She started different mud-work also on wall mounting posters. She started vermicompost unit also. They sale vermicompost, vermi		

wash, vermi culture also which give good earning with value addition in these products. They prepare bio-fertilizers from urine, gobar and supply to organic growers for good cultivation. They also prepare phenyl and different home use product from wastage from gaushala.

They prepare ghee and sales @ Rs. 1000/- per 1 kg. and milk sales directly to consumers @ Rs. 60/- per litre. Prepare Panchgavya from cow ghee, its price is up to Rs. 25000/- per kg. Panchgavya can retard cancer from human being.

Economics of cow unit

Year	No. of cow	Milking cow	Annual milk production (litre)	Average milk production	Price Per litre	Total annual income (Rs.)	Total annual cost (Rs.)	Net Benefit (Rs.)	Average net benefit per animal
2016-17	50	18	43200	2400	55	2376000	1898000	478000	26556
2017-18	65	24	57600	2400	60	3456000	2470000	986000	41083
2018-19	80	27	65340	2420	60	3920400	3040000	880400	32607
2019-20	105	35	83125	2375	60	4987500	3990000	997500	28500
2020-21	126	42	104160	2480	60	6249600	4788000	1461600	34800

Many farmers of surround area were visited "**UpasnaGirGaushala**" and take information about the organic cultivation, vermi compost, cow unit and they started on their own farm.

	PROFILE OF FARM INNOVATORS Thematic Area: Organic Cultivation “Organic Exotic Fruit and Vegetable cultivation with its Value Addition” <i>Baraiya K P, Baraiya A K, Godhani H S</i>
---	--

1. Personal Profile			Organic Exotic Fruit and Vegetable cultivation with its Value Addition
Name of farmer	:	Jesadiya Vishal Lavjibhai	Jesadiya Vishal Lavjibhai is young & enthusiastic farmer of Anandpur village, of Kalavad Taluka, Jamnagar district. Anandpur is well attached on Kalavad-Rajkot highway, and it is very near to Rajkot (the capital city of Saurashtra region). This village is 22 km from Kalavad and 27
Contact No.	:	9558379098	
Address	:	At.- Anandpur, Ta. Kalavad Dist.- Jamnagar	

Age	:	29	km from Rajkot. It come under North Saurashtra Agro-Climatic Zone having hardly 350 to 400 mm erratic rainfalls. Anandpar having no any irrigation facility available as well as no any reservoir (Dam). They completely depend on rainfall. After completion of graduation Vishal has started service of marketing in the corporate (pesticide and seed) company. During this job, he visited different progressive farmers and different cropping patters of farmers. He was very interested in organic farming as well as in horticultural crop grown. Along with the service he has started his normal farming with his father. During this period, he doing different experiment of new fruit and vegetable crops on his farm, but at the starting his father has not support for the different experiments done on his own field. He come in contact Scientist of Krishi Vigyan Kendra, JAU, Jamnagar during field work in the district. He also visited different states with ATMA project for this study. He also visited Department o Horticulture at JAU, Junagadh, and also contact to Dy. Director of Horticulture, Jamnagar for horticulture farming. Thus, encourages for organic farming with exotic vegetable and fruit cultivation.
Education	:	Graduate	
Land holding	:	2.09 ha	
Crops grown	:	Dragon Fruit, avocado, Persimmon, apple, Strawberry, purple flower, Thai basil, broccoli, green kale, lettuce, American red kale, Zucchini, knolkhol, Celery	
Livestock	:	Cow – 1, Heifers – 2,	
Business	:	Farming,	
Special recognition	:	Innovative and Progressive farmer	

Practical Utility of the Innovation/ Mode etc.

Jesadiya Vishal Lavjibhai is young, enthusiastic and innovative farmer. Now a days organic era is come back in the country. People need chemical less and quality food products. The economics of the Indian people have been increased as compare to three decades back. He doing common farming practices like groundnut, cotton, onion, wheat, etc. with his father up to his study period. After completion of study, he started service in corporate company. During this period, he has started new experiment on his farm with his father. But his father does not support him for different experiment of new fruit and vegetable. Then, he thought for the think out of box and started separate farming business. He has work hard and get knowledge for cultivation of different exotic vegetables as well as fruits crops. He started dragon fruit and strawberry cultivation. He also established dragon fruit nursery for true to type sapling. He supplies saplings to many farmers for development of dragon fruit plantation. His nursery was approved by Central Horticultural Board, Government of India. He started different value-added products from dragon fruit with the help of Krishi Vigyan Kendra, JAU, Jamnagar.

He joined interstate tour of ATMA project, and visited Dr. Y. S. Parmar University, Shimla and participation in the seminar of strawberry cultivation held at New Delhi under Department of Horticulture, programme. He stated strawberry cultivation on his own farm in Anandpur. Thus, he proved that the crop of tropical region can also grow in sub-tropical region. He also sales by packing in attracting packaging.

Then, after the growth cannot stop at this step, he established "**Gujarat Green Organic Farm**" he grow many other exotic fruits like avocado, Persimmon, apple, Strawberry etc. on another hand, he has started many vegetables cultivation of local and exotic like purple flower, Thai basil, broccoli, green kale, lettuce, American red kale, Zucchini, knolkhol, Celery etc. on his field at Anandpur.

Vishalbhai sales all these produce to the hotels, direct consumers and earn

Economics of cow unit

Year	Crop	Area ha.	Production kg/ha	Total Income Rs.	Total Cost Rs.	Net Income Rs.
2018-19	Dragon Fruit	0.3	500	180000	20000	160000
2019-20	Dragon Fruit	0.3	1200	240000	20000	220000
	Strawberry	0.16	3000	300000	60000	240000
2020-21	Dragon Fruit	0.3	1500	300000	20000	280000
	Strawberry	0.16	3500	350000	60000	290000

Vishalbhai sales all exotic fruit and vegetables to the hotels and direct consumers with good earning. Thus, he also sales sapling from his certified nursery and earn very good then fruit and vegetable production.

Around 15 farmers visit his nursery and started their own fruit and vegetable cultivation. Thus, horizontal spread of technology is very high.

Thus, really he has efforts more and achieve a big hight.

Action Photographs

F. Give details of innovative methodology or innovative technology of Transfer of Technology developed and used during the year

1. Innovative methodology:

- ❖ Farmers to farmer dissemination
- ❖ Distributed printed leaflet to farmers
- ❖ Farm School on farmer's field
- ❖ Kishan advisory through mobile SMS
- ❖ Film show
- ❖ Cluster frontline demonstration
- ❖ Mass campaign
- ❖ Mass media communication

2. Innovative technology transfer:

- ❖ Use of FYM to minimize the chemical fertilizer in cotton
- ❖ Use of MDP in cotton for management of pink bollworm
- ❖ Use of Trichoderma against stem rot disease of groundnut
- ❖ Use of *Metarhizium* against white grub in groundnut
- ❖ Use of *Beauveria* against all pest of all crops.
- ❖ Use of bio-fertilizers viz. PSB, Rhizobium, Azatobactor etc
- ❖ Use of pheromone trap for mass trapping as well as monitoring
- ❖ Tractor mounted sprayer
- ❖ Introduction of new variety i.e. GG-3, GG-5 of Chickpea, GJG-22 of Groundnut, GW-463 of wheat
- ❖ Use of trap crop, pheromone trap etc. as a IPM component
- ❖ Cotton stalk shredder for recycling of farm waste

G. Give details of indigenous technology practiced by the farmers in the KVK operational area which can be considered for technology development (in detail with suitable photographs)

S. No.	Crop / Enterprise	ITK Practiced	Purpose of ITK
1.	Chilly	Use castor as a trap crop	For controlling thrips and jassids
2	Crop husbandry	Crop rotation and mixed cropping	Control weed, and diseases management
3	"	Mixing of ash with pulse/millet grains	While storing to protect from pest
4	"	Vegetable seeds placed inside cowdung	Use for next year
5	Fertility Management	Application of ash	To improve soil fertility
6	"	Sheep and goat penning	To improve soil fertility
7	"	Jivamrut	To improve soil fertility and reduce chemical fertilizers
7	Crop husbandry	Panchgavya	For management of pests and diseases of crops
8	Crop husbandry	Sheep and goat grazing	For pinkboll worm management
9	Harvesting	Harvest pulse crop in the morning hours	To reduce shattering
10	Organic farming	Jivamrut, Panchgavya, Cow based farming	Reduce the cost of cultivation as well as without chemical organic farming.
11	Crop husbandry	Use of light trap	For pest reduction
12	Organic farmng	Use of yellow sticki trap	For pest management

5.1 Indicate the specific training need analysis tools/methodology followed for Practicing Farmers

- a) Group discussion with the farmers
- b) Field visits
- c) Group meeting

- d) Identifying general trends in the area
- e) PRA survey

Rural Youth

- a) Filling up research based questionnaires
- b) Identification of leader and role of rural youth in agriculture (Socio-metric method)
- c) Field visit for practical experience
- d) General discussion about district agriculture issues

In-service personnel

- a) Knowledge test (Interview schedule)
- b) Interaction with the personnel
- c) Functional areas of personnel

5.2 Indicate the methodology for identifying OFTs/FLDs

For OFT :

- PRA
- Problem identified from Matrix
- Field level observations
- Farmer group discussions
- Assessment of technology
- Others if any

For FLD :

1. New variety/technology
2. Poor yield at farmers level
3. Existing cropping system :- Coriander
4. Technology – adoption gap
5. Others if any

5.3 Field activities

- i. Name of villages identified/adopted with block name (from which year) -
- ii. No. of farm families selected per village :
- iii. No. of survey/PRA conducted :
- iv. No. of technologies taken to the adopted villages
- v. Name of the technologies found suitable by the farmers of the adopted villages:
- vi. Impact (production, income, employment, area/technological– horizontal/vertical)
- vii. Constraints if any in the continued application of these improved technologies

6. LINKAGES

A. Functional linkage with different organizations

Sr.	Name of organization	Nature of linkage
A	State corporation and state deptt.	
1	District Agricultural Officer, Deptt. of Agriculture, District Panchayat, Jamnagar&Devbhumi Dwarka	➤ Joint diagnostic team visit at farmers field ➤ For collaborative training and demonstration Programme ➤ Collaborative On/Off campus training programme ➤ For providing hostel facilities
2	District Rural Development Agency, Jamnagar&Devbhumi Dwarka	
3	Deputy Director of Veterinary, Department of veterinary &Animal Husbandry, Jamnagar&Devbhumi Dwarka	
4	Deputy Director of Horticulture, Jamnagar	
5	Deputy Director of Agriculture (Training), Farmer Training Centre, Jamnagar&Devbhumi Dwarka	
6	Deputy Director of Agriculture (Extension), Jamnagar&Devbhumi Dwarka	
7	Asstt. Director of Fisheries, Jamnagar&Devbhumi Dwarka	

8	Range Forest Officer, Jamnagar&Devbhumi Dwarka	toparticipants and organizing collaborative Krishi Mela ➤ Organize all government programmescollectively
9	Asstt. Director of GLDC, Jamnagar&Devbhumi Dwarka	
10	Estate Engineer, Department of Irrigation, Jamnagar&Devbhumi Dwarka	
11	All Taluka Development Officers, and their team at Taluka level	
12	Rajkot-Jamnagar Gramin Bank, Jamnagar&Devbhumi Dwarka	
13	Project Director, ATMA, Jamnagar&Devbhumi Dwarka	
14	Project Director, DWDU, Jamnagar &Devbhumi Dwarka	
15	NABARD Bank	
B	Private Corporation	
1	Territory Manager, GSFC, Jamnagar&Devbhumi Dwarka	➤ Impart training on Agril. aspects ➤ Collaborative on/off campus training programme ➤ Sponsor training programme
2	Territory Manager, GNFC, Jamnagar&Devbhumi Dwarka	
3	Territory Manager, IFFCO, Jamnagar&Devbhumi Dwarka	
4	Reliance Industries, Dept. of Green Belt, Jamnagar	
5	Syngenta Company	
6	GGRC	
C	NGOs

2	Tata Chemical Society for Rural Development Foundation, At. Mithapur, Ta.-Dwarka, Dist.-Jamnagar	
3	Agakhan Rural Development Trust	
4	ANARDE foundation trust	
5	Mahindra Tractor, Jamnagar	
6	BAIF Singach	
7	ACT	

B. List special programmes undertaken by the KVK and operational now, which have been financed by State Govt./Other Agencies

Name of the scheme	Date/ Month of initiation	Funding agency	Amount (Rs.)
Establishment of Agricultural Technology Information Centre (ATIC) (B. H.:- 12572-03)	2005-06	State Govt.	1000000
Cluster Frontline demonstration of pulses under NSFM (B.H.:- 2704-50)	2014-15	ICAR	63000
Cluster Frontline demonstration of Oilseeds under NMOOP (B.H.:- 2704-51)	2014-15	ICAR	68000
District Agromet Units (DAMUs) (B.H.2704-59)	2018-19	II	743161
Swachhta Action Plan (B.H.-2704-65)	2019-20	II	22780
Farmers outreach programme on natural farming (B.H.-2704-68)	2021-22	ICAR	14105

C. Details of linkage with ATMA

a) Is ATMA implemented in your district (Yes/No) :- Yes

S. No.	Programme	Nature of linkage	Remarks
1	District Level Training	Impart Training on Agricultural Aspects	Celebrate Technology week Arrangement of KrishiMela
2.	Block level training	Lecture delivered	
3.	Village level training		

If yes, role of KVK in preparation of SREP of the district? :- Yes

Coordination activities between KVK and ATMA

S. No.	Programme	Particulars	No. of programmes attended by KVK staff	No. of programmes Organized by KVK	Other remarks (if any)
01	Meetings	AGB, AMC and other meeting	8	2	
02	Research projects	-	-	-	-
03	Training programmes	On/ Off Campus training programme	13	4	
04	Demonstrations	Method Demonstration	3	2	
05	Extension Programmes				
	Extension programmes		23	12	
	Kisan mela		1	0	
	Technology Week		0	1	
	Exposure visit		2	1	
	Exhibition		1	0	
	Soil health camps		-	0

D. Give details of programmes implemented under National Horticultural Mission

S. No.	Programme	Nature of linkage	Funds received if any Rs.	Expenditure during the reporting period in Rs.	Constraints if any
	Meeting	Meeting	-	-	-

E. Nature of linkage with National Fisheries Development Board

S. No.	Programme	Nature of linkage	Funds received if any Rs.	Expenditure during the reporting period in Rs.	Remarks
	Training	Collaborative training	-	-	-

F. Details of linkage with RKVY

S. No.	Programme	Nature of linkage	Funds received if any Rs.	Expenditure during the reporting period in Rs.	Remarks
	Training, lecture deliver, field & diagnostic visit	Members in district level committee	-	-	-

G. Details of linkage with PKVY (Paramparagat Krishi VikasYojana)

S. No.	Programme	Nature of linkage	Funds received if any Rs.	Expenditure during the reporting period in Rs.	Remarks

H. Details of linkage with NFSM

S. No.	Programme	Nature of linkage	Funds received if any Rs.	Expenditure during the reporting period in Rs.	Remarks
1	Training, lecture deliver, field & diagnostic visit	Members in district level committee			

I. Details of linkage with SMAF (Sub-mission on Agroforestry)

S. No.	Programme	Nature of linkage	Funds received if any Rs.	Expenditure during the reporting period in Rs.	Remarks

7. Convergence with other agencies and departments:

Period	Activity details	Place of activity	Officers present
8.02.21	SAC meeting with line Department	KVK, Jamnagar	43
25.01.21	DLMC meeting organized by horticulture department Jamnagar	on ZOOM app.	6
15.04.21	RKVY- DLPC meeting of Jamnagar District	DDO Chamber, Jamnagar	7
20.05.21	FLD input for Kharif crops in different scheme meeting by ZDA(Extension), Rajkot	Google meet	21
5.06.21	ATMA AMC meeting of Jamnagar and Devbhumi Dwarka district	On Zoom app	14
22.06.21	District level meeting of CWWG under crop survey	Google meet	6
24.06.21	NFSM committee Meeting	DDO chamber, Jamnagar	9

8. Innovator Farmer's Meet

Sl.No.	Particulars	Details
	Have you conducted Farm Innovators meet in your district?	Yes/ No
	Brief report in this regard	

9. Farmers Field School (FFS)

S. No	Thematic area	Title of the FFS	Budget proposed in Rs.	Brief report
1	Nil	Nil	Nil	Nil

10.1. Technical Feedback of the farmers about the technologies demonstrated and assessed:

- Demonstrated new variety

- Introduction of newer crop by KVK through different FLD as well as OFT
- Information of any crop diversification get from KVK
- Frequently visit to farmers
- Telephonic information is available 24 hours through scientist mobile
- Farmers reduce cost of production by using *Beauveria bassiana* and other bio-products
- Farmers understood the use of sulphur in oilseed crops specially in mustard through front line demonstrations in different villages
- Farmers understand the need of soil and water conservation and its future consequences in the area.
- Positive response coming from farmers about use of *Trichoderma* as seed treatment and soil application in cumin and groundnut
- Farmers are realizing the need of micronutrients and their deficiency in the different soils of the area
- Farmers are realizing the importance of seed treatment for pest and disease management
- Positive feedback coming from farmers side about the use of *Pseudomonas* in coriander for disease management
- Farmers getting satisfactory results from seed treatment for pest and disease control in different crops

10.2. Technical Feedback from the KVK Scientists (Subject wise) to the research institutions/universities:

Director (ATARI), DEE, Comptroller of University :

- Grant for the contingency for handling different programmes is in sufficient
- Limit of food provision during training and other cost should be increase along with stipend and transportation facility (Approximately Rs. 500 to 1000 per head per training required)
- Timely release of grant for successful and perfect conducting of FLD and OFT
- Required new vehicle for field visit and other extension programme. It is also required minimum two vehicle in KVK due to work load and it is among farmers field
- Contingency grant is in sufficient (It should be minimum 30 lakhs per KVK)
- Provide grant for farm protection wall and other infrastructure facilities

Soil & Water Conservation:

- Farmers are facing the problem of malfunctioning of micro irrigation systems with poor quality irrigation water.
- Problem of soil salinity/ alkalinity is increasing day by day due to inherent salinity of soils and application of poor quality water.
- More research is required for magnetic water softener and effects of softened water on soil after continuous use.

Horticulture:

- Need to be developed nematode & wilt resistant root-stock in pomegranate
- Fertigation schedule should be developed in Datepalm
- Need to be developed value addition methods for Datepalm

Plant Protection:

- Need to be developed more insect and disease resistant varieties under different crops
- Farmers need freshly prepared bio-agents like *Beauveria*, *Metarhizium*, *Trichoderma*, *Pseudomonas*, *Paecilomyces* etc.
- Need to be effective control measures for mealybug control in cotton.
- More emphasis should be given on fruit fly management in different orchards
- Research scientists should focus on discovering best management techniques for mealybug
- Also focus on para-wilt management practices in cotton
- Need to be discover new molecules of nematicides for nematode management
- Should be focus on insecticide resistance management
- Ease availability of bio-pesticides to farmers

Agronomy:

- Need to be developed salinity resistant varieties of crops like groundnut and castor
- Need to be developed high yielding/ salinity tolerant varieties of pulse crops
- Need to be farming with cow based agriculture development for doubling the farmers income

11. Technology Week celebration during 2021: Yes/No, If Yes

Period of observing Technology Week : From to September 20-24, 2021

Online / Offline : Offline

Total number of farmers visited : 520

Total number of agencies involved : 2

Number of demonstrations visited by the farmers within KVK campus: 3

Other Details

Types of Activities	No. of Activities	Number of Farmers	Related crop/livestock technology

15. PERFORMANCE OF INFRASTRUCTURE IN KVK

A. Performance of demonstration units (other than instructional farm)

Sl. No.	Demonstration Units	Year of Establishment	Area	Details of production			Amount (Rs.)		Remark
				Variety	produce	Quantity (No.)	Cost of inputs	Gross income	
1	Nursery Unit	2016	-	-	Planting material	362	-	1680	
2	Kitchen gardening	2021	-	-	Vegetables	296	4000	5920	

B. Performance of instructional farm (Crops) including seed production

Name	Date of	Area	Details of production	Amount (Rs.)	Remarks
------	---------	------	-----------------------	--------------	---------

Of the crop	sowing	(ha)	Variety	Type of Produce	Qty. kg	Cost of inputs	Gross income	
Wheat	26.11.20	2.8	GW-463	Seed	8180	70650	209000	
Castor	24.09.20	1.3	GCH-9	Seed	2306	87100	176670	
Groundnut	20.07.21	4.0	GJG-9	Seed(Breeder) Haulm	2750 4000	320000	413850 16000	
Groundnut	21.07.21	1	GJG-31	Seed(Breeder) Haulm	990 1500	80000	144150 6000	
Groundnut	19.07.21	5	GJG-32	Seed(Breeder) Haulm	4695 5900	400000	704250 23600	
Groundnut	19.07.21	1	GJG-32	Seed(TF) Haulm	780 1000	55000	63000 4000	
Maize	28.10.20	0.05		Green fodder	1490	-	-	
Sorghum	28.10.20	0.05		Green fodder	1460	-	-	
Lucerne	4.11.20	0.05		Green fodder	2530	-	-	
Sorghum	11.02.21	0.5	Gundri	Dry fodder	5000	-	-	
Maize	11.02.21	0.1		Green fodder	2980	-	-	
Sorghum	28.07.21	0.15	Gundri	Green fodder Dry fodder	1770 1000	-	-	
Sorghum	28.07.21	1.5	Gundri	Green fodder	40000		15500	

C. Performance of production Units (bio-agents / bio pesticides/ bio fertilizers etc.)

Sl. No.	Bio Products	Name of the bio-product	Quantity		Amount (Rs.)		No. of Farmers	Remarks
			No.	kg	Cost of inputs	Gross income		
1	Bio Fertilizers	<i>Azotobactor</i>	55		0		55	
2		<i>Rhizobium</i>	85				85	
3		<i>PSB</i>	130				130	
4	Bio-pesticide	<i>Beauveria Bassiana</i>		1713	17130		254	
5		<i>Metarizium</i>		50			50	
6		<i>HNPV</i>	25				25	
7	Bio-fungicide	<i>Trichoderma</i>		250			160	
	Total		295	2013	17130		759	

N.B. *Product was produced by JAU University and selling by KVK the amount is only given for revenue generation

D. Performance of instructional farm (livestock and fisheries production)

Sl. No	Name of the animal / bird / aquatics	Details of production			Amount (Rs.)		Remarks
		Breed	Type of Produce	Qty.	Cost of inputs	Gross income	
1	Cow	Gir	Milk	1449.3 Lit	-	52175	
			FYM	100 qtl	-	20000	
2	Vermi compost	Eiceniafe tida	Vermis culture		-		
			Compost	43.0 Qtl	-	2150	

E. Utilization of hostel facilities

Accommodation available (No. of beds): 25

Months	No. of trainees stayed	Trainee days (days stayed)	Reason for short fall (if any)

November 2021	2	6	
December 2021	45	10	
Total	233	146	

H. Performance of Nutritional Garden at KVK farm

If Nutritional Garden developed at KVK farm/Village Level? Yes/No

If yes,

Nutritional Garden developed at KVK farm

Area under nutritional garden (ha)	Component of Nutritional Garden	No. of species / plants in nutritional garden	No. of farmers visited
0.2	Vegetable crops	Brinjal, Indian bean, cowpea, carrot, coriander, ridge gourd, bottle gourd, fenugreek, radish, palak, okra, cluster bean,	1154
	Fruit crops		
	Others if any		

Nutritional Garden developed at Village Level

No. of Villages covered	Component of Nutritional Garden	No. of species / plants in nutritional garden	No. of farmers covered
3	Vegetable crops	Brinjal, Indian bean, cowpea, carrot, coriander, ridge gourd, bottle gourd, fenugreek, radish, palak, okra, cluster bean	50
	Fruit crops		
	Others if any		

16. FINANCIAL PERFORMANCE

A. Details of KVK Bank accounts

Bank account	Name of the bank	Location	Branch code	Account Name	Account Number	MICR Number	IFSC Number

18. Details of progress in Doubling Farmers Income (DFI) villages adopted by KVKs

Name of the village	Total No. of families surveyed	Key interventions implemented	No. of farmers covered in each intervention	Change in net income (Rs/unit)	
				Before	After
Gadhka	1450	Crop Diversification, new crop & enterprises introduction, value addition, natural farming, bio-fertilizers and bio-pesticides, FLD, OFT & Training, awareness programmes etc	25	69000	250822
Khoja Beraja	390		22	110416	329295
Nani Banugar	285		22	83981	232480
Lothiya	291		22	82426	221459
Chandragadh	315		22	7509	240147
Total	2731		113	83780	254734

19. Details of activities planned under NARI /PKVY / TSP / KKA, etc.

S. No.	Name of the programme	No. of villages adopted	Key activities performed	No. of activities carried out	No. of families covered
1	FLD, Training, KishanGosthi, Awareness Campaigns, Nutri Kit distributed, Field visit, Plantating material distribution,	2	Seed Distribution, awareness training, discussion, planting material distribution, etc.	12	628

20. Details of Progress of ARYA Project

Name of Enterprise	No of Training Conducted	No of Beneficiaries	No of Extension Activities	No of Beneficiaries	No of Unit established	Change in income		No. Of Groups Formed
						Before	After	

21. Details of SAP

S. No.	Types of major Activity conducted- SwachhtaPakhwada, Cleaning, Awareness Workshop, Miccobial based Agricultural Waste Management by Vermicomposting etc.	No. of Programmes conducted	No. of Participants
1	Cleaning, awareness on vermicomposting and wate management	7	319

22. Please include any other important and relevant information which has not been reflected above (write in detail).

22.1 ESTABLISHMENT OF AGRICULTURAL TECHNOLOGY INFORMATION CENTRE (ATIC) (YEAR-2021).

1.	Name of the Scheme	:	Establishment of Agricultural Technology Information Centre (ATIC) B.H. 12572-03
2.	Location of the scheme	:	Krishi Vigyan Kendra, JAU, Jamnagar
3.	Officer-in charge of the scheme	:	Senior Scientist & Head, KVK, JAU, Jamnagar

4.	Objectives	:	➤ Single window system for technology dissemination. ➤ Formulation of FIGs as a process of innovativeness in technology dissemination. ➤ Feedback from users to the research centre
5.	Justification of the scheme	:	➤ The JAU has generated a large number of technologies in different disciplines of agriculture and all allied subjects. ➤ Location specific technology and assessment technologies and demonstration of the technological models is planned.

A. Details of ATIC:

Sr. No.	Name of ATIC	Name of host institute	Name of ATIC manager	Telephone No.			E-mail address

22.2 District Agro-Meteorological Unit (DAMU) Gramin Krishi Mausham Seva (GKMS)

India Meteorological Department (IMD), Ministry of Earth Sciences (MoES), Govt. of India, New Delhi is operating an integrated Agro-Meteorological Advisory Service (AAS) at district level, in India, which represents a small step towards agriculture management in rhythm with weather and

climate variability leading to weather proofing for farm production. Under AAS, needs of farming community was defined through ascertaining information requirement of diverse groups of end-users. The Indian Council of Agricultural Research (ICAR) and India Meteorological Department (IMD) have jointly expanding Agromet network or District level to support sub-district/ Block level advisory service through a network of 660 District Agromet units (DAMUs) in KVKs premises under Gramin Krishi MaushamSewa (GKMS). The target of the project is to provide Agromet services directly to all the farming households.

1. Title of the Project: District Agromet Unit (DAMU) Under GKMS

2. Sanction letter: A.Extn.16/01/2017-AE-I Dt. 02/11/2018

3. Name of Damu, District, ATARI zone and Year

DAMU Name: Krishi Vigyan Kendra, Jamnagar

Name of Blocks: Dhrol, Jamjodhpur, Jamnagar, Jodiya, Kalavad, Lalpur

Year of start of AAS at DAMU: November, 2019

Objectives

- To improvise the district level Agromet Advisory Services (AAS) so as to deliver crop and location specific AAS to farmers at block level.
- To design optimum observatory network for issuance of village level advisories
- To establish District Agromet Units as nodal centre for catering to needs of agriculture services.
- To provide advisory bulletins through last mile connectivity to farmers with personalized agromet advisory services.
- To extend the weather based advisory service to like livestock, grazing of farm feed etc.

4. Name and address with landline and mobile numbers along with STD code (also provide e-mail address) of head of ATARI, Project Coordinator, Head of the Krishi Vigyan Kendra (KVK)

Designation	Name	Address	STD code Telephone no.& Fax	Email-id
Head of ATARI	Dr. Lakhansingh	ATARI, Pune, Maharastra	020-2512665	atari.pune@gmail.com
Head of KVK	Dr. K. P. Baraiya	KVK, Jamnagar	0288-2710165	kvkjamnagar@gmail.com
Project Coordinator (PC)	Dr. K. P. Baraiya	KVK, Jamnagar	0288-2710165	kpbaraiya@gmail.com
SMS	Shree A. V. Savaliya	KVK, Jamnagar	8758180926	ankurv.savaliya@gmail.com
Agromet Observer (AO)	Shree R. B. Pandya	KVK, Jamnagar	7621877811	ramanikpandya@gmail.com

District Agromet Unit in KVK, Jamnagar

The District Agromet Unit is starting at KVK, JAU, Jamnagar since 2nd November 2018 but requirement of SMS and Observer joining at November 2019. Jamnagar is making Agro weather bulletin for all the 6 blocks viz. Dhrol, Jamjodhpur, Jodiya, Kalavad, Jamnagar, Lalpur of the Jamnagar district.

Activity of DAMU at KVK Jamnagar

- Preparation of Agromet advisory bulletin Block and District wise
- Conducting Farmer awareness program (FAP)
- Maintaining Weather data record
- Dissemination of weather bulletin through different social media level

Weather Bulletin

Preparation of weather bulletin on the basis of medium range forecast provided by IMD supported by GFS model for the blockwise weather bulletin. Preparation of advisory is in both Both language (English and Local language) twice in a week on Tuesday and Friday. There are several weather parameters forecast received from IMD i.e. Rainfall, Maximum temperature, Minimum temperature, Relative humidity (maximum and minimum), Cloud cover, Wind speed and direction. The bulletin preparation is for main crops of Jamnagar district i.e. Cotton, Groundnut, Wheat, Pigeon pea, Cumin, Chickpea, Castor, Sesame, Pearl millet etc.

Number of Weather Bulletin prepare from Jan-Dec, 2021

District Name	No. of Bulletins
Jamnagar	105
Block name	
Dhrol	105
Jamjodhpur	105
Jodiya	105
Jamnagar	105
Kalavad	105
Lalpur	105
Total No. of Block wise Weather Bulletin	630

Devbhumi Dwarka District Block name	No. of Bulletins
Kalyanpur	70
Khambhaliya	70
Okhamandal	70
Total No. of Block wise Weather Bulletin	210

Dissemination of weather bulletin.

Individually these bulletins are sending to farmers group by short message service (mKisan portal), and by social media by making farmers WhatsApp groups, Facebook.

Number of farmers

Particular	No. of farmers
Whatsapp Group-19	2904
KVK Facebook page	3090 followers
SMS (mKisan Portal)	70750
KVK Telegram Channel	157 Subscribers

Farmer Awareness Programmes

Climate based farming is drawing farmer near to precision agriculture. So, farmer awareness is very important for cover more number can receive Agro advisories. Farmers can mitigate their crops itself against uneven weather patterns.

22.3 OTHER PROGRAMME CELEBRATED

Scientific Advisory Committee meeting

The 17th SAC meeting of KVK, JAU, Jamnagar was held at Training Hall, KVK, Jamnagar on 8th February, 2021. The meeting was chaired by Dr. V. P. Chovatiya, Hon'ble Vice Chancellor and Director of Research of Junagadh Agricultural University, Junagadh. Dr. H. M. Gajipara, Director of Extension Education,

JAU, Junagadh, Dr. K. D. Mungra, Research Scientist (Millet), JAU, Jamnagar, other officers of line department and Progressive farmers remained present in this meeting. Total 41 members remain present in the ensuring meeting. Dr. K. P. Baraiya, Senior Scientist & Head, presented Annual Progress Report and Action Plan of KVK Jamnagar. Scientists of KVK Jamnagar presented their subject wise report and action plan. Committee members promoted and appreciated their work and given valuable suggestions.

INTERNATIONAL WOMEN DAY

KVK Jamnagar celebrated “International women day” in collaboration with ATMA, FTC Jamnagar and forest department of Jamnagar on 8th March. 2021 at training hall, KVK campus, JAU, Jamnagar. During this programme film show on “the most powerful and success women of India” was shown and try to motivate the farm women. Arranged lecture competition on “role of farm women in agriculture and at home”, they are motivated and awarded with certificate and memento. On this day joint virtual programme telecast by ICAR, New Delhi. After this programme discussion on Women empowerment through income generation activity, roll of farm women in agriculture, drudgery reduction by improved implements. In this programme 72 farm women of Jamnagar and Devbhumi Dwarka district were participated.

WORLD WATER DAY

KVK Jamnagar celebrated “World Water Day” on March 22, 2021 at Singach Village of Lalpur Taluka of Jamnagar in collaboration with the ACT, BIAF and KVK. The programme was organized at farmers field for demonstration visit for soil reclamation, water use efficiency and water harvesting structures available. The farmers were aware about the water conservation, reduction of runoff losses during the rainy season. They are advice to prepare water harvesting structure and well recharging techniques. More emphasis was done on installation of micro irrigation system, its importance and long term benefit with it. They are aware about MIS increase soil utilization, net sown area and ultimately how to save water and maximize the cropping area with limiting water availability. Experiments were shown at the field level on micro irrigation, rain gun, sprinkler system, porous pipes for orchard and crops shown area. They are also advice for “per crop more crop” and how to doubling the farmers income with efficient water usages. This programme was joined by 57 farm women and 56 farmers total 113 beneficiaries

INTERNATIONAL MILK DAY

Krishi Vigyan Kendra, Jamnagar celebrate International milk day through online mode on 1st June, 2021. This programme was celebrated with collaboration with office of the Dy.Dr. Animal Husbandry, Jamnagar and District Cooperative Milk Producers Union Ltd Jamnagar. Smt. A. K. Baraiya has welcomed all participants and handles the programme. In this programme discussion on “Environment, nutrition and economic management with Dairy sector” by Shri. PankajbhaiMadariya Journal managers of DCMPU, Jamnagar. Dr. A. C. Virani given information about Disease management in animal and Improvement of Breed. Lecture on Clean milk production & Daily feed and nutrition management given by Dr. K.P.Baraiya. 41 farmers/farm women participated in this programme. Related slides shared to participants and farmers actively participated in group discussion.

WORLD BEE DAY

Krishi Vigyan Kendra, JAU, Jamnagar celebrate World Honey bee day through online mode on 20.05.2021. Smt. A. K. Baraiya has welcomed all participants and handles the programme. Mr. Darshanbhai, progressive honey bee cultivar has been discussed practical rearing, migration, dangerous points, and tips in rearing of honey bee. Dr. K. P. Baraiya, Senior Scientist & Head has aware farmers about cast and its function, diseases and pest problems in honey bee rearing with their remedies, and different factors affecting in honey bee rearing. Farmers have been discussed queries at the end of the programme. Farmers are also aware about importance of honey bee in crop production, role as pollinator and ayurvedic medicine for human being. This programme was on audio visually by PPT presentation. About 34 farmers and farmwomen were participated this programme.

FERTILIZER APPLICATION AWARENESS PROGRAMME

Fertilizer Application awareness programme organized on 18th June, 2021 by KVK, Jamnagar virtually. 33 farmers participated in this programme. Farmers were aware about balance use of fertilizers,

importance of micronutrients, recycling of farm waste through different methods of composting and its utility, use of bio fertilizer for cost reduction. Farmers are also advice about soil sampling, soil analysis based use of nutrients in soil. They are also emphasis on reduction of chemical fertilizers and health hazardous effect on soil and human beings.

PoshanVatikaMaha Abhiyan & Tree Plantation Programme

KVK, Jamnagar celebrated PoshanVatikaMaha Abhiyan & Tree Plantation programme under the Celebration of National Nutrition Month with the collaboration of IFFCO at Katda Village on 17th September 2021. In this Programme Discussion on Nutri cereals, their product and their role in human health and Importance of Kitchen gardening and 125 vegetable seed kit distributed to all farmers and farm women. Other discussion on Role of tree plantation on sustainable agriculture & rural livelihood and around 150 trees planted, 1000 planting materials of fruit trees distributed to the farmers and farm women for their nutria-garden. In this programme 33 farm women and 75 farmers participated.

Van Mahotsav 14.08.2021

KVK, Jamnagar, Jamnagar Municipal Corporation and Forest Department, Jamnagar jointly organized 72nd Van Mahotshav at Krishi Vigyan Kendra, Junagadh Agricultural University, Jamnagar on 14th August, 2021. In this programme Smt. Binaben Ashokbhai Kothari, Mayor, Commissioner (JMC) and Officers of forest department and KVK were remain present. In this programme farmers were aware importance of tree in life, in pandemic condition and in regular lively hood. On occasion of this celebration 1500 saplings were planted in the ground of KVK. 3000 saplings were distributed to beneficiary farmers during this programme. KVK organized campaign aims to create mass awareness about boundary/bund plantation of farmlands to enhance more income and save environment to overcome the global warming.

TECHNOLOGY WEEK CELEBRATION (20-24.09.2021)

KVK, JAU, Jamnagar and ATMA Jamnagar jointly celebrated technology week during September 20th to 24th, 2021 at KVK, Jamnagar. In which total 520 Farmers/farm women from different blocks were participated and also provided extension literature to each participant. This programme was chaired by Dr. H. M. Gajipara, Director of Extension Education, Junagadh Agriculture University, Junagadh. During this week, day wise different theme were kept for transfer of newer technology to the farmers. Special emphasis given on pink bollworm management rotting of groundnut and cotton due to heavy rain. They also encourage for organic farming as well as reduction of cost of cultivation with improved technologies. Special emphases were given on value addition, Kitchen gardening, Women and child care and Nursery Management for more income generation. Many demonstration and video shows were arranged during this programme.

MAHILA KISAN DIVAS

Krishi Vigyan Kendra, JAU, Jamnagar Organized Kishangoshthi on Mahila Kisan Divas on 15th October, 2021 at Lothiya Village. In this programme, discussion on "Ways for women empowerment" by Dr. K. P. Baraiya and "Different types of Nutri cereals and their benefits in our health" by Prof. A K. Baraiya. 55 Farm women participated in this programme. We also arranged group discussion on kitchen gardening and create awareness about nutrient and health.

WORLD FOOD DAY

KVK, JAU, Jamnagar and BIAF jointly celebrated "World Food Day" on January 16, 2021 at Singach. In which 52 farmwomen were engaged for celebration of this programme. They aware about the hungry index of the world. They are aware about the quality and nutritive food preparation in daily diet. Special emphasis was given for do not spoilage the food, prepare required quantity every day. Specific technique also discussed about the safely storage and value addition of the food produced by the farmers. Farm women aware about the IPM technologies for kitchen gardening and organic cultivation of the crops in the field. Thus, how to reduce the residual effect from the food, cook chemical less food and improve health. Special emphases were given on value addition of agricultural produce for more income generation.

WORLD SOIL HEALTH DAY

Krishi Vigyan Kendra, Junagadh Agricultural University, Jamnagar celebrate world soil health day on December 5, 2021 in collaboration with M. P. Shah Commerce College, Jamnagar. The students of farmers family aware about soil testing, importance of nutrition in the plant growth, soil reclamation, management of nutrition balance in soil, microorganisms for bio fertilizers, etc. covered in this discussion. soil sampling and soil testing demonstrations, plant nutrient deficiency diagnostics and advisories for balanced nutrition of crops and field visits were organized on this occasion. Total 183 students take part in this programme.

AGRICULTURE EXHIBITION

KVK Jamnagar participant in the exhibition held on occasion good governance day celebration at Jamnagar. Department of Agriculture, Farmers Welfare and Cooperation along with district administration with the help of Krishi Vigyan Kendra, Junagadh Agricultural University, Jamnagar organized good governance day on occasion of birthday of Hon'ble Ex. Prime Minister of India, Shri Atal Bihari Vajpayeeji at Jamnagar. With this celebration, also arrange exhibition cum awareness programme on natural farming in which KVK, JAU, Jamnagar participated. Different non chemical farming techniques with the natural farming process was promoted in this exhibition and function. Hon'ble Agriculture minister, Shri Raghavaji Patel, Vice chancellor of all SAUs of Gujarat, Dr. N. K. Gontia(JAU), Dr. K. B. Kathirya(AAU), Dr. R. M. Chauhan(SDAU), Dr. A. M. Kelawala(Kamdhenu) and Shri. Dharamshi bhai Chaniyara, President of District Panchayat, Jamnagar were visited KVK exhibition. Approximately, 1787 farmers and farmwomen were visited KVK exhibition and they get information about natural farming, and newer technology for the agriculture.

23	Senior Scientist & Head, Krishi Vigyan Kendra, Junagadh Agricultural University, Jamnagar	Member Secretary
24	Smt. Anjanaben K. Baraiya, Scientist (Home Science), KVK, JAU, Jamnagar	Invitee
25	Shri V. L. Kikani, Scientist (Crop Production), KVK, JAU, Jamnagar	Invitee
26	Shri Vitthalbhai Sakhiya, Member of Extension Education Council, JAU, Junagadh	Invitee
27	Dr. H. C. Chhodvadiya, Associate Extension Educationist, DEE Office, JAU, Junagadh	Invitee
28	Dr. V. J. Savaliya, Training Associate, DEE Office, JAU, Junagadh	Invitee
29	Dr. D. L. Kadvani, Research Scientist (Plant Pathology), Pearl Millet Research Station, JAU, Jamnagar	Invitee
30	Dr. K. K. Dhedhi, Associate Research Scientist, Pearl Millet Research Station, JAU, Jamnagar	Invitee
31	Dr. H. M. Bhuva, Associate Research Scientist, Pearl Millet Research Station, JAU, Jamnagar	Invitee
32	Dr. G. M. Parmar, Associate Research Scientist, Pearl Millet Research Station, JAU, Jamnagar	Invitee
33	Dr. S. K. Parmar, Assistant Research Scientist, Pearl Millet Research Station, JAU, Jamnagar	Invitee
34	Shri J. S. Sorathiya, Assistant Research Scientist, Pearl Millet Research Station, JAU, Jamnagar	Invitee
35	Shri Subhash N. Patel, Deputy Project Director, ATMA, JAU, Jamnagar	Invitee
36	Shri Jignesh B. Patel, Deputy Project Director, ATMA, JAU, Jamnagar	Invitee
37	Shri Kishorbhai Laljibhai Pedhadiya, Progressive Farmer, At. Sumari, Ta. & Dist. Jamnagar	Invitee
38	Mr. N. D. Ambaliya, Agri. Officer, KVK, Jamnagar	Invitee
39	Mr. H. S. Godhani, Agri. Officer, KVK, Jamnagar	Invitee
40	Mr. A. V. Savaliya, SMS, (Agromet), DAMU, KVK, Jamnagar	Invitee
41	Mr. R. B. Pandya, Agromet Observer, DAMU, KVK, Jamnagar	Invitee

Dr. K. D. Mungara, Research Scientist (Pearl Millet) Pearl millet Research Station, Junagadh Agricultural University, Jamnagar welcomed the dignitaries and all the members of the Scientific Advisory Committee and highlighted the brief achievements of the Centre.

Dr. V. P. Chovatiya, Hon'ble Vice-Chancellor, JAU, Junagadh and Chairman of Scientific Advisory Committee chaired the meeting and grant permission to proceed the meeting.

Recently developed Invocation song of Junagadh Agricultural University played. Dignitaries on dais welcomed by presenting flower. After garlanding the guests and dignitaries on the dais, and inaugurating the meeting by lightening a lamp with prayer.

Dr. K. P. Baraiya, Senior Scientist & Head, Krishi Vigyan Kendra, JAU, Jamnagar presented action taken report of the minutes of 16th SAC meeting, progress report (January to December-2020) and Action Plan (January to December- 2021) in brief. Dr. K. P. Baraiya, Senior Scientist & Head, Krishi Vigyan Kendra, JAU, Jamnagar presented progress report and Action Plan for discipline

of Plant Protection. Smt. A. K. Baraiya, Scientist (Home Science), presented progress report & Action Plan for discipline of home science, Animal Husbandry, Horticulture & ATIC Scheme. Shri V. L. Kikani, Scientist (Crop production), presented progress report & Action Plan for discipline of crop production, Agri. Engineering and Soil Health Fertility Management, NMOOP & NFSM and fisheries. The annual report and action plan both approved by the members with following suggestions.

Suggestions made by committee members during presentation:

1.	Dr. V. P. Chovatiya, Hon'ble Vice Chancellor and Director of Research, Junagadh Agricultural University, Junagadh & Chairman of the SAC suggested following points. ➤ Arrange FLD on latest released variety of pearl millet. ➤ Take data of critical observations hectare base in OFT ➤ Data should record lactation basis (milk yield) instead of 5 months in FLD on bypass fat in animal. ➤ Arrange training on weed management during third quarter. ➤ Record maximum farmers from every taluka and village level for benefit of DAMU project. ➤ Accountability of FLD's ➤ Check the usefulness and review of advisory to farmers under DAMU project.
2.	Dr. H. M. Gajipara, Director of Extension Education, JAU, Junagadh advised that ➤ Analyze maximum soil and water sample at KVK Soil Testing Laboratory. ➤ Record impact assessment of training programs. ➤ Maintain register for FLD farmers with observation data ➤ Arrange demonstration on implements ➤ Upload all extension programs on ICAR portal ➤ Write down the feedback of farmers under FLD
3.	Vitthalbhai Sakhiya, Member of Extension Education Council, JAU, Junagadh suggested to work cooperatively with all departments for farmers.
4.	Shri Dhanpal Sir, ACF, Jamnagar, Devbhumi Dwarka and Porbandar suggested to linkage with forestry department with MOU for different extension programs and work together.

Dr. H. M. Gajipara, Director of Extension Education, JAU, Junagadh appreciated work done by all scientist and presentation. Successful became with collaborative work. He advice to record of success stories of different farmers success and highlight them. He also emphasis on farmers for integrated farming system (IFS) to minimize input and maximize income of farmers. His emphasis on diagnostic crop problem and solve them maximum. He has advice to aware and promote farmers for registration of FPO (Farmers Producer Organization).

After above suggestions from the house Dr. V. P. Chovatiya, Hon'ble Vice Chancellor, Junagadh Agricultural University, Junagadh, delivered the chairmen's remarks. He promote for FPO for specific groups like Quinoa, organic farming etc and aware them for value addition, and marketing. In current year, cumin suffers from heavy attack of aphid. He also observe black wheat reported aphid population instead recommended wheat variety found resistant. Kind emphasis on restrict the early sown cotton for disturbance of pink bollworm life cycle. He appreciate work done

on rural craft and bakery product for employment generation in rural youth. He also appreciate the work done on kitchen gardening for nutritional security. Sir, remarked on nominate area specific variety under PPV&FRA. He strike a note on accountability of our work for farmers. He suggested delivering inventory on SMS for changing climate well in advance for better curative measures. At last, he appreciated for overall work done by KVK.

The meeting ended with the vote of thanks by Dr. K. P. Baraiya, Senior Scientist & Head, Krishi Vigyan Kendra, JAU, Jamnagar.

Member Secretary, SAC &
Senior Scientist & Head
KVK, JAU, Jamnagar

Director of Extension Education,
Junagadh Agricultural University
Junagadh

Note: Proceeding for approval please.

Chairman, SAC
KVK, JAU, Jamnagar & Vice Chancellor
Junagadh Agricultural University, Junagadh
